EPISCOPAL SERVICE.—Rev. H. C. Harris preaches to-day at the Masonic Hall.

Gen. Orl. Gen. Gillem and Col. Martin Keary, were in town Friday afternoon—the two former en route to Mobile and the latter for Columbus.

We have received a catalogue of the teachers and students of Summerville Institute for the scholastic year for 1867, which shows that Professor Castleberry is an efficient and influence is enlarging every year. The present catalogue contains a longer list of names than has adorned any former announcement. The location ensures health, and the standard of teaching being kept up fully, to every necessity, the institution is bound to flourish. The fifteenth annual term begins on the 7th of Octobernext. We would advise those who wish to enter to apply early and secure a room.

DIARRHŒA.—Why will our friends permit the various members of their family to suffer with Diarrhœa, Nausea and Vomiting, Cholera Morbus, Cramps, Cholera, Infantum and the Bowel Complaint among children, when a pleasant and effectual scientific preparation can be had that will give immediate relief? No family should be without a bottle. Thousands of bottles were sold during the cholera season last summer, in Memphis, with the happiest results. Call and get Dr. Keasby & Co's Red Diarrhœa Remedy, which we cheerfully recommend.

The speech of James M. Langston, the colored orator, delivered at the African church in this place on Wednesday night, is well spoken of on all sides. He eschewed politics entirely, confining his remarks to education and the improvement of his race. The necessity of education of the masses to secure it were dwelt on at length; industry, honesty and economy would alone, he argued, secure intelligence, prosperity and happiness. By dint of industry they would acquire property and not by a division of lands for there would be no distribution of property in the South to make the rich poor and the poor rich. He advised them to curtail the use of luxuries and devote more of their means to education. The advice was well received and we hope will be productive of much good.

In answer to enquiries, we are requested by the law firm of Sharkey & Ford, to state that Judge Sharkey, of that firm, will not, most or all of his time, at the firm's office in Meridian, during the sitting of the Bankrupt Court; and that the firm are prepared to transact any business connected with proceedings in Bankruptcy.

F. T. Sanford is in pretty again. Having gone out of the grocery business for a time he now deals in doors, sash and blinds, which the public can have at astonishingly low figures. See his card.

Ella Walla, a lewd woman, whom we stated in our last issue, took an over-dose of morphine, died Thursday afternoon, and was buried Friday morning. Before dying, she stated she was attending physician, that her object in taking the alkaloid, was to get rid of a life which was a curse to her. She is about 27 years old of prepossessing appearance, a woman of good intelligence and very respectably connected. A gentleman acquainted with the family in her better days, says Ella was born in Newton County, in this State, and came to Mobile with her parents at a very early age. She was away from her sister in Mobile in 1862, when her career of crime commenced; married a Federal officer named Walla about the close of the war, who lived only a few months. A year ago she came to Meridian to procure the services of a lawyer to look after an interest in her father's estate near Hickory.—And here ended strangers—a stoner with nowhere to go.

Hating to live and dreading to die,
Selling her soul to the highest bidder;

she takes poison to relieve a fiend, and dies in terrible agony—a curse to herself, a friend to drop a tear over, or Little Rock clamps from her bones. Music as our artist and readers of these unfortunate desires to shame, the heart to heal that still may beat overmuch a death and open a hope that the lost Pet's may attain something of their early purity when they put away the earth's tenement.

Ella has a sister living at Deer Park above Mobile, and a brother in a responsible position on the Mobile and Ohio Railroad.

An Act to Incorporate the Meridian, Mississippi, Manufacturing Company.

SECTION 1. Be it enacted by the Legislature of the State of Mississippi, That A. Ayres, Harvey Ayres, Jr., Jno. Ayres, Jno. SEMI-WEEKLY GAZETTE

Difference in the Sizes of Feet.—The New York Hide and Leather Journal notices a few of the differences in the shape of the pedal extremities of people in various sections of the country.

Shoes made for one locality are not adapted for all. For instance, a broad shoe, worn at the South, is best calculated for the Eastern trade, is shrivel at the meeting with but little favor. Rhode Island stands the smallest foot in the Union, and the Southern States grow larger as we progress Southward, terminating with Virginia, and the foot shorter and more plump. Harvley, of the Northern States, a well-grown man wore less than No. 9, running up in the scale of size to No. 11; but at the South, many a full sized man wears fours and fives and seldom over nines.

The ladies of the South, says the Charleston Courier, has confessedly always had the smallest and prettiest feet of any race in the world.

The officers of the Austrian sloop of war Elizabeth, now lying anchored off New Orleans, think that the life of the European Maximilian could have been justly saved by the United States authorities. They say that the American Consul at Vera Cruz received official information of the execution of the Emperor two days before the Austrian Consul did!

Francis Joseph, the Emperor of Austria, appealed to Juarez to spare the life of Maximilian, not because he was an Emperor and a Prince, but because he was his brother; he appealed to the bloodthirsty, and treacherous Indian in the name of Humanity and the ties of consanguinity.

A most desperate murder was perpetrated on the corner of Poydras and Tchoupitoulas streets, about one o'clock this morning. A woman named Lottie Sherwood, shot a man named [illegible] at the corner of the above streets, and [illegible] the corner of Poydras and [illegible] streets, [illegible] the murderess. She was promptly taken into custody, conveyed to the station, and locked up. The body of the deceased was also conveyed to the station house. The woman strenuously denied firing the fatal shot, but the last words of Wilson were as he fell, "Lottie shot me."—Memphis Bulletin 9th.

NOTICE TO MOTHERS.

DR. SEABROOK'S

Infant Soothing Syrup.

We have, by purchase of the original receipt, become Sole Proprietors of this Celebrated Medicine. We ask you to give it a trial, with the assurance that you will in future, when your children's nourishment and sanitary aids, such as Bateman's Drops, Godfrey's Cordial, Dewee's Mixture, &c., combinations of a past and antiprogressive age, when it was thought that the more disgusting the mixture the better the medicine.

Use in the future only SEABROOK'S, a combination, quite up with the advancement of the age. Pleasant to take, harmless in its action, efficient and reliable in all cases. Invaluable in the following diseases:

SUMMER COMPLAINT, IRREGULARITIES OF THE BOWELS, FLOOD'YNESS, TEETHING, &c.

Gives health to the child and rest to the mother.

We could furnish any quantity of certificates bearing evidence of its value, but prefer to refer that our readers should stand on its own merits, which it will do upon trial.

PURIFY YOUR BLOOD.

HURLEY'S SARSAPARILLA.

Of all the remedies that have been discovered during the present age for the diseases of that flesh is heir to, none equal this wonderful preparation. Only ten years have elapsed since the discoverer—who spent a decade in testing experiments, and perfecting it—first introduced it to the public, and it is already recognized by the most eminent physicians in all parts of the country to be the most surprising and effective remedy, for certain diseases, with which they have knowledge.

All other compounds or syrups of this root have hitherto failed to command the sanction of the faculty, because, on being tested, they have been found to contain noxious ingredients, which neutralize the good effects of this Sarsaparilla, and oftentimes leave the health of the patient: It is not so with Hurley's preparation. This is the pure and genuine extract of the root, and will, on trial, be found to effect a certain and perfect cure of the following complaints and diseases:

Affections of the Bones, Habitual Costiveness, Debility, Diseases of the Kidneys, Dyspepsia, Erysipelas, Fever's Irregularities, Fistula, all Skin Diseases, Liver, Complaint, Inflammation, Piles, Pimples, Disorders, Syphilis, Scrofula, or King's Evil.

Hurley's Ague Tonic,

PERFECTLY RELIABLE.

The only remedy for Chills and Fever or Ague and Fever that is or can be depended upon is Hurley's Ague Tonic. Those who have tried the same cured by using it who had tried the usual remedies without benefit, but in no case has it failed to effect a cure. All who have used it cheerfully tell their afflicted friends of it as a sure and certain cure for chills and fever. Any one suffering from the chills and fever, or their own interest by calling to the drug store and buying a bottle. It is pleasant to take and compared with others, and will be certain to cure all cases of fever and ague or chills and fever. Need use it to the proprietors.

Boys, under the age of fourteen years, will be admitted the first session, and probably for the year.

In making this announcement, the Trustees beg leave to state that they desire making this a permanent school, and one of the first order—and to this end, have secured the services of teachers of high standing and many years' experience, whose success hitherto, in their opinion, furnishes sufficient guarantee to all who may repose confidence in them, of the thorough and faithful manner in which their children will be taught. To test the merits of this school, therefore, they ask only a liberal patronage and a fair trial.

PRICE OF SUBSCRIPTION.

Semi-Weekly, (in advance) per annum	$5 00
" " six months	3 00
Weekly, " per annum	2 00

Three dollars will be charged for the Weekly unless paid for strictly in advance.

Encouraged by the liberal patronage extended the Gazette, and with a view to increase its circulation, we offer the following liberal inducements to clubs:

We will send six copies of the Weekly Gazette one year for $10.00.

Six copies of the Weekly six months $5.00.

Five copies of Semi-Weekly one year $20.00.

Five copies of Semi-Weekly six months $10.00.

Senator Wilson on Confiscation.

"Mack," of the Cincinnati Commercial writes:

Mr. Wilson comes back fully convinced, so he tells me in conversation, that confiscation would be a ruinous policy for both sections of the country, and that those who are preaching that doctrine to the negroes of the South now are doing inexcusable mischief to the country and to the Republican party. He says if the negroes want land they must work for it; that it is easier for a negro in the South, at the present time, to earn five acres of land than for a white man in Massachusetts to earn one; that land is cheap and labor is plenty, and a man who, under the circumstances, is not able to earn a farm, is not fit to own one. He himself, at the age of twenty-one, worked on a farm for six dollars a month, when six dollars wouldn't buy as much land in Massachusetts as one dollar will now buy in the South. He believes the Southern people are disposed to treat the negroes well, and will educate them, and pay them, and enable them to take care of themselves. This much, coming from a man who has done more than any other man—at any rate quite as much—to shape the policy of the Republican party since its organization, and to whose practical common sense, as opposed to Sumner's political Quixotism, the party owes much of its success, is quite significant.

Belshazzar in Paris.

Under this title the New York Tribune gives a graphic picture of Louis Napoleon when distributing the medals at the Exposition. Seventy-one thousand people were assembled, princes, ministers, and generals stood around, and brilliantly arrayed ladies displayed their rich laces and flashing diamonds. Twelve hundred musicians filled the vast edifice with the magic of music. High above all, on a throne of state, sat the successful hero of the *coup d'etat*, his Empress in silks and jewels by his side. The Tribune proceeds:

When Mr. Hugos, the inventor of the Printing Telegraph, was called up to receive his prize, the Emperor took his hand, making him an exception to all the other recipients of medals. Mr. Hughes, as he touched the Emperor's finger, slipped into the august palm of his sovereign Highness a little message received by the cable and printed by the machine for which he was thus being decorated. It contained these words: "Maximilian is shot. His last words were 'Carlotta!'" His Royal Serenity read the telegram and immediately gave evidence of a fearful agitation. His cheek blanched, his hands trembled, and the diamonds on the Imperial garter quivered so in the admiring multitude. What the Emperor thought is, of course, not to be exactly known. But we may conjecture that he heard over all the shouts and music, above the booming of guns and the salvos of artillery, the signal shot that was death to his insane ambition as to his deluded dupe, the signal cry as of a woman—young, beautiful and good—answering to the last cry of her young husband—"Poor Carlotta!" "Poor Maximilian!"

Where, in all his tumult of rejoicing, this whirl of splendor, this pomp of luxury, were the victims of his crafty and wicked lust of power. For the blood that drags the bodies of his dead down about with him. Wherever he goes that pale face shall look at him as from out the cell where, in madness and utter desolation, she is to drag out the remnant of life. When he looks into the face, still comely, of that wife of his, he shall see, not her eyes, but another's frill of reproach too silent to bear. He shall live; but, hard heart, dull conscience, low mind that he has—the heart shall feel and the conscience shall prick, and the mind shall know that these victims are with him to the end. That shot he shall forever hear, and that cry. His judgment day is come, and all the pomp and splendor that he can gather about him shall not avail to hide him from himself.

Fake Convention Country.—The following extract is from a private letter to this office, dated July 2nd.

"Six weeks ago I thought the prospects of a Convention Candidate were gloomy, from the fact that nearly every man I met was opposed to such a policy. Since that time there has been a considerable change in public sentiments, and I am confident the county will go for a Convention."

Speedy Reconstruction our Best Policy.

What the South needs more than anything else, is peace. Political commotion is almost as bad for us in our present condition, as the actual war which has brought ruin to all our important interests. To recuperate we must have quiet. When that quiet is attained we must work with energy to repair our shattered fortunes. Our situation is bad enough, but we want to make the best of it. We have accepted it, such as it is. We could not have done otherwise. Now we have to work our way out of its darkness and trouble by regular, determined and upright steps into the light. But the way is rugged, and we have all that we can do, if we give our best efforts solely to the task of reconstructing our overthrown prosperity. Everything that detracts us from the earnest and patient performance of this duty, every stumbling block of issues dead, dying or useless, should be resolutely and persistently shunned. We have no time for weeping over what is irrevocably gone. There is no sense in attempting to restore much that we once cherished. The fiat of destiny has fixed the fact—We must do what we can with what is left, in the opportunity that is vouchsafed us, without wasting our breath in asking for what we can never obtain.

Congress has imposed upon us a government, and prescribed the conditions on which we may have restored a representation in the legislature of the country. To these conditions, whether just or unjust, imposed in a spirit of kindness or of its opposite, we are bound to submit. If they are not accepted, there is no security that the next terms offered may not be harder to yield to. To comply with the requirements of Congress now, will settle one chief cause of disquiet, and, we believe, ensure the admission of our representatives into that body. Then a sense of security will become apparent throughout the South, and capital and immigration will flow to our aid. Now, everything is uncertain about the administration of law. The rule of military power is not favorable to commerce or other pursuits where capital and credit must be used. We can change all this, and the sooner it is done, and the better and more cheerful the spirit in which it is done, the quicker will we achieve the material recuperation.

Talk will not help us in this matter. Doing nothing would be our ruin. We don't call on our citizens to work themselves up to fever heat in political discussion, but to act, by a speedy acceptance and due registration, to vote for a State Convention and everything else made a condition in the "reconstruction bill" for our restoration to State rights. However bitter the pill may be, the wise man is swallowing it quietly—further ruin in rejecting it. The longer the list of the registered voters of Louisiana, the greater the certainty of our admission to Congress. With the settlement of the vexed question of reconstruct on we can have the peace we need.—New Orleans Crescent.

The London Times decides Mr. Greeley's case as follows:

"Mr Horace Greeley, who, it is said, has been censured by his party for advocating the release of Mr. Jefferson Davis and giving bail for his appearance, will be thought by the world to be no defense. His conduct is alike creditable to his humanity and his political judgment. He has taken the lead in showing generosity to a fallen opponent, and by so doing he may do much to heal the feud between North and South than could have been done by a score of Republican cat ons".

A most significant and striking circumstance is mentioned in our London telegraphic columns—the Russian Emperor proposes that Russia, France and the United States shall interfere in behalf of Ireland. This will prove exciting to John Bull, and is indicative of what was the subject of communication between Louis Napoleon and Alexander, while the latter was at Paris.

Capt. E. J. Martin, who killed Mr. E. G. Westmoreland, acting British Consul at Brunswick, Georgia, is a nephew of General Edward Johnson, of Virginia, on whose staff he served during the war.

Mr. Westmoreland and the Captain were both seeking the hand of a daughter of Col. C. L. Schatler, of Brunswick,—a young lady of considerable personal charms and high intellectual ability, and to whom Mr. Westmoreland was married at eleven o'clock on the morning of the day which witnessed the death of her husband. They were to have visited Savannah on their bridal tour.

Capt. Martin is a rice planter, owning quite an extensive plantation on the Altamaha river.

Mr. Westmoreland was quite extensively engaged in the lumber business at Brunswick, and was running several saw mills in conjunction with Gen. Gordon.

Two of Sarratt's counsel have made a violent attack upon the Judge in the case because his ruling did not suit them. We seem in a fair way to get all to do as we please and make everybody else do as we please, too. "One man is as good as another, and often a great deal better."

The St. Louis Democrat says it is time to have it understood that the Indians can no longer be protected in living by hunting the buffalo. Civilization must have the plains for other uses. The Indians must be required to locate upon reservations of reasonable extent where they can support themselves by agriculture. The government may as well face this necessity first as last.

At this office. Petitions in Bankruptcy, with the accompanying Schedules.

The Senate had hardly been organized when Sumner asked leave to bring in a bill providing that negroes shall have the right to vote in every State at all elections for members of Congress; for Presidential elections; for Representatives and for Senators. Some Republicans opposed the proposition on the ground that Congress has no right to regulate the franchise in the represented States. Sumner's bill ought to go through. The freedman should have the same rights and privileges North, that Congress has bestowed upon him here.

The trial of James B. Simpson, for the killing of J. J. Jones, keeper of the Goodman Turnpike, was concluded at Goodman on the 11th, and resulted in the acquisal being bound over to the next term of the Circuit Court of Attala county, in the sum of one thousand dollars.

The theatre Comique, at St. Louis, was burned on Saturday morning last. Loss $150,000.

Copiah County has sent a deputation out to Honduras to secure lands. If Copiah had sent a deputation to Europe to secure enough emigrants to make the county independent of the freedmen in labor and votes, she would have been acting wisely. People who are moving to the little defenceless colony of Honduras will live to regret it.

Gen. Sterling Price has been sued at St. Louis by Brinkley Hornsby for damages sustained by him in the summer of 1861, by reason of being imprisoned for twenty days by the soldiers under Price. Sheriff McNeil has received from the Johnson county Circuit Court an order of attachment against Price and others, authorizing him to seize their goods, chattels, &c., to the amount of $50,000.

The New York Tribune says the action of our State Conventions on suffrage or anything else, need not be final or irreversible. It adds:

Whenever the Southern States are restored to the Union, they will become subject not only to the Constitution of the United States. Nothing in that Constitution deprives the several States of the control over suffrage within their limits which they have heretofore enjoyed. If the Constitution they may now adopt fail in that or any other respect, to work well, it may be changed.

A Federal soldier at Natchez on the 4th of July, full of bad whiskey and the glories of the day, assaulted a colored drayman who was quietly purchasing his avocation on Silver street—striking him a severe blow on the head with a brick, endeavoring to cut him with a razor, and otherwise abusing him. The drayman knocked down his assailant and kicked him; also, it is said, inflicting a slight wound upon him with a knife. The drayman gave bail for his appearance before the Mayor for the purpose of having the case investigated.

The ground upon which the Kentucky delegation to Congress has been denied admission, is that in the several Districts, voters were overawed and prevented from exercising the elective privilege. Other States may profit by this example. Every man must be permitted to vote, and cast his ballot according to his own judgment. To overawe or practice any fraud upon a voter, by taking advantage of his ignorance, will undo all the work we may have done.

Committees to investigate the assassination, and the treatment of prisoners, have commenced their work at Washington.

The steamer Red Gauntlet, cleared from Mobile on Friday, with 109 emigrants for Brazil.

The Great Clock at London has a pendulum weighing between six and seven hundred pounds. It is a good days work for a man to wind the clock up, both going and striking parts.

The Meridian Gazette, has private intelligence that "the cholera is on the increase" in this city! We are happy to inform our cotemporaries of the Gazette, that their information is by no means accurate. The cholera is not on the increase. We have had but few cases of cholera, and we believe, that in every instance, they can be traced to imprudence in diet.—Vicksburg Times.

The City Council and people of Aberdeen are seeking every effort to have the branch road from the Mobile & Ohio to Aberdeen completed.

The New Military Bill—Our Duty.

Even a way-faring man cannot now err in the construction of the military bills. They are made so plain that we shall make no mistakes hereafter.—Severe as the law was before, if is more so now. The burden is heavier than ever. The softening of the unnecessarily harsh features of the original bills, which some looked for, was prevented by the opposition to Conventions which appears in the South, the views of the Attorney-General, and a feeble fire that is kept up continually by a little faction in the North styling themselves Democrats, who are without organization or an acknowledged leader, and totally unable to render us any service whatever. The military commanders have unlimited power, and are almost irresponsible. All authority has been taken out of the President's hands, and Gen. Grant made a depository of what little appeal authority Congress deems fit to tolerate. The Boards of Registrars have immense power; they have full control over elections, and a stroke of their pen enfranchises or disfranchises, and without regard to justice or the law, if the board should be partisan. Civil officers appointed or elected hereafter have to qualify by taking the iron-clad oath, thus transferring, by degrees, the power of the States to the hands of those who have a claim to loyalty, which but few in the South can honestly establish. We have thus summed up the last bill of Congress to show that with each succeeding session our terms grow harsher. The reconstruction ardor of a few has been slightly affected by the act recently passed, but there is no appeal from it, and we must labor on without grumbling. Reconstruction alone will take us from beneath the present cloudy political skies. Congress is supreme in the Government, and will continue so while the ten Southern States remain a bone for Congressional contention. Speedy restoration is our only salvation. Every civil organization will be set aside, if necessary, to secure the execution of the will of Congress. Therefore, to quote from the Crescent, considerations of expediency no less than of duty demand that we should submit, with dignity and fortitude, to the requirements of the conquering power, whenever those requirements are plain and the ability of that power to enforce them is unquestionable. Having done this, let us calmly, and hopefully if possible, await the issue. The conquering power may be dissolved by internal corrosion and friction, but no exterior resistance which we can make can dissolve it, but would rather tend, perhaps, to give it greater compactness. As long as the military may conpicicitly carry out the will of Congress, and as long as that body has the support of the Northern people, we cannot be in doubt as to what authority wields the power of conquest over the South. It is for the people of the conquering nation to take the initiative in relieving us from political slavery, as a necessary step in establishing guarantees of constitutional liberty for the country. It is for us, in the exercise of the highest practical wisdom, to make the most of things as we find them, and not to fall into impotent frenzy or maudlin despair because they will not be as we would have them. Let us beware of impracticables. We are shattered enough already; let us not shiver our fortunes utterly by rushing upon impossibilities.

Lieu'. John C. Braine, late of the Confederate Navy, is still confined in the penitentiary at Brooklyn, New York. He was arrested for piracy and murder, in connection with his capture of the steamer Chesapeake; the false pretence, assigned at the time of his arrest, being that he held no commission or appointment from the Confederate Government, at the time of his capture. We suppose that the same game is to be played with Braine, that was played with Mr. Davis.

Col. Dimon, the military chief of police at Mobile, has ordered the disfranchisement of the negro military companies organized there. The orders is to be strictly enforced.

THE CATERPILLAR.—The genuine army worm has appeared and begun its ravages in Concordia parish, La., and Adams County, at the opposite side of the river, in Mississippi.

The machinery for a factory to be located near Tuscaloosa, on the line of the Meridian and Chattanooga Railroad, has reached Tuscaloosa.

Gen. Frank C. Armstrong has resigned the Presidency of the Southern Asylum Land Company, and accepted the position of supervising Agent.

Registration in Winston County, stood as follows on the 9th inst.: Whites 583; blacks 263. Total 846.

The Necessity of Organization.

The momentous consequences, that must inevitably flow from the rejection of the present plan of pacification, tendered by Congress, prompts the Clarion, acting upon the advice of numerous sincere and discreet friends, to urge the advocates of Reconstruction to organize, in order to carry the State, for a Convention beyond the possibility of a failure. Here are its suggestions which we heartily endorse. As the people work is necessary to secure the State:

1. A more perfect organization throughout the State, embracing a Central Executive Committee from the State at large, with branch committees in every county.

2. Through co-operation by correspondence and otherwise, and the circulation of tracts and documents containing the best arguments, to be spread broadcast, so that every household in the State shall be supplied.

3. Systematic public addresses in every precinct in each county, by able, candid and earnest speakers, who will explain to the voters of all classes, the legislation of Congress, the necessity of accepting the terms offered, and the inevitable consequences of refusing to embrace the present opportunity to reconstruct our State government preparatory to a restoration to the Union.

4. The blacks being voters by the laws of the Government, special efforts should be made to inform them correctly of the policy of the government in the matter of Reconstruction, how to vote in order this object, and of their rights, duties and obligations as newly made citizens. This can be done by addressing them in separate assemblies, or otherwise as may be deemed best by the friends of Reconstruction in the several localities. Among the negroes can be found many who comprehend the questions involved, and it will be well, when practicable to enlist them in the work of instructing their race upon these subjects. But while such measures as they are, to political management, it will be necessary for the details to be arranged by those who better informed. It will not do for the weight of this large mass to be thrown by blind chance into the scales at the coming election, or short all to be wielded by designing men, contrary to the policy of the government, and injuriously to the best interests of the South. The defeat of the Convention by such a device would almost produce a temporary respite for a few months, at the rest of the loss of the suffrage privilege, and perhaps the property of the hitherto governing race.

5. We advise that these efforts be made on the basis of reconstruction alone, without reference to past, present or future political differences.

These suggestions if adopted, will call quire a small expenditure of money—not much compared to the consequences at stake, and considerable effort. To this the rest of our limited means and poor ability, we are willing to contribute. Friends and countrymen of Mississippians! The work of Union and peace—you who really desire the restoration of prosperity and would escape impending calamities, the end of which, if brought upon us, no human foresight can discover in the dark future, what is your response? What say our brethren of the Reconstruction press?

Mexican Affairs in Paris.

A strange sight meets Quarterly gaze for the convert of the Columbian Exposition. Mexico is the topic of conversations and breakings up it has long since lost all traces of conventional appearance. Once it may have been, and probably was, a stately building of great extent and imposing exterior. Now nothing remains but a row of disjointed houses of eccentric architectural development. In one of these Maximilian and his generals are confined. They have been relieved from *communalist*, the solitary confinement and double guard, which in his country usually precede execution, and are allowed, under certain instructions, to see civilian friends. The number of their visitors is few, few indeed. If the ex-Emperor was not previously undeceived as to the extent of the affection which evil counsellors always assured him the Mexican people bore toward him, he is so now. None of the Mexicans who fawned on and flattered him in prosperous days come to see him now; none but foreigners care sufficiently for his fate to risk Liberal displeasure by inquiring after him.

Of all the reverses which the proud house of Hapsburg has of late experienced, this is the saddest and the worst. A scion of that imperial stock shut up in a six-by-nine dungeon, and compelled to ask his life at the hands of a Mexican Indian, who probably never knew his father, speaks no language but his own, and has absolutely no idea of the divine rights of kings and emperors. Maximilian's chief companion is the Prince Salm-Salm, so well remembered in the army of the Cumberland, and who proved himself during the seige one of the best and bravest officers in the whole imperial services. Together they sit and play at draughts, with vivid interest, but not their own probable fate, but the politics of Germany and America.—With all his vicissitudes of fortune the archduke loses none of his warm sympathy for the United States. Anything and everything American has a strange attraction for him. He listens to Prince Salm-Salm's reminiscence of the great war with rapt attention; and hearing the story of Chickamauga, Atlanta, and Vicksburg, expresses his longing to visit the scenes of such memorable events. Then, the subject changing, German politics will come upon the carpet, and Maximilian, with grave, deprecatory face, will bemoan the short-sightedness and reactionary tendencies of his brother, the Austrian Emperor, advancing statements on his own part broad and liberal enough for any Fourth of July oration. A strange picture, is it not? Maximilian, tall and erect still, his blue eyes kindling, and his great blonde beard quivering with excitement, while Salm-Salm, from whose eye the inevitable eye-glass has fallen in the excitement of the moment, speaks of some of the leading episodes of the American war, and with the modesty of true bravery claims for himself only a spectator's part in the actions he so vividly describes.—A Mexican dungeon encircles them the while, and a court-martial, composed, they say, of three captains and a lieutenant-colonel, only waits the word of *long-eared* Escobedo, the example driver, to condemn them to death.

TORNADO AT DECATUR.—Mr. Julius Hayden, general agent of the Southern Railroad, is in receipt of a telegram from Col. San Tate, president of the Memphis and Charleston Railroad, stating that a tornado yesterday destroyed one span of the railroad bridge over the Tennessee river at Decatur, Alabama. Communication is unimpeded, however, and connection maintained. Passengers and freight are transported by steamboat. The bridge will be in perfect order in the course of five days.—Exchange.

A Tennessee paper revives the following from a speech of Brownlow's when he was a violent pro-slavery man: "Fellow Citizens:—Whenever you get to burning negroes or dram shops, count me in; I'll help you."

FARMS FOR ONE DOLLAR

SUBDIVISION OF PLANTATIONS.

CHANCES FOR ALL.

The Southern Asylum Land Company, in addition to their grand scheme of City Residences and Lots, in which Col. M. C. Galloway's valuable residence in Memphis, is imitating the capital Prize, at Five Dollars per Ticket, now offers chances in a scheme that embraces

FARMS FOR THE MILLION.

There is not in this scheme an acre of swamp or wild land; each Farm is part, or the whole of a cultivated plantation—not more nor less than a few miles of a Railway, either on the

Memphis & Charleston,

Mississippi Central,

Mobile & Ohio,

Meridian & Vicksburg, or

Mississippi & Tennessee R. R.

The several tracts are disposed of at the lowest cash valuation, in subdivisions of 40, 80 and 160 acres. Each subdivision constitutes a prize, and each

TICKET COSTS ONE DOLLAR.

For a description of the property refer to the new Pamphlet issued by the Company. Titles are perfect, or the money will be paid to the owner of the land.

All land in this scheme is in the State of Mississippi. The Capital Prize of fifty thousand dollars is in the centre of the Mississippi and Tennessee Railroad.

The lands are adapted to the growth of grain, cotton, grapes, &c., are cheaper than Government lands, in call latitude, at one dollar and a quarter per acre. The average cost of these lands is seven dollars per acre.

A deduction of 10 per cent. in favor of ten or more. Tickets may be had of local Agents or through the Memphis Agency of the Company.

WANTED Agents in every county in the United States, to whom liberal terms will be given. We guarantee the speedy delivery of prizes, and the honorable conduct of the whole business, as inducements to agents. Apply immediately to every locality.

Hon. Jacob Small Yerger, Judge of the Third Judicial District of Mississippi, died in Vicksburg on the 14th inst.

Religion and Chemistry.—Rev. Dr. Thomas Nicholson, of Mobile, will deliver an interesting lecture to-morrow night at the Baptist Church on the above subject. But few lectures are more instructive, interesting, elevating to the feelings, and so full of startling eloquence, to old and young-learned and unlearned, as those of Chemistry. Nothing is more interesting to children, and the old are inspired with the marvelous exhibitions of the wisdom and wonderful works of God.

Registration.—Up to yesterday there were 1653 voters registered in this county. 618 whites and 1005 blacks.

Hinds county, 1477 whites, 6346 blacks.
Lowndes county, 1119 whites, 4339 blacks.
Oktibbeha county, 723 whites, 1428 blacks.
Jasper county, 225 whites and 147 blacks.

Dusting the Brow.—The feeling created is like lifting up the heavy drapery that hangs to shut off from Nature's first night, to watch the bosom of virgin earth heave with life, or catch the early kiss of morning's dawn upon her ruby lips, to look upon creation in her bridal robes, with her diamond fragments of jewelry—now decking her brow with the flowers of spring and contemplating the golden treasures of health created by the use of the "Great Southern Preparations," advertised in another column.

Negro Killed.

A negro man named Jerry Larkin, was shot and killed in the country line of the city on Tuesday afternoon, by Geo. P. Shield, City Marshal, under the following circumstances: A word or so since, Jerry and another negro named Joe, were arraigned before the Mayor for fighting, and both fined. Joe paid his fine, but Jerry refused, and every time he came to town afterwards, was armed with a musket, and always declared he would kill any one who came to arrest him. On Tuesday three policemen made an effort to take him in custody, but he being armed with a musket, and they only with small pistols, the attempt was abandoned. A statement of the case was laid before Mayor Norton by Mayor Henderson. The Major answered that the negro being guilty of a breach of the peace, should be apprehended at all hazards, and if necessary, military aid would be supplied. The Mayor thereupon summoned his police force and repaired to Jerry's house. He found Jerry sitting in his door with a musket alongside. Every possible appeal was made to him by the Mayor to surrender without avail.—Finally, the Mayor told his men to shoot the out-law, when he raised his gun to shoot, calling forth from the Mayor an order to fire. The City Marshal, at whom Jerry aimed his gun, fired the shot entering the heart, and causing death in a few moments. Before the shooting took place Jerry declared he would kill some one, if not dearly—that he did not intend to be taken—and would kill one policeman before he was killed himself. The news soon spread through town, and about dark, some twenty negroes, headed by John Fergurson and Billy Clopton, proceeded to Maj. Norton's headquarters to demand justice. The Major dismissed the crowd, after informing them the whole matter would be fairly and thoroughly investigated. Yesterday morning an inquest was held over the body.

The verdict of the jury was justifiable homicide. We learn that the negroes who demanded the taking of this man's life, and trust that hereafter it will serve as a warning to others. The majesty of the law must be vindicated.

Men of the highest attainments in medical science are now using and recommending the reliable and healing remedy Red Jacket Bitters as a restorative after fevers, and the very best strengthening medicine for feeble constitutions.

It will be remembered that Mr. Pelts alleged that he had been waylaid and robbed, some weeks ago.—Lexington Journal.

Greeley has of late taken to telling some wholesome truths about some of those with whom has been associated in politics. Here is what he says about the Grand Army of the Republic.

"A number of office beggars and politicians, calling themselves the Grand Army of the Republic, and meeting in out-of-the-way places with grips and pass-words, are passing resolutions demanding Confiscation and farms. This is either madness or knavery. People who want farms work for them. The only class we know that takes other people's property without paying for it is largely represented in Sing Sing Penitentiary. The people of the country do not want Sing Sing and Mexican banditti principles introduced into their statesmanship."

Hon. W. M. Hancock.—The different Courts in this Circuit have been held, and the business accumulated in them satisfactorily disposed of. The accomplished Judge, Hon. W. M. Hancock, is enjoying at present a brief respite from his arduous labors, and is reaperating for the next session.

We are happy to learn him for many years to come. His conservative and conciliatory conduct during the war, his wise and patriotic counsels since then, have endeared him to every citizen of his district.—Bay St. Louis Gazette, July 5.

Mr. Brigham and the President.—A Washington to a member of the Cincinnati Gazette (Rad.) says:

There is a report that, in case of an impeachment, Hon. John Sherman will appear among the counsel for the defense. It originated in an assertion made by Mr. Brigham to a member of the Indiana delegation, that he (Brigham) would resign his seat in Congress for a fee of $20,000 and do him before the senate.

There was a large public meeting of the people—both white and black—at Aberdeen on the 4th inst. Gen. Reuben Davis addressed them. Hon. John Sharkey was also delivered by several colored men.

TELEGRAPHIC NEWS

WASHINGTON, July 13.—The reconstruction bill has been signed by the presiding officers of both Houses, and presented to the President.

The following is a [illegible] passed both Houses:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That it is hereby declared to have been the true intent and meaning of the act of the 2nd March, 1867, and the acts supplementary thereto, that the most efficient government of the rebel States, and of the act supplementary thereto, passed on the 23rd day of March, 1867, that the governments then existing therein should be continued in Virginia, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Louisiana, Florida, Texas and Arkansas, were and are valid State governments. If continued, were constitutional subjects, in all respects, to the military commanders of the respective districts, and to the paramount authority of Congress.

Sec. 2. That the commander of any District named in said act shall have power, subject to the disapproval of the General of the Army of the United States, to have effect till disapproved, whenever in the opinion of such commander the proper administration of said act requires it, to suspend or remove from office, or from the performance of official duties, and the exercise of official powers, any officer or person holding or exercising or professing to hold or exercise, any civil or military office or duty in such District under any power, election appointment or authority derived from, or granted by, or claimed under, any so-called State, or the Government thereof, or any municipal or other division thereof; and upon such suspension or removal, such commander, subject to the disapproval of the General aforesaid, shall have power to fill vacancies occasioned by such removals, or by reason of the said duties of such officer or person so suspended or removed, by detail of some competent officer or soldier of the army, or by the appointment of some other person to perform the duties of such office; and in filling all such vacancies occasioned by death, resignation or otherwise.

Sec. 3. That the General of the United States Army shall be invested with all the power of suspension, removal, appointment and detail given in the preceding section to the district commanders.

Sec. 4. That the words "registration" in the act of the 23rd of March, 1867, supplementary to the act of the 2nd of March, 1867, shall be held to include, in case of the absence of registering officers, or their failure to act, or refusal to act, or their disqualification, or for any other reason, the power to the commander of the district, or to the General of the army; and it shall be the duty of such commander to cause the registration, as aforesaid, all persons who are disloyal to the Government of the United States, and who are under the civil or military disabilities, and appointing others in their stead, are hereby confirmed; provided that any person heretofore or hereafter appointed by any district commander to exercise the functions of any civil office may be removed from the same, at any time, by the command of the district or by the General of the army; and it shall be the duty of such commander to cause the funerals

The Safety Hand Lamp,

AND

Meteor Burning Fluid.

THE new Meteor Safety Hand Lamp is the latest wonder and novelty, as well as the greatest invention of the times. The burning qualities of the Oil are in every particular superior to anything yet used, while its illuminating power has no superior. The Lamp will not blow out nor explode, and the Oil is perfectly safe. The cost of the fluid is about one-half that of refined coal oil; has no greasy, smoky smell; does not make the chimney, and will not grease a fabric of any kind. You need not throw away your old lamps; the Meteor Fluid will burn in a coal oil Lamp by attaching the Light House or Meteor Fluid Burner.

We have the agency for Lauderdale county, Miss., and Choctaw county, Ala., and will be glad to supply our friends in those counties with the Meteor Oil and Safety Hand Lamp.

It is bound to create a great revolution in the Lamp business, and only needs a test to be appreciated.

PURIFY YOUR BLOOD.

HURLEY'S SARSAPARILLA.

OF all the remedies that have been discovered during the present age for the thousand ills that flesh is heir to, none equal this wonderful preparation. Only ten years have elapsed since the discoverer—who spent a decade in studying experiments, and perfecting it—first introduced it to the public, and it is already recognized by the most eminent physicians in all parts of the country to be the most surprising and effective remedy, for certain diseases, of which they have knowledge.

All other compounds or syrups of this root have hitherto failed to command the sanction of the Faculty, because, on being tested, they have been found to contain mercurial evidence, which neutralize the good effects of this Sarsaparilla, and oftentimes injure the health of the patient. It is not so with Hurley's preparation. This is the pure and genuine extract of the root, and will, on trial, be found to effect a certain and perfect cure of the following complaints and diseases:

Affections of the Bones, Habitual Costiveness, Debility, Diseases of the Kidneys, Dyspepsia, Erysipelas, Female Irregularities, Fistula, all Skin Diseases, Liver, Complaint, Indigestion, Piles, Pulmonary Affections, Rheumatism, Syphilis, Scrofula or King's Evil.

Hurley's Ague Tonic,

PERFECTLY RELIABLE.

The only remedy for Chills and Fever or Ague and Fever that is or can be depended upon is Hurley's Ague Tonic. Twenty-five or more thousands cured by using it who had tried the usual remedies without benefit, but in no case has

Hurley's Ague Tonic

failed to effect a cure. All who have used it cheerfully tell their afflicted friends of it as a sure and certain cure for chills and fever. Any one suffering from the chills and fever shall have their own time set by sending to the drug store and buying a bottle. It is pleasant to take, compared with others, and will be certain to cure all cases of fever and ague or chills and fever. Send for it to the proprietors.

IRON BUILDING,

NEW ORLEANS, LA.

Founded in 1832---Chartered by the Legislature of Louisiana.

WITH COMMERCIAL, AGRICULTURAL AND MECHANICAL DEPARTMENTS.

THIS COLLEGE, has, by its own merits and thorough, practical plan of education, outlived all the liberally endowed State Colleges of this and the South-Western States. It is the

Oldest Commercial College in the United States.

AMPLE ARRANGEMENTS FOR

One Thousand Students

During the Current Year.

Comparative Cost and Value of the Education Given Here and in the Ordinary and Literary Colleges:

It is believed to be the first in Europe or America, chartered with Commercial, Agricultural and Mechanical Departments. Every student who gives proper attention to the instruction, is qualified before graduating to keep any set of books, in matters not what the business may be, and do the Correspondence of any house. Students can attend the "Commercial Course," or to the English, French, Spanish, German, Latin or Greek Languages, or the higher Mathematics, etc., separately. We have

Cost of full Commercial Course

here—Tuition, ... $145
Board for three months 90
Contingent expenses, about..... 20
Total $255

After which the student is ready to go into business, and make $1000, $2000, or $3000, annually.

Cost of Ordinary Literary Colleges.—About $400 per annum, for four years, or $1600; clothing for four years, $200, or $800—total $2400, and four years of time expended. Our students will begin to work after three or four months, and make, say the first year, about $1200; and two years and nine months at probably $1800, or $6150 for terms in four years. Deduct $255 haves $5892 net gain to our Students; but to the other a net expense of $2400, or $8255 our student has gained over the other. We suppose the Students in both cases to have a good English education to begin with. We deem a business education that enables the student to earn $1000, $2000, or $3000 annually, to be the best fortunes parents can give their sons. So far as known not one of the thousands of our graduates, is out of profitable employment. A word to the wise is sufficient.

DR. WHITTIER,

LONGER BY YEARS LOCATED IN ST. LOUIS than any other Private Physician. Physician, is a regular graduate of medicine, and has been for 25 years engaged in the treatment of Chronic Diseases, Nervous Affections, Blood, Skin, Urinary, Bladder and Glandular Diseases. Syphilitic affections of the throat, skin or bones.

Thousands suffering from cold shoes, excesses, exposure, self-abuse, etc., in youth and manhood, are made miserable for life, and many more, ignorant of the cause of their nervous debility, are unfitted for either business or society. Indigestion, dyspepsia, dread of future events, lassitude, and all the train of evils follow in their train.

Do not refer to many old residents for your character and present position, also many physicians here and elsewhere.

Occupying a whole house of twelve rooms, exclusively devoted to the treatment of these diseases, he has every facility for treating them successfully. Separate entrance and private waiting room.

Medicines sent everywhere by mail or express.

His Theory and Practice of Diseases, may be consulted by all the diseases of the human system, and in book or pamphlet form, sent free of charge. Ladies should send for his pamphlet on Female Diseases, before consulting elsewhere. Consultation or examination of disease, 3 cents. Address as above.

☞ Patients will have meals and lodging, charges moderate, same as at first class hotels. Entrance on Fourth street, one square south of the Lindell Hotel. apr24-ew1y

A short time since a personal letter appeared in the Meridian Chronicle, with this caption : "Reply of Hon. Jno. McRae, of Kemper, to J. L. Morris, Esq.," &c. In this letter Mr. McRae stated, among other things, why he was a Republican, which is extracted by the Mobile Advertiser, and this unkind paragraph pinned to the bottom of it :

We wonder if this can be John J. McRae, the whilom Governor of State Rights Mississippi, the supporter of Breckinridge, the "before breakfast" fire-eating secessionist, the stand-by counsellor of Jeff. Davis—Lest we should make a mistake and do injustice we pause for a reply.

If the editor of the Advertiser read the article from which he extracted, he must have known Hon. John McRae, of Kemper, was not ex-Governor John J. McRae, of Wayne. Gov. McRae has, since the close of the war, eschewed politics entirely, remains on his farm near Buckatunna, and is content to be forgotten by those who wound when the aim of all should be to heal.

A Filibustering Scheme.

Filibustering expeditions to Mexico to "avenge Maximilian" are fitting up in New Orleans, New York, Buffalo, Havana, Washington and other places. According to the New York correspondent of the Philadelphia Ledger, however, these expeditions have for their object the displacement of Juarez by Gen. Ortega, in order to advance certain ulterior schemes, looking to the indorsement by this Government of some $26,000,000 or $30,000,000 in Mexican bonds It is the same organization, says the writer, which paid the expenses of the Santa Anna expedition. Had Santa Anna been successful on landing, it is supposed he would by this time be in the chair of the Montezumas, negotiating with Mr. Seward for a union of the two countries, on the basis of paying off the Mexican debt in consideration of receiving the whole of Mexico in return. But, now that Santa Anna is either dead, or a prisoner in the hands of the Juarists along with Ortega, what is the programme? Briefly this : to fit out another expedition to land somewhere on the Mexican coast, unfurl the banner of Ortega, and trust to fortune for Mexican support.—Ortega's name, they say, will do just as well as Ortega himself. If Juarez shoots him, so much the better ; it will make Juarez unpopular, and hasten his end. But be the objects of the expedition what they may, we think the project will prove a failure, resulting in the killing of a few hundred men, and the expenditure of several thousand dollars. Where the French Emperor was defeated, with France and Austria at his back, where Scott made such slow progress, bolstered up by the treasury and power of this government, a few adventurers cannot certainly hope to succeed.

Mr. Shelan, living on the Bay Road below Mobile, was shot and mortally wounded Thursday night by some negroes, who broke into the store where he was stopping. The negro who did the shooting has been arrested and identified.

The steamer Flirt was destroyed by fire at the Mobile wharf Thursday night. No insurance.

The Salt Lake Vidette, of July 1st, says that rich gold discoveries have been made in the Utah mines. Some have brought in forty ounces of gold dust, crushed from quartz, in two days. Being assayed, it weighed over thirty ounces, valued at seven hundred and forty dollars. The mines are located two hundred miles from Salt Lake, in the Green river country. Extensive mines have just been discovered at the head of Little Lost River. The excitement is culminating in a general stampede of miners. The mines are reported to be eighty miles from Salmond City.

Mr. Robert Paine and Mr. G. T. Johns, two worthy and respected citizens of Amite county, became engaged in an altercation while returning from Summit, on Friday evening, the 6th inst., which led to blows and finally to the use of deadly weapons, resulting in the killing of Mr. Johns by a shot in the neck from a pistol in the hands of Mr. Paine.

Sickles' Solution of the Problem.

The telegraph mentioned the other day that Gen. Sickles had written a letter to Hon. Lyman Trumbull, Chairman of the Judiciary Committee of the United States Senate, in which he recommended universal amnesty—with a few pecified exceptions—should accompany universal suffrage. The letter is before us and we find it pretty much the same doctrine as advanced by Horace Greeley soon after the surrender, and also by Senator Stewart of Nevada, who it was suspected at the time, was guided by his kinsman Gov. Foote, formerly of this State, in urging such a settlement of our political troubles. Here is an extract from his letter :

Now it seems to me that the true conservative guarantee against reaction is in the addition made to the loyal vote by the enfranchisement of the colored people. That being done, the occasion for the disqualification clause ceases. Hence the true solution, I believe, is to declare with universal suffrage a general amnesty, naming the exceptions. A more liberal amnesty is, in my judgment, essential to the success of the Congressional plan of reconstruction. It will enlarge the range of popular choice for the important judicial, executive, or legislative departments of the State governments, otherwise inconveniently confined to classes, very few of whom are fit to hold office. The people can surely be intrusted to judge and select from those who took part in the rebellion, the men at once qualified and sincere in their adhesion to the new order of things. Some men being eligible to office will have motives to identify themselves with reconstruction and to support the views of the majority. Now, more than ever, men of ability and experience in public business are needed for the State governments in the South, and it is truly unfortunate that at such a moment nearly all who knew anything of public affairs are disfranchised, and especially those who could fill judicial stations. This exposes the experiment of general suffrage to needless hazards. If the experiment fails it is more likely to fail from the inability of the people to put in office those who could and would assure success. It would have been advantageous perhaps to have removed many disaffected persons, especially judges, sheriffs and magistrates, in the execution of the sixth section of the act of March 2, if competent successors could have been found among these who are eligible to office; and I would regard the possession now of a wider field of choice for civil officers as one of the most effective instrumentalities in the execution of the military authority conferred upon district commanders. As it is, I find myself prevented, as will be the people by and by—from securing for the public service men of aptitude and character, whose repentance is as certain as the devotion of the most consistent loyalist. In truth, this zeal of some of the courts outruns the discretion of many of the faithful. With reference to other practical suggestions, it might be useful if Congress, by some one of its committees, interrogated the commanding officers of the several districts upon the operation of the Reconstruction acts and the further legislation required.

Gen. Sickles, no matter what we may say of his administration in the Carolinas, evidently has a high appreciation of the situation, but his views seem to fall lightly on the ears of Congress, as we have seen that the third military bill passed after Mr. Trumbull's receipt of the letter. But the necessity of such a measure as Gen. Sickles urges, will yet become apparent to the country, and Congress must then compromise or retire from the chair of power.

The New Bill—Our Advice.

The third military bill leaves the Southern people utterly helpless; they must look to the military commanders for whatever magnanimity and clemency is to be bestowed upon our unfortunate section. State governments are subservient to the will of the District Commanders. The Boards of Registrars have power to decide upon the right of applicants to register. Those who have been members of the Legislature, or held any executive or judicial office in any State, whether they have taken an oath to support the Constitution of the United States, or not, and whether holding such office at the commencement or during the war, and *afterwards* engaged in "rebellion," are not entitled to register. "Executive and judicial" are defined to include "all civil officers created by law for the administration of any general law." No person shall register by reason of any executive pardon or amnesty, a provision which does not conflict with the interpretation enforced under the original law. Pending reconstruction persons elected or appointed to office shall be required to take the iron-clad oath. This is the gist of the "third military bill" which we are sorry to see has driven a few of our friends from the Convention canvas. For our part we see no cause to change : it is impossible to raise a party strong enough to defeat the action of Congress and we hold it, therefore, to be the duty of every man to "caution in every way the event which will place at once the pale of national politics, and allow us a choice of party association." We are bound to enter the door Congress has indicated, and it is to our interest to pass through before we are all disfranchised, and rendered completely powerless. From a very sensible article in the last Handsboro Democrat on this subject, we make the following extract :

We have everything to loose and nothing to gain by the do-nothing policy. We must control the negro vote in the South to subserve our interests, or the Radicals will control it to subserve theirs.

The idea of standing off on our dignity may seem very well to an impractical transcendentalist, who builds "castles in Spain," and bamboozles himself into the belief that he lives in them, but to a practical, matter-of-fact person, who knows that his bread and butter depend upon the issue, it is all moonshine.

We must avail ourselves of the present opportunity to regain a voice in the government of the nation, even the excesses of military dictatorship and its myriad of evils. We deem it the duty of every man to sacrifice his personal passions and prejudices, as well as his private interest, for the public good. We must accept any terms, however harsh and unjust, which promise a restoration of quiet and prosperity to our disturbed and impoverished country.

Time and labor will, we hope, restore unto us the Federal Constitution in all its entirety, and with it will be returned the rights and franchises of which we have been so despotically deprived. For the present, let us accept the only proffered terms of reconstruction and find consolation in cultivating all the useful "arts of peace."

General Ord on Municipal Elections.

The following correspondence will interest our readers :

E. P. Thompson, Esq., Mayor of Okolona, writes to the General Commanding District No. 4, stating "that the term of office of the Board of Aldermen of his city will expire August 1st, and wishes to know if the General Commanding will order an election, or appoint. In the event that the election shall be ordered, he would be glad to submit a list of names of suitable persons to fill the designated offices."

To which the following reply was given :

H'D QR'S 4TH MILITARY DIST.)
OFFICE OF CIVIL AFFAIRS,
Vicksburg, Miss., July 12, 1867.

Respectfully returned with the information that the General Commanding does not interfere with elections for Municipal offices. A copy of the General Order No. 5, upon this subject is enclosed. Elections for purely Municipal officers, therefore, will be held as provided by the laws of the State of Mississippi.

"Section 9, of the late reconstruction bill, will, however, require that officers appointed or elected under State or Municipal authority, or detailed, or appointed by Military Commanders, shall take the "test oath." — Aberdeen Examiner.

THINGS WHICH CANNOT BE DENIED.—The Negro is a *Voter*.

One half the *voters* at least, in this State are *Negroes*.

There will be a Convention, and the negroes will be represented in that Convention, either by white or black representatives.

The Convention so constituted, will accept the act of Congress conferring suffrage on the negro.

The negro will be a powerful element, if not the ruling power, in the State.

A rejection of the reconstruction act would inevitably result in further disfranchisement of the whites, thus giving to the negroes political supremacy.

There is certainly less disgrace in partaking of the privilege of self-government, than in being ruled by negroes.—Hazlehurst News.

SHARP PRACTICE OF AN ATLANTA MERCHANT.—A correspondent of the Chattanooga Union tells the following of a shrewd and cynical Atlanta merchant;

I heard of a good thing perpetrated by one of them, which was related by him to a New York "drummer." The merchant aforesaid is in the ready made clothing business, and he told the gentleman from New York, that when a customer comes in, after letting him try on several coats, he would say to him that he had a coat which he had given a gentleman to take home the night before, but he was not satisfied with it and returned it. Perhaps it might fit his customer. "Now you know," says he, "that men are ready made clothiers; so I put a pocket-book in one of the coat pockets, which only cost me thirty or forty cents. Now when the man takes on the coat, he puts his hands in the pockets, and feels this pocket-book, and he buys the coat at once for a trifle more than I advanced on the usual price; and he never comes back to see about it!"

ATTEMPTED INSURANCE FRAUD—Saint Louis, June 29.—An investigation into the reported robbery of the steamer W. Brooks, at the levee, Sunday morning last, of $6,000, has disclosed the fact that the owners, Henry A. Huffner and W. A. Ritter, and her captain, J. A. Johnson, had entered into a conspiracy to rob and burn the boat, and defraud the insurance companies. All the parties have been arrested and $6,360 of the stolen money recovered. Johnson and Ritter have confessed their connection with the affair. The scheme originated with Huffner, who was to buy goods on a credit, load the boat, of which Johnson was captain and Ritter chief mate, take them up the Arkansas River, set them for what they could get, rob the boat of the proceeds of the trip, burn her and get the insurance. The boat was insured for $6,000, some unsold goods on return trip for $3,000, and money on hand, $360. On the passage from Cairo to this port the boat was fired in the clerks' office, but the flames were extinguished before much damage was done. All the parties are held to bail, and have bore good reputations.

Somebody in Philadelphia has kept the Secretary of the Treasury $3000, and some one in Brooklyn $10 towards paying off the National debt.

An Important Bill.

Mr. Julian, of Indiana, has reported and had referred to the Reconstruction Committee a bill further to amend and apply the provisions of the Homestead law of June 21, 1866. It embodies very important principles, and vitality concerns the whole problem of reconstruction.

The first section provides for the forfeiture to the United States of all lands granted to the States of the South in 1856 to aid them in the construction of railroads, said grants having now expired by limitation. Instead of building these roads the rebels waged war against the Government which granted the lands, and they have now no claim to further indulgence. Some four or five millions of acres of lands, much of it choice land, are thus tied up to-day in the clutches of rebel corporations, which ought at once to be made subject to the Southern homestead law.

The next section provides that when the lines of the old surveys are obliterated the Freedmen's Bureau shall appoint a competent surveyor, who shall retrace them at the expense of the United States, according to the original field notes of the Government. This will prevent an outrageous abuse practiced upon the claimants of land by local surveyors, who charge as high as $32 for the running of a single tract, of the accuracy of such survey there is no guarantee when made.

The third section provides that all the public lands of Texas which have not been lawfully disposed of are forfeited to the United States by reason of rebellion and shall henceforward be subject to the operations of the homestead law. This would open to settlement and tillage a vast domain of land; would be beneficial, of course, to the State of Texas, and a special blessing to the landless poor, while powerfully promoting the national wealth and welfare. It would, it is true, be the forfeiture of confiscation, but it would disturb the private rights of no human being.

The last section provides that all lands hereafter sold for non-payment of Federal taxes, and under proceedings in bankruptcy, shall be sold only in lots of not less than twenty nor more than eighty acres. This provision is very important, for many of the great estates of the South would be thus subdivided, and fall into the hands of needy cultivators in small homesteads.

It is backed by intelligent men everywhere that however important the policy of confiscation would have been as a means of breaking up the power of the slaveholding grand landed estates of the South, it is but too late to count upon it under any circumstances that are likely to arise. If the measure we have sketched were applied, no other confiscation would be necessary, for it would supply the necessities of all, of whatever race or color, who need homes, and thus quiet popular clamor while restoring permanent peace and prosperity to the whole country.—Washington Chronicle, July 13.

Those who vow that they will never consent to reconstruction on the republican basis, propose to undo all that has been accomplished by the war, and restore the country back to the chances of disintegration and ruin. Before this could be done another war of unexampled ferocity, and perhaps of almost endless duration, would have to be fought, and then, if the doctrine of secession and its kindred dogmas were established, it would hardly be a score of years before the States would fall apart for the want of which aid and the necessary conflicts between the petty sovereignties, having no federal head, would finally in the setting up of a kingly government—which is, indeed, just the thing that many men already prefer to our system of republicanism. Is it for the people to say whether they will have this country desolated again by war, or men similar to those who plunged them into these direful results. Let every man think for himself and settle it in his heart whether we will have peace or war, prosperity or ruin.

The New Orleans Picayune reporter thus graphically describes what occurred on the release of James Barker, the National Bank president, at the fire recorder's court :

Upon leaving the court-room the old man, as he went tottering from the place, was followed by three or four old women who had lost their all in his bank. Each one was a touching one, as they bowed, apparently in great anguish, supplicating for a restoration of their little treasure that had taken them years of toil to gather up. They clustered closely around the old man as he entered his carriage, and as he drove away; receiving no assurance whatever of having their property restored to them, these poor women followed the vehicle for several blocks, making as they went almost frantic gesticulations in their appeals. Mr. Barker drove rapidly away, however, and his supplicants, weary and care-worn, turned slowly in the direction of their homes to brood again in anguish over the misfortune they had suffered.

FARMS FOR ONE DOLLAR

SUBDIVISION OF PLANTATIONS.

CHANCES FOR ALL.

The Southern Asylum Land Company, in addition to their grand scheme of City Residences and Lots, in which Col. M. C. Galloway's valuable residence in Memphis is embraced, the capital Prize, at Five Dollars per Ticket, now offers chances in a scheme that embraces

FARMS FOR THE MILLION.

There is not in this scheme an acre of swamp or wild land ; each Farm is part, or the whole of a cultivated Plantation—each tract is on a road, or in a few miles of a Railway, either on the

Memphis & Charleston,
Mobile & Ohio,
Meridian & Vicksburg, or
Mississippi & Tennessee R. R.

The several tracts are disposed of at the low, cheap rate of Ten Dollars each, and there are 50 and 100 acres. Each subdivision constitutes a prize, and each

TICKET COSTS ONE DOLLAR.

For a description of the property refer to the new Pamphlet issued by the Company. Titles are perfect, and the purchaser will be the owner of his prize.

All tracts drawn for are in the State of Mississippi. The Capital Prize within fifteen miles of Memphis, and all in the best Tennessee Railroad.

The lands are adapted to the growth of grain, cotton, grass, &c., and are offered at the lowest possible rate, in cash estimates, at one dollar and a quarter per acre. The average cost of these farms is never above $125.

A definition of 10 per cent. in favor of tenor will be allowed to be had at least a year or through the Memphis Agency. July 21st

WARNING.—Any person or persons found on the premises of the Asylum Land Company, or trespassing on any part of the property, will be prosecuted to the full extent of the law. Persons are hereby warned against cutting timber, hunting, fishing, or in any manner trespassing on the property of the Company. By order of the Board of Trustees.

SEMI-WEEKLY GAZETTE

The New York Herald winds up a long article on Republican shams as follows:

Republicans have so managed affairs in the South since the collapse of the rebellion that the result of an election there will be to create a representation composed of six niggers and one white man. [Laughter.]

All of which is very funny, except for the fact that the white man is the only one who has any votes. [Renewed laughter.] Altogether, the Republican plans, dickers and all.

The Times-Democrat describes the condition of things in that city as follows:

"Nothing so 'fly' is the birthen of conversation throughout the length and breadth of the city. Every store is a 'centre of indolence,' and every storekeeper seems to be subject to lethargic wholesale all day without getting a bite. This miasma is likely to endure for some time to come."

Gen. ARTHUR.—Hon. M. Langston, Gen'l Superintendent of Freedmen's Schools, delivered and excellent address at the Fifth-ward Church, Tuesday afternoon on the subject of education, to a large assemblage. His whole speech was excellent. He endeavored to impress upon his hearers the necessity for education and the fact that their destiny and their future was dependant upon this above, and not upon any paltry privilege granted by fanaticism, and received and debased by ignorance. He ignored politics, and seems to care alone, the improvement of his race, their advancement in all that can make them worthy of citizenship, and worthy citizens. Such speeches as that are calculated to promote the happiness of the friend race, and the general weal of society.—Aberdeen Examiner.

Hanged.—The negro, Bill Brooks, convicted of murder in the first degree, last fall, was executed near this place yesterday. He was asked by a colored preacher if he was a member of the church. He replied: "For thank God I killed how for a'nuff white men to get religion." [Laughter.] He said nothing more of importance.—Canton (Miss.) Mail.

A Boy Killed by Lightning.—The 13-year-old son of Mr. Jones (Parish) came home from school in the morning for his lunch, as he usually does, and after eating his lunch, and while standing at the stove to the front entrance of the residence entering the apartment of the servant. Judge McClanahan and family have also moved to Louisville, Kentucky, and will remove to Louisville, Kentucky, and will remove to Louisville, Kentucky, and will remove

The Situation

July 20, 1867.

Editor of the Meridian Daily Times:

SIR—My attention has been called to the following publication in the radical newspaper published in this city, with the suggestion of friends that the letter referred to might by some be supposed to have been written by me, and that it was due to myself to correct the erroneous impression:

THE REASON WHY.—Hon. John McRae, of Mississippi, in reply to the Meridian Chronicle thus concisely states his reasons for being a Republican:

I advocate reconstruction upon the Congressional plan; and recognizing the fact that the Republican party is in full possession of the public power, that it is the only party in existence that can do the South any good; that it has dealt with the South not according to her just deserts, but rebellion be a crime, but in a spirit of magnanimity unparalleled in the history of rebellions, and that it has for its object the educational elevation of the toiling masses of this republic—for these reasons I expect to affiliate with the Republican party."

I have written no letter to the Meridian Chronicle, and the above extract was not written by me. The sentiments which it contains are not mine, and the writer, Hon. John McRae, of Mississippi, is unknown to me. I do not affiliate with the Republican party, nor do I expect to do so. I have no respect for a party that which distranchises me and renders the right to vote upon my negro, that was, who is incapable of its judicious exercise.

I do not believe the late war was a rebellion or a civil war, but a war between two distinct, separate governments, the United States, and the Confederate States of America. I do not, therefore, believe the people of the Confederate States were rebels nor traitors. The United States, as the conquering power, under the rule of the Republican party, has dealt with the people of the Confederate States unkindly, harshly, bitterly, and a spirit of malignity and hate among civilized people unparalleled.

I do not approve of the Congressional plan for reconstruction. I think the military bills are odious and tyrannical; but I may, from necessity or a choice between evils, submit to what I do not approve. In this light, I think it best for our people to reconstruct their State governments under these bills, for the reason that they afford the only hope, bad as it is, of giving them the control of their State affairs. If they do not reconstruct under these bills, the question goes to Congress to say under what bills they *shall* reconstruct. Congress will say the rebel sentiment defeated reconstruction and the restoration of the Union, and will restrict the right of suffrage to loyal men, meaning white and blacks excluding all who aided or in any way participated in the rebellion. This will put the State governments at once in the hands of the Radicals. The question is, will we make an effort, to take advantage of the small opportunity we have under the present bills to prevent this result?

The mode proposed to reconstruct is by a Convention, and it is said the people have a choice to vote for or against it. So they have, but it is a coerced choice, to vote for the Convention bad as it is, or to vote down the Convention and take something worse. If the Convention is voted down, then what is the situation? Some say we will remain under military rule, as we are now. But will this be so? Not at all. Congress is determined to reconstruct, and on its own terms, and will immediately pass other bills for this purpose. Do any suppose the terms will be better under other bills than they are under the present ones? I do not. In other bills Congress will certainly restrict still further the right of suffrage, and may include in them harsher measures, punishment and confiscation. But without these, they can at once, by restricting the right of suffrage, reconstruct the States in the hands of the Radicals, and then we may have punishment and confiscation by the State Legislatures. Do any expect, if the Convention is voted down, that they will get rid of the negro as a political element, or of negro suffrage in future bids for reconstruction? I do not. I am sure Congress will make this the predominant element.

But some say a revolution is taking place in public sentiment at the North, and the Radical party is breaking down. Therefore vote down the Conventions and we will get better terms. I do not see this myself. The party is stronger now than it has ever been, and the present Congress is a new Congress, in for two years. Its first and regular session would not have been held until December next, but for a bill passed by the last Congress that a new one should assemble on the 4th of March, the day of the old one going out. What hope then, have we for the next two years, of better terms than the present bills offer, objectionable as they are? I see none. But from the bill just passed by the almost unanimous vote of both Houses over the President's veto, (six only in the Senate and twenty-four in the House opposing it) concerning the present reconstruction bills most harshly against us, we have the most certain evidence that we can expect nothing better from this Congress in the future.

The fact does not seem to be appreciated or recognized that the people of our States are to be divided into TWO parties, to necessarily and unavoidably, on the question of reconstruction and the control of the State governments. One is to be composed of the Conservative whites and Conservative blacks—the other of the Radical whites and radical blacks. And between these two the issue is to be fought out, and the party in the control of the State governments.

The Radical whites and blacks seem to have understood this issue, and to have been up to the time, more active in their organizations. In their political leagues and conventions, than the Conservative whites and blacks. I think it has grown out of the fact that the Conservative whites who oppose reconstruction, have not been divided in their opinions as to the policy of reconstruction, or that they have been less efficient in their organization, and that the Conservative blacks have not been encouraged, or have not felt encouraged to unite and unite with them in force. I am aware, with such some management, it all could be quieted, a sufficient number of the intelligent and conservative whites and blacks would unite with them to save this party a majority in each of not all the reconstructed States. Upon this all depends with us the safety of our lives, property and finances, and the preservation of social order and the future welfare of our children. Our people divided when they are upon the eve of a great crisis, which they have so much at stake, and especially that asperity of feeling with some which has characterized these differences of opinion. We are certainly all aiming to secure the best results for ourselves and States, but differences of opinion should not be created with the kindest feeling. I think I have a right to make an effort to save the control of our State governments, if it be possible, under the measures now offered rather than to risk measures which must be inevitably worse in the future. Others may differ with me, and all I ask of them is to concede to me, as I do to them, sincerity of purpose.

I have not argued the matter on the honor question. I think it maintained our honor in resisting measures of the government on whose power we are, until we can no longer resist safely or successfully.

Respectfully,
JOHN J. MCRAE.

For Congress.—It will be seen by reference to another part of this paper, that the friends of our community, Dr. W. H. Tegarden, have announced him as a candidate for Congress for the coming session, from this the Fifth District. The claims of an old citizen, long connected and well known, thereto, it would be supercatory for us to speak of his fitness for the position.—Hazlehurst Democrat.

There was a bank robbery in Monroe county lately, and the civil officer sent a dispatch to Col. Guy, commanding Sub-District Headquarters, Columbus, proposing to turn over the freedmen arrested on suspicion of having committed the deed for trial by Military Commission. Col. Guy's reply was.

"The civil authorities must try the case—if they refuse to do their duty, inform me at once."

George Wright an ex-Confederate soldier was shot and killed at Calhoun, Kentucky, on Saturday by W. F. Little, and ex-officer of the Federal army. Wright had charged Little with receiving stolen goods. The latter was arrested after shooting, but subsequently escaped.

A DESTITUTE COLONY OF FREEDMEN IN FLORIDA.—The Sub-Assistant Bureau Commissioner for the Subdistrict of New Smyrna, Florida, reports that the colonization of a large number of colored people at New Smyrna by certain parties with the avowed intention of benefitting them, has, it is feared, been attended with unfortunate surroundings and circumstances. The colonists themselves state in almost every particular they have been disappointed and deceived. The condition of these colonists is represented as very destitute, and those who still remain, some having left for other portions of the State, have neither labor, houses, provisions, or means to get out of the country, and most of them will, in some months to come, be a burden to the Government.

FOR SALE

At this office, Petitions in Bankruptcy, with the accompanying Schedules.

The North Mississippian, after misrepresenting and wholly perverting Gov. Brown's connection with the Terry meeting, stupidly asks, "who is Gov. Brown, that his public acts are to be exempt from animadversion?" Neither Gov. Brown nor his friends complain of legitimate criticism on what he has said or done, but they do object to such misrepresentations as appeared in the North Mississippian, and whether from malice or ignorance, they are wholly inexcusable.

The "war of races" in which the editor of the North Mississippian supposes he is taking so brave a part, exists only in his distempered imagination. Like Don Quixote, in his encounter with windmills, he imagines that he is doing the work of a giant, but the feebleness of his blows, more ridiculous and puny than those of the knight of La Mancha, excite only derision. Should the white race be in danger, a greater champion than him of Tupelo, would be necessary.

An interesting letter from ex-Governor, John J. McRae, appears on our first page. The letter was provoked by some of our cotemporaries confounding the ex-Governor's name with that of Hon. John McRae, of Kemper, who has joined the Radical party. Though Gov. McRae has no use for a party that disfranchises him and enfranchises his late slave, he believes our only hope lies in reconstructing under the laws of the dominant party.

ELECTING OUR "FAVORITES" TO CONGRESS.—The Cincinnati Commercial's Washington correspondent in writing of his interview with the President relates the, following conversation which shows that the President is opposed to our sending "rebels" to Congress. We must vote, we suppose, to the present complexion of that body.

I had scarcely been seated, when Mr. Johnson, alluding to one of my letters from Georgia, said he was very glad that I had published the fact that he had advised against the election of Alexander H. Stephen to the United States Senate in 1865. He couldn't imagine, he said, where I had got the information. I told him my informant was an ex-army officer who, in the spring of 1865, was chief of staff to General Steedman, then commanding the district of Georgia; that he had informed me of a dispatch sent by General Steedman to the President, inquiring if it would be advisable to elect Stephens, and of the President's prompt reply, that it would be very unwise to think of doing so—that Mr. Stephens was a prisoner of war, and ought not to enter political life while such was the case. "I can't make out," said he, "how you got the facts, but you got them right." said the President. "I told them not to think of electing Mr. Stephens. So any man who had been engaged in the rebellion as he had, and yet I was denounced all over the country for trying to get rebels into office, and appointing rebels to office. I never did any thing of the kind. It was wrong to elect such men then, and it would be wrong to elect them now."

The Steamboat Prince of Wales, belonging to the New Orleans, Mobile and Chattanooga Railroad Company, was at the bay last week. She brought over a party of Engineers, who were busy for a few days surveying the route, and locating the crossing place of the Road.—Shieldsboro Gazette.

General Grant, in a conversation with a senator, said the Liberals did right in executing Maximilian, and that the United States ought to stand by Mexico in that act. So says a Washington special to St. Louis Democrat.

AGE OF MASONRY.—We had an item taken from a Glasglow paper, stating that St. John's Lodge No. 3. of the city has recently celebrated the eight hundred and ninth anniversary of its existence, it having been created by a charter from King Malcolm in 1027.—We should like to see the master-roll of that lodge beginning more than eight centuries ago and running along with the names of time. What kingdoms and kingdoms have risen and fallen since the jewel was first sounded in the East. How the world has changed, and what progress has been made in science and art. Eight hundred years in the life time of a lodge.

FATAL ACCIDENT.—We learn that a few days ago a son of W. C. Bridges, of this county, was handling a gun in a careless manner, like too many thoughtless youths do, when it was accidentally discharged, the whole load taking effect in the head of a brother aged by killing him instantly.—Lauderdale Vidette.

The Brandon Republican, when unable to answer an article without argument, throws off a lot of twaddle about secessionist, democracy, &c., thus making up in froth and wind what it lacks in sense. The course of the Republican in fret prating about the political antecedents of its colemporaries, who happened to be democrats, is decidedly unbecoming even a man who was a citizen in times of war, and is now a warrior when there is peace. We are not ashamed of our past political affiliations, but think writhing about secession and secessionists is a very poor way to enlighten the people now, or solve the great problem agitating the country. *Meridian Gazette.*

We are not surprised at such paragraphs as the above. As a public journalist, we have always been free to speak of men and measures as they deserve, and in doing so have had occasion to administer some wholesome advice now and then to the editor of the Meridian Gazette.

You say, "when we are unable to answer an article with argument, we throw off a lot of twaddle about secessionists."

Now, Shannon, a few plain questions: Did your paper or mine throw off twaddle in 1860 and 61? Was it your paper or mine that advised a peace policy in 1861? Tell the naked plain truth, and say that the Republicans was right all the way through. We don't write what we think the people want to hear, but what they ought to know, understand and do. Your whole political course for the past ten years has been greviously wrong, and destructive of the best interests, of the country, and now in these troublous times you are again busy in trying to inaugurate a policy to complete our ruin. Stop such work listen to our sober truths, take a look and, be kind to your neighbors, ask forgiveness for the ill advice which you have heralded through the country, and read carnestly the Republican, and you may yet do well.

We take the above from the last number of the Brandon Republican. We will endeavor to answer plainly what Frantz calls plain questions. Without believing in the constitutional right of secession we did, in 1860, regard the election of Mr. Lincoln as a "declaration of war against the South." In common with the great majority of the Southern people we believed slavery no longer safe in the Union, and we favored the formation of a separate government to preserve that institution. This was Revolution. We believed it justifiable.—This was what the South did. But the editor of the Republican opposed it. We are willing to let him have the credit of it. If the South was *right* Frantz was *certainly wrong.*

But it is useless to say inspire who was right or wrong in 1860 or 1861. We do not like the Republican claim infallibility. If we erred it was with the South, with our own race and section. Through the gloomy years of strife and blood that followed we sorrowed, rejoiced, and suffered, with the Southern people, and now are ask no exemption from the errors or the criminalities of the Rebellion, no matter from whence the accuser comes.

But when our armies surrendered, when slavery itself, the cause of the war, was destroyed, we saw no Government in our duty which we could respect to live, but that of the United States, and we have looked to the Reconstruction and restoration of Mississippi to the Union as the best means to promote the prosperity and happiness of her people.

But our friend of the Republican desires our opinion on his course as a journalist, and we proceed to give it briefly. Candor compels us to state that we regard Frantz as *wrong* and *inconsistent* during the war, and that since that time his course as editor of the Republican has not only been *wrong*, but highly detrimental to the best interests of the country. Having opposed secession, at the eleventh hour, you became a convert to the war, and continued to render it a feeble and uncertain aid until the surrender. You then began to boast of your *Unionism*, and clothed with it as a garment, you sought to be elected convention printer in 1865, as the only *consistent Union editor in the State.* Strange as it may appear, your extraordinary claims were overlooked, and Col. Yerger of the *News* elected. Then commenced your vagaries.—After condemning negro testimony, you finally were defeated for the Legislature, partly because you favored it. Your defeats or something else have caused you since that time, to furiously oppose every measure calculated to promote reconstruction, and restore peace to the country. In this you are not only *wrong* but *inconsistent*, with your professions of 1865.—You know the South is helpless, and you try to arouse the passions of the people, and urge them to a course that would only bring further humiliation. More than that, your teachings, if followed by the Southern people, would create a war of races, in which we would array against ourselves the blacks, backed by the power and authority of the Federal Government. Your kind advice to take a back seat is appreciated, but wholly unnecessary. The writer is disfranchised, incapable of voting or holding office. We have no aspirations but for the good of the country. Without regard to the past, without reference to what the public desire, impelled by a sense of duty, we urge the people of the State to accept the military bills in good faith, as a final settlement of the question of reconstruction. We believe this will lead to representation in Congress, the repeal of the present oppressive federal taxation, and restore prosperity to the country.

We shall occasionally devote a line or more moment to our friend of the Republican, and trust he may yet profit by our teachings. Who knows but that Frantz might be elected printer to the next convention? In this event, a timely conversion would be very necessary.

The Gazette and Reconstruction.

We mentioned the other day that Congress assigned as a reason for refusing the Kentucky delegation seats, that voters were overawed and prevented from exercising the right of franchise, and warned our people not to give Congress any such "pretext" for refusing Mississippi's delegation admission, when we are prepared to knock at the door and demand representation. This drew forth the following from the Columbus Index, an anti-Convention journal:

We ask attention to the following which we find in the Meridian Gazette, a journal that has been advocating the military bill. We predicted months ago that such journals would before reconstruction was accomplished be found with full radical harness on, defending radical measures on the score of merit, and justifying radical usurpations on the score of necessity and expedience. The event seems to have verified the prediction.—These same journals are now engaged in the work of defending Congress for the passage of the supplemental bill has week, insisting that that act was a just and necessary measure, rendered so by the course of them at the South, who, believing honestly that the military bill violated the Constitution, and if carried out would result in the complete overthrow of every vestage of civil liberty on this continent, raised their voice against the stupendous wrong and urged and entreated their people not to make it valid and binding on themselves and their posterity by voluntarily becoming parties to it. Not content with the service they are rendering the rascals, in this matter of the supplemental bill, these journals are devoting themselves to the task of palliating and excusing the recent action of Congress in refusing the Kentucky members their seats, an action which every candid and unprejudiced man must admit is as gross a blow at the Constitution of the United States and the sovereignty of Kentucky.

The truth of the matter is the Kentucky members were excluded because they were democrats. The charge that there was corruption or that voters were overawed and prevented from going to the polls is contradicted by the fact.—Nothing of the kind took place if the testimony of the conservative press of Kentucky is to be credited.

We wish to inform our friends of the Index, and some other cotemporaries who do not seem to understand the Gazette's position, that it is not true this journal defends radical measures on the score of merit, or justifies radical usurpations upon any pretext whatever; it is not true the Gazette *defends* the action of Congress towards the South at all, or maintains that its military bills were rendered necessary solely by the conduct of our people; it is not true that we all engaged in palliating or excusing Congress in its action relative to Kentucky, or that we justify its harsh and unconstitutional measures. We are no admirer of the dominant party or its manifestos; but having carefully and considerately examined the political situation, we urged our people to accept, without wrangling or division, the harness prepared to restore us to the Union, *and from which there is no possible escape;* we have urged it in order to rid the country, as speedily as possible, of the arbitrary and demoralizing government under which we now live; we have urged it because the present Congress will have the reigns of power for the next two years, and will organize the State governments before the expiration of that time, if but "ten negroes" appear at the polls; we have urged it because Congress is all powerful, and has offered better terms than will ever be tendered again; we have urged it because superior numbers have said the Union shall be preserved; we have urged it because there is no power in the North to save us from a radical ruler; we have urged it because our charred cities, wasted fields, impoverished treasury and hungry thousands demand peace and confidence and a return to those great pursuits which will make us rich, and a power in the government itself. We alluded to the Kentucky delegation and Congress, as we have alluded to many other acts of the dominant party. *Congress* says the members were refused admission for the reason stated in the extract printed by the Index, and we warned our readers not to give any such pretext here—that it would retard reconstruction, and put us in the Union at your leaves, with nine-tenths of our white population disfranchised. It is useless for us to waste ink, discussing the justice or injustice of their declaration relative to Kentucky, or indeed any of the Congressional legislation. We are now unable to change it one jot or tittle. "The will of Congress, and the "conquering idea" carry the day, and if we would restore order and law, wealth and security, we must ride into the Union at once on the present platform, with all its distasteful features, put then commence "putting the house in order," remedying the evils and removing the disabilities which now oppress us. This is the way to preserve and defend whatever good is left us, to bring the best good result possible out of the present situation, and stop any further evils from being visited upon our hapless race. Set us right, Mr. Index, and we will reciprocate when necessary.

Murder Advised from the Bench.

We copy the following from the Knoxville Free Press:

In the Circuit Court at Kingston, Roane county, East Tennessee, Judge Houk held the court in the place of Judge Hall. A man was arraigned for trial, charged with felonious assault. The prosecutor had been a rebel, the defendant a Union man. The Federal troops had encamped on the prosecutor's premises. The officer in command had told the son of the prosecutor to shoot the defendant if the value of the corn. They had agreed to arbitrate the matter. They met for the purpose. The defendant, with a pistol, made an assault upon the prosecutor, and as the prosecutor deemed a felonious assault. The case came for trial. The Attorney General waived the felony and the defendant submitted for a misdemeanor.

The examination of witnesses developed the facts as above stated.—His Hon—(?)—Houk—gravely announced that he was half inclined to send the defendant to jail because he had not shot the prosecutor! He said that he ought to shoot him yet. He further said that the rebels had tried to gain their independence in the field and had failed, and that they could not be allowed now, to steal themselves of the courts of this country to prosecute Union men. He further said that any Union man who might slay a rebel under the circumstances of the case before the court, should never be punished while he held the court.

Col. Thornburg, the District Attorney, immediately arose, and with a look that was itself a rebuke to the so-called Judge, said:

"If the court please, I wish to say, for the benefit of this people, that if any one shall under the advice of your Honor, take the life of any citizen of this county, I will have him indicted and brought to punishment.

"He will not be punished by this court," said Houk.

"I should not expect to try him before this court," said Thornburg.

Houk then proceeded to pronounce the judgement in the GUNEAS GRIP case above mentioned. He fined the defendant the enormous sum of five cents.

We derive these facts from members of the bar who were present, and from the Attorney General himself. What words of ours are needed as a commentary? Think of Houk in the seat of Alexander!

The Safety Hand Lamp,
AND
Meteor Burning Fluid.

THE new Meteor Safety Hand Lamps is the latest wonder and novelty, as well as the greatest improvement of the age. The Meteor Fluid is one of the best things ever discovered. The Meteor Fluid is non-explosive, and the Oil is non-burning. The use of the fluid is about one half that of ordinary coal oil; has no grease, smoke, smell, and will smoke the cleanest, and will not grease a fabric of any kind. The Meteor Safety Hand Lamps; the Meteor Fluid will burn in all coal oil lamps, thus making the Light Brilliant and Pure.

The Meteor Fluid is manufactured in Canton, Miss., and Chestnut county, Ala., and will be glad to supply our friends in those localities with the Meteor Fluid and Safety Hand Lamps.

It is bound to smash all other varieties of the Lamp business, and only needs a test to be appreciated.

DR. SEABROOK'S

Infant Soothing Syrup.

We have, by purchase of the original receipt, become sole Proprietors of the Celebrated Medicine. We ask you to give it a trial, with the assurance that you will in future, discard all those nauseous and destructive stuffs, such as Bateman's Drops, Godfrey's Cordial, Dewee's Mixture, &c., combinations of a past and anti-progressive age, when it was thought that the more disgusting the mixture the better the medicine

Use in the future only SEABROOK'S, a combination, quite up with the advancement of the age. Pleasant to take, harmless in its action, efficient and reliable in all cases. Invaluable in the following diseases:

SUMMER COMPLAINT, IRREGULARITIES, OR THE BOWELS, RESTLESSNESS, TEETHING, &c.

Gives health to the child and rest to the mother.

We could furnish any quantity of certificates bearing evidence of its superior qualities, but prefer that our medicine should stand on its own merits, which it will do upon trial.

PURIFY YOUR BLOOD.

HURLEY'S SARSAPARILLA.

OF all the remedies that have been discovered during the present age for the thousand ills that flesh is heir to, none equal this wonderful preparation. Only ten years have elapsed since the discoverer commenced upon a course of studying experiments, and perfecting in-first introduced it to the public, and it is already recognized by the most eminent physicians in all parts of the country to be the most surprising and effective remedy, for certain diseases, of which they have knowledge.

All other compounds or syrups of the root have hitherto failed to command the sanction of the Faculty, because, on being tested, they have been found to contain corrosive ingredients, which neutralize the good effects of this Sarsaparilla, and oftentimes injure the health of the patient. It is and so with Hurley's preparation.

This is the pure and genuine extract of the root, and will, on trial, be found to effect a certain and perfect cure of the following complaints and diseases:

Affections of the Bones, Habitual Costiveness, Debility, Diseases of the Kidneys, Dyspepsia Erysipelas, Female Irregularities, Fistula, all Skin Diseases, Liver Complaint, indigestion, Piles, Pulmonary Diseases, Syphilis, Scrofula or King's Evil.

ANNUAL CIRCULAR.

Dolbear's Commercial College

OPEN CONSTANTLY, DAY AND EVENING
Corner of Camp and Common Sts.,

In the Elegant and Spacious

IRON BUILDING,

NEW ORLEANS, LA.

Founded in 1832—Chartered by the Legislature of Louisiana.

WITH COMMERCIAL, AGRICULTURAL, AND MECHANICAL DEPARTMENTS.

THIS COLLEGE, has, by its own merits and thorough, practical plan of education, outlived all the liberally endowed State Colleges of this and the South-Western States. It is the

Oldest Commercial College in the United States,

AMPLE ARRANGEMENTS FOR

One Thousand Students

During the Current Year.

Comparative Cost and Value of the Education Given Here and in the Ordinary and Literary Colleges:

It is believed to be the first in Europe or America, chartered with Commercial, Agricultural and Mechanical Departments. Every student who gives proper attention to the instruction, is qualified before graduating to keep any set of books, in matters not what the business may be, and do the Correspondence of any house. Students can attend the "Commercial Course," or to the English, French, Spanish, German, Latin or Greek Languages, or the higher Mathematics, etc., separately. We have

Cost of full Commercial Course here—Tuition.....$145
Board for three months.....90
Contingent expenses, about.....20
Total.....$255

After which the student is ready to go into business, and make $1000, $2000, or $3000, annually.

Cost of ORDINARY LITERARY COLLEGES.—About $400 per annum, for four years, or $1600; clothing for four years, $200, or $800—total $2400, and four years of time expended. Our student will begin to work after three or four months, and make, say the first year, about $1200; next two years and nine months at probable $1800, or $5150 he earns in four years. Deduct $255 leaves $5802 net gain to our Students; but to the other a net expense of $2400, or $8225 our student has gained over the other. We suppose the Students in both cases to have a good English education to begin with. We deem a business education that enables the student to earn $1000, $2000, or $3000 annually, to be the best forunes parents can give their sons. So far as known, not one of the thousands of our graduates, is out of profitable employment. A word to the wise is sufficient.

...PHIC NEWS.

...ursday, July 17.—Matthew's divi... ...ssed cases, regarding ...ce, was ruled out. Nothing ...d transpired to-day. The de... ...notice that they would close ...evidence to-morrow.

...TE.—Mr. Wilson proposed the fol... ...amendment to the Constitution: ...No distinction shall be made by the United States nor any State among citizens in their civil and political rights on account of race or color."

The amendment was ordered printed.

A bill for carrying out the convention with Venezuela was passed.

A bill, that no person shall be disqualified by reason of race or color from holding office in the District of Columbia, was passed by a vote of 25 to 6.

Says—Boyard, Buckalew, Davis, Hendricks and Johnson.

Indian affairs were discussed until the hour of adjournment.

HOUSE.—The Secretary of the Navy submitted a communication showing that the expenditures for the establishment of naval officers fifty-five years in service.

Butler rose to a question of privilege, and made an allegation in regard to prisoners. A colloquy ensued. Baldwin asked Eldridge whether he expected the House to take Ould's statements against the testimony and statements of the Union officers. Eldridge said he believed that Gen. Butler himself would not deny that Gen. Ould was a highly honorable and conscientious man. (Derisive laughter on the Republican side.)—Butler remarked that before the war he had thought Gen. Ould a highly meritorious and honorable man, but when a man committed treason he was like a woman fallen from virtue —ready for any crime, and from that hour no one knew whereto he find him.—Eldridge remarked that Butler by this last statement he had probably forgotten the eminent men who had gone into rebellion. Hancock, Lee and Wade Hampton, (hisses) every one of them had been called a rebel [continued hisses] until rebellion became a success.

The following was introduced and passed under a suspension of the rules, by a strict party vote:

"That the doctrine avowed by the President that the subrogation of the several States binds the United States to pay their debts prior to the rebellion as war with the principles of International Law, is at stab at the national credit, abhorrent to every sentiment of loyalty and pleasing only to traitors, their allies and sympathizers, by whose agency alone the governments of said States were overthrown.

The Senate bill relating to the political right of holding office was amended to include the right to sit on juries, and was then referred to the Judiciary Committee.

A resolution requesting the President to issue a proclamation directing all proper officers to prevent the holding of Market fair was referred to the Committee on Foreign Affairs.

ATLANTA, July 17.—Ex-Senator B. H. Hill delivered a speech at Atlanta yesterday. He took strong grounds against reconstruction under the military bill and advises the people to reject those terms.

NEW ORLEANS, July 17.—The Common Council adopted an ordinance providing for a common school education for colored children, and appropriating $60,000 for the maintenance of the same.

There will be a joint meeting of the City Council to-morrow night, it is supposed for the purpose of taking steps for the withdrawal from circulation of the larger denominations of shinplasters.

PARIS, July 17.—La Moniteur, of to-day, announces that Chili and Peru have accepted, with certain modifications, the president of the United States in the Spanish war.

WASHINGTON, July 18.—Senate.—A joint resolution was introduced extending steam mail service to China.

The Committee on Foreign Relations were directed to inquire how many Mexican soldiers were executed under Maximilian's decrees.

Mr. Wilson introduced a resolution lauding the Mexicans. Referred.

The consideration of Indian affairs was resumed, and the bill finally passed. It provides for a commissioner to obtain peace if possible, otherwise to call for 4,000 border soldiers to push the war. Adjourned.

House.—Mr. Schofield introduced a resolution directing the Secretary of the Treasury to withhold the payment of five millions of cotton claims awarded by the Court of Claims. He said the claims could be examined by a proper committee next session, and paid by an appropriation if found correct. Resolution passed.

A resolution authorizing the committee on Southern Railroads to proceed by subcommittees passed.

Mr. Robinson asked leave to introduce a preamble and resolutions to remove the free cotton tax. Ellison and Benjamin objected.

Resolutions sympathizing with Candia were passed.

Mr. Bingham sent to the clerk's desk and had the following telegram read, from Hon. Sickles:

"Thanks for your handsome reply to Mr. Eldridge. You may relieve his anxiety with the consoling information that my equipage has not cost him or his friends a dollar. Said equipage being the exclusive gift of my colleagues of the 3d army corps.

Mr. Logan offered a preamble and resolutions which were passed, reciting the general rumor that armed expeditions are being organized in this country against the Republic of Mexico, at variance with the wishes and feelings of all good citizens of the United States and contrary to established public policy and respectfully requesting the President to issue a proclamation requiring all proper officers of the United States to prevent any such unlawful organizations being formed, and warning all persons who depart from the United States on such expeditions that they forfeit all rights to protection under the laws of the United States.

A substitute was offered for the Senate bill guaranteeing equal rights in the District, by striking out the word white wherever it occurred in charter, ordinance or by laws. Passed.

The House then adjourned.

A meeting of the friends of Maximilian was held last evening.

Resolutions were adopted condemning the execution of the Arch Duke, favoring armed intervention in the affairs of Mexico, and appointing a committee to call a public meeting of citizens on the subject. The Germans are taking a prominent part in the matter.

It has been ascertained from a gentleman connected with the Court of Claims that the Court has allowed claims only to the extent of $110,000 in eleven out of twenty-one cases, others having been continued, and that the Court requires not only evidence of loyalty, but of active support of the cause of the Union to support claims.

Several witnesses from Canada impeached the truthfulness of St. Marie and Dr. Millan, in the Surratt case.

It appears that St. Marie left Canada because he stole $600 from the education office. The debtors are still expecting Government to settle accounts.

NEW ORLEANS, July 18.—The officers of the U. S. Engineers, Locks and Moulds, from Dispatch, comprise the report of the death of Sonia Arnaud.

The Government considers the claim for $400,000 against Mexico settled. Several members of the Cabinet have left for the great switches of the universe." Some hold that it should not be made obligatory in all cases. Mr. Lewis, Secretary of Eugene Pulleian favored the writer. Secretary of commerce and thought the Secretary of Navy should not commit himself to the Government. On the other side M. Garrison and Hermann, Secretary of Interior and Postmaster-General of the order. The debate was animated, but a very large majority prevailed in favor of the resolution proposed by Seward.

OPINIONS OF THE PEOPLE CONCERNING
HOSTETTER'S
STOMACH BITTERS.
PROTECTION FOR THE HEALTHY
and
RELIEF FOR THE SICK.

INTELLIGENT TESTIMONY IS AS IMPORTANT IN MEDICINE as in law. The great Patrick Henry said, "Give me leave to tell you that I have been guided was the clamp of experience." The experience of others is the only guide we have in relation to the properties and effects of a medicine; opinions, however eminent, are entitled to no weight, and the operation or which they have had abundant opportunity of witnessing, are entitled to the highest confidence. Of this class are the opinions which we are constantly receiving of the people, and the mass of testimony to any other that can be offered in behalf of a proprietary medicine. Perhaps no such evidence have been published in favor of Hostetter's Stomach Bitters, pamphlets containing many of the unequaled Tests and Attestations has been before the world, and although its reputation as a Remedy and Specific has long been established throughout the Western Hemisphere, it is still constantly receiving additional testimony to its virtues. Many of the most striking proofs that can be cited of the intrinsic excellence of the Bitters, is the general acknowledgment of its reputation by medical men. The profession as a rule set their faces against advertised medicines, and with good reason, for quackery has tarnished their profession, and they regard with suspicion and contempt all who resort to the purest stimulant and best stomachic that money can procure.

The present season of the year is a trying one to the digestive organs, and especially to those who live in August and September, heavy draughts are made upon the system, and it becomes weak. It is then we observe a languish and vitality in order to meet the trying difficulties of the season. Hostetter's Stomach Bitters are a chemical medicine, sustains the system through the season of sickness, and is the most powerful and general vegetable restorative, and any temperature, any climate, any condition of the system, will be improved with congenial and comparative impunity.

Read the following letter from M. Bourne, a well-known citizen of Pittsburgh, Pa:

PITTSBURGH, May 10, 1866.

Messrs. Hostetter & Smith:

GENTLEMEN: During a visit to the West last fall, I contracted a severe cold, which brought me to my bed, and finally terminated in typhoid fever and confined me to my room for several months during which time I was, physically, so prostrated that I almost despaired of ever recovering my health, having entirely lost my appetite for days, not being able to eat a spoonful of food, or to keep it on my stomach should a craving sensation in my head, and my friends were daily calling, all from debility caused by my prostrate condition, brought about by the fever. Your Stomach Bitters was the first I was recommended me to use (the celebrated Stomach Bitters of Hostetter & Smith), and I used the use of stimulants in any form; I at first declined, but afterwards, owing to my prostrate state, and seeing the medicine for several weeks as directed, my appetite began to return, my vitality and strength and my former strength and vigor. My sleep (from the time I began using the Bitters) was all irregular, and more quite natural, and in fact I am glad to say that I am now in the enjoyment of my health, and recommend it to my friends and to the public, feeling assured that I use them regularly.

Yours truly, M. BOURNE.

E. BOURNE, 43 Market st.

Another letter, from well known citizen of Pittsburg, dated September 4, 1866:

PITTSBURGH, Sept. 4, 1866.

GENTLEMEN: I think I am only doing the part of a good citizen when I testify to the great benefits I have received from your Stomach Bitters, which I have used for several years. Being in the Oil regions in '61, I was taken down with fever and being dyspeptic, which left me very weak, I was advised to try your Bitters. I did so, and they are invaluable. This summer, having another bilious attack and much reduced in flesh, I commenced to get me 1?'s in a, which set me very weak.

The Situation

July 20, 1867.

Editor of the Mobile Daily Times:

SIR—My attention has been called to the following publication in the radical newspaper published in the city, with the suggestion of friends that the letter referred to might by some be supposed to have been written by me, and that it was due to myself to correct the erroneous impression.

THE REASON WHY.—Hon. John McRae, of Mississippi, in a letter to the Meridian Chronicle, thus concisely states his reasons for being a Republican:

"I advocate reconstruction upon the Congressional plan; and recognizing the fact that the Republican party is in full power for an indefinite period; that it is the only party in existence that can do the South any good; that it has dealt with the South not according to her just deserts, if rebellion be a crime, but in a spirit of magnanimity unparelled in the history of rebellions and that it has for its object the elevation and elevation of the toiling masses of the republic—for these reasons I expect to affiliate with the Republican party."

I have written no letter to the Meridian Chronicle, and the above extract was not written by me. The sentiments which it contains are not mine, and the writer, "Hon. John McRae, of Mississippi," is unknown to me. I do not affiliate with the Republican party, nor do I expect to do so. I can have no respect for a party which disfranchises me and confers the right to vote upon my negro, that was, who is incapable of its judicious exercise.

I do not believe the late war was a rebellion or a civil war, but a war between two distinct, separate governments—the United States, and the Confederate States of America. I do not, therefore, believe the people of the Confederate States were rebels or traitors. The United States, as the conquering power, under the form of the Republican party, has dealt with the people of the Confederate States unkindly, harshly, bitterly, and in a spirit of malignity and hate among civilized people unparalleled.

I do not approve of the Congressional plan for reconstruction. I think the military bills are odious and tyrannical; but I may, from necessity or a choice between evils, submit to what I do not approve. In this light, I think it best for our people to reconstruct their State governments under these bills, for the reason that they afford the only hope, bad as it is, of giving them the control of their State affairs. If we do not reconstruct under these bills, the question goes back to Congress to say under what bills they *shall* reconstruct. Congress will say the rebel sentiment defeated reconstruction, and the restoration of the Union, and will restrict the right of suffrage to loyal men, meaning Radicals and blacks, excluding all who aided or in any way participated in the rebellion. This will put the State governments all once in the hands of the Radicals. The question is, will we make an effort to take advantage of the small opportunity we have under the present bills to prevent this result?

The mode proposed to reconstruct is by a Convention, and it is said the people have a choice to vote for or against it. So they have, but it is a coerced choice, to vote for the Convention bill as it is, or vote for no Convention and take something worse. If the Convention is voted down, then what is the situation? Some say we will remain under military rule, as we are now. But will this be so? No. If not, Congress is determined to reconstruct, and on its own terms, and will immediately pass other bills for this purpose. Do any suppose the terms will be better under other bills than they are under the present ones? I do not. In other bills Congress will certainly restrict still further the right of suffrage, and may include in them barsher measures, punishment and confiscation. But without these, they will probably, by restricting the right of suffrage, reconstruct the States in the hands of the Radicals, and then we may have punishment and confiscation by the State legislatures. Do any expect, if the Convention is voted down, that they will get rid of the negro as a political element, or of negro suffrage in future bills for reconstruction? I do not. I am sure Congress will make this the predominant element.

But some say a revolution is taking place in public sentiment at the North, and the Radical party is breaking down. Therefore vote down the Conventions and we will get better terms. I do not see this myself. The party is stronger now than it has ever been, and the present Congress is a new Congress, in for two years. Its first and regular session would not have been held until December next, but for a bill passed by the last Congress that a new one should assemble on the 4th of March, the day that the old one going out. What hope then, have we for the next two years, of better terms than the present bills offer, objectionable as they are? I see none. But from the bill just passed by the almost unanimous vote of both Houses over the President's veto, (six only in the Senate and twenty-four in the House opposing it,) construing the present Reconstruction bills most harshly against us, we have the most certain evidence that we can expect nothing better from this Congress in the future.

The fact does not seem to be appreciated or recognized that the people of our States are to be divided into two parties, unfortunately and unavoidably, on the question of reconstruction and the control of the State governments. One is to be composed of the Conservative whites and Conservative blacks—the other of the Radical whites and radical blacks, and between these two the issue is to be made for ascendancy in the control of the State governments.

The Radical whites and blacks seem to have understood this issue, and to have been up to the time, more active in their organization, through their leagues and conventions, than the Conservative whites and blacks. I think it has grown out of the fact that the Conservative whites, who constitute the body of our people, have been divided in their opinion as to the policy of reconstruction that they have not been less efficient in their organization, and that the Conservative blacks have not been encouraged, and have not known how to co-operate or unite with them in force. I am sure, if the business management of all our people were united, a sufficient number of the intelligent and well-disposed blacks would unite with them to give this party a majority in most, if not all the reconstructed States. Upon this issue with us the safety of our lives, property and families, and the preservation of social order. It is a matter of serious regret to see our people divided when they are upon the eve of the most solemn issue which they have so much at stake, and especially that asperity of feeling, with some, should be manifested. If these differences of opinion. We are certainly all aiming to secure the best results for the future welfare of States. If differences of opinion should be generated with the kindest feeling. I think it best to make an effort to save the control of our State governments, if it can be done, under the measures now offered, rather than to risk measures which must be inevitably worse in the future. Others may differ with me, and all I ask of them is to concede to me, as I do to them, sincerity of purpose.

I have not argued this matter on the honor question. I think we maintained our honor in arms, though we were overpowered. I think we have maintained our honor in resisting measures of the government in whose power we are, until we can no longer resist safely or successfully.

Respectfully,
JOHN J. McRAE.

FOR CONGRESS.—It will be seen by reference to another part of this issue, that the friends of our countryman, Dr. W. H Tegarden, have announced him for the restoration of the Fifth) District. The doctor is an old citizen of this county and is well known, therefore, it would be supererogatory for us to speak of his fitness for the position.—Handsboro Democrat.

There was a mail robbery in Monroe county lately, and the civil officer sent a dispatch to Col. Gay, commanding Sub-District Headquarters, at Columbus, proposing to turn over the freedmen arrested on suspicion of having committed the deed for trial by Military Commission. Col. Gay's reply was

"The civil authorities must try the case—if they refuse to do their duty, inform me at once."

George Wright an ex-Confederate soldier was shot and killed at Calhoun, Kentucky, on Saturday by W. Little, constable of the county. The latter was arrested after shooting, but subsequently escaped.

A DESPITUE COLONY OF FREEDMEN IN FLORIDA.—The Sub-Assistant Bureau Commissioner for the sub-district of New Smyrna, Florida, reports that the colonization of a large number of colored people by selling them to certain parties with the avowed intention of benefiting them, has it is feared, been attended with unfortunate surroundings and circumstances. The colonists themselves state in almost every instance that they have been disappointed and deceived. The condition of these colonists is represented as very destitute, and those who still remain, some having left for other portions of the State, are unable to leave, from poverty, or are said to get out of the country, and must of necessity, for some months to come, be a burden to the Government.

At this office, Petitions in Bankruptcy, with the accompanying Schedules.

The North Mississippian, after misrepresenting and wholly perverting Gov. Brown's connection with the Terry meeting, stupidly asks, "who is Gov. Brown, that his public acts are to be exempt from animadversion?" Neither Gov. Brown nor his friends complain of legitimate criticism on what he has said or done, but they do object to such misrepresentations as appeared in the North Mississippian, and whether from malice or ignorance, they are wholly inexcusable.

The "war of races" in which the editor of the North Mississippian supposes he is taking so brave a part, exists only in his distempered imagination. Like Don Quixote, in his encounter with windmills, he imagines that he is doing the work of a giant, but the feebleness of his blows, more ridiculous and puny than those of the knight of La Mancha, excite only derision. Should the white race be in danger, a greater champion than him of Tupelo, would be necessary.

An interesting letter from ex-Governor, John J. McRae, appears on our first page. The letter was provoked by some of our cotemporaries confounding the ex-Governor's name with that of Hon. John McRae, of Kemper, who has joined the Radical party. Though Gov. McRae has no use for a party that disfranchises him and enfranchises his late slave, he believes our only hope lies in reconstructing under the laws of the dominant party.

ELECTING OUR "FAVORITES" TO CONGRESS.—The Cincinnati Commercial's Washington correspondent in writing of his interview with the President relates the following conversation which shows that the President is opposed to our sending "rebels" to Congress. We must vote, we suppose, to the present complexion of that body.

I had scarcely been seated, when Mr. Johnson, alluding to one of my letters from Georgia, said he was very glad that I had published the fact that he had advised against the election of Alexander H. Stephens to the United States Senate in 1865. He couldn't imagine, he said, where I had got the information. I told him my informant was an ex-army officer who, in the spring of 1865, was chief of staff to General Steedman, then commanding the district of Georgia; that he had informed me of a dispatch sent by General Steedman to the President, inquiring if it would be advisable to elect Stephens, and of the President's prompt reply, that it would be very unwise to think of doing so—that Mr. Stephens was a prisoner of war, and ought not to enter political life while such was the case. "I can't make out how you got the facts, but you got them right," said the President. "I told them not to think of electing Mr. Stephens, or any man who had been engaged in the rebellion as he had, and yet I was denounced all over the country for trying to get rebels into office, and appointing rebels to office. I never did any thing of the kind. What I was wrong to elect such men then, and it would be wrong to elect them now."

The Steamboat Prince of Wales, belonging to the New Orleans, Mobile and Chattanooga Railroad Company, was at the bay last week. brought over a party of Engineers, who were busy for a few days surveying the route, and locating the crossing place of the Road.—Shieldsboro Gazette.

General Grant, in a conversation with a senator, said the Liberals did right in executing Maximilian, and that the United States ought to stand by Mexico in that way. So says a Washington special to St. Louis Democrat.

ASK OF MASONRY.—We had an item taken from a Glasgow paper, stating that St. John's Lodge No. 3, of the city has recently celebrated the eight hundredth ninth anniversary of its existence, it having been created by a charter from King Malcolm in 1027.—We should like to see the muster roll of that lodge beginning more than eight hundred years running along until the present time. What kings and kingdoms have risen and fallen since the guard was first warded in the East. How the world has changed and what changes has this temple of Masonry passed through in a hundred years in the line of a lodge.

FATAL ACCIDENT.—Vedegen that a few days ago at Mr. W. C. Bridges, of this county, while shooting a gun in a careless manner, the gun in some manner discharged, the whole load taking effect in the head of a brother named Vedegen, living with him, instantly.—Vicksburg Herald.

The Brandon Republican, when unable to answer an article without argument, throws off a lot of twaddle about secessionists, democracy, &c., thus making up in froth and wind what it lacks in sense. The course of the Republican in ever prating about the political antecedents of its cotemporaries, who happened to be democrats, is decidedly unbecoming even a man who was a citizen in times of war, and is now a warrior when there is peace. We are not ashamed of our past political affiliations, but think writing about secession and secessionists is a very poor way to enlighten the people now, or solve the great problem agitating the country. *Meridian Gazette.*

We are not surprised at such paragraphs as the above. As a public journalist, we have always been free to speak of men and measures as they deserve, and in doing so have had occasion to administer some wholesome advice now and then to the editor of the Meridian Gazette.

You say, "when we are unable to answer an article with argument, we throw off a lot of twaddle about secessionists."

Now, Shannon, a few plain questions: Did your paper or mine throw off twaddle in 1860 and '61? Was it your paper or mine that advised a peace policy in'1861? Tell the naked, plain truth, and say that the Republican was right all the way through. We don't write what we think the people want to hear, but what they ought to know, understand and do. Your whole political course for the past ten years has been grievously wrong, and destructive of the best interests, of the country, and now in these troublous times you are again busy in trying to inaugurate a policy to complete our ruin. Stop such work, listen to our sober truths, take a *back seat*, be kind to your neighbors, ask forgiveness for the ill advice which you have heralded through the country, and read earnestly the Republican, and you may yet do well.

We take the above from the last number of the Brandon Republican. We will endeavor to answer plainly what Frantz calls plain questions. Without believing in the constitutional right of secession, we did, in 1860, regard the election of Mr. Lincoln as a "declaration of war against the South." In common with the great majority of the Southern people we believed slavery no longer safe in the Union, and we favored the formation of a separate government to preserve that institution. This was Revolution. We believed it justifiable.—This was what the South did. But the editor of the Republican opposed it. We are willing to let him have the credit of it. If the South was *right* Frantz was *certainly wrong.*

But it is useless to say inquire who was right or wrong in 1860 or 1861. We do not like the Republican claim infallibility. If we erred it was with the South, with our own race and section. Through the gloomy years of strife and blood that followed we sorrowed, rejoiced, and suffered with the Southern people, and now we ask no exemption from the errors or the criminalities of the Rebellion, no matter from whence the accuser comes.

But when our armies surrendered, when slavery itself, the cause of the war, was destroyed, we saw no Government under which we could expect to live, but that of the United States, and we have looked to the Reconstruction and restoration of Missisippi to the Union as the best means to promote the prosperity and happiness of her people.

But our friend of the Republican desires our opinion on his course as a journalist, and we proceed to give it briefly. Candor compels us to state that we regard Frantz as *wrong* and *inconsistent* during the war, and that since that time his course as editor of the Republican, has not only been *wrong*, but highly detrimental to the best interests of the country. Having opposed secession, at the eleventh hour, you became a convert to the war, and continued to render it a feeble and uncertain aid until the surrender. You then began to boast of your *Unionism*, and clothed with it as a garment, you sought to be elected convention printer in 1865, as the only *consistent Union editor in the State.* Strange as it may appear, your extraordinary claims were overlooked, and Col. Yerger of the News elected. Then commenced your vagaries. After condemning negro testimony, you finally were defeated for the Legislature, partly because you favored it. Your defeats or something else have caused you since that time, to furiously oppose every measure calculated to promote reconstruction, and restore peace to the country. In this you are not only *wrong* but *inconsistent*, with your professions of 1865. You know the South is helpless, and you try to arouse the passions of the people, and urge them to a course that would only bring further humiliation. More than that, your teachings, if followed by the Southern people, would create a war of races, in which we would array against ourselves the blacks, backed by the power and authority of the Federal Government. Your kind advice to take a back seat is appreciated, but wholly unnecessary. The writer is disfranchised, incapable of voting or holding office. We have no aspirations but for the good of the country. Without regard to the past, without reference to what the public desire, impelled by a sense of duty, we urge the people of the State to accept the military bills in good faith, as a final settlement of the question of reconstruction. We believe this will lead to representation in Congress, the repeal of the present oppressive federal taxation, and restore prosperity to the country.

We shall occasionally devote a few more moments to our friend of the Republican, and trust he may yet profit by our teachings. Who knows but that Frantz might be elected printer to the next convention? In this event, a timely conversion would be very necessary.

The Gazette and Reconstruction.

We mentioned the other day that Congress assigned as a reason for refusing the Kentucky delegation seats, that voters were overawed and prevented from exercising the right of franchise, and warned our people not to give Congress any such "pretext" for refusing Mississippi's delegation admission, when we are prepared to knock at the door and demand representation. This drew forth the following from the Columbus Index, an anti-Convention journal:

We ask attention to the following which we find in the Meridian Gazette, a journal that has been advocating the military bill. We predicted months ago that such journals would believe reconstruction was accomplished be found with full radical harness on, defending radical measures on the score of merit, and justifying radical usurpations on the score of necessity and expediency. The event seems to have verified that prediction.—These same journals are now engaged in the work of defending Congress for the passage of the supplemental bill last week, insisting that that act was a just and necessary measure, rendered so by the course of those at the South, who believing honestly that the military bill violated the Constitution, and if carried out would result in the complete overthrow of every vestage of civil liberty on this continent, raised their voice against the stupendous wrong and urged and entreated their readers not to make it valid and binding on themselves and their posterity by voluntarily becoming parties to it. Not content with the service they are rendering the radicals, in this matter of the supplemental bill, these journals are devoting themselves to the task of palliating and excusing the present action of Congress in refusing the Kentucky members their seats, an action which every candid and unprejudiced man must admit is at once a blow at the Constitution of the United States and the sovereignty of Kentucky.

The truth of the matter is the Kentucky members were excluded because they were democrats. The charge that there was corruption or that voters were overawed and prevented from going to the polls is contradicted by the facts.—Nothing of the kind took place if the testimony of the conservative press of Kentucky is to be relied on.

We wish to inform our friends of the Index, and some other cotemporaries who do not seem to understand the Gazette's position, that it is not true this journal defends radical measures on the score of merit, or justifies radical usurpations upon any pretext whatever; it is not true the Gazette *defends* the action of Congress towards the South at all, or maintains that its military bills were rendered necessary solely by the conduct of our people; it is not true that we all engaged in palliating or excusing Congress in its action relative to Kentucky, or that we justify its harsh and unconstitutional measures. We are no admirer of the dominant party or its manifestos; but having carefully and considerately examined the political situation, we urged our people to accept, without wrangling or division, the harness prepared to restore us to the Union, *and from which there is no possible escape;* we have urged it in order to rid the country, as speedily as possible, of the arbitrary and demoralizing government under which we now live; we have urged it because the present Congress will have the reigns of power for the next two years, and will organize the State governments before the expiration of that time, if but "ten negroes" appear at the polls; we have urged it because Congress is all powerful, and has offered better terms than will ever be tendered again; we have urged it because superior numbers have said the Union shall be preserved; we have urged it because there is no power in the North to save us from a radical ruler; we have urged it because our charred cities, wasted fields, impoverished treasury and hungry thousands demand peace and confidence and a return to those great pursuits which will make us rich, and a power in the government itself. We alluded to the Kentucky delegation and Congress, as we have alluded to many other acts of the dominant party. *Congress* says the members were refused admission for the reason stated in the extract printed by the Index, and we warned our readers not to give any such pretext here—that it would retard reconstruction, and put us in the Union a year hence, with nine-tenths of our white population disfranchised. It is useless for us to waste ink, discussing the justice or injustice of their declaration relative to Kentucky, or indeed any of the Congressional legislation. We are now unable to change it one jot or tittle. The will of Congress, and the "conquering ides" carry the day, and if we would restore order and law, wealth and security, we must step into the Union at once on the present platform, with all its distasteful features, and then commence "putting the house in order," remedying the evils and removing the disabilities which now oppress us. This is the way, to preserve and defend whatever good is left us, to bring the best good possible out of the present situation, and stop any further evils from being visited upon our helplessness. See us right, Mr. Index, and we will reciprocate when necessary.

Murder Advised from the Bench.

We copy the following from the Knoxville Free Press:

In the Circuit Court at Kingston, Roane county, East Tennessee, Judge Houk held the court in the absence of Judge Hall. A man was arraigned for trial, charged with felonious assault. The prosecutor had been a rebel, the defendant a Union man. The Federal troops had encamped on the prosecutor's premises, and the officer in command had sold the corn of the prosecutor to the defendant for the value of the corn. They had agreed to arbitrate the matter. They met for the purpose. The defendant, with a pistol, made an assault upon the prosecutor, such as the grand jury deemed a felonious assault. The case came for trial. The Attorney General waived the felony and the defendant submitted for a misdemeanor.

The examination of witnesses developed the facts as above stated.—His Hon—(?)—Houk— gravely announced that he was half inclined to send the defendant to jail because he had not shot the prosecutor! He said that he ought to shoot him yet.—He further said that the rebels had tried to gain their independence in the field and had failed, and thus they could not be allowed now to avail themselves of the courts of the country to prosecute Union men. He further said that any Union man who might slay a rebel under the circumstances of the case before the court, should never be punished while he held the court.

Col. Thornburg, the District Attorney, immediately arose, and with a look that was itself a rebuke to the so-called Judge, said:

"If the court please, I wish to say, for the benefit of this people, that if any one shall under the advice of your Honor, take the life of any citizen of this county, I will have him indicted and brought to punishment.

"He will not be punished by this court," said Honk.

"I should not expect to try him before this court," said Thornburg.

Houk then proceeded to pronounce the judgment of the court in the case above mentioned. He fined the defendant the enormous sum of five cents!

We desire these facts from members of the bar who were present, and from the Attorney General himself.—What words of ours are needed as a commentary? Think of Houk in the seat of Alexander!

The Safety Hand Lamp,

AND

Motor-Burning Fluid.

THE new Safety Hand Lamp is the latest and most useful invention of the age. The burning qualities of the Oil are such as to render it superior to any other for use in mines, Steamboats, Factories, Stables, Stores, Halls, Churches, Dwellings, &c., &c. It is by far the most economical, as it will burn a week with the same wick, and requires no trimming. The cost of the fluid is about one-half that of refined coal oil, and in point of safety, it stands unrivaled. It will not explode, and will not burn in a close vessel. Lamps, Burners and Wicks always on hand. Lamps, the Safety Fluid and Burners for use as coal oil Lamps for attaching the Light House or Motor Fluid Burners.

We have the agency for Lauderdale county, Miss., and Choctaw county, Ala., and will receive orders for the Fluid and Lamps.

The Motor Fluid Burners are a great revolution in the Lamp business, and only needs a test to be appreciated.

The advertisement of the second drawing of the Southern Asylum Land Company appears elsewhere.

The next drawing takes place in August, and those intending to interest themselves should do so at once. The drawing is conducted by sworn managers, in the open face of day, in the presence of every body, and fraud and dishonesty is impossible, while the high character of the parties entrusted with the institution would forbid such a thing, even were it possible.

The next drawing offers a brilliant prize of twenty thousand dollars. A rare chance for a fortune is now offered. Some one will own Col. Galloway's $25,000 residence for five dollars. Among prizes to be distributed in the September drawing is the donation of Mr. Jones, of the Capitol, Addison Hall, of the State House at Jackson, Mississippi. This four hundred acre tract is divided centrally by the railroad. The improvements are magnificent, and will be won by some one for a single dollar. Call on L. N. Hart, Esq., and buy your tickets.

Decking the Brow.—The feeling elated is like lifting up the heavy drapery that hangs in chaotic folds upon Nature's face, and letting the bashful gaze of virgin earth leave with joy, on reach the early kiss of morning's dawn upon her ruby lips, to look upon creation in her bridal robes, with her diamond fragments of jewelry—now decking her brow with the flowers of spring and contemplating the golden treasures of health created by the use of the Great Southern Preparation, as advertised in another column.

Vice President Langston.—The colored people are wakking up, with a vengeance, in the fact that it is in their power to extort from the Republican party the nomination of a candidate of their own for the Vice Presidency of the United States. That Vice Presidency Senator Sullivan says John M. Langston, of Ohio, is the right man for the right place.

Some of the citizens being about to leave on the day of arrivals, and only about one hundred out of the seven thousand of the Imperial prisoners were to be found.

The Odd Fellows of Kentucky are now engaged in a canvass of the State in behalf of an Institution which will, if successful, be located at or near Louisville. The institution proposed is for the widows and orphans of deceased members of the order. It is to be a home for the helpless children. The institution proposed will be somewhat similar to the Masonic Home at Louisville, Kentucky, which was made by the munificence of Mr. Speed, who gave $100,000 for the purpose. The Odd Fellows of Kentucky are making a move in the right direction, and one that will receive the hearty support of the entire fraternity throughout the country.

HAVELOCK IN EAST INDIA.

The following poem was written by an Irish officer in the English service while on duty in a city in East India in which the plague was then raging terribly. The inhabitants, particularly the English residents, were dying every day by hundreds, when, of twenty officers of the English army—without a shadow of hope of ever seeing their country or friends—formed a firm band and sought to drown all sorrow in the wine cup, and by jest and song to divert their thoughts from the fearful and irreversible fate which each one knew awaited him. The author of the poem himself lived to see the echoes of his own jocund mirth before the echoes of "Amen for the next that dies," had ceased to reverberate; and in less than a week every member of the club crossed to the "unknown shore."

We won't mouth the mumbling matter,
And the mail as sound are here;
As they echo one burst of laughter,
It sound sought the echo of fear.

But stand by your glasses steady,
And hurrah! for the next that dies.

Not less in the goblets' glowing;
Not here in the trembling wine!
Tis cold as our hearts are growing,
And dark as the doom we must meet.

But stand to your glasses steady,
And soon shall our pulses rise;
A cup for the dead already—
Hurrah! for the next that dies.

Not a sigh for the fot that darkles,
Not a tear for the friends that sink;
We'll fall amidst the wine cup's sparkles
As amidst the wine of battle we drink.

So stand to your glasses steady!
'Tis this that the respite buys—
A cup to the dead already—
Hurrah! for the next that dies.

Time was when we frowned on others;
We thought we knew better things,
Ha! ha! let them think of their mothers
Who expect to see them again.

No! stand to your glasses steady!
The haughtiness here the wise;
A cup to the dead already—
Hurrah! for the next that dies.

There's many a hand that's shaking,
There's many a hand that's sunk!
But soon, after our hearts cease quivering,
They'll burn with the wine we've drunk.

So stand to your glasses steady!
'Tis here the revival lies:
A cup for the dead already—
Hurrah! for the next that dies.

There's mist on the glass congealing—
'Tis the hurricane's fiery breath!
And thus does the warmth of feeling,
Turn to ice in the grasp of death.

Ho! stand to your glasses steady!
For a moment the vapor flies;
A cup to the dead already—
Hurrah! for the next that dies.

Who dreads to the dust returning?
Who shrinks from the sable shore?
Where the high and haughty yearning
Of the soul shall sing no more.

No! stand to your glasses steady!
The world is a world of lies!
A cup to the dead, already—
Hurrah! for the next that dies.

Cut off from the land that loves us,
Betrayed by the land we find;
Where the brightest have gone before us,
And the falsest remain behind.

So stand to your glasses steady!
'Tis all we have left to prize:
A cup to the dead already,
And hurrah! for the next that dies.

The Safety Hand Lamp,
AND
Meteor Burning Fluid.

THE new Meteor Safety Hand Lamp is the latest wonder and novelty, as well as the greatest invention of the times. The burning qualities of the Oil are in every particular superior to anything yet used, while its illuminating power has no superior. The Lamp will not blow out nor smoke, and the Oil is inexhaustible. The cost of the fluid is about one-half that of refined coal oil; has no grease, smoke or smell; does not smoke the chimney, and will not grease a fabric of any kind. You need not throw away your old Lamps; the Meteor Fluid will burn in a coal oil Lamp by attaching the Light House or Meteor Wick and Burner.

We have the agency for Lauderdale county, Miss., and those wishing agencies, and will be glad to supply our friends in those counties with the Meteor Oil and Safety Hand Lamp.

It is bound to create a great revolution in the Lamp business, and only needs a test to be appreciated.

DR. SEABROOK'S

Infant Soothing Syrup.

We have, by purchase of the original receipt, become sole Proprietors of this celebrated Medicine. We ask you to give it a trial, with an assurance that you will in future, discard all those nauseous and deleterious quacks, such as Bateman's Drops, Godfrey's Cordial, Dewee's Mixture, &c., combinations of a part and antipropriessic age, when it was thought that the more disgusting the mixture the better the medicine.

Use in the future only SEABROOK'S, a combination, quite up with the improvement of the age. Pleasant to take, harmless in its action, efficient and reliable in all cases. Invaluable in the following diseases:

SUMMER COMPLAINT, IRREGULARITIES OF THE BOWELS, RESTLESSNESS, TEETHING, &c.

Gives health to the child and rest to the mother.

We could furnish any quantity of certificates herein, evidence of its superior qualities, but prefer that our medicine should stand on its own merits, which it will do upon trial.

PURIFY YOUR BLOOD.
HURLEY'S SARSAPARILLA.

Of all the remedies that have been discovered during the present age for the thousand ills that flesh is heir to, none equal this powerful preparation. Only ten years have elapsed since the discoverer—who spent a decade in searching experiments, and perfecting it—first introduced it to the public, and it is already recognized by the most eminent physicians in all parts of the country to be the most surprising and effective remedy, for certain diseases, of which they have knowledge.

All other compounds or syrups of this root have hitherto failed to command the sanction of the faculty, because, on being tested, they have been found to contain noxious materials, which neutralize the good effects of this Sarsaparilla, and oftentimes injure the health of the patient. It is not so with Hurley's preparation. This is the pure and genuine extract of the root, and will, on trial, be found to effect a certain and perfect cure of the following complaints and diseases:

Affections of the Bones, Habitual Costiveness, Debility, Diseases of the Kidneys Dyspepsia Erysipelas, Female Irregularities, Fistula, all Skin Diseases, Gout or Complaint, indigestion, Piles, Pulmonary Diseases, Syphilis, Scrofula or King's Evil.

Hurley's Ague Tonic,
PERFECTLY RELIABLE.

The only remedy for Chills and Fever or Ague and Fever that is or can be depended upon is Hurley's Ague Tonic. Hundreds of cases of sends cured by using it who had tried the usual remedies without benefit, but in no case has

Hurley's Ague Tonic

failed to effect a cure. All who have used it cheerfully tell their afflicted friends of it as a sure and certain cure for chills and fever. Any one suffering from the above will consult their own interest by sending to the drug store and buying a bottle. It is pleasant to take—recommended by others, and will be certain to cure all cases of fever and ague or chills and fever. Send for it to the proprietors.

ANNUAL CIRCULAR.
Dolbear's Commercial College
OPEN CONSTANTLY, DAY AND EVENING,
Corner of Camp and Common Sts.
In the Elegant and Spacious
IRON BUILDING,
NEW ORLEANS, LA.
Founded in 1832—Chartered by the Legislature of Louisiana.

WITH COMMERCIAL, AGRICULTURAL, AND MECHANICAL DEPARTMENTS.

THIS COLLEGE, has, by its own merits and thorough, practical plan of education, identified all that liberally endowed State Colleges of this and the South-Western States. It is the

Oldest Commercial College in the United States.

AMPLE ARRANGEMENTS FOR
One Thousand Students
During the Current Year.

Comparative Cost and Value of the Education Given Here and in the Ordinary and Literary Colleges:

It is believed to be the first in Europe or America, chartered with Commercial, Agricultural and Mechanical departments. Every student who gives proper attention to the instruction, is qualified before graduating, to keep any set of books, in matters not what the business may be, and do the Correspondence of any house. Students can attend the "Commercial Course," or to the English, French, Spanish, German, Latin or Greek Languages, or the higher Mathematics, etc., separately. We have

Cost of full Commercial Course
here—Tuition. $145
Board for three months 90
Contingent expenses, about 20
Total $255

After which the student is ready to go into business, and make $1000, $2000, or $3000, annually.

Cost of Ordinary Literary Colleges.
—About $400 per annum, for four years, or $1600; clothing for four years, $200; Incidentals, $2400, and four years of time expended. Our student will begin to work after three or four months and make, say the first year, about $600; second year $900 and nine months at probably $1800, or $6150 he earns in four years. Deduct $255 leaves $5892 net gain to our Students; but in the other's a net expense of $2400; or $8295 our student has gained over the other. We suppose the students in both cases to have a good English education to begin with. We deem a business education that enables the student to earn $1000, $2000, or $3000 annually, to be the best Guardian parents can give their sons. So far as known, not one of the thousands of our graduates, is out of profitable employment. A word to the wise is sufficient.

St. Louis, has now for Fifteen years made Private Diseases a Specialty. Those suffering from Syphilis in all its forms, Gonorrhœa, Gleet, Stricture, Orchitis, Seminal Weakness, Impotency, Nervous Debility, Diseases of the Urinary and Sexual Organs, and all Diseases of the Skin, are earnestly requested to call on the Doctor, as he has had more than twenty years' experience in treating these diseases, and has never failed in a single case he has undertaken. Those who have been under the treatment of Mercury, and have suffered from its effects, should call on the Doctor, as he is the only physician who has a remedy for the cure of Mercurial Disease. Those who have been under the treatment of Quacks, and have been swindled out of their money, should call on the Doctor, as he will not take a case unless he is sure of effecting a cure. Those who have been under the treatment of Physicians, and have been pronounced incurable, should call on the Doctor, as he has had many cases of this kind, and has cured them. The Liberty Journal has an article on female education, from which we take this extract:

"It is absolutely necessary that your daughters should be instructed in the management of a household, in cooking, washing, and other domestic affairs that belong to the particular province of woman, so that, whether circumstances make it necessary for them to discharge these duties with their own hands or not, their knowledge of them will at least prevent them from being imposed upon by their servants. And it is also essential that every girl, before she attains her majority, should be thoroughly skilled in some department of mechanical labor, for she will thus be provided with a means of support, no matter under what circumstances or in what situation she may be placed.—Girls should be taught to rely upon themselves; not to be afraid of the broom, the oven, the wash-tub, the smoothing iron, the milk pail, or any other labor that belongs to the household department, particularly at this time when it is such a difficult matter to get good and reliable servants, or even to get any at all, either good, bad or indifferent. How many mothers are there in the South, without servants or domestics, who are wearing out their lives over the wash-tub or the cooking stove, while their grown-up, able-bodied daughters are lounging about in a listless manner, attending balls and parties, reading yellow-backed novels, or receiving the calls of "beaux" as giddy and useless as themselves. This is very wrong, nay, it is sinful, and a direct violation of one of the express commandments of the Creator, and parents who permit their daughters to grow up in such idleness and frivolity, will one day reap the bitter reward of their sin.—Send your girls to school, give them the benefit of every advantage that can be derived from a thorough knowledge of books, and at the same time learn them to work, to be domestic in their habits, and to fully prepare themselves for acting an important and useful part in the redemption of our country. This is the way that they should be educated, and the only way in which they can be made useful members of society.

From Mexico.

The Brownsville Ranchero doubts the report of the army observation under Cortina, and publishes an extract of a letter said to have been written by Escobeda to Gomez, in which he says by every means in his power he should make the country Mexican, and as all property in the hands of foreigners was made by Mexican misfortunes he should take it, and should have the power to hunt them from the country. "My motto," said he, "is death to all stangers."—There is no danger of the Yankees interfering with us as long as the Southern States are kept out of the Union besides the black men would side with us, and may at any time pronounce against the whites. Before we get through with foreigners, the Yankees will think we are in earnest, and the time will come when their notables will be begging their own heads instead of begging for the Austrian's.

Up to the 15th inst., Marquez and O'Haran had not been found. Some of the adherents of the empire were supposed to be secreted in the house of the English minister. Diaz ordered their capture.

The foreign representatives do not recognize the Liberal government.

Seven hundred Austrian prisoners were sent to Puebla.

From Colonels and twelve more generals had been shot at Quaretaro, amongst them Oltera and Castilio.

Juarez has issued an order for the convocation of Congress, to elect a new President.

Ortega is in prison at Monterey.

HAIR FROM THE TOMB.—Last week, while the burial detail from the Corinth garrison were disinterring the National Soldiers, killed near Egypt Station, in the fight between a portion of Smith and Grierson's cavalry, and the Confederate forces under General Gholson, a trooper was raised whose pockets were absolutely plethoric with plunder. Upon investigation, a lot of marked Silver Spoons were found in his possession, belonging to Captain Dillard, of Pontotoc. Weare assured that the spoons have been returned to their rightful owner.—Aberdeen Examiner.

Secretary Seward on the Capture of Santa Anna.

The reply of Secretary Seward, which is a lengthy document, to the application of Mr. Napheg is for the intervention of this government for the release of Santa Anna, and for his return to the United States, is furnished for publication. Secretary Seward demonstrates that the Virginius, at the time of the capture of Santa Anna, was engaged in her regular business as a merchant and passenger vessel, but was chartered by Santa Anna to convey himself and suite to Mexico on an illegal and belligerant expedition; that while at Vera Cruz he was in consultation with the enemies of the Republic, and that they had arranged to proclaim him Commander at Vera Cruz in opposition to the Republican government; that he falsely pretended that he went to Mexico with the sanction of President Johnson and Secretary Seward, and that he prevented the surrender of Vera Cruz after the terms of surrender had been agreed to and accepted by both parties, and this under a declaration that he was acting under authority of the United States.

The State department does not disavow or censure, but approves the proceedings of the United States consul and Commander Roe at Vera Cruz. He also quotes from the letter of Santa Anna to General Perrazo, to show that Santa Anna landed voluntarily, and that the captain of the Virginius protested, and against his capture, but against his landing, contrary to the orders of Commander Roe not to land him on Mexican soil. Secretary Seward concludes as follows; Upon this review of facts it seems proper that the government should wait for further and more definite information before entering upon communications in relation to the complaint of Mr. Napheg with the government of Mexico.

That nation seems at last to have triumphed over all its internal and foreign enemies, and to have reached a crisis, when, if let alone, it may be expected to restore tranquility and to reorganize itself, upon permanent foundations of union, freedom and republican government. Only some great national injury, wrong or offense would justify this government in suddenly assuming a hostile or an unfriendly attitude toward the republic of Mexico.

THE KILLING OF BRIDGEWATER.—A tragedy occurred in Stanford Ky., which has created intense excitement there. It seems that a party of men, well armed, left Crab Orchard this morning for no other purpose than to kill Capt. Bridgewater, a resident of Stanford. He had a party of followers, and between the two parties there existed an intense hatred. The party from Crab Orchard this morning went to Stanford, and seeing Bridgewater in a bar-room opposite the Myers House, they commenced firing upon him, and did not cease until they had fired sixteen balls into his head, body and limbs. When taken up he was dead, having been killed almost instantly. The party from the city from Crab Orchard went back and delivered themselves up to the authorities, and are now out on bail.—Louisville Courier.

HUGGING A REVEREND.—A ludicrous scene occurred within a thousand miles of Louisville one night last week; we suppress names, as, last week, we were visiting another young lady, their cousin. The three were fond of jokes, and continually played them off on each other. On the night in question, two of them attended a party, from which they returned at half-past twelve o'clock.—The third one remained at home, and to avoid disturbing her—for the three slept in the same bed—and others in the house, they entered through the window. Here a difficulty occurred, caused by the fact, that after they left home, a young Methodist minister arrived, on a visit. He was given the room occupied by the three girls, the one who had remained at home set up to inform the others that different sparrigrass had been assigned to them. She waited in the parlor for that purpose but unluckily fell asleep; and as the two young ladies did not come in by the door, but stepped into their room by the window, she slept on. When the two others entered, they saw Fanny's figure, as they supposed, in the bed, and were pained to see by the bedside a pair of boots.—The truth flashed upon them both at once. They saw it all. Fanny lost no time in getting to the room to do a good scare. They put their heads together and determined to turn the tables on her. Silently they disrobed, and as stealthily as cats they got in their positions on each side of the bed. At a given signal they both jumped into bed, one on each side of the unsuspecting person, laughing and screaming, "Oh, what a man! Oh! what a man!" they gave the poor bewilderred minister such a pre-misterious hugging and tickling as few persons are able to brag of in the course of a life time. The noise of the preceding scene in the old lady, who was sleeping in an adjoining room. She comprehended the situation in a moment, and rushing to the room, she opened the door and exploded: "My God, girls, it is a man; it is a man sure enough." There was one prolonged, consolidated scream; a flash of muslin through the door, and all was over. The first of the joke is that the minister took the wrong thing in earnest. He would listen to no explanations, but fled and made for the girls. He would hear no excuse, but solemnly folded his clerical robes around him and silently stole away. Was he mad at the girls, or—at the old widow.—Louisville Journal.

At this office, Petitions in Bankruptcy, with the accompanying Schedules.

Hon. Felix M. Simonton, of Lowndes county, made a speech the other day in which he took strong grounds for reconstruction. Col. Simonton was colonel of the 1st Mississippi Infantry during the war; subsequently went to the State Senate from Hawarden county, and was elected President of that body. He is a gentleman of fine attainments, and will strengthen the friends of a Convention in Lee very materially.

Clarence Collins, of Pontotoc county, declares himself in favor of confederation, to a limited extent, if the "non-reconstructionists make it necessary by refusing to vote for a convention, or further, having voted a convention, send members there who will throw any effective obstacles in the way of reinstating our natural relations to the general government." Clarence is a young man of twenty-three years, and made a first-rate soldier during the war. To his youth we attribute his indiscretion. We favor reconstruction, but cannot say that voting down a convention warrants confiscation, though we fear it would bring about some species of agrarian legislation. Southern men should leave this subject to Sumner & Co., and not excite any further, the passions of the radicals by urging such baneful legislation here at home.

Better times will come, says the Handsboro Democrat, just as soon as the sober second thought of the people obtains, for then law and order will prevail. We must take such part in legislation as we can, or *be legislated for*. The course to be pursued should no longer be a question. The call upon every patriot was never so great before, in the history of this nation, because the entire machinery of a Republican form of government, with a large addition to the law-making power, is to be put in complete working order after a time.

NEW POST-OFFICE.—The Post Master General has established a new post office in Newton County, on the line of the Vicksburg and Meridian Railroad, called "Lawrence."—Vicksburg Times.

The station where this post office has just been established is named after our young friend, Geo. D. Lawrence, the assistant superintendent of the Vicksburg and Meridian Railroad. The name of the station is a well merited compliment to a young gentleman who has taken every position to which he aspired, as "the Osprey takes its prey, by sovereignty of nature."

The Court House at Greensboro, Choctaw county, was destroyed by fire last week. The fire was supposed to be the work of an incendiary.

Crop prospects in Arkansas are very encouraging. Gen. Pillow estimates his corn crop at two hundred thousand bushels.

BONNETS FOR AUGUST.—Hats are larger than bonnets; bonnets have steadily grown smaller as the season advanced, until they now consist of nothing more than a mere spray of flowers, selected to match the trimmings of the dress, and laid on a light foundation of tulle.

The cholera seems to be "a great circumnavigator." We read the other day that it had broken out in Indianola, Texas, and now see it is raging in Central Kansas, and some parts of the Indian Territory. It is also prevailing to some extent at Memphis, Vicksburg, Pine Bluff and Helena. The plains, it would seem, where the air is pure and fresh, are as liable to be visited by the pestilence as the crowded alley with its smoky sewers.

A commiseration from some citizens of Memphis has been received by Brownlow's Secretary at Nashville, urging that, according to Grant's letter to Pope, General Albert Pike visit, and reside in advising citizens to go to the polls armed.

Reconstruction in the East.

We can assure our friends in other parts of the State that there is not the slightest reason to apprehend that East Mississippi will go against the Convention. Though a respectable number oppose the Convention, a large majority of the white voters will cast their ballots in behalf of the measure that is to reconstruct the country and inaugurate movements which will bring about our wonted prosperity. We are satisfied Lauderdale, Clarke, Jasper, Wayne and Green will give a VERY HEAVY for a Convention, and the figures with "added," about put the friends of reconstruction several thousand ahead in these counties. The opposition are strong in Scott, Newton and Smith, but intelligent gentlemen whom we have talked with from those counties express their opinion that even those the Convention will carry. Some lieutenants fought the military bills and that the Republican party intend reconstructing the South according to its own notion, and as nothing is to be effected by opposition, have determined to step aside and let the will of Congress prove forward.

There is much work for our friends yet to perform. The new bill should be explained, and what the future has in store for us, if reconstruction now fails, carefully explained. Show the opposition therefore will be utterly futile, and if successful will inevitably entail greater evil than any which can possibly result from acquiescence.

Resolved, That it is impossible to defeat the ends suffered and sought by the Union without it, we have reason to believe that the country would have *no repose*, and we would have nothing to hope for in the future but bitterness and strife, which we sincerely deprecate.

Resolved, That the colored people being now free, the interest of both races are identical—and must in our industrial pursuits, and in our political destiny prosper or suffer alike—it is therefore our duty to cultivate friendship and good will, one towards the other, and to encourage education and mental and moral improvement among all.

Resolved, That we deplore, and will discourage all bitterness of feeling which manifests itself in invective and personal abuse, at a time when reason and conscience should guide and govern all of us upon the solemn and important issues which are to be determined by us.

Resolved, That acceptance in good faith of the Congressional plan of Reconstruction of the Union, and a pledge to guarantee by State Legislation the civil and political equality of all citizens, without distinction of race or color, is in no wise a partizan measure, but to the contrary, is the only basis of Reconstruction.

Horrible Debravity.

Some years ago, E. C——a young and beautiful girl, came to Baltimore with prospects for future happiness. As bright as a virtuous life, a happy home, and kind friends could make her. The war came on and robbed her of her parents, dissipated her little property, and threw her tremblingly upon the cold charities of a heartless world. She formed the acquaintance of a young man who professed admiration for her beauty, respect for her virtues, sympathies and sympathy for her distressed circumstances. We will not dwell upon the story of her fall. *The sad old story!*

A few weeks ago being in a delicate situation, she was seen to leave the house of the woman with whom she was stopping, in great suffering. She was followed shortly afterward, but could not be found; the woman, however, found a newly born child lying in a *sand hole* with its head barely above the water, in a horrible condition. She took it up, attended to its immediate necessities, and returned toward her home. Before she reached it, however, she met two negro women, to whom she narrated the above facts. They begged that she would give them the child, which she did. They took it for two weeks. By unceasing care and attention it has been kept alive, and is doing finely. The mother now has the child; the negroes appealed to Mayor Donnell for protection, and to pay him all once to buy it clothes.—Columbus Sentinel.

DROWNED.—Two colored men, Henry Mills and —— Tillman—the former a wagon driver for Mr. Thos. White, and the latter a ferryman at White's ferry on Pearl river, were drowned in Pearl river, near this city, on Sunday last, by the upsetting of a skiff in which they and two other freedmen were attempting to cross the river. The body of Mills was discovered yesterday. That of Tillman has not yet been found.—Clarion.

Our readers doubtless remember reading a short paragraph that has been going the rounds of the newspapers for some time past, to the effect that the Emperor of Abyssinia had fallen desperately in love with Queen Victoria, of England, and finding his suit likely to prove unsuccessful, had seized upon the British Ministers stationed at his court, thrown them in prison, and threatened to keep him there for life, unless Her Majesty would look upon his advances with a favorable eye. This, in the opinion of the British Government, is no cause for serving matters to extremes, but is at direct variance to all the established rules of courtship, and the cable informs us that a large body of troops have been dispatched from London to Abyssinia for the purpose of releasing the Minister, who is no doubt heartily cursing the amorous disposition of the Emperor, and also to administer a wholesome chastisement to the royal and impetuous lover, which, it is hoped will somewhat dampen the ardor of his love, and make him more careful in future about offering to great an insult to the British throne.

General Howden has been detailed to take them disposition of Russian America, on behalf of the United States Government. Ex-Senator McDougal, of California, wants to be Governor of the walrus-es and comfort.

Reconstruction.

A reconstruction meeting was held in Brandon on the 20th which was presided over by Dr. Thos. J. Catchings. Here are the resolutions adopted:

Resolved, That we are in favor of the speedy reconstruction of the Union, that the Southern States may be restored to equality with the other States, and all enjoy alike the benefits of the Union, and protection and security which the Constitution affords.

Resolved, That we recognize the freedom of the colored people of these States as an accomplished fact, and regarding the colored people as citizens, we are in favor of laws that will enforce political equality and equal rights in the protection of their person and property.

Resolved, That the enfranchisement of the colored man being a part of the policy of reconstruction, which could not be avoided if we would, and which is deemed necessary for the protection of his rights as a freeman, and for the future peace and welfare of society and the country, we are in favor of a Convention and the adoption of a Constitution conforming in its provisions to the requirements of the laws of Congress.

Resolved, That we accept and receive the freedom and suffrage of the colored man as fully accomplished, and seeking only the best happiness of the people hereafter, we believe it to be the duty of the people of Mississippi and the other Southern States to acquiesce in the Congressional plan of Reconstruction. That all opposition thereto will be utterly futile, and if successful will inevitably entail greater evil than any which can possibly result from acquiescence.

Resolved, That it is impossible to defeat the ends suffered and sought by the Union without it, we have reason to believe that the country would have *no repose*, and we would have nothing to hope for in the future but bitterness and strife, which we sincerely deprecate.

Resolved, That the colored people being now free, the interest of both races are identical—and must in our industrial pursuits, and in our political destiny prosper or suffer alike—it is therefore our duty to cultivate friendship and good will, one towards the other, and to encourage education and mental and moral improvement among all.

Resolved, That we deplore, and will discourage all bitterness of feeling which manifests itself in invective and personal abuse, at a time when reason and conscience should guide and govern all of us upon the solemn and important issues which are to be determined by us.

Resolved, That acceptance in good faith of the Congressional plan of Reconstruction of the Union, and a pledge to guarantee by State Legislation the civil and political equality of all citizens, without distinction of race or color, is in no wise a partizan measure, but to the contrary, is the only basis of Reconstruction.

DEATH OF A CONGRESSMAN ELECT.—Flake's Galvestonian (Texas) Bulletin of the 16th inst., says: We have intelligence that Hon. Clark Hubbard, member of Congress elect from this State, was killed at Columbus in a bar-room fight, by a man named Speers, who was also killed in the quarrel while endeavoring to make his escape. The deceased has long been a prominent politician, having been a member of both the United States and Confederate Congress.

Disease and Disinfection.

We find in the New Orleans Times a copy of the "Conclusions and Recommendations" adopted by the Chorera Conference held at Weimar, Germany, during last June. This Conference was composed of some of the most distinguished savans from Germany, Holland, Austria, Prussia, Hungary and Russia, who assembled together to discuss the duties of sanitary authorities and the most effectual means of averting the cholera. As this terrible scourge is now prevailing in various parts of the United States and liable to make its appearance in our own vicinity, we transfer to our columns the conclusions and recommendations of the German Conference and invite special attention thereto:

1. The Conference supposes as its deliberate conviction that the efforts to arrest and prevent cholera by disinfectants should be postponed in the most energetic manner.

2. Disinfection will be entirely successful only where experiments and matters are carefully gathered and kept from being cast about; when attention is given to the cleanliness and the means of health; and when the disinfection is performed by sanitary authorities in a compulsory manner.

3. In places where the entire locality or district cannot at once be disinfected, the houses and localities throughout the city visited by the previous epidemic of cholera.

4. The general disinfection should be performed at the proper time, that is, before the epidemic is actually prevalent in town or place. Every house or spot that becomes infected or is suspected to be so, must be kept constantly under the influence of disinfection.

5. In regard to the best substances as disinfectants, though the testing of various articles is not yet completed, there have been found to the present time, no more effectual substances than sulphate of iron (copperas) and the carbolic acid; and as experience proves, we have no other disinfectants that can be employed with greater facility. A combination of both these disinfectants is therefore recommended.

6. The disinfection of clothing that has become infected by cholera excrement is of especially an important matter. For that purpose the Conference recommends that all such clothing be disinfected by boiling in water, or by chemical treatment in a proper solution of "zie vitriol," (sulphate or chloride of zinc,) and the Conference also recommends that special arrangements be made by which disinfection can be employed in all places, and at any hour, anyone of for the poor.

7. For the disinfection of sewers and drains, the Conference advises the trial of Mr. Sauvern's method. The method used by Mr. Sauvren are not yet fully published, but they are believed to be similar to Mr. McDougall's—namely, a combination of carbolic or coal tar preparations, in a cheap form.

If cholera infects any house or spot, it is recommended that if practicable, the houses so situated in an infected place, or being infected, should be vacated, and their inhabitants should be removed from the infected spot.

9. It is especially recommended that the ground-water (that is the water in the ground) about dwelling houses, and all the grounds about habitations of every kind, should be preserved undefiled by any excremental matter of cholera also, that all drinking water be undefiled and pure, and that where no pure water can be had, that the water which must be used should be disinfected by boiling.

The Safety Hand Lamp,
AND
Motor Burning Fluid.

THE undersigned having purchased the right to manufacture and sell the above articles in the State of Mississippi, is now prepared to fill orders for the same. The Safety Lamp is the greatest invention of the age. The burning qualities of the fluid are so very superior that all who use it will have no other. The cost of the fluid is about 25 cents per gallon, and one gallon will burn a lamp, constantly, about a week. Any person can put up the lamps, and will be warranted to give satisfaction. Any person wishing to purchase the Lamp and Fluid will have to call at my store in Meridian, Miss. Orders from a distance will receive prompt attention.

THE RUSSIAN TREATY.—The President communicated to Congress a copy of the treaty between the United States and Russia by the Emperor of all the Russias, the ratifications of which were exchanged on the 30th day of June.

He says this instrument provides for a cession of territory to the United States in consideration of the payment of seven million two hundred thousand dollars in gold. The action of Congress is invited to the subject of an appropriation for this payment, and also to the adoption of proper legislation for the occupation and government of the territory as a part of the dominion of the United States.

TELEGRAPHIC NEWS

WASHINGTON, July 23.—The War Department has ordered morning and evening guns at all military posts having the necessary ordnance.

An amendment disenfranchising all who voluntarily went into the rebellion was adopted by the New York Constitutional Convention.

The steamer Granite State, from Brazos for New Orleans, struck a reef of rocks on the South end of Blackwell Island, East Bay, Thursday night. The crew and passengers were saved.

The Vice-Consul of Havana, has notified the State Department that a cargo of Coolies will be landed recently in New Orleans, in violation of the act of Congress of the 19th February, 1862, and the Emigration Act of July 4th, 1864. The Consul has reason to suspect that there is an extensive scheme on foot for the introduction of coolie labor in the South, contrary to law.

The defence in the Surratt case proposed to submit the case to the Jury without speeches. The prosecution objected. There will probably be two speeches made on each side.

The Peoria Bulletin gives the following items of news:

Gen. Almonte, Maximilian's Paris agent is so ill that the final news is withheld from him.

Rumors are the evening of Maximilian was held at the Tuileries on the 12th of July. Napoleon, Eugenie and the foreign ministers were present.

NEW ORLEANS, July 23.—Under the measures suggested by Heath and adopted by both houses of the City Council, the funding of the city issues for interest-bearing certificates is progressing. The currency incontinently is receding very rapidly from its depression. Some brokers are purchasing at three per cent. discount. Many counterfeits have been withdrawn from circulation and destroyed.

The American brig William Robertson, from Havana, arrived at Pass a l'Outre this evening with 22 coolies on board. The remaining number of coolies that have already arrived are at work on plantations.

CHARLESTON, July 23.—The Republican Convention of the State met here to-day. The platform adopted is essentially the same as that adopted in Charleston, and in many respects similar to that adopted by the Radicals of Tennessee. Mild condemnation of President Johnson was voted down. An effort to add "Radical" to the name of the party was unsuccessful.

DUBLIN, July 23.—It is considered that the colored race, on account of their loyalty, are entitled to the nomination of one of their color as Vice President of the United States at the next election. Pending the discussion of this resolution, the Convention adjourned until 10 o'clock to-morrow.

BOSTON, July 23.—The Supreme Court has decided that National Bank shares are sub-ject to city and State taxes.

DUBLIN, July 25.—A number of Fenian prisoners were released to-day at Tralee. An effort to add "Radical" to the name of the party was unsuccessful.

SEMI-WEEKLY GAZETTE

The New York Herald, winds up a long article on Republican *shams* as follows:

Republicans have so managed affairs in the South since the collapse of the rebellion that the result of an election leaves us to return a representative population of six officers and seventy-seven citizens—perhaps all feigned secessionists. All will be as it was before, except for the six officers, and these represent the result of the war.

For that war millions spent—three thousand millions dollars, and our bigger contemporary will cost us $600,000,000 apiece. Did ever a people before give so much for so little?

By its absolute failure to carry out its great purposes of the war, by wasting the energies of the nation in making its expenditures conducive only to securing seemingly results—results that the people did not care for—that are ridiculously incommensurate with the sacrifices made, the radical party has inconteatably shown its unfitness for a great trust, and has demonstrated to the people that their only safety lies in reposting it altogether—plans, theories, delusions, leaders and all.

The Louisville Journal describes the condition of things in that city as follows:

Nothing lively" is the burthen of conversation throughout the length and breadth of the city. Every store is a "castle of indolence," and every storekeeper resembles a "lubberly fisherman" whoslangles all day without getting a bite. This thinness is likely to endure for some time to come.

Gone Above.—John M. Langston, Gen'l. Superintendent of Freedmen's Schools, delivered and excellent address at the New Ark an Cha ch, Tuesday afternoon on the subject of education, to a large assemblage. His whole speech was excellent. He endeavored to impress upon his hearers the necessity for education and the fact that their destiny and their future was dependant upon this alone, and not upon any paltry privilege granted by fanaticism, and received and debased by ignorance. He ignored politics, and seems to desire alone, the improvement of his race, their advancement in all that can make them worthy of citizenship, and worthy citizens. Such speeches as that are calculated to pro. mote the happiness of the African race, and the general weal of society.—Aberdeen Examiner.

Hanged.—The negro, Bill Brooks, convicted of murder in the first degree, last fall, was executed near this place yesterday. He was asked by a colored friend if he killed the woman. He replied "Yes thank God; I killed her for revenge, thank God; I was leading a sinful life, and killing her will be the means of my salvation; I cannot go to heaven with a lie upon my lips."—Canton Citizen.

An Editor Killed by Lightning.—The Lynchburg Times (Lynchburg, Va.) comes to us draped in mourning for the death of one of its editors, Judge John M. Clendinen, from a stroke by lightning, during the intensest storm that has raged was standing at the time in the front po tch of his residence watching the approach of a cloud. Judge Mcclendinen was for many years a resident of Shelby County, Alabama, but removed to Louisiana some eighteen months ago.

Messrs. PLEASANTS & CO.,

TOBACCO MERCHANTS,

LOUISVILLE, KY.

ARE PREPARED to furnish Planters and Manufacturers with the best Brands of Kentucky and Virginia Leaf Tobacco, at prices merely nominal. The enormous Government Tax on MANUFACTURED TOBACCO, has caused so much sophistication, that it is almost impossible to get a pure article. The undersigned are EXPERIENCED TOBACCONISTS, and will, upon receipt of your orders, ship to any address at the following prices: BEST CHEWING, 20 to 30 cents per pound, BEST SMOKING 12½ to 20 cents per pound; nearly put up in boxes from 25 to 100 pounds, of our pound packages, and warranted of the best quality—superior to any manufactured in the market.

Five copies of Semi-Weekly six months.....$10.00.

The problem of Mormonism, which we have been compelled to confess we could not solve, has begun to solve itself. An irrepressible discord has broken out among the Saints, which promises to make wreck of the whole delusion. Some prominent leaders have been denounced by Brigham Young, as lacking in loyalty to the system, and a number of his personal enemies have provoked the sturdiest maledictions from his anointed lips. They do not submit quietly to the high priest's castigations, but defy and denounce him in turn. Recently a large number of the Saints, sick of the delusion, have fled the Mormon domain, and arrived at Julesburg and Council Bluffs in quest of other homes. In fact, Mormonism seems to have become demoralized, and if severely let alone for a while, will probably make away with itself.

HARD ON THE BRIDEGROOM.—A junior at Donaldsonville, La., who had buried his wife in the early part of May, married again in three or four weeks afterward. This so shocked the moral sense of the community, that a public meeting was called, and a procession formed and marched to his residence and took him out. After being marched out of his dooryard to the tune of the dead march, with lighted candles on each side of him, the procession formed, music in front, the latter consisting of oil cans, horns, tin pans, and a large bell carried on the shoulders of two of the party, which was tolled continually, while cries of mirth and jollity tended to enliven the scene. After traversing the principal streets and thoroughly arousing everybody in town who was not engaged in it, they proceeded to the final act, it now being near the hour of midnight. After forming properly, the procession moved to the graveyard, where the joke was finished by his kneeling down at the grave and asking pardon of his late wife's spirit; after which the party proceeded to a saloon, and taking a drink at his expense, he was permitted to rejoin his new made wife—thus being the third marriage bonds he has entered into.

WHY CONGRESS WAS IN SESSION.—The real reason why Congress has been holding a dog-days session was to rote away more money to carry on the campaign among the negroes in the South. It was early after Sickles had written to Washington, stating that he could not get along in the Carolinas without more money than was appropriated for the whole South, that it became certain that a majority of the Radicals would be present on Wednesday last. The more money is expended by the greedy the chance for their friends to enrich themselves by stealing. In the meantime the people are taxed until they are little better than slaves; but what do those who assume to be their masters, care for that? The negroes must all be trotted out to the polls with Radical tickets in their paws, no matter how many millions it may cost.—Gazette & Argus, Burlington, Iowa.

A FINANCIAL POLICY.—Mr Colgate, well known as an extensive dealer in gold and securities in Wall street, has addressed a letter to the Assistant Treasurer at New York, urging the adoption of a stable financial policy.—He suggests the following system, viz: That the substitution of legal tender notes for the national bank notes, the Treasury to purchase the bonds deposited as security at a premium, and assume the payment of the outstanding notes, the latter to be delisted from the roster of the bonds, and to be exchanged for greenbacks on presentation.

The reduction of the paper circulation, four millions per month, beginning May 1, 1868, until the outstanding volume is reduced to the minimum of five hundred millions, exclusive of fractional currency. This would continue the contraction until about 1872.

Our Book on Building, contains 422 illustrations of dwellings, churches, colleges, stores, moulding, architraves, base, cornices, stairs, &c., and many valuable information on build ing, will be sent free of postage on the receipt of 50 cents
may4swdm

We were not present at the dinner given at Nonpareil last Saturday, but learn that it was quite a brilliant affair. The original object of the gathering, we believe, was to obtain the status of the people of that neighborhood on the subject of the Grenada and Meridian Railroad.—Louisville Bulletin.

Hon. Jacob S. Yerger.

After an eloquent reference to the death of the Hon. Lazarus W. Powell, of Kentucky, the Memphis Appeal weaves the following chaplet for the tomb of the Hon. Jacob S. Yerger.—It says:

Mississippi may mingle her tears with Kentucky, and wait for the day, close at hand, we fear, when Tennessee will complete the melancholy triad. The most eminent brother of an extraordinary family, one of the great good men of Mississippi, has been taken from that disinherited State; and she laments in all her borders. A week since, on Sunday the 14th day of July, 1867, J. Shall Yerger was communicated from the servants he had relieved from the sorrows and calamities, the miseries and dishonors that make intolerable the bondage in which this State with difficulty breathes. The Avalanche has so well said what it was just and proper to say of one so pure, so virtuous, so just, so true and so excellent, that we need only adopt its words as our own:

"Judge Yerger died of congestion of the brain, at Vicksburg, on Sunday last, while attending the bedding of his court in that city. In his death not only Mississippi, but the nation, has lost one of the brightest ornaments of the bench. For many years he has shed lustre upon the jurisprudence of his adopted State, and before his accession to the bench he ranked with the very first lawyers of the country. In fact, Judge Yerger had few equals and no superiors as an accomplished gentleman, learned lawyer, and an able and upright judge. His place cannot be well supplied upon the bench of Mississippi.

"*Of no larger, fragile, human ware is the earth and its calamities consequences—and here did even the sun and moon stand still, for one of the noblest of mortality.*"

The Blairs are quite severe on the Radical Congress. Gen. F. P. Blair is addressing the people of Tennessee, urging them to defeat Brownlow, and Montgomery Blair spoke on Tuesday at Alum Springs Va., and severely denounced the Radicals. Alluding to President Johnson, he said "he had defeated the Conservative party by reinstating the enemies in office. He would advise him to get rid of the spies that are around him, and make General Grant, whom he believed was just the man, temporary Secretary of War. About 3000 persons were present, among them were General Joe E. Johnston.

Mrs. Emma Martin is held to bail for an attempt to effect the escape of her husband from the Noxubee county jail, confined on charge of adultery. She charged the jailor with him, carried him off, but the poor fellow couldn't walk like a woman, so he excited suspicion, was re-arrested, and went to the "lock-up again.

The Chicago Times fears the South will prove a rival to the northwest in the production of corn.

EMIGRATION TO BRAZIL.—We have repeatedly warned our people against the folly of emigrating to Mexico, Brazil, and Central America. The Memphis Bulletin publishes the following extract from a letter from Buenos Ayres, which should serve as a warning. The writer says:

"Large numbers of those unfortunate men and women, driven out from the United States to emigrate to Brazil, begun to find their way there. They are poor, helpless, deceived, and are witnesses of the folly of leaving the United States for any country under the sun. Deceived by agents of various kinds, and finally enlisted in the fate of many a poor fellow. That Brazilian scheme (swindle?) ought to be exposed."

The oil of pennyroyal will keep mosquitoes out of a room, if scattered about, even in small quantities. The innerbark of a white ash will, if brought to contact with a mosquito, kill it, or stick in an instant, and a bit of fresh tobacco placed on his tongue will kill him dead as if struck by lightning, while cheese cloth used around the head gives perfect immunity. Roaches are exterminated by scattering a handful of fresh cucumber turnings about the house. No fly will light on the window which has been washed with water in which a little garlic has been boiled.

We have been told that in the northern parts of this county the people are commencing to cultivate rice in the woods, without clearing off the trees, and in fact without touching them. The dead leaves are turned under with a hoe, tongue flow, wherever it is practicable to do so and the rice planted. From eye witnesses who are competent judges, we learn that it works very well. Fair crops have been made in this way without any of the immense labor of clearing and cultivating, which is now deemed the means of a poor man.—Saint Louis Gazette.

At this office, Petitions in Bankruptcy, with the accompanying Schedules.

SHOCKING AFFRAY IN JASPER.—We learn that on last Sunday a difficulty occurred in Jasper county between Edward Y. Terrall and D. A. Morris, which resulted in the shooting of Morris by Terrall and the infliction of a most dangerous wound, which it is feared may result fatally. We have not received full particulars of the occurrence, but learn that the difficulty grew out of the shooting of Mr. Terrall's mules by a son of Mr. Morris. The parties are among the most respectable citizens of the county, and have long lived near neighbors, were relations and have heretofore been on the most intimate terms.

The generous people of Cairo, Illinois and Platte county, Missouri, and the firm of Sterling Price & Co., St. Louis, who have been courting the offices of soft humanity, are not forgotten by the recipients of the gentle deeds of mercy, in East Mississippi. In our issue of to-day will be found the proceedings of a meeting held in Jasper county by the indigent widows living near Rose Hill Academy, in which special mention is made of the citizens of Platte county, Missouri, Sterling Price & Co., St. Louis, Dr. Hurd, and Geo. Williamson, Cairo, and in fact the citizens of Cairo generally. Deeds of good stay with us forever. The widow and orphan who daily own the bounty of the generous hand will claim reward for it above the skies.

The first annual meeting of the Chickasabogue Paper Manufacturing Company, located near Beaver Meadow on the Mobile road, was held last Friday, when the following officers were elected : W. G. Clark, President ; Jacob Magee, Vice President ; W. B. Montgomery, Secretary and Treasurer ; Maj. B. Toomer, Member of Executive Committee. The following gentlemen compose the Directory: Jacob Magee, Benj. Toomer, F. B. Clark, John Parker, Wm. A. Buck, J. F. Holland and W. G. Clark.

Gen. Forrest has tendered to the Police Commissioners of Memphis his services as well as those of two hundred of his voluntary friends to act under him, in preserving order in Memphis to-day, during election hours.

The Anti-Slavery Standard still lives, and is engaged in advocating the elevation of the negro to office. It wants a black man put on the ticket for Vice President, and declares the Republican party dare not refuse to put some member of the African race on the ticket if the nomination is resolutely urged. The black man will never get "a fair proportion of the offices," and our advice is for him never to make the effort. In a fight the weakest man goes under, and whenever the negro forces himself into an attitude hostile to the white people, he will do likewise. The Northern people have no idea of dividing the "loaves and fishes" with Sambo ; he is first-rate material for carrying elections and keeping up strife, but must stand aside when the public patronage is to be distributed. Few freedmen, however, will believe this now ; but a few years hence it will be demonstrated to their perfect satisfaction.

Gen. W. L. McMillen, who commanded here just after the surrender, has been appointed a member of the Board of Levee Commissioners by Gen. Sheridan. Gen. McMillen is planting in Carroll parish, Louisiana.

A private letter from Pontotoc informs us that county contains quite a number of anti-convention men, but that the Convention will carry by a large majority.

SIGNIFICANT.—A Democratic meeting was held in the city of Baltimore on the 24th ult., at which one of the speakers declared that the "sovereignty of Maryland must not be given up, except at the point of the bayonet."

The New York Constitutional Convention recently adopted an amendment extending suffrage to the negroes. The amendment now goes to the people for ratification.

The registration of Lee county is completed except two days which are to be given for the county at large. The figures stand 1761 whites, and 522 blacks—making 2283 persons registered in the county.

The Coming Elections—What to Do.

An election will be held in Tennessee to-day pursuant to the Congressional reconstruction plan, and it is announced that in Louisiana preparations for the public choice of members to a State Convention, are progressing under the auspices of the military commander. In the good old State of Tennessee only about one-fifth of the white population are permitted to vote, and in our sister State, Louisiana, the freedmen have, according to the reports of the Boards of Registrars, majorities in all, except six, of the parishes composing the State. That the Republican party will carry these States there can scarcely exist a doubt. They are well organized by clubs, lodges, &c., and will prevent freedmen from voting to any extent for conservative candidates. The Radicals have been persistent in their efforts to secure the negroes ballot, and the prints of those States admit success has generally crowned their exertions. There has not been any organization among the whites, nor an attempt made in the last named State to counteract the influence of the ex-fremists, and of course the Republicans will carry the State, elect their officers and frame a constitution that may be odious to the great bulk of the Southern people. Here in Mississippi we have an opportunity to take a hand in remodelling the Constitution, and are able, if we will exert ourselves, to fill the various offices to which men are elected, with good, sound citizens, in whom we have confidence, and in whose hands the affairs of Mississippi will be fairly and honestly managed. The census of the State shows that the black population exceeds the white in twenty-six counties, and though they will outnumber us when the final report of registration is handed in, we can, with a little organization and exertion, undo some of the work of political missionaries, remove the distrust and suspicion they created, and retain possession of the State. If our people refuse to vote on account of the last supplementary bill, or with a hope of getting better terms, and fail to take an active part in securing a strong colored co-operation, the political complexion of Mississippi will be found similar to that already foreshadowed in Louisiana. Our people have this matter within their control yet, but there is no time to be lost if they wish to retain the reins of State government. "The game is certainly worth the candle."

The New Orleans Crescent has a finely written article on "fusion with the Republican party." There is no use in committing ourselves to any party, where we can only enter as captives pleading for mercy, and the Crescent is right in declaring such an effort would degrade human nature, and in every way do more harm than good. We can obey the mandates of the conquering party, with all their hardships, harrassments and burdens, but should stand proudly aloof from any party while we are outside of the Union, without representation or political rights of any sort. We happen to be "fancy free" now, and should remain so until the work of reconstruction is completed.

A WARM TIMES IN TENNESSEE.—Last week a terrible affray occurred at Rogersville, between the Radicals and Conservatives. Etheridge and Maynard both had appointments for meetings ; two procossions were formed, and while marching through the town, one party fired upon the other, killing one man and wounding two. The assailed party then fired, killing and wounding two or three of the assailants. Governor Brownlow has advices that the Conservatives were the aggressors. The latter charge it upon the Radicals.

Etheridge and Maynard had a personal encounter at Greenville. Maynard addressed Etheridge, who replied. "I don't speak to damned scoundrels." Maynard retumed, "I do." Etheridge then struck Maynard, who picked up an ink-stand and followed Etheridge into the room, when they were separated. This is the Brownlow side of the story.

The Mobile Advertiser wants the people to vote against "remodelling the State government and thereby remain under military law?" How is voting a convention down going to maintain military governments. Will not Congress, order the work of registration to be done over again on a strictly loyal basis, thus putting us in the Union with a disfranchised white population and millions of enfranchised negroes? We are bound to enter the Union again and whether we go as voters and office-holders or "proscribed rebels" deprived of any voice in the government under which we live, is left for the people to decide.

In the Northern States bribery and corruption and official fraud is progressing at an alarming rate if the public prints of that section are to be credited. Simon Cameron, we are told can, go into the Legislature of Pennsylvania, and buy up its members as easily and about as cheaply as a Southern planter used to buy likely field hands on the block. The New York Legislature is even worse. There, bold, bold bribery is so common as to have lost its novelty. Members sell their votes, and haggle and chaffer over the price as shamelessly as a farmer would sell his butter. The entire legislation of the State is mercenary. No measure, however beneficial, can be secured without money. And in Congress, the Washington correspondent of the Cincinnati Commercial tells us, it can be shown members own stock in the street railroads of Washington for which they never paid a cent, or rendered any other return than their votes for the acts of incorporation, and their subsequent votes to authorize the increase of fare from five to seven cents. It can be shown that the two Houses have been, time and again, influenced by the paltry consideration of free passes in their votes upon matters affecting the greatest railroad monopolies in the country. It can be proven that members of Congress have appeared in their seats as the attorneys for the railroad corporations. It can be proven that the members of the two Houses were directly bribed for their votes on the whisky tax two years ago. It can be proven that Senators positively agreed to confirm Mr. Cowan as Minister to Austria last winter, if he would get Mr. Johnson to appoint their relatives to office.

The crops are recovering from the effects of the recent rains, and everything indicates an area of plenty. It has been ascertained that the crop of wheat which has been gathered and is now gathering in the United States, is generally the largest and best which has ever been raised in this country. The cotton, sugar, rice and tobacco crops give promise of a larger and a better yield than has been known since 1860, while the corn gives an assurance that it will exceed in amount that of any previous yield. The breadth of wheat sown this year in the West, is greatly in excess of any previous year, and the crop has reached a successful harvesting more free from casualities of all kinds than has ever been known. Taking everything into consideration our people have much reason to be glad for the bountiful supplying of provisions that God is showering upon the country.

Up to Monday last there were 1875 voters registered in this county—772 white, and 1103 colored. Several precincts yet are to be visited. The entire vote of the county will be about 2500.

The Columbus Tournament Club have selected Hon. Ben. H. Hill, of Georgia, as orator on the 12th of September.

The whole number of registered voters in Louisiana is 119,396—the majority of blacks over whites being 37,004. That there will be very little alteration in the above figures may be judged by the fact that during the past two or three weeks only 1300 names have been added to the lists in the entire State. With the exception of six of the smallest parishes the blacks are in a majority throughout. These six are Calcasieu, Lafayette, Livingston, Vermillion, Washington and Winn.

The Brandon Republican asks us if we "or any other Conventionist is willing to vote for a negro or Northern Radical to represent the people of Mississippi in Congress?"

It is our desire to defeat that calamity. The policy inculcated by the Republican will induce harsher measures from Congress, and we believe will surely and speedily inaugurate a war of races. If the people vote for a Convention, and act with becoming prudence, that branch of the Republican party, to which our friend alludes, will never obtain a foothold on the soil of Mississippi. Extremes beget the like, and we regard the extreme Southern man, at this juncture, as dangerous to society as any "Northern Radical" in either section. The one is as acceptable as the other. The emergency demands men of enlarged charity, of sound patriotism, and of magnanimous views of government. Such persons will receive our cordial support and they are the basis of our society. We will find no difficulty in making judicious selections.—Lexington Advertiser.

From all points in the interior we hear the cry of terribly hard times in money matters. The circulating medium is so "tight" that, in some country places, when a one dollar note is seen, the fortunate owner has immediately to invest it for his friends consolation who "take eager in there." BANKRUPTCY.

Jasper Co., Miss., July 17th, 1867.

I will be at my office in Paulding on the 1st Monday in August, 1867, for the purpose of receiving the proofs of debts and the choice of Assignee of the estate of Thos. Hamilton, Bankrupt, and for the purpose of making a fair and equitable distribution may be made of the means placed in his care for their relief.

After being duly organized by calling Mrs. M. J. Cambell to the chair, and requesting C. A. Huddleston to act as Secretary, it was resolved.

That the President name a committee of three relative here to make known to G. W. Ryan in the proper time and manner the provisions consigned to him for the relief of the destitute and, in behalf of the request, all receipts, bills or other papers pertaining to said distribution, in order that he may silence any malcontents and may endeavor to censure the philanthropic motive of our esteemed friend.

And be it resolved, furthermore, That it to be a duty to make known our deep gratitude to those who, in the hour of suffering, furnished us and our children timely relief. That the President appoint a committee of five to draft a preamble and resolutions expressive of the true sentiments of those who compose this meeting.

Mrs. R. H. Hill, Mrs. J. W. Kennedy and A. J. Lewis, were appointed a committee of three.

The committee of five consisted of Mrs. N. E. Kennedy, Mrs. M. S. Sherman, Mrs. M. C. McNell, Mrs. M. B. Davis and Mrs. Mary Davis, who reported the following preamble and resolutions, which with great feeling were unanimously adopted :

For that, whereas, ourselves and our children (a multitudes and of other widows and orphans) were, at the close of the late disastrous war, left in destitute circumstances, without food or means to procure it, and whereas, while we esteem it a virtue, and are willing to suffer, and endure privation uncomplainingly, in honor of those, to the loss of whom, we were thus reduced to poverty, yet at the same time inasmuch as a merciful God has put it in the hearts of some of the noble and benevolent citizens of Missouri and elsewhere, to supply us and our children with bread, and that, too, when we were at a point of extreme destitution, to whom and for which we feel lasting *living* gratitude in our hearts, and feeling, above all, that an expression of our gratitude is our duty, and due to our benefactors, therefore, be it—

Resolved 1st. That we hereby (for ourselves and our children) return our humble and grateful acknowledgements to the citizens of Missouri, and especially of Platte County, Mo., for the timely and signal relief that has been afforded us through the firm of Sterling Price & Co., and also to the citizens of the city of Cairo, Ill., and especially D. Hurd and G. D. Williamson for similar benefits, as received at hand of our dear friend and sympathizer, Hon. G. W. Ryan, their appointed agent, with the assurance that the supplies reached us at the most critical period of our suffering—a period when our hearts and hopes had well nigh failed us, because every visible help and helper, like ourselves, seemed nearly, if not quite exhausted.

Resolved 2nd. That we hereby confer to Rev. Dr. Harmon, and Hon. G. W. Ryan, our hearty and sincere thanks for their unremitting vigilance and self sacrificing spirit they have manifested in our behalf, by seeking and obtaining food for us and our children, but for whose efforts we could not conceive how we could have survived until the ulterior proof of the present growing crop.

Resolved 3d. That it is the united, humble and heartfelt prayer of the beneficiaries of the relief referred to above, that the beneficient Creator may richly and mercifully reward each and every contributor and helper in the opportune relief that has come to us and our children.

Resolved 4th. That the Secretary, who is furnishing copies of these resolutions to the Editors of the Enterprise Star and Meridian Gazette, and request that they give the same one insertion in the respective papers, and that they mail a copy of each of their papers containing the same, to the firm of Sterling Price & Co., and the Cairo & S. R. Society, to be placed at their disposal and discretion, that this faint expression of the unutterable gratitude we feel, may be communicated to those who may have contributed to our relief.

On motion, the meeting then adjourned *sine die*.

MRS. M. J. COMBEST, President.

C. A. Huddleston, Sec'y.

As matters now stand, if we can, at any time soon, be permitted to place ourselves in a position so that our influence can be felt, that of will be a matter of no hesitation. Present discontent, especially about settled questions, does not at all look in this direction. Hard as it may be for us to believe or realize it, our only hope is from the government—though not the present administration of it—under which we live, and the more of discontent and disaffection we manifest the further will we be from justice at her hands.—Hazlehoro. Democrat.

The Radical Mayor of St. Louis has been arrested for an ungodly assault on a certain negress of his city. He visited her home in his official capacity, but, was refused admittance. He charged the doorway and vanquished the old woman with his cane.

An expectant bridegroom applied at the military headquarters in Mobile, for the use of the United States band to play at his wedding. The officer in charge of the musicians replied that he did not know about lending the band, but he thought that he could furnish a file of soldiers to fire over the house.

The Cassville (Barry county, Mo.,) Republican of the 17th inst. contains an astonishing and absorbing account of the effect that a little daughter of a Mr. Morris, of that county, had, while playing, accidentally shot and killed a brother of only four years. She said she killed her brother "because he pulled down," and declared "if the other children pulled any more of them she would shoot them too."

The DeKalb, Miss., Flag says Capt. H. B. Cunningham, a good Confederate soldier, lives near Wahalak, in Kemper county. He is the brother-in-law of John A. Logan, who was to have killed the Confederate cause at the right time the proper time, but after helping a good many others on their way backed out, and is now a Radical member of Congress, from Illinois.

Motor Burning Fluid.

THE new Motor Safety Hand Lamp is the latest improvement in lamps, and is the result of several years experiment. The burning qualities of the fluid is about one-half that of refined coal oil, has no grease, smoky smell, does not soil the chimney, and will not evaporate a little if any kind. You need not throw away your old Lamps ; the Motor Fluid will burn in a coal oil Lamp by attaching the Light House or Motor Fluid Burner.

We have the agency for Lauderdale county, Miss., and Choctaw county, Ala., and will locate one of our Agents in these counties with the Motor Oil and Safety Hand Lamp.

It is bound to create a great revolution in the Lamp business, and only needs a test to be appreciated.

NEWS.

On Saturday last, James Lynch, a colored minister of the Methodist denomination, by appointment, spoke at the African church in this place. About fifty whites, and three hundred blacks were present. His speech, though decidedly Republican, was moderate and conciliatory, and very respectful to those with whom he differed in opinion. He was very strong and forcible in his advocacy of a convention, explained the matter very clearly to the colored fellow-citizens. Lynch is a man of considerable talent, and is very forcible and pleasant speaker. We would like to see do more to improve the race by dwelling less on politics, and more on the other matters referred to in his speeches. While we dissent from several things that he said, on the whole, his remarks were entertaining, and contained much that was calculated to instruct and benefit the colored people.

It will be seen from his appointments published in another column, that he will speak at Enterprise on Wednesday, and on Thursday at the plantation of Major Sims, in Jasper, and on Friday at Paulding.

The friends of W. W. Shearer, Esq., will be interested to read his advertisement in another column. Mr. Shearer has started on his "own hook," and is rapidly filling up with a splendid assortment of dry goods, groceries, hardware, &c. His house is on Johnson Avenue, below the Gazette Office. Mr. Shearer has formerly been a merchant of the country and in business circles, that will procure him a very extensive patronage. D. C. Smith and John Heffernan are his chief salesmen.

We are under obligations to Capt. Phil. M. Jenkins, of the Lone Star News Depot, Galveston, Texas, for continued favors in the shape of magazines, papers, &c.

The Red Jacket Bitters is no worthless article, for what it claims to be a tonic, purgative, medical preparation, it possesses virtues. The name "Bitters" is too often used to cover a villainous compound of poor whisky and some bitter drug. Do not confound the Red Jacket with this class.

Dr. Goodale & Co.'s Red Diarrhœa Remedy.—Of all compounds ever offered to the public for Diarrhœa, Cholera Morbus, Cramps and Bowel complaints of children, nothing so quick, safe and certain as the exceeding pleasant, refreshing and cooling to the stomach, is not a syrup, nor is it alcoholic, contains no laudanum, paregoric, &c., and acts like a charm, upon old and young. Whenever used, it merits and receives the utmost confidence of the people. No family should be without it, as it will surely arrest Diarrhœa, &c. [JUNE 26-ly.

A little child was run over by a wagon in D. C. Smith, Esq.'s yard, on the night of last Tuesday. We are glad to say that the child has passed the bright and happy stage of life, that died, for children are, after all, the bright side of life, yet we do not know but God is right in removing these little gleams of light ere they buckle on the armor of youth with all its trials and enemies. We must fade away into our mother heaven some day, and probably it is best we should go while we are young. The cares of manhood and womanhood bring joys and sorrows, but any one would rather be a child than a man.

Notice.—I, W. Bryant, do hereby give notice that I will not be responsible for any debts contracted by my wife, Mary Bryant.

NEWS.

Several cases of cholera appeared in Memphis on the 1st inst. There was a sudden change in the weather, and the air became very cool. Advanced sheets of the Memphis Appeal say:

The epidemic has not yet reached the alarming proportions that it has in other cities, but the number of cases is daily increasing, and the mortality is very great. Many of the cases are of the most malignant character, and terminate fatally in a few hours. The weather is very favorable to the spread of the disease, being cool and damp, and the thirty thousand dollars and fifty thousand dollars appropriated by the Board of Health for the purpose of relieving any of them save Gen. Sheridan.

The Memphis Avalanche says:

Several cases of cholera have occurred in this city during the past week, and the same disease is prevailing in the country around us. The cases are of a very

THE TRUE HEART'S ASPIRATIONS.

I would be thine!
Oh! not to learn the anguish :
Of being first a deity enshrined:
Then, when the fever fit is past, to languish
Stripp'd of each grace that fancy round me twines,
Not such the lot I crave.

I would be thine!
Not in bright summer weather,
A sunny atmosphere of joy to breathe :
But fear and tremble when the storm clouds gather,
And shrink life's unrelenting storm beneath,
Falling when needed most.

I would be thine!
To lose all selfish feeling
In the sole thought of thee, far dearer one!
To study every look thy will revealing,
To make thy voice's ever varying tone
The music of my heart.

I would be thine!
When sickness doth oppress thee,
With love's unwearied vigilance to watch,
Waking—to soothe or caress thee—
Sleeping—to lie in dread each sound to catch
Thy slumbers that might break.

I would be thine!
When vex'd by worldly crosses,
To cheer thee with affection's constant ear :
To stay thee 'neath the burden of the losses,
By showing thee how deeply thou art dear—
Most so in thy distress.

I would be thine!
Gently and unreplying
To bear with thee, when chafed and spirit-worn,
The hasty word, the quick reproach, denying;
But by the soft submission which is born
Of steadfast love alone.

I would be thine!
Not passion's wild emotion
To show thee, fitful as the changing wind :
But, with a still, deep, fervent, life devotion,
To be to thee the help meet God designed—
For this I would be thine!

THE CHURCH CELEBRATION AT ROME.—The New York Herald's cable dispatches say the religious ceremonies at Rome in celebration of the 1800th anniversary of St. Peter's martyrdom and St. Paul's canonization and twenty-five Dutch, French and Spanish martyrs in Japan as saints, was one of the most gorgeous witnessed in the world since the days of King Solomon. The observances commenced with a general illumination of the city. St. Peter's looked like a great church on fire. At the same time there was a grand procession of prelates, priests, monks and soldiers from the Vatican to St. Peter's. The Pope was carried on the throne.

St. Peter's was magnificently decorated with cloths of gold, silver tapestries, paintings and 200,000 yards of crimson silk. The building was lighted with many millions of wax candles. There were one hundred thousand people inside the church, including the ex-King of Naples, foreign ministers, five hundred cardinals and archbishops, many thousand clergymen, priests, monks, nuns and soldiers from all parts of the world were present. The Pope celebrated Gregorian mass in Latin and Greek.

Two interruptions occurred. The curtain on one of the windows took fire, but were promptly extinguished. A man became crazed by the splendor of the scene and cut his throat. The pope at once reconsecrated the church stained with the blood of the suicide. Liszt composed extra music for the grand mass, which was accompanied by the choir at the dome of St. Peter and the firing of cannon from Castle St. Angelo.

HOW NEWSPAPER EDITORS ARE PAID IN PARIS.—Newspaper editors are well paid in Paris. It is affirmed in the journals that M. Clement Duvernois, who was recently one of the writers of the Liberte, and who is about to become editor of the Epoque, is to receive a salary of $4000 a year and an "indemnity on entering on his duties" of $20,000. A carriage is, moreover, to be provided for him. On some of the journals the remuneration is even higher than this; and it is to be remembered that a Paris editor does nothing like the amount of work that is expected in London. In fact the Parisian passes the greater part of his time in smoking cigars and talking; and if he knocks off an article or two a week he thinks himself wonderful industrious.—Sometimes he lets a week pass without writing a line

NOTICE TO MOTHERS.

DR. SEABROOK'S

Infant Soothing Syrup.

We have, by purchase of the original receipt, become Sole Proprietors of this Celebrated Medicine. We ask you to give it a trial, with an assurance that you will in future, discard all those nauseous and destructive stuffs, such as Bateman's Drops, Godfrey's Cordial, Dewee's Mixture, &c., combinations of a past and unprogressive age, when it was thought that the more disgusting the mixture the better the medicine.

Use in the future only SEABROOK'S, a combination, quite up with the advancement of the age. Pleasant to take, harmless in its action, efficient and reliable in all cases. Invaluable in the following diseases:

SUMMER COMPLAINT, IRREGULARITIES OF THE BOWELS, RESTIVENESS, TEETHING, &c.

Gives health to the child and rest to the mother.

We could furnish any quantity of certificates bearing evidence of its superior qualities, but prefer that our medicine should stand on its own merits, which it will do upon trial.

PURIFY YOUR BLOOD.

HURLEY'S SARSAPARILLA.

OF all the remedies that have been discovered during the present age for the thousand ills that flesh is heir to, none equal this wonderful preparation. Only ten years have elapsed since the discoverer—who spent a decade in studying experiments, and perfecting it—first introduced it to the public, and it is already recognized by the most eminent physicians in all parts of the country to be the most surprising and effective remedy, for certain diseases, of which they have knowledge.

All other compounds or syrups of this root have hitherto failed to command the sanction of the Faculty, because, on being tested, they have been found to contain poisonous ingredients, which neutralize the good effects of this Sarsaparilla, and oftentimes injure the health of the patient. It is not so with Hurley's preparation.

This is the pure and genuine extract of the root, and will, on trial, be found to effect a certain and perfect cure of the following complaints and diseases:

All cases of the Bones, Habitual Costiveness, Debility, Diseases of the Kidneys, Dyspepsia, Erysipelas, Female Irregularities, Fistula, all Skin Diseases, Gout, Complaint, Indigestion, Piles, Pulmonary Diseases, Syphilis, Scrofula or King's Evil.

Hurley's Ague Tonic.

PERFECTLY RELIABLE.

The only remedy for Chills and Fever or Ague and Fever that is or can be depended upon in Hurley's Ague Tonic. There have been thousands cured by using it who had tried the usual remedies without benefit; but in no case has

Hurley's Ague Tonic

failed to effect a cure. All who have used it cheerfully tell their afflicted friends of it as a sure and certain cure for chills and fever. Any one suffering from the chills would consult their own interest by sending to the drug store and buying a bottle. It is pleasant to take compared with others, and will be certain to cure all cases of fever and ague or chills and fever. Send for it to the proprietors.

ANNUAL CIRCULAR.

Dolbear's Commercial College

OPEN CONSTANTLY, DAY AND EVENING
Corner of Camp and Common St.,

In the Elegant and Spacious
IRON BUILDING,
NEW ORLEANS, LA.

Founded in 1832—Chartered by the Legislature of Louisiana,

WITH COMMERCIAL, AGRICULTURAL, AND MECHANICAL DEPARTMENTS.

THIS COLLEGE, has, by its own merits and thorough, practical plan of education, continued all the liberally endowed State Colleges of this and the South-Western States. It is the

Oldest Commercial College in the United States.

AMPLE ARRANGEMENTS FOR

One Thousand Students
During the Current Year.

Comparative Cost and Value of the Education Given Here and in the Ordinary and Literary Colleges :

It is believed to be the first in Europe or America, chartered with Commercial, Agricultural and Mechanical Departments. Every student who gives proper attention to the instruction, is qualified before graduating to keep any set of books, it does not what the business may be, and do the Correspondence of any house. Students can attend the "Commercial Course," or to the English, French, Spanish, German, Latin or Greek Languages, or the higher Mathematics, etc., separately. We have

Cost of full Commercial Course here—Tuition.....$145
Board for three months.....90
Contingent expenses, about.....20
Total.....$255

After which the student is ready to go into business, and make $1000, $2000, or $3000, annually.

Cost of ORDINARY LITERARY COLLEGES.—About $400 per annum, for four years, or $1600; clothing for four years, $200, or $800—total, $2400, and four years of time expended. Our student will begin to work after three or four months, and make, say the first year, about $1000; the second year and nine months as probably $1800, or $2150 he earns in four years. Deduct $2551 leaves $5892 net gain to our Students; but to the other a net expense of $2400; or $8295 our student has gained over the other. We suppose the Students in both cases to have a good English education to begin with. We deem a business education that enables the student to earn $1000, $2000, or $3000 annually, to be the best fortune parents can give their sons. So far as known, not one of the thousands of our graduates, is out of profitable employment. A word to the wise is sufficient.

DR. WHITTIER,

LONGER BY YEARS LOCATED IN ST. LOUIS than any other Private Medical Physician, is a regular graduate of the University of Louisville, Ky., and has the Diplomas of Medical Colleges, Hospitals, Societies, &c., hanging in his office. Diseases of the Throat, skin or kidneys a specialty.

Thousands of young men will please, at once, address him, as secrecy, confidence and honor may be relied on. Middle aged men, who from exposure or indiscretion, are troubled with premature decay, nervousness, debility, lack of energy, and fearful forebodings, have no time to lose.

No one prior to many old residents for years, can show more unsolicited testimonials, from men among the highest in the land, than can Dr. Whittier, which bear evidence of the skill, honor and success which have attended his practice for many years.

He can refer to many old residents for years, who have been restored to perfect health and manhood, after having spent many physicians' fees to no purpose.

Consulting a whole house of twenty years' standing, with a reputation second to none for honor and skill, is a privilege many would gladly embrace.

Dr. Whittier's Medicines are everywhere by mail or express.

The Theory and Practice of Medicine, Surgery, Obstetrics, Diseases of Women and Children, may be had by addressing Dr. Whittier, and inclosing a stamp. Office and Parlors, No. 206 Olive street, between Fourth and Fifth streets, St. Louis, Mo.

A Medical Work on Manhood, Nervousness, Debility, Premature Decay, and the Secret Habits of Youth, with nearly 100 prescriptions for all acute and chronic diseases, with the author's experience of twenty years in a large practice, sent by mail for 25 cents, or two postage stamps. Address as above.

THE GULLETT STEEL BRUSH GIN.

This celebrated COTTON GIN, is age a manufactured under the supervision of the Patentee, R. H. Gullett, which gives it superior facilities over all others in the South-west, now offered to the public.

The advantages are:

1st. The quantity of cotton ginned in a given time is much greater than by any other gin of equal dimensions.

2d. It separates from the Cotton all motes and dust and leaves the staple perfectly clean.

3d. The roll cannot be broken by over feeding, the gear wheels cannot be stripped, and the Cotton (in the gin) will sell for as much per pound, and is as free to pass by the gin, as it is from the seed. These Gins have been in use extensively in the South-west for two years, and wherever they have been used they have given entire satisfaction.

Send for circular and price list.

COTTON PRESSES.

We are also manufacturing the screw of this celebrated Press, and are prepared to furnish the screw and nuts, with the necessary patterns, to any one who may wish to make the Press themselves. The screw is made of the best quality of iron, and is warranted to be perfect in every respect. Price for screw and nuts, $100. Address

FOR SALE

At this office. Petitions in Bankruptcy, with the accompanying Schedules.

The Star admits the Eastern counties will vote for a convention, but says it will be by the "black vote." Somebody has been hoaxing our neighbor about Meridian. Nobody here doubts that a majority of the white vote of Lauderdale will be given for a convention. It is a candid admission, for which we give the Star credit, that his party is in a hopeless minority in East Mississippi.

CAVALRY FOR MOBILE.—The Montgomery Advertiser says that a cavalry company left that city on the 31st ult., for Mobile, having been assigned to duty at the latter place.

Dr. M. Emanuel, President of the Vicksburg and Meridian Railroad, who has been on a visit to Europe, in relation to business of the road, arrived in New York on the 28th ult. His mission has been successful.

TEACHERS' CONVENTION.—The General Convention of Teachers of the State of Mississippi, assembled in the Senate Chamber of the Capitol, on Wednesday, 31st ult. The time and place for the next meeting of the Convention, was fixed at Oxford, on the first Wednesday in August 1868.

Lauderdale county, in this State, must have a rare population. While a committee from one of its towns, (Enterprise,) is at Cairo, Ill., begging corn and meat, and even "worn-out" clothing, for a starving and naked people, the citizens of another of its towns, (Meridian,) get off a Tournament.—Hinds County Gazette.

The editor of the Gazette must be very rusty in Geography, else he would not locate Enterprise in Lauderdale county.

A BIT OF NEWS.—The Vicksburg Republican says the skull of a Union soldier, taken from the battle-field at Ball Run, was on exhibition in the Hill City just before its capitulation in 1863. This will be news to the old Vicksburgers. The writer of this was in Vicksburg at the time referred to by the Republican, but never saw the skull of a Union soldier nor heard of its being on exhibition.

THE VICKSBURG TELEGRAPH.—A circular from T. B. Manlove & Co., announces that the Vicksburg Evening Telegraph will be issued on or about the 15th inst. We enter it upon our exchange list and wish the proprietors success. The Telegraph will, we believe, favor a convention and reconstruction under the present law.

The Mexican filibustering schemes, intended to avenge the death of Maximilian, have not met with success, and appear to have been quietly dropped. Sensible.

Near Sparta, Tennessee, the other day sons of Brownlow's militia had a difficulty with one of their own men named Bill Davis. They say he broketo run, when they shot him, then brought him back and staked him down to the earth, with his hands, feet and head all tied to the ground. He lay in this condition until the next morning, when he was untied, and turning over on his side, died in a few minutes.

Mrs. Sallie Gibson, a widow of Louisville, Ky., committed suicide the other day to escape the pangs of disappointed love.

We have noticed on the Mobile road recently a number of "Fast Freight Line" cars. These cars, it appears, have been built by the company for the new freight line between Louisville and Mobile, lately organized. Freight is taken from Louisville to Mobile and intermediate points without transhipment. Connection is made at Louisville with the Merchants' Dispatch and Star Union fast freight lines for New York and all points East.

At Darien, Conn., a few days since, an aged couple, who had been married sixty-six years, received 81 of their descendants, whose united ages were 2428 years.

Col. Dodge and his Captain, who are charged with administering one hundred lashes to a citizen, and also whipping a private soldier at Fort Sedwick, some weeks ago, are to have their actions inquired into by court-martial.

The Southern Opinion, E. R. Pollard's paper, is a strong advocate of negro suffrage, and of the best way possible in behalf of organization under the laws of Congress. It says: "We can have no substantial prosperity until the State is readmitted into the Union and the military government is superseded."

The Cotton Caterpillar—How to Kill It.

This dreaded scourge has made its appearance in Louisiana and Mississippi, and serious apprehensions are felt for the safety of the crop, as twenty days will suffice for it to destroy the cotton of an entire county. The East being liable to be visited by the worm at any time, we propose to collate the various remedies for its destruction that are now going the rounds of the papers, so that our planting friends may be ready to fight the enemy upon his first appearance. Prof. Wailes, State geologist in 1854, recommended the use of torches at night immediately after the perfect immigo or moth emerges from its puparium or chrisalis state, and flies abroad, it being well known that fire-light attracts insects of this class. If the hands of a plantation were each provided with a torch of pinewood, dried cane, or some similar material, and made to pass through the fields at intervals of five to ten rows apart, shortly after twilight had closed, myriads of the moth would perish in the flame, each of which would have deposited its hundreds of eggs in a few days. Others suggest powdering the leaves of the plant with finely pulverized quicklime, or the fumigation of each separate plant with sulphurous vapor produced by burning brimstone on chafing dishes, each plant being enclosed during the process, in a tight canvass hood. A gentleman in Tensas parish, Louisiana, has tried unslacked ashes, sifted over the plant, with great success. One hand can protect from one to four acres per day. The ashes will have to be applied after every rain, and, it may be, oftner. Another planter on Red river has tried molasses and vinegar, and is fully convinced of its benefits, if not of its entire efficacy. He placed a number of tin plates on stands the height of the cotton throughout the field, about one plate to each acre, filing them with a mixture of vinegar and molasses, and has caught from 15 to 35 flies in each plate every night. An exchange suggests the use of carbolic or phenic acid. This plan, however, Mr. Geo. W. Morse, of Natchitoches, who has been experimenting with the cotton worm for several years, pronounces impracticable. It might, he argues, produce the desired effect, if you can devise any means to touch them with it; but as the young worms are hatched, and remain some days on the *under side* of the leaf, this will be found impracticable, unless, indeed, you catch each one and subject them all to its action, and then you might as well crush them at once. Fires in the field might destroy many of the moths; but whenever they appear in such quantities as to make that plan available, enough eggs would have been already deposited in the leaves to produce worms sufficient to destroy the crop. His plan is for the entire force on each plantation to turn out and crush all the voracious insects and chrysalids that can be found, burning the leaves rolled up; and that the proper time for this is during the stage in their existence when the worms roll themselves up in the leaves of the plant. We have given the different propositions for the destruction of the worm without comment, because we are not prepared to recommend any one of the modes of proceedure enumerated, above another. The farmer must decide for himself which is the most efficacious remedy. Many are trying Prof. Wailes' plan, and on the Hurricane place in Warren county, we notice, with considerable success.

The Republican Congressional Committee have issued a circular appealing for money to give the Republican party control of the State organizations down South. "They cannot control unless money, the sinews of any struggle, is used to aid those who work for that success." Exactly. With all the Loyal Leagues, Army of the Republic organizations, political missionaries and documents and disfranchising enactments, the Radicals doubt their ability to control the colored vote, and want money with which to buy votes, and practice fraud. Our own people will remain in the ascendancy, if they are but true to themselves.

The South Carolina Radical Convention declares the right to put forward a black candidate for Presidential honors. This is a very nice bait with which to catch Sambo's vote. We warn the freedmen to stand clear of these proffered friends. They never intend to cover them with the mantle of power—never expect to give them any office of honor or profit. A few worthless bones will be tossed out occasionally over which the colored people are expected to scramble, while the white friends of the Radical persuasion are crawling into the fat places.

GENERAL HINDMAN.—In a letter to the Little Rock Gazette General Hindman indignantly and emphatically denies that he has ever affiliated with the Radical party. He advises every friend of the South, who is permitted to do so, to register and vote for a convention, and for good men and true as delegates, who will acquiesce in the military bills of Congress, not because these bills are constitutional, just or wise, but because such a course may be sustained by the reasoning which controlled Lee and Johnston when they surrendered to Grant and Sherman. On the general issue the General says:

Following out these views, it seems to me the plain and impurious duty of conservative men at once to organize as a party, throughout the State, and in every district, county and township, for the purpose of resisting radicalism at every step, whether in public debate, or at the road side, or in the cotton and corn rows, or under the cabin roof, whence the poor negroes are decoyed by wolves in sheep's clothing, to secret night meetings and Sabbath day conventicles, with the false threat held over them that they will be punished by fines and imprisonment if they refuse to attend, or to not swear to vote for radical candidates. If boldly met, such party tricksters as these are easily enough defeated, and the negro, notwithstanding his ignorance and credulity, may yet be saved from following radical leaders into a hopeless crusade against a superior race—a contest that will destroy him as certainly as it has destroyed the Indian.

The Old Guard, a New York monthly declares that the only hope of bestring the Republicans in this period of deutiel election is for the Democratic party of the North to refuse resolutely to recognize in the electorial college the votes of States reorganized under the military bills. It calls upon us to do our utmost against reconstruction, unless assured that we can by assisting reconstruction reinforce the opponents of the Republican party. But if the South will not oppose the plain purpose of Congress, and if the Democratic party of the North shall lack the backbone to dispute the title of a President elected by means of votes drawn from Southern "military colonies," then the Old Guard declares that chaos may rule for at least a season," and that the South may be at the mercy of revolutionary mongrels "a little longer." Now this question of the occurrence and duration of chaos and of mongrel domination, is one that peculiarly and vitally concerns the Southern people. It is something worse than impertinence for men at a safe distance from the scene of trouble to tell us that we ought, with joy, to assist in rendering our condition as miserable as possible, for the sake of throwing odium upon one party and improving the prospects of another. Such party tactics may be very profound, but they certainly lack the appearance of being magnanimous.—Crescent.

TROUBLE IN TENNESSEE.—A Bolivar telegram of the 29th says:

Last Saturday a difficulty occurred at Purdy, McNairy county, which resulted seriously. The following are the particulars as far as they can be learned:

Eight or ten negro militia attempted, by force, to make a negro boy speak at a political meeting. This the boy refused to do. Senator John Aldridge (Radical) remostrated with the militia, but failed to induce them to desist. The Sheriff of the county then attempted to use his influence in protecting the boy, when he was fired upon and mortally wounded, being shot through and through.

SERIOUS ACCIDENT.—Our townsman, R. C. Kerr, while attemp ting yesterday morning, to get on a train in motion, near the Railroad Junction, was thrown on the track, and one of his feet so badly crushed as to necessitate amputation.—Clarion.

The little raft Nonpareil, which sailed from New York on the 4th instant has arrived at Southampton, England.

A shocking tragedy occurred at Chillicothe, Ohio, Tuesday evening. A young man named Hunter with three of his friends, were drunk together in a saloon, when they got into a "free fight." Hunter's mother came in to take him out, when he ran out into the street, got a stone, and, throwing it into the crowd, struck his mother on the temple, injuring her so severely that she lived about ten minutes afterward. Hunter is about twenty years old; his mother forty-five. The whole party were arrested and are now in jail.

HERALD LIBEL SUIT.—A New York dispatch of the 22d says: Before the Supreme Court to-day, the case of James F. Cummings against the Herald, consisting of an alleged libel—damages claimed at $200,000, were argued and a decision reserved.—The Herald merely published the charge in a former complaint made in the court by one Poultan, that the plaintiff had swindled the rebel government, under which he occupied a prominent position.

The State of North Carolina offers for sale, through her Governor, on the part of the Board of Literature of the State, all her public swamp lands, consisting of about one million and a half of acres. Some of these lands have been drained, and all are said to be susceptible of drainage at moderate expense. They are particularly adapted for grazing, and are very fertile. The object of selling the land is to secure the development of the State and to sustain the common schools.

Much attention is now being paid in the interior of Louisiana in the propagation of a new grass, called the Bungarian which yields two tons to the acre on bottom lands.

"The Poisoned Hash" is the title of a chapter of Lectures now being published in New York weekly paper. The same article is issued daily at several boarding houses in and out of the Union.

The race for governor is so strong in Chicago that a negro stand for a separation from a white woman will have to be fired, but to whom he had never been married.

LITTLE SORRELL.*
(Stonewall Jackson's Horse.)

Ah! "Little Sorrell!" soon will live in story,
Thy name and deeds renown with Ashby's fame;
Who, nobler steeds disdaining, loved thee well—
Whom thou so oft beat borne, bold shot and shell,
Where duty called him, and where unsought fame
Waited, to crown him with a matchless glory.

Thou art a gentle steed! Quietly feeding,
It seems thou dost forget the shock of battle.
Thy wide, green pasture, lazily wandering over,
Thou hapest not the cannon's roar;
Nor at the onpanion of breaking staff,
Little thou reckest of the dead and bleeding.

Hast thou no memory of thy master's bearing,
When eagerly advising at early morn—
After a few hours stolen for repose—
He vaulted on thy back to meet his foes!
Scent thou not the scrutiliant fires, soot-born,
That lit his eye, reflecting all his daring!

Can'st thou not see him, where the bayonet's gleaming,
In
Of countless foes advancing, charmed his vision?
Then, thundering on, he led thy impetuous charge
On, on, far past the battle's bloody margin
Where victory waited on his sword's decision,
And where the plain with dead was thickest, beneath!

Alas! thou hast no tongue for reminiscence—
The glories of the past are dead to thee.
Content beside the servile ox to graze,
Here will thou spend the remnant of thy days,
Emblem of those thy master fought for free.
And can they, too, forget their past existence?

J. D. A.

* "Little Sorrell," so well known is every soldier of Jackson's command, is still living, in well earned ease, an object of interest to all who love the memory of his illustrious master.

The Red Jacket Bitters is no worthless article, but what it claims to be, a real, genuine, medical preparation, of sterling virtues. The name "Bitters" is too often used to cover a villainous compound of poor whisky and some bitter drug. Do not confound the Red Jacket with this class.

GRAY'S COTTON AND HAY PRESS.—Speed & Co., of Mobile, offer to planters the above named press, which is said to be the cheapest and most perfect cotton press ever invented. Also the Gullet Steel Brush Cotton Gin, the use of which causes cotton to sample enough higher over the same staple where any other gin is used, to pay the entire cost of the machine in one crop of fifty bales. Spear & Co., have in addition, corn mills, engines, saw mills circular saws, belting, iron, copper &c., on hand.

DRONGOOLE & CO.'S RED DIARRŒA REMEDY.—Of all compounds ever offered to the public for Diarrhœa, Cholera Morbus, Cramps and Bowel complaints of children, nothing equals the above Remedy. It is exceedingly pleasant, refreshing and cooling to the stomach. It is a syrup, nor is it alcoholic, contains no kino, catechu, galls, &c., and acts like a charm upon old and young. Whenever used, it merits and receives encomiums of the highest praise. No family should be without the Red Diarrhœa Remedy.

One of the most noticeable improvements in Mobile is the new building erected on Dauphin street by Levy, Woolverton & Co, and now occupied by them as a clothing store. This enterprising firm is from East Mississippi; have a branch of their business still in Enterprise, and we are glad to know, are having a flourishing trade. Call friends from this section should not fail to give them a call when they visit Mobile.

Our readers who visit Mobile, will find the Campbell House on St. Louis Street, at the old Hoper House, one of the most pleasant and comfortable stopping places in Mobile. The fare is excellent, and the charges most moderate. We stopped there recently, and we say what we know when we term it equal to any in Mobile.

HIGH SCHOOL FOR BOYS.—Rev. J. A. Smylie announces that the next session of this Institution will commence on the second Monday of September, and continue forty weeks. The Institute is now being remodled to meet the demands of our growing city, and will be in thorough repair by the opening day. Mr. Smylie the Principal, is a gentleman of fine attainments and unbounded energy, and will, with a little co-operation from our people, build up a Male Academy here that will be an honor to our country.

MR. W. A. PAYNE has our thanks for a few bends of very fine cabbage.

PERSONAL.—We had a call yesterday from Prof. Thos. S. Gathright, of Summerville Institute, who was just returning from the Teachers' Convention at Jackson.

A negro man broke jail at this place on Thursday night, and made his escape.

PRESCRIPTIONS FILLED AT ALL HOURS.—Our friend Chadwick's drug and medicine Front Street druggist, is now living over his store, and will attend to filling prescriptions at all hours—day and night. Chadwick's medicines are fresh, and experience of twenty years in the business, is a sure guarantee that they will be properly compounded.

If we call attention to the advertisement of Tappan & Co., Vicksburg, Miss., to iron, steel, &c., we know Tappan & Co., will do ample justice to all who favor them with orders, both as regards prices and quality of goods.

We hope our readers who want the articles they offer for sale will give them a trial.

TELEGRAPHIC NEWS

WASHINGTON, Aug. 1.—A delegation of Alabamans waited on the President last evening, who urged the removal of Gen. Pope, on the ground that his policy was equally as obnoxious as Sheridan's. They would not say what policy would be pursued in the future in regard to the Reconstruction Acts.

Admiral Farragut expects to leave the Navy Yard in a few days for Europe. The exact date has not been determined upon. The Admiral will be accompanied by his family. Preparations are being made to fit up the flagship Franklin for the trip. It has been suggested that the Secretary of State send word to the American Ministers of Spain and Washington to tender the resignations of the Imperialists, in the event of Maximilian, and the reasons which led to the execution of the unfortunate Prince and his generals.

The various members of the Cabinet left Saturday to serve the Republican ticket in Ohio. Secretary Seward will address meetings with Mr. Rosecrans. Everything touched upon in these meetings will be favorable to the Republicans and the Imperialists are charged with the most atrocious and bloody crimes. It is asserted that Gen. Escobedo, Romero, and Castelnuovo, Hidalgo, May 31, 1867, in which General Diaz says:

Gen. Bazine, through a second party, offered to surrender to me the cities which they occupied, and also the Prince Salm Salm, Marquez, Miramon, etc., into my hands, provided I would accede to a proposition which he made to me, and which I rejected, as I deemed it not very honorable

Another proposition was also made me by authority of Bazine for the surrender of six thousand muskets and four cannon of rifled bronze, and if I desired it he would have sold me both muskets and powder, but I declined doing so. The interviews have taken place opened our eyes, and hereafter we should be more cautious in treating with foreign people, particularly with the Emperor of Europe, and especially so with France.

In the Surratt trial to-day, Mr. Merrick resumed and concluded his argument for the defence.

Mr. Bradley will probably make a short address in the jury to-morrow.

NEW ORLEANS, Aug. 1.—The registration of Louisiana is completed, but it will take several weeks to revise the rolls. Many persons who registered under the Attorney General's opinion will be stricken off. No accurate estimate of the State vote can be made, but no doubt the revised rolls will show a large majority.

The Board of Registration is soliciting the Republican nominations for the offices to be voted for under the orders. The senior members of the Board of Registration are also the senior officers of the Republican party in the State, and the lower which were elected on the Republican ticket. Of the most appointments, two in the upper and three in the lower Board are white; those in the upper and in the lower Board is a pure nigger, and one doubtful; none of the colored appointees being newly enfranchised, but all ten citizens of the State of Louisiana. He says: The reasons for the removal of these persons are to be found in the disordered condition to which they have reduced the city courts, and the efforts they have made and are making to impede the lawful execution of the law of Congress dated March 2d, and the acts supplementary thereto.

ELIZABETH, Aug. 1.—This morning at an early hour the Democratic Ward Club of this city was crowded by about three thousand blacks awaiting the opening of the dance, and that event was alive with others coming to the place appointed for the meeting of the Convention. Several speeches were made when the convention adjourned until to-morrow.

GALVESTON, Aug. 1.—The appointment of Pease as Governor gives satisfaction to the best men of all parties.

There is a steady increase of yellow fever at Houston, and business is unusually dull. Cotton is coming in slowly.

MEMPHIS, Aug. 1 4 P. M.—So far the election has passed quietly, and all there is to fear of a disturbance. Nothing as to the result can be learned.

NASHVILLE, August 1.—The election today was the quietest ever known here. Whites and blacks voted without molestation, and the whole affair rather party was given. At the polls a few parties were arrested for attempting to buy votes and others for carrying concealed weapons.

WASHINGTON, August 2.—Mr. Bradley, counsel for the defence in the Surratt trial, addressed the jury to-day. Pierpont, for the prosecution, closes to-morrow.

The dispatches received from Tennessee indicate that the election yesterday passed off quietly and without violence, as was anticipated. In Memphis a regiment of infantry was stationed so as to be called upon in case of emergency, but it was not necessary. A large vote was polled. Brownlow seeming to have the advantage. The entire Radical Congress, but fall enough to warrant speculations as the result.

CHARLESTON, August 2.—Gen. Sickles has removed the police of the town of Sumpter for alleged maltreatment of blacks, and inefficiency. He appointed two colored and three white man police-men to succeed late incumbents.

OPELOUSAS, August 2.—A. Knoxville dispatch to the Commercial says Brownlow estimates his majority at 30,000. All the eight Congressmen will be Radical and the Radical U. S. Senator instead of Patterson.

CLAY COUNTY, Aug. 2.—There were six interments on the 31st ult. The fever is pronounced epidemic.

MEMPHIS, Aug. 2.—All accounts from Tennessee agree that the State has given a Radical majority of 20,000 for Brownlow and the entire Radical Congress.

MEMPHIS, Aug. 2.—Many negroes have been discharged in consequence of the election. It is said they threaten retaliation. Every thing is quiet so far.

NEW ORLEANS, Aug. 2.—Cotton sales today, 600 bales; middling 29½ cents; receipts 660 bales; exchange 1 premium. Flour dull and unsettled. Bacon quiet at 13½@13¾c; shoulders 10½@10¾c.

A coquettish vehicle, called the "Excelsior," is now in the streets of Paris, having been introduced there by a Boston lady. There is just room in it for the occupants of one seat.

An amiable manufacturer in Boston died on Monday, from the continuous infusion of the poison into his system during his professional visits to his customers.

Congressional Reconstruction.

THE CONSTITUTIONAL AMENDMENT.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, (two-thirds of both Houses concurring,) That the following article be proposed to the Legislatures of the several States as an amendment to the Constitution of the United States, which, when ratified by three-fourths of said Legislatures, shall be valid as a part of the Constitution, namely:

ARTICLE—Section 1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States, and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; Nor shall any State deprive any person of life, liberty or property without due process of law, nor deny to any person within its jurisdiction the equal protection of its laws.

Sec. 2. Representatives shall be apportioned among the several States according to the respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when-ever the right to vote at any election for electors of President and Vice President of the United States, Representatives in Congress, executive and judicial officers, or the members of the Legislature thereof, is denied to any of the male inhabitants of such State, being twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in the rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in that State.

Sec. 3. No person shall be a Senator or Representative in Congress, elector of President and Vice President, or hold any office, civil or military, under the United States, or under any State, who having previously taken an oath as a member of Congress, or as an officer of the United States, or as a member of any State Legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid or comfort to the enemies thereof; but Congress may, by a vote of two-thirds of each House, remove such disability.

Sec. 4. The validity of the public debt of the United States, authorized by law, including the debts incurred for the payment of pensions and bounties for services in suppressing insurrection or rebellion, shall not be questioned, but neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slaves; but all such debts, obligations, and claims shall be held illegal and void.

Sec. 5. The Congress shall have power to enforce, by appropriate legislation, the provisions of this article.

THE MILITARY GOVERNMENT BILL, COMMONLY KNOWN AS THE SHERMAN AMENDMENT BILL OR THE RECONSTRUCTION BILL.

WHEREAS No legal State government or adequate protection for life or property now exists in the rebel States of Virginia, North Carolina, South Carolina, Georgia, Mississippi, Alabama, Louisiana, Arkansas, and Texas; and whereas it is necessary that peace and good order should be enforced in said States until loyal and republican State governments can be legally established; therefore,

Sec. 1. That said rebel States shall be divided into military districts and made subject to the military authority of the United States, as hereinafter prescribed, and for that purpose Virginia shall constitute the first district, North Carolina and South Carolina the second district, Georgia, Alabama and Mississippi the third district, Mississippi and Arkansas the fourth district, Louisiana the fifth district, and Texas the sixth district. The President shall assign to the command of each of said districts an officer of the army not below the rank of brigadier general, and to detail a sufficient military force to enable him to perform his duties and enforce his authority within the district to which he is assigned.

Sec. 2. That it shall be the duty of each officer assigned as aforesaid to protect all persons in their rights of person and property, to suppress insurrection, disorder, and violence, and to punish or cause to be punished all disturbers of the peace and criminals, and to this end he may allow local civil tribunals to take jurisdiction of and try offenders, or when in his judgment it may be necessary for the trial of offenders, he shall have power to organize military commissions or tribunals for that purpose; and all interference under color of State authority with the exercise of military authority under this act shall be null and void.

Sec. 3. That all persons put under military arrest by virtue of this act shall be tried without unnecessary delay, and no cruel or unusual punishment shall be inflicted; and no sentence of any military commission or tribunal hereby authorized, affecting the life or liberty of any person, shall have any force until it is approved by the officer in command of the district, and the laws and regulations for the trial and punishment of the army shall not be affected by this act, except in so far as they may conflict with its provisions.

Sec. 4. That when the people of any one of the said rebel States shall have formed a constitution of government in conformity with the Constitution of the United States in all respects, framed by a convention of delegates, elected by the male citizens of said State twenty-one years old and upward, of all races and colors, who have been residents in said State for one year previous to the day of such election, except such as may be disfranchised for participation in the rebellion, or for felony at common law; and when such convention shall provide that the elective franchise shall be enjoyed by all such persons as have the qualifications herein stated for electors of delegates; and when such constitution shall be ratified by a majority of the persons voting on the question of ratification who are qualified as electors for delegates, and when such constitution shall have been submitted to Congress for examination and approval, and Congress shall have approved the same; and when said State, by a vote of its Legislature elected under said constitution, shall have adopted the amendment to the Constitution of the United States proposed by the Thirty-ninth Congress, and known as article 14, and when such article shall have become a part of the Constitution of the United States, said State shall be declared entitled to representation in Congress, and Senators and Representatives shall be admitted therefrom, on their taking the oath prescribed by law, and then and thereafter the preceding sections of this act shall be inoperative.

Provided, That no person excluded from the privilege of holding office by said proposed amendment to the Constitution of the United States, shall be eligible to be a member of the convention to frame a constitution for any of said rebel States, nor shall any such person vote for members of said convention.

Sec. 6. *And be it further enacted*, That until the people of said rebel States shall be by law admitted to representation in the Congress of the United States any civil government which may exist therein shall be deemed provisional only, and in all respects subject to the paramount authority of the United States at any time to abolish, modify, control, or supersede the same; and in all elections to any office under such provisional government, all persons shall be entitled to vote under the provisions of the fifth section of this act; and no person shall be eligible to any office under any such provisional government, who would be disqualified from holding office under the provisions of the third article of said constitutional amendment.

SUPPLEMENTAL RECONSTRUCTION BILL.

AN ACT supplemental to an act entitled an act to provide for the more efficient government of the rebel States, passed March 2, 1867, and to facilitate restoration.

Be it enacted, &c., That before the first day of September, 1867, the commanding general in each district defined by an act entitled an act to provide for the more efficient government of the rebel States, approved March 2, 1867, shall cause a registration to be made of the male citizens of the United States, 21 years of age and upwards, resident in each county or parish in the State or States included in his district, which registration will include only those persons who are qualified to vote for delegates by the act aforesaid, and who shall take and subscribe the following oath or affirmation:

"I ——, do solemnly swear, or affirm, in the presence of Almighty God, that I am a citizen of the State of ——, that I have resided in said State for —— months, next preceding this day, and now reside in the county of ——, or the parish of —— in said State (if the same may be), that I am 21 years old; that I have not been disfranchised for participation in any rebellion or civil war against the United States, nor for felony committed against the law of any State of the United States; that I will faithfully support the Constitution and obey the laws of the United States, and will to the best of my ability, encourage others to do so. So help me God." Which oath or affirmation may be administered by any registering officer.

Sec. 2. That after the completion of the registration hereby provided for in any State, at such time and place therein as the commanding general shall appoint and direct, of which at least thirty days' public notice shall be given, an election shall be held for delegates to a convention for the purpose of establishing a constitution and government for such State loyal to the Union; said convention in each State, except Virginia, to consist of the same number of members as the most numerous branch of the State Legislature of such State in the year 1860, to be apportioned among the several counties, districts, or parishes of such State by the commanding general, giving to each representation in the ratio of voters registered as aforesaid, as nearly as may be. The convention in Virginia shall consist of the same number of members as shall be apportioned the territory now constituting Virginia in the most numerous branch of the Legislature of said State in the year 1860, to be apportioned among the several districts, counties, or parishes of such State by the commanding general, giving to each representation in the ratio of voters registered as aforesaid, as nearly as may be. The convention in Virginia shall consist of the same number of members as shall be apportioned the territory now constituting Virginia in the most numerous branch of the Legislature of said State in the year 1860, to be apportioned among the several districts, counties, or parishes of such State by the commanding general, giving to each representation in the ratio of voters registered as aforesaid, as nearly as may be. The convention in Virginia shall consist of the same number of members as shall be apportioned the territory now constituting Virginia in the most numerous branch of the Legislature of said State in the year 1860, to be apportioned among the several counties, districts

THE GRELLETT STEEL BRUSH GIN.

The celebrated COTTON GIN, is now manufactured under the supervision of the Inventor, H. B. Dutton, with many improved facilities; and we, as agents for the Lauds-west, now offer it on the most liberal terms.

Its advantages are:

1st. The quantity of cotton ginned in a given time is greater than by any other gin of equal number of saws.

2d. It separates from the Cotton all motes and dust and leaves it in fine order.

3d. The roll cannot be broken by over feeding.

All gins are warranted to gin more clean Cotton from this gin without the increase in price, sufficient to do justice to the gin. No cause is to be found why this gin should not have been in use extensively in the past seventeen (18) years, and wherever it is introduced it supersedes all other gins.

Send for special circulars.

COTTON PRESSES.

We are manufacturing for the crop of 1867 an improvement on the Dutton Screw, which will add a large number of cubic feet to the bale, and can be worked by hand, horse, or steam power. Can be used one screw to a bale, or two screws in the middle, as may be convenient, and changed in the middle of the season.

Also, Dutton's Improved Cotton Screws.

Horse Powers, Cane Mills and Mill and Plantation Machinery and Agricultural Implements of all descriptions.

DIARRHŒA.

THIS dreadful summer complaint is now upon us, and oh! how many thousands it carries to an untimely grave every year? Beware mothers, how you neglect that slight Diarrhœa in your family; clip it in the bud. Send immediately and procure one bottle of

DROMGOOLE & CO'S

RED DIARRHŒA REMEDY.

For your family, so that you can give it when necessary. For infants at the breast, and the bowel complaint of children while teething, it acts like a charm. All forms of Diarrhœa, Cholera Morbus, nausea and vomiting, cramps, pains in the stomach and bowels are immediately cured by its use.

USE RED DIARRHŒA REMEDY.
USE RED DIARRHŒA REMEDY.
USE RED DIARRHŒA REMEDY.

It is so pleasant, so cooling and so prompt, that all praise it.

During the prevalence of Cholera in Memphis, during last summer, it was extensively used by the masses, and prescribed by many Physicians, with the happiest results, for all the first stages of Cholera. All cases of

BLOODY FLUX OR DYSENTERY.

Mucus Diarrhœa, pains and straining of the bowels, should not fail to use a few doses of

DROMGOOLE & CO'S

DYSENTERY COMPOUND

And be cured.

All Physicians of experience agree that Dysentery and Diarrhœa are treated differently, and no compound is the RIGHT ONE that will effect a cure.

ALL MARRIED MEN

Whose wives are suffering with constant pain and suffering each month, whose menstruation is too much or too little or painful, or who are unable to bear children, or falling of the womb, with Leucorrhœa or Whites, should not fail to carry home one bottle of

DROMGOOLE & CO'S

English Female Bitters.

Which will cure all those complaints and restore them to health and buoyancy again.

THAT YOUNG GIRL

Whose very countenance, acts, color and walk, indicate disease, can be so easily restored to health by using the English Female Bitters.

It tones the pale cheek with the crimson blush of nature, adds joy and brightness to the downcast and melancholy, gives brilliancy to the eye and intellect, imparts beauty and charms to fair retiring girlhood, and composes in old age.

USE ENGLISH FEMALE BITTERS.

For old and young, married and single.

WHAT'S THE MATTER, OLD MAN?

Can't you get your kidneys to act free enough? Are you troubled with gravel, or any kind of deposits? Do you pass bloody urine occasionally? Are you annoyed with frequent desire to make you water? Is your urine thick or milky? Have you a pain in the small of the back? Are you nervous, melancholy, or alarmed in your dreams, from the effects of habits of dissipation or indiscretion? Do you require a diuretic or a medicine which will immediately arouse and restore your kidneys and bladder to a healthy action? If so, procure a bottle of

DROMGOOLE & CO'S

Fluid Ext. Bearberry, Cubebs and Buchu.

And be restored to health and manhood again. Large bottles will cost you only one dollar.

YOUR LIVER

Should be kept in good condition, before fall, thereby warding off and preventing many diseases. Use Dromgoole & Co's Chills, &c., and nothing is so effectual as

DROMGOOLE & CO'S

KING OF CHILLS

Which never fails to cure all cases of Chills, Bilious Fever, Intermittent Fever, Neuralgia, &c., for which it is used. It never affects the head or ears, acts upon the liver and bowels, cleanses the stomach, can be given to infants, and is a permanent cure. Ask and consult your druggist about it. It is no secret, no patent, no illiterate mixture, but the result of much experience in the Southern country.

SCROFULA AND OLD SORES.

Blotches and Spotches on the face, humors in the blood, Glandular Swellings, Tumors, Pimples, Itch, Scaldhead, Tetter, broken down constitution, Inflammation of the Blood, can be speedily cured by using

The Safety Hand Lamp,

AND

Meteor Burning Fluid.

THE new Meteor Safety Hand Lamp is the latest invention of the times. The burning qualities of the Oil are in every particular superior to any we have yet used, while its illuminating power has no superior. The Lamp will not blow out nor explode, and the Oil is perfectly safe. The cost of the fluid is about one-half that of refined coal oil; has no grease, smoky smell; does not smoke the chimney, and will not harden the tube of any kind. You need not throw away your old Lamps; the Meteor Fluid will burn in a coal oil Lamp by attaching the light House or Meteor Fluid Burner.

We have the agency for Lauderdale county, Miss., and Choctaw county, Ala., and will be glad to supply our friends in these counties with the Meteor Oil and Safety Hand Lamp.

It is bound to create a great revolution in the Lamp business, and all we ask, is a test to be appreciated.

FOR SALE

At this office, Petitions in Bankruptcy, with the accompanying Schedules.

The Registration of Jasper county ceased, till further orders, on the first of this month. The total number registered is 1648—811 whites and 837 blacks.

The National Intelligencer, administration organ, said the other day that should an occasion unfortunately force itself, or be forced upon the President, "in which he must consent to be disobeyed, or supplanted from his constitutional jurisdiction, or else require his commands under the law to be implicitly obeyed, by the power of the army and navy, if necessary, there is, we are satisfied, no authority for saying what line of action the Administration would adopt."

Sea Island Cotton.—Accounts from all parts of the coast indicate that the present season will prove a disastrous one for this important product. Grass is greatly in the ascendant, and the bottom farms lost.

Otho, ex-King of Greece, and half brother of Maximilian's mother is dead.

Gen. Sheridan has appointed town officers for Lake Charles, La. Before entering upon their duties these officers will be required to take, in duplicate, the oath of office prescribed by act of Congress, approved July 2, 1862; one copy to be filled with records of the town corporation, the other to be transmitted to the Governor of the State.

All deeds of whatever kind recorded since the first day of October, 1862, the date at which the internal revenue law in regard to them took effect, are, by act of Congress, rendered invalid and of no effect if not stamped prior to the first of August, 1867. All who are interested in deeds made since the date named should have proper stamps affixed to them. To neglect this important duty may cause much loss.

The Change in New Orleans.—With the exception of F. A. Woolley, of the Board of Aldermen, and Dr. E. Goldman, of the Board of Assistant Aldermen, the entire Common Council of the city of New Orleans has been removed by General Sheridan, and new Boards appointed. The reasons given by Gen. Sheridan for this sweeping change are, that the gentlemen dismissed were not sufficiently attentive to the financial interests of the corporation, that they had reduced the city credit to a low ebb, and had made efforts "to impede the lawful execution of the law of Congress, dated March 2, and the acts supplementary thereto." The Times declares that as a whole the new Common Council are very *common*, and has but little to recommend it to public confidence.

Some months since the New York Herald declared Maj. Jas. F. Cummings, formerly of the Confederate Commissary Department, had swindled the Confederate Government and several citizens of North Carolina and Georgia, "on a scale far beyond the wildest imaginings of ordinary villians." Maj. Cummings has commenced a libel suit against the Herald for this publication laying damages at $200,000. The Maj. was always regarded as a high-toned honorable gentleman by those who knew him and we are satisfied has been greatly damaged by Bennett's unwarranted publication.

In Madison County 3,496 persons have registered—886 whites and 2,610 blacks. This gives a proportion of nearly three blacks to one white voter.

There were only three deaths from cholera in Canton last week. Efficient physicians have kept the disease from assuming a severe form.

Rev. H. W. Lambuth, of the Methodist church, died near Canton on Tuesday night of last week.

The Uniontown Herald says of a gang of horse-thieves arrested at that place some time since ago:

The whole gang of thieves except two, one of the Bains and the poor fool who turned State's evidence, are at large. Four escaped from jail, one some clear because he was not sent after by the proper officers of the county, and three released because the individual from whom each one had stolen a horse refused to pay their expenses to this place for prosecution.

Confederate General Joe Shelby has just returned from Mexico and gone to St. Louis.

Tennessee—Take Warning.

The first day of August, 1867, may be considered historic. On that day the first general negro ballot cast in this country was polled in the State of Tennessee. As was generally expected, the election resulted in the triumph of Brownlow and his party. He has been re-elected Governor by, it is said, a majority of seventeen thousand; the Legislature has been filled with men of the same type and Trumbull, Stokes, Arnell, Maynard Hawkins, Mullens, Munn and Butler, selected for Congressional honors.—This result has been brought about, as the reader is aware, by the disfranchisement of four-fifths of the white population, by the Legislature of the State. The Tennessee election should serve as a warning to the people of the other Southern States. If we permit the State of Mississippi to pass into the hands of "Loyalists" and freedmen we may expect a sweeping proscription. To steer clear of Brownlow rule here, we must battle manfully for a convention and for conservative delegates. If our people stand aloof radicals will slip in, and then comes a constitution similar to that which will always keep the Southern people bound with thongs in Tennessee. Extreme men can only be kept out of office by keeping conservative men in, and as things now stand it will take every man's vote and influence to hold the State in liberal hands.

General Grant and the Presidency.

The Presidential question has already begun to engage the attention of politicians and to affect the conduct of the two great parties into which the people of the United States are divided. The Union Republican General Committee eulogize and nominate Grant, but as said Committee is composed of gentlemen who either voluntarily left or were kicked out of the Radical organization, and cannot control five thousand votes, but little is expected from their action. The Tribune and the World oppose the nomination of General Grant for the Presidency and try to write it down; and the News, without meaning any disparagement to the "eminent representatives of the army and navy," wants some man of acknowledged statesmanship from the civil walks of life. The Herald thinks his success is beyond doubt, and believes he will reconcile all honest differences, pacify the country and destroy the demagogues. His chances for the Presidency are certainly very good, but if the Herald speaks correctly the Republicans of the Sumner type, will never consent to support him. They are the enemies of popular peace and public safety, and oppose every man and every measure looking to the nation's prosperity and the destruction of factions.

The Prison Question.

During the July session of Congress Mr. Eldridge stated, that during the war, the Confederate authorities proposed to return a large number of Federal prisoners to the United States authorities without equivalent, which was flatly denied by Gen. Butler, another member of the House. Butler's denial has drawn forth a letter from Col. Robert Ould, confirming Representative Eldridge's statement—that he (Ould) had offered to give up fifteen thousand prisoners, without any equivalent, to the United States, as the Confederate Government was unable to take care of them properly. the offer was made in August, but the prisoners were not sent for until the December following. During the internal the mortality among the Federal prisoners was very great, and several hundred died whose lives could probably have been saved if they had been taken away when Col. Ould offered to deliver them. He did deliver 13,000, and says he would have delivered the full 15,000 if the Federal transportation had been sufficient. At the same time that Federal ships went to Savannah to receive these prisoners, they brought down 3,000 Confederate prisoners for exchange, and these prisoners, Col. Ould says, "were in as wretched a condition as any detachment of prisoners ever sent from a Confederate prison." "He further says he is pretty certain he can prove the allegations about the delivery of prisoners by Federal authority. Col. Ould's statement shows that the Federal prisoners suffered more from the inhumanity of their own government than from the alleged cruelty of the Confederates. The South was willing to let this subject rest, but since Congress reopened it we hope the whole matter will receive a thorough investigation. The South has everything to gain by such an examination.

The National bank of Unadilla, New York, has failed. Causes, reckless speculation and fast living of the managers. Liabilities, $300,000 to $1,000,000.

How the Tenure Act Works.

The Thirty-Ninth Congress passed what is known as the Civil Tenure Act, which provides that no officer requiring confirmation by the Senate should be removed until his successor had been nominated to and confirmed by the Senate. It was intended on the part of Congress, by the Act, to harrass the President, to acquire control of the offices, and secure to Congress the political advantage of the immense amount of patronage which, under long-established usage, the President has dispensed. So intent was Congress upon depriving the President of power, that it did not look very closely at the effect of its enactments, and the result is that it has not accomplished what it intended. The Cincinnati Commercial informs us that some weeks ago, a special agent of the Postoffice Department reported to the Postmaster General that he had detected frauds perpetrated by the Postmaster at Greensburg, Indiana, and the Postmaster had admitted that his book-entries had been changed, &c. Upon this showing the Postmaster was suspended. When Congress met, the facts were certified to the Senate, and a new Postmaster nominated.—The Senate rejected the nomination, and under the Tenure-of-Office Law, the old Postmaster is reinstated in office. The Postmaster General has notified the reinstated officer of the action of the Senate, and added: "You are respectfully requested as a favor to the Department, to use as little of the money belonging to the Government, and make as few false entries, as possible." This is certainly a pretty state of affairs. The Congress of the United States in order to thwart, harrass, embarrass and humiliate the "man at the other end of the avenue," enact laws that retain swindlers and defaulters in office. In the end right will prevail. The days of partisan legislation must ere long close—draw to an end and forever.

The Crops in Mississippi.

In Panola and vicinity the crops look exceedingly well. Corn is better than it has been for several years, and there is little probability of there being any necessity for importing that article during the coming twelve months. Cotton is flourishing finely, and promises more than an average yield. Corn has received an impetus in Madison county that will secure an abundant harvest. Cotton is somewhat backward, but with continued good weather, that too may come to good maturity, and realize our fondest hopes for abundance. In Yallobusha the corn crop is unusually promising, and in point of maturity beyond any possible contingency.—The same may be said of Carroll, Calhoun, Lafayette and Tallahatchie.—Cotton is more promising than last year. The corn is now out of the way, and cotton gets all the work.—From the neighborhood of Water Valley, the statements are encouraging. The late rains in Holmes have done much damage to cotton, but an average crop is nevertheless expected. In Choctaw the corn looks vigorous, and promises an abundant yield. Cotton looks better than last year. In Sunflower planters are confident of a very good crop of both corn and cotton. Amite has an excellent stand of corn, and will make enough cotton to meet all necessary expenses, and do something towards paying their debts, if the worm does not destroy it. Copiah has better cotton and corn than for several years, but the cotton worm has appeared there. The yield of cotton will be very good in Jefferson, and corn is all that can be expected. Prospects are not very flattering in Marion and Pike, owing to the appearance of the army worm, which has already done much damage. Simpson county has fine crops, and in Hinds, corn equal to the wants of the people of the county has been made. Below Ellis' Cliffs in Adams, the second crop of army worm have appeared and gone to work. There are yet many persons who believe that the crop will not be injured by the worm to any great extent. Others are despondent and express the belief that the crop will be totally destroyed. In our own section, all accounts are favorable. The corn we may say is now made, and the cotton promises well.

Amputated at Last.—We learn that Rev. Mr. Potter, "a hot house" minister who preached here last winter, had the forefinger of his right hand amputated last week. While examining some new converts at prayer meeting to see if they had the right change, his finger was pierced by a little wire in a spiral bosom pin. The wound was but a mere scratch at the time. His blood being bad, the finger did not heal, and at last mortification ensued, and the result is as above stated, with a chance to lose his entire hand. It is to be hoped this style of pins will soon be out of fashion, or two more of the La Crosse clergy will be crippled before long.—La Crosse Democrat.

We find in our exchanges the ritual of the Union League. It would occupy over two columns in the Gazette—more space than we are willing to give to any political humbug of the kind. Here is the obligation, which is all we care to extract:

I, (repeat your name after mine) do solemnly swear, (or affirm) in the presence of God and these witnesses, that I will never voluntarily bear arms against the United States, while I am a citizen thereof; that I will support, protect and defend the constitution and government of the United States and the flag thereof against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; and that I will also defend this State against any invasion, insurrection or rebellion, to the utmost of my ability. This I freely pledge without mental reservation or evasion. Furthermore that I will do all in my power to elect true and reliable Union men and supporters of the government, and none others, to all offices of profit or trust, from the lowest to the highest, in ward, town, county, State and General government. And should I ever be called to fill any office, I will faithfully carry out the objects and principles of this League. And further, that I will protect, aid and defend all worthy members of the U. L; and that I will never make known in my way, to any person or persons not members of the U. L., any of the signs or passwords, proceedings, debates or plans of this or any other U. under this organization, except when engaged in admitting new members into this U. Place your right hand upon the Holy Bible. And with my hand upon the Holy Bible, Declaration of Independence and the constitution of the United States of America, under the seal of my sacred honor, I acknowledge myself firmly bound and pledged to the faithful performance of this solemn obligation. So help me God.

(Response by the members,)

"To this we pledge ourselves."

P. Gentlemen, around you is a band of brothers, alike sacredly pledged. This circle is never to be broken by treachery. (Response by members:) "Never." P. Brothers, you will enlarge your circle to admit new members? (Response:) "We will.) P. Prepare then for accessions to your ranks. P. With closped and uplifted hands repeat after me the

FREEDMAN'S PLEDGE.

To defend and perpetuate freedom and the Union I pledge my life, my fortune and my sacred honor. So help me God.

By special order of Gen. Sheridan the names of William R. Fish, one of the proprietors of the New Orleans Republican, J. Morgan Hall and R. W. Eastlin have been struck from the registration rolls.

THE CONSTITUTIONAL AMENDMENT.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, (two-thirds of both Houses concurring) That the following article be proposed to the Legislatures of the several States as an amendment to the Constitution of the United States which, when ratified by three-fourths of said Legislatures, shall be valid as a part of the Constitution, namely:

ARTICLE—Section 1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States, and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States. Nor shall any State deprive any person of life, liberty, or property without due process of law, nor deny to any person within its jurisdiction the equal protection of its laws.

Sec. 2. Representatives shall be apportioned among the several States according to the respective numbers, counting the whole number of persons in each State, excluding Indians not taxed; but whenever the right to vote at any election for electors of President and Vice President of the United States, Representatives in Congress, executive and judicial officers, or the members of the Legislature thereof, is denied to any of the male inhabitants of such State, being twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in the rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State.

Sec. 3. No person shall be a Senator or Representative in Congress, elector of President and Vice President, or hold any office, civil or military, under the United States, or under any State, who having previously taken an oath as a member of Congress, or as an officer of the United States, or as a member of any State Legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid or comfort to the enemies thereof; but Congress may, by a vote of two-thirds of each House, remove such disability.

Sec. 4. The validity of the public debt of the United States, authorized by law, including the debts incurred for the payment of pensions and bounties for service in suppressing insurrection or rebellion, shall not be questioned; but neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or claim for the loss or emancipation of any slaves, but all such debts, obligations, and claims shall be held illegal and void.

Sec. 5. The Congress shall have power to enforce, by appropriate legislation, the provisions of this article.

THE MILITARY GOVERNMENT BILL, COMMONLY KNOWN AS THE SHERMAN-SHELLABARGER BILL, OR THE RECONSTRUCTION BILL.

WHEREAS, No legal State governments or adequate protection for life or property now exist in the rebel States of Virginia, North Carolina, South Carolina, Georgia, Mississippi, Alabama, Louisiana, Florida, Texas and Arkansas; and whereas, it is necessary that peace and good order be enforced in said States until loyal and republican State governments can be legally established; therefore,

Be it enacted, &c., That the said rebel States shall be divided into military districts and made subject to the military authority of the United States, as hereinafter prescribed; and for that purpose Virginia shall constitute the first district, North Carolina and South Carolina the second district, Georgia, Alabama and Florida the third district, Mississippi and Arkansas the fourth district, and Louisiana and Texas the fifth district.

Sec. 2. That it shall be the duty of the President to assign to the command of each of said districts an officer of the army not below the rank of brigadier-general, and to detail a sufficient military force to enable such officer to perform his duties and enforce his authority within the district to which he is assigned.

Sec. 3. That it shall be the duty of each officer assigned as aforesaid to protect all persons in their rights of person and property, to suppress insurrection, disorder and violence, and to punish and cause to be punished all disturbers of the peace and criminals, and to this end he may allow local civil tribunals to take jurisdiction of and try offenders, or, when in his judgment it may be necessary for the trial of offenders, he shall have power to organize military commissions or tribunals for that purpose; and all interference under color of State authority with the exercise of military authority under this act shall be null and void.

Sec. 4. That all persons put under military arrest by virtue of this act, shall be tried without unnecessary delay, and no criminal or unusual punishment shall be inflicted; and no sentence of any military commission or tribunal hereby authorized, affecting the life or liberty of any person, shall be executed until it is approved by the officer in command of the district, and the laws and regulations for the government of the army shall not be affected by this act, except in so far as they may conflict with its provisions.

Sec. 5. That when the people of any one of the said rebel States shall have formed a constitution of government in conformity with the Constitution of the United States in all respects, framed by a convention of delegates, elected by the male citizens of said State twenty-one years old and upward, of whatever race, color, or previous condition, who have been residents in said State for one year previous to the day of such election, except such as may be disfranchised for participation in the rebellion, or for felony at common law; and when such constitution shall provide that the elective franchise shall be enjoyed by all such persons as have the qualifications herein stated for election of delegates; and when such constitution shall be ratified by a majority of the persons voting on the question of ratification who are qualified as electors for delegates, and when such constitution shall have been submitted to Congress for examination and approval, and Congress shall have approved the same, and when said State, by a vote of its Legislature elected under said constitution, shall have adopted the amendment to the Constitution of the United States proposed by the Thirty-ninth Congress, and known as article X, and when such article shall have become a part of the Constitution of the United States, said State shall be declared entitled to representation in Congress, and Senators and Representatives shall be admitted therefrom, on their taking the oath prescribed by law, and then and thereafter the preceding sections of this act shall be inoperative.

Provided, That no person excluded from the privilege of holding office by said proposed amendment to the Constitution of the United States, shall be eligible to elective as a member of the convention to frame a constitution for any of said rebel States, nor shall any person holding any office, civil or military, under the United States, or under any State, which may be created pursuant to this act, be eligible to any office under the provisional government, who would be disqualified from holding office under the provisions of the third article of said constitutional amendment.

SUPPLEMENTAL RECONSTRUCTION BILL.

AN ACT supplemental to an act entitled an act to provide for the more efficient government of the rebel States, passed March 2, 1867, and to facilitate restoration.

Be it enacted, &c., That before the first day of September, 1867, the commanding general in each district defined by an act entitled an act to provide for the more efficient government of the rebel States, approved March 2, 1867, shall cause a registration to be made of the male citizens of the United States, 21 years of age and upwards, resident in each county or parish in the State or States included in his district, which registration will include only those persons who are qualified to vote for delegates by the act aforesaid, and who shall have taken and subscribed the following oath or affirmation:

"I, ——, do solemnly swear, or affirm, in the presence of Almighty God, that I am a citizen of the State of ——; that I have resided in said State for—months next preceding this day, and now reside in the county of ——, or the parish of ——, in said State, as the case may be; that I am 21 years old; that I have not been disfranchised for participation in any rebellion or civil war against the United States, nor for felony committed against the laws of any State of the United States; that I have never been a member of any State legislature, nor held any executive or judicial office in any State, and afterwards engaged in insurrection or rebellion against the United States, or given aid and comfort to the enemies thereof; that I have never taken an oath as a member of Congress of the United States, or as an officer of the United States, or as a member of any State Legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, and afterwards engaged in insurrection or rebellion against the United States, or given aid or comfort to the enemies thereof; that I will faithfully support the Constitution and obey the laws of the United States, and will, to the best of my ability, encourage others to do so. So help me God." Which oath or affirmation may be administered by any registering officer.

Sec. 2. That after the completion of the registration hereby required in any State, at such time and place therein as the commanding general shall appoint and direct, of which at least fifty days' public notice shall be given, an election shall be held for delegates to a convention for the purpose of establishing a constitution and civil government for such State loyal to the Union; said convention in each State, except Virginia, to consist of the same number of members as the most numerous branch of the State Legislature of such State in the year 1860, the basis of apportionment among the several districts, counties, or parishes of such State by the commanding general, giving to each representation in the ratio of voters registered as aforesaid, as nearly as may be. The convention in Virginia shall consist of the same number of members as represented the territory now constituting Virginia in the most numerous branch of the Legislature of said State in the year 1860, to be apportioned as aforesaid.

Sec. 3. That at said election the registered voters of each State shall vote for or against a convention to form a constitution therefor under this act. Those voting in favor of such a convention shall have written or printed on their ballots by which they vote for delegates, as aforesaid, the words "for a convention." The persons entitled to superintend said election, and to make return of the votes given thereat, as herein provided, shall count and make return of the votes cast for and against a convention; and the commanding general, to whom the same shall have been returned, shall ascertain and declare the total vote in each State for and against a convention. If a majority of the votes given on that question shall be for a convention, then such convention shall be held, as hereinafter provided; but if a majority of such votes be against a convention, then no such convention shall be held under this act: *Provided*, That such convention shall not be held unless a majority of all such registered voters shall have voted on the question of holding such convention.

Sec. 4. That the commanding general of each district shall appoint such loyal officers or persons as may be necessary, not exceeding three in each election district, in any State, to make and complete the registration, superintend the election, and make return to him of the votes, list of voters and of the persons elected as delegates, and said commanding general shall call such election; and upon receiving said returns he shall open the same, ascertain the persons elected as delegates according to the returns of the officers who conducted said election, and make proclamation thereof; and if a majority of the votes given on that question shall be for a convention, the commanding general, within sixty days from the date of election, shall notify the delegates to assemble in convention at a time and place to be mentioned in the notification, and such convention, when organized, shall proceed to frame a constitution and civil government according to the provisions of this act, and the act to which it is supplementary; and when the same shall have been completed, said convention shall submit it to the convention for ratification by the persons registered under the provisions of this act, at an election to be conducted by the officers, or persons appointed by the commanding general as hereinbefore provided, and to be held after the expiration of thirty days from the date of notice thereof to be given by said convention, and the returns thereof shall be made to the commanding general of the district.

Sec. 5. That if, according to said returns, the Constitution shall be ratified by a majority of the votes of the registered electors qualified as herein prescribed, cast at said election, at least one-half of such registered voters voting upon the question of such ratification, the President of the Convention shall transmit a copy of the same, duly certified, to the President of the United States, who shall transmit the same to Congress, if then in session, and if not in session, then immediately upon its next assembling; and the State shall, moreover, appear to Congress that the election was one at which all the registered and qualified electors in the State had an opportunity to vote freely and without restraint, fear, or the influence of armed force, and Congress shall declare that such Constitution meets the approval of a majority of the qualified electors in the State, and if the said Constitution shall be declared by Congress to be in conformity with the provisions of the act to which this is supplementary, and the other provisions of this said act shall have been complied with, and the said Constitution shall be approved by Congress, the State shall be declared entitled to representation, and Senators and Representatives shall be admitted therefrom on their taking the oath prescribed by law, and then and thereafter the preceding sections of this act shall be inoperative.

Provided, That no person excluded from the privilege of holding office by said proposed amendment to the Constitution of the United States, shall be eligible to elective as a member of the convention to frame a constitution for any of said rebel States, nor shall any such person vote for members of such convention.

Sec. 6. *And be it further enacted*, That until the people of said rebel States shall be by law admitted to representation in the Congress of the United States any civil government which may exist therein shall be deemed provisional only, and in all respects subject to the paramount authority of the United States at any time to abolish, modify, control, or supersede the same; and in all elections to any office under such provisional governments, all persons shall be entitled to vote under the provisions of the fifth section of this act; and no person shall be eligible to any office under any such provisional government, who would be disqualified from holding office under the provisions of the third article of said constitutional amendment.

SUPPLEMENTAL RECONSTRUCTION BILL.

AN ACT supplemental to an act entitled an act to provide for the more efficient government of the rebel States, passed March 2, 1867, and to facilitate restoration.

Be it enacted, &c., That before the first day of September, 1867, the commanding general in each district defined by an act entitled an act to provide for the more efficient government of the rebel States, approved March 2, 1867, shall cause a registration to be made of the male citizens of the United States, 21 years of age and upwards, resident in each county or parish in the State or States included in his district, which registration will include only those persons who are qualified to vote for delegates by the act aforesaid, and who shall have taken and subscribed the following oath or affirmation:

"I, ——, do solemnly swear, or affirm, in the presence of Almighty God, that I am a citizen of the State of ——; that I have resided in said State for—months next preceding this day, and now reside in the county of ——, or the parish of ——, in said State, as the case may be; that I am 21 years old; that I have not been disfranchised for participation in any rebellion or civil war against the United States, nor for felony committed against the laws of any State of the United States; that I have never been a member of any State legislature, nor held any executive or judicial office in any State, and afterwards engaged in insurrection or rebellion against the United States, or given aid and comfort to the enemies thereof; that I will faithfully support the Constitution and obey the laws of the United States, and will, to the best of my ability, encourage others to do so. So help me God." Which oath or affirmation may be administered by any registering officer.

Sec. 2. That after the completion of the registration hereby required in any State, at such time and place therein as the commanding general shall appoint and direct, of which at least fifty days' public notice shall be given, an election shall be held for delegates to a convention for the purpose of establishing a constitution and civil government for such State loyal to the Union; said convention in each State, except Virginia, to consist of the same number of members as the most numerous branch of the State Legislature of such State in the year 1860, the basis of apportionment among the several districts, counties, or parishes of such State by the commanding general, giving to each representation in the ratio of voters registered as aforesaid, as nearly as may be. The convention in Virginia shall consist of the same number of members as represented the territory now constituting Virginia in the most numerous branch of the Legislature of said State in the year 1860, to be apportioned as aforesaid.

Sec. 3. That at said election the registered voters of each State shall vote for or against a convention to form a constitution therefor under this act. Those voting in favor of such a convention shall have written or printed on the ballots by which they vote for delegates, as aforesaid, the words "for a convention." The persons entitled to superintend said election, and to make return of the votes given thereat, as herein provided, shall count and make return of the votes cast for and against a convention; and the commanding general, to whom the same shall have been returned, shall ascertain and declare the total vote in each State for and against a convention. If a majority of the votes given on that question shall be for a convention, then such convention shall be held, as hereinafter provided; but if a majority of such votes be against a convention, then no such convention shall be held under this act: *Provided*, That such convention shall not be held unless a majority of all such registered voters shall have voted on the question of holding such convention.

Sec. 4. That the commanding general of each district shall appoint such loyal officers or persons as may be necessary, not exceeding three in each election district, in any State, to make and complete the registration, superintend the election, and make return to him of the votes, list of voters and of the persons elected as delegates, according to a plurality of the votes cast at said election; and upon receiving said returns he shall open the same, ascertain the persons elected as delegates according to the returns of the officers who conducted said election, and make proclamation thereof; and if a majority of the votes given on that question shall be for a convention, the commanding general, within sixty days from the date of election, shall notify the delegates to assemble in convention at a time and place to be mentioned in the notification, and such convention, when organized, shall proceed to frame a constitution and civil government according to the provisions of this act, and the act to which it is supplementary; and when the same shall have been completed, said convention shall submit it to the convention for ratification by the persons registered under the provisions of this act, at an election to be conducted by the officers, or persons appointed by the commanding general as hereinbefore provided, and to be held after the expiration of thirty days from the date of notice thereof to be given by said convention, and the returns thereof shall be made to the commanding general of the district.

Sec. 5. That if, according to said returns, the Constitution shall be ratified by a majority of the votes of the registered electors qualified as herein prescribed, cast at said election, at least one-half of such registered voters voting upon the question of such ratification, the President of the Convention shall transmit a copy of the same, duly certified, to the President of the United States, who shall transmit the same to Congress, if then in session, and if not in session, then immediately upon its next assembling; and the State shall, moreover, appear to Congress that the election was one at which all the registered and qualified electors in the State had an opportunity to vote freely and without restraint, fear, or the influence of armed force, and Congress shall declare that such Constitution meets the approval of a majority of the qualified electors in the State, and if the said Constitution shall be declared by Congress to be in conformity with the provisions of the act to which this is supplementary, and the other provisions of this said act shall have been complied with, and the said Constitution shall be approved by Congress, the State shall be declared entitled to representation, and Senators and Representatives shall be admitted therefrom on their taking the oath prescribed by law, and then and thereafter the preceding sections of this act shall be inoperative.

Provided, That no person excluded from the privilege of holding office by said proposed amendment to the Constitution of the United States, shall be eligible to elective as a member of the convention to frame a constitution for any of said rebel States, nor shall any such person vote for members of such convention.

Sec. 6. *And be it further enacted*, That until the people of said rebel States shall be by law admitted to representation in the Congress of the United States any civil government which may exist therein shall be deemed provisional only, and in all respects subject to the paramount authority of the United States at any time to abolish, modify, control, or supersede the same; and in all elections to any office under such provisional governments, all persons shall be entitled to vote under the provisions of the fifth section of this act; and no person shall be eligible to any office under any such provisional government, who would be disqualified from holding office under the provisions of the third article of said constitutional amendment.

Sec. 7. That all expenses incurred by the commanding generals, or by virtue of any orders issued or appointments made by them under or by virtue of this act, shall be paid out of any moneys in the Treasury not otherwise appropriated.

Sec. 8. That the Convention for each State shall prescribe the fees, salary, and compensation to be paid to all delegates and other officers, and to pay the same, authorized or necessary to carry into effect the purposes of this act, not herein otherwise provided for; and shall provide for the levy and collection of such taxes on the property in such State as may be necessary to defray the same.

Sec. 9. That the word "article" in the sixth section of the act to which this is supplementary, shall be construed to mean "section."

THE NEW RECONSTRUCTION, OR EXPLANATORY BILL PASSED JULY, 1867.

Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, That it is hereby declared to have been the true intent and meaning of the act of the 2d day of March, 1867, entitled, "An act to provide for the more efficient Government of the Rebel States," and of the act, supplementary thereto, passed on the 23d day of March, in the year 1867, that the governments then existing in the rebel States of Virginia, North Carolina, South Carolina, Georgia, Mississippi, Alabama, Louisiana, Florida, Texas and Arkansas, were not legal State Governments; if continued were to be continued subject in all respects to the military commanders of the respective districts, and to the paramount authority of Congress.

Sec. 2. That the commander of any district named in the said act shall have the power, subject to the disapproval of the General of the Army of the United States, to suspend or remove from office, or from the performance of official duties and the exercise of official powers, any officer, or person holding or exercising, or professing to hold or exercise any civil or military office, or duty in such district under any power, election, appointment or authority derived from, or granted by, or claimed under any so-called State or the government thereof, or any municipal or other division thereof; and upon such suspension or removal such commander is subject to the disapproval of the general as aforesaid; shall have power to provide from time to time for the performance of the said duties of such officer or person so suspended or removed by the detail of some competent officer or soldier of the army, or by the appointment of some other person to perform the same, and to fill vacancies occasioned by death, resignation or otherwise.

Sec. 3. That the General of the army of the United States shall be invested with all the powers of suspension, removal, appointments and detail granted in the preceding section to District Commanders.

Sec. 4. *Be it further enacted*, That the acts of the officers of the army, already done, in removing in said districts persons exercising the functions of civil officers, and appointing others in their stead, are hereby confirmed; *provided*: That any person heretofore or hereafter appointed by any district commander to exercise the functions of any civil office may be removed, either by the military officer in command of the district, or by the General of the army; and it shall be the duty of such commander to remove from office, as aforesaid, all persons who are disloyal to the government of the United States, or who use their official influence in any manner, to hinder, delay, prevent or obstruct the due and proper administration of this act, and the acts to which this is supplementary.

Sec. 5. That the Boards of Registration provided for in the act entitled an act supplementary to an act to provide for the more efficient government of the rebel States," passed March 23, 1867, and to facilitate registration, passed March 23d, '67, shall have power, and it shall be their duty, before allowing the registration of any person, to ascertain, upon such fact or information as they can obtain, whether such person is entitled to be registered under said act, and the oath required by said act shall not be conclusive on such question, and no person shall be registered unless such board shall decide that he is entitled thereto; and such board shall also have power to examine under oath to be administered by any member of such board, any one touching the qualifications of an person claiming registration. But in every case of a refusal by the board to register an applicant, and in every case of striking his name from the list as hereinafter provided, the board shall make a note or memorandum which shall be returned with the registration list to the Commanding General of the District, setting forth the grounds of such refusal or such striking from the list. Provided that no person shall be disqualified as a member of any board of registration by reason of race or color.

Sec. 6. That the true intent and meaning of the oath prescribed in the said supplementary act is, among other things, that no person who has been a member of the Legislature of any State, or who has held any executive or judicial office in any State, whether he has taken an oath to support the Constitution of the United States or not, and who has afterwards taken any oath to support the Constitution of the United States, or any State, and who has given aid and comfort to the enemies thereof, is entitled to be registered or to vote under the words executive or judicial office in any State in said oath mentioned shall be construed to mean any office the incumbent of which by law for the administration of any general law of a State, or for the administration of justice.

Sec. 7. That the time for completing the original registration provided for in said act, and in the directions of the commander of any district, be extended to the first day of October, 1867, and the Boards of Registration hereby have power to add to the list, commencing fourteen days prior to any election under said act, and upon reasonable public notice of the time and place thereof, to revise for a period of five days the registration lists, and upon being satisfied that any person not entitled thereto has been registered, to strike the name of such person from the lists, and such person shall not be allowed to register, the names of all persons who at that time possess the qualifications required by said act, to have been duly registered, and no person shall at any time be entitled to be registered, or to vote by reason of the possession by such person of, or any act or thing which without such pardon or amnesty would disqualify him from registration or voting.

Sec. 8. That section 4 of said last named act, shall be construed to authorize the commanding general assigned thereto, whenever he shall deem it needful, to remove any member of any board of registration, and to appoint another in his stead, and to fill any vacancy in such board.

Sec. 9. That all members of said boards of registration, and all persons hereafter detailed or appointed to office under said military districts, under any so called State or municipal authority, or by detail or appointment of the district commanders, shall be required to take and to subscribe the oath of office prescribed by law for officers of the United States.

Sec. 10. That no person, whether a member of the board of registration, or any of the officers, clerks or assistants thereof, shall be entitled to any fee or pay whatever for any service performed by him under any pretense or claim of right.

Sec. 11. That all the provisions of the said act, to which this is supplementary, shall be construed liberally to the end that the intent and purposes thereof may be fully and practically carried out.

Dolbear Commercial College,

OPEN CONSTANTLY, DAY AND EVENING

Corner of Camp and Common Sts.,

In the Elegant and Spacious

IRON BUILDING,

NEW ORLEANS, LA.

Founded in 1852—Chartered by the Legislature of Louisiana.

WITH COMMERCIAL, AGRICULTURAL AND MECHANICAL DEPARTMENTS.

THIS COLLEGE, has, by its own merits and thorough, practical plan of education, outlived all the liberally endowed State Colleges of this and the South-Western States. It is the

Oldest Commercial College in the United States.

AMPLE ARRANGEMENTS FOR

One Thousand Students

During the Current Year.

Comparative Cost and Value of the Education Given Here and in the Ordinary and Literary Colleges:

It is believed to be the first in Europe or America, chartered with Commercial, Agricultural and Mechanical Departments. Every student who gives proper attention to the course of instruction, is qualified before graduating to keep any set of books, it matters not what the business may be, and do the Correspondence of any house. Students can attend the "Commercial Course," or to the English, French, Spanish, German, Latin or Greek Languages, or the higher Mathematics, etc., separately. We have

Cost of full Commercial Course here—Tuition	$145
Board for three months	90
Contingent expenses, about	20
Total	$255

After which the student is ready to go into business and make $1000, $2000, or $3000, annually.

Cost of Ordinary Literary Colleges.—About $400 per annum, for four years, or $1600; including for four years, $200, or $800—total $2400, and four years of time expended. Our student will begin to work after three or four months, and make, say the first year, about $1200; and two years and nine months at probably $1800, or $6150 he earns in four years. Deduct $2400 as cost, and there is left our Students; but to the other a net expense of $2400; or $8295 our student has gained over the other. We suppose the Students in both cases to have a good English education to begin with. We deem a business education that enables the student to earn $1000, $2000, or $3000 annually, to be the best fortunes, parents can give their sons. So far as known, not one of the thousands of our graduates, is without profitable employment. A word to the wise is sufficient.

He sal', it will be remembered the first Kentucky resolution contains the principles of my whole life." "I will take immediate measures to organize the State of Georgia on that basis, and will urge the true men of the so-called ten rebel States to fall into line. I will leave home to-morrow with the view of beginning the organization in Georgia." "I regret nothing in the past but the dead and the failure, and I an to-day ready to use the best means I can command to establish the principles for which I fought." Mr. Toombs will experience much trouble in his undertaking. Slavery can never be established in this country, and the people are unwilling to make another vast sacrifice in experimenting upon any political issue determined by the war.

The prospect of the "man and brother" going to Congress from some of the Southern States, is beginning to bewilder the republicans of the North. Bennett thinks the spectacle will be one which will so disgust the people, that action against Black Republicanism ere long will be the inevitable result. The Times has no doubt but that young Africa will be on hand with his credentials at the next session, and he (the editor) does not see how the gentlemen with black complexion and kinky brain will be kept out. So the republicans are already "casting about" for means, by which the negro can be set aside. This is what we have been arguing all along. Sambo will do very well to vote radical into office, but he must not attempt to go there himself. It was only the other day we were reading that a resolution in favor of the black man for Vice President, was voted down in the South Carolina Radical Convention, sitting at Columbia. The negro will get an occasional crumb—no more.

Nine disbursing officers of the Freedman's Bureau—all but one—have been mustered out of office, by order of the President. Large reductions in the force of the Bureau, will probably be made soon as the other district commanders are believed to be able to attend to most of the business of the Institution.

The London Economist, very high authority, argues that up to the present time the national banks in this country have had every thing in their favor. They have run up their circulation from twenty-five to seventy-five millions sterling, and prices have been rising. They have now reached the limit to which they can issue notes, and the process of reaction has set in, which, by slow stages and after a considerable interval, will render cash payments again possible.

Capt R. C. Slaughter, late Chief Engineer of the Vicksburg and Shreveport Railroad, died in Port Gibson last week. He was a gentleman in the truest sense of the term, and was highly esteemed by all who knew him.

A couple of the Texas papers, Flakes' Bulletin and the Houston Telegraph, are discussing the question of selling the public lands of the State to the Federal Government. Flake proposes to sell the public domain for forty cents per acre and apply the proceeds to educating the children of the State, white and black, and to the interest of emigration, while the Telegraph proposes to sell at 25cts. per acre and apply the money arising from the sale to Railroad purposes. Some of them think it should be appropriated for the freedmen.

The army worm has made its appearance in the prairie region of Clarke and Wayne counties, in large numbers, and have commenced its work of destruction to the cotton crops.

JEFFERSON DAVIS IN VERMONT.—Mr. Davis visited Stanstead, Vermont, last week, and was the guest of Hon. T. Lee Terrill. Fred. Terrill, Esq., brought him from Sherbrooke, in a very quiet manner, professedly to see the country and to consult in regard to an investment in the gold mines of Bailey.

The following notice of our clever friend Chas. A. Smith, District Attorney, is from the Entetprise Star. His numerous friends in this section, will be glad to hear that he is recovering:

We are happy in meeting our old friend Chas. A. Smith, Esq., Attorney of this District, and to hear that his health, which has been so long impaired by Rheumatism, is improving although very slowly. We hope Mr. Smith will soon entirely recover, and be himself again.

A BOY KILLED UNDER CHASTISEMENT BY HIS FATHER.—On Saturday evening a son of Andrew Jackson, of Cumberland, N. J., was charged by his mother with stealing twenty-five cents, and the father on chastising him, the cane broke the second blow when the boy sank down and almost immediately expired. They boy was but nine years old.

THE TRAITOR LOPEZ.—The Ranchero of the 20th says: Col. Miguel Lopez, the traitor, after selling Maximilian and his Generals, went to Puebla to visit his wife. His reception was decidedly cold. His wife advanced to meet him, leading their little son by the hand, and addressed him thus: "Sir, here is your son; we cannot cut him in two, take him. You are a base coward and traitor. You have betrayed your country and your benefactor. From this hour we are strangers, for I shall this day retire to my family. Go."

TAXES ON TOBACCONISTS.—According to a recent decision of the commissioner of internal revenue, manufacturers of all kinds of tobacco, costing over a dollar in value, except those operated by public or private contributions or donations, and the surviving of the Union soldiers who have fallen in battle, are subject to a tax at the rate of five per cent. ad valorem.

Emigration from the South.

The letters we read in the public prints from Brazil are not very encouraging.—Many of the people are suffering for the common wants of life. They have found out to their sorrow, that it is better to share the evils which press upon their own country, than to seek political rights elsewhere, and to cast their lot among strangers. If they go there with money all their wants are supplied, but compelled to accept the tempting offer of a government ticket, there is nothing better, very often, than laboring side by side, with the lazy, ignorant, half fed slaves. On the back of the ticket is printed in Portuguese the agreement of the party not to leave the empire without refunding that passage money, and this ticket is retained by the government as a pass port. Mr. Campbell, of Choctaw County, Alabama, writing from Campinas, says there "are too sides to nearly everything, and men here have been writing to the United States, and have shown up the bright side of the picture in glowing colors. The other side, however, has been left blank, or at least a great portion of it. They claim, of course, that their accounts are true, but to say the least some letters have been highly colored, and I think very extravagant on one side, while they play mum on the other. You have seen in the papers and heard a great deal of the beauty of the country—unequaled scenery, wild blooms dotting the entire landscape, and in fact, after crossing the Brazilian range of mountains, that it was almost a paradise, &c. But if this is a representation of that goodly land, I never wish to enter its blissful portals, and those who are here, have made their happiness complete by reaching this the promised rebel land, I do not envy them their lot. But their wants are more easily satisfied than my own, and I must say that we differ widely in our opinions." His advice is to stay here and do the best we can. A letter in the Memphis Bulletin from Buenos Ayres says, says the emigrants there are poor, helpless, deceived, and are witnesses of the folly of leaving the United States for any country under the sun. Deceived by rumors of various kinds, and finally enlisted in the army is the fate of many a poor fellow. That Brazilian scheme (swindle), ought to be exposed. The accounts from that little strip of country, known as British Honduras, are equally unfavorable. In Belize much is seen that is calculated to make a good impression, but from away in the interior, where man never before thought of settling, far from civilization and refinement, letters come bearing a cold and desolate tone. Our own opinion all along, has been that there is nothing to be gained by an exchange of countries. In a few years we will surmount the difficulties which now environ us at home, and then the South will pick greater riches than can be found in any of the rugged provinces of the old world.

The Kentucky Election.

Kentucky, the home in happier days of many illustrious men, has gone again the dominant party, by a majority almost without precedent in the State. The result is a Democratic triumph, by a majority variously estimated at 45,000 to 60,000. Louisville city and the county of Jefferson have elected their entire legislative ticket—twelve in number. It is believed that the Democrats in the State have elected seven-eights of the Legislature. In Louisville the Radical and third party men made a very poor rally. Orth, the Democratic candidate for Governor, beating both his opponents by about 3,300 majority.

Crop Intelligence.

In our last issue we gave a short synopsis of the condition of crops in this State gathered from our exchanges. In nearly every other State the crops, we are glad to see, are generally good, and will be amply sufficient for home consumption.—The wheat crop also yielded largely in Virginia, Tennessee and Georgia and has turned out well wherever planted in other Southern States. The wheat crop is now harvested, and has relieved from suffering thousands both white and black, in the States of South Carolina and Georgia, which States have suffered severely for the want of breadstuffs thus far during the year. In Alabama grain and corn are most plentiful and cotton is doing very well. Corn promises well in Maryland and of wheat there will be a fair crop.—Arkansas has such a corn crop as is rarely paralleled. Cotton prospects are brightening.

THE HEALTH OF NEW ORLEANS.—The number of deaths which have occurred in this city during the week ending on Saturday morning, the 3rd inst., was 267, being less than the number in the previous week. Of these 6 died from yellow fever and 5 from Cholera-Dreadful.

A terrible famine is prevailing in the west of Ireland.

Thousands of the poor people have already died from want of food. It is literally starving to death. Here is a chance for sinking Ireland better than ever extended by any Fenian subscription agent or lieutenant-general.

Meridian Manufacturing Company.

The following note shows that there is still some prospect of establishing a manufactory at this place. We hope the company will go actively to work, and get the enterprise under way:

OFFICE OF THE MERIDIAN MAN'G. CO.,
Meridian, August 6, 1867.

EDITOR GAZETTE:—Will you please announce through your columns, that this Company have organized under the charter granted by the Legislature. At the last meeting they passed a resolution in regard to the Land Agent, as follows:

That the Land Agent of this Company be instructed to proceed, without delay and have the lands subscribed perfected, (when not done,) to have the valuations satisfactorily made of the lands, and the deed properly signed and recorded, with accompanying plats and descriptions of it as to quality, location, the amount cleared and uncleared. They will receive information from me further by writing to me.

MILITARY DIRECTORY.

Brv. Major THOMAS H. NORTON,
Assistant Sub-Commissioner B. R. F. and A. L., Commanding, Field.

1st Lieut. WILLIAM E. KINGSBURY,
28th Infantry, Post Adjutant.

1st Lieut. THOMAS L. NYE,
Post Quartermaster, and Acting Assistant Commissary Subsistence.

Capt. JAMES W. SUNDERLAND,
Sub-Assistant Commissioner B. R. F. and A. L. In charge of Institutions at Lauderdale.

We had the pleasure of meeting who get city yesterday, Hon. B. G. Gleen, who is here to attend our Circuit Court next week.

We call attention to the advertisement by Mrs. M. A. Cox, who offers for sale her house and lot in town, known as the Welcome House, together with the furniture, &c. The house is pleasantly located, well furnished, and will be an excellent investment for those desiring to purchase property in Meridian.

Our town is improving rapidly, and is daily increasing in population. We expect our merchants will do a much larger business than ever during the coming winter, and that the advantages of Meridian as a place for business, will increase the number of customers and enable them to do a growing city.

The St. Bede.—Those of our friends visiting Marion during court, are respectfully reminded that the celebrated St. Ben's, on Front Street, will be supplied with the very best brands of all kinds of Liquors, Cigars, &c. This pleasant resort is so famous that it is scarcely necessary to do more than mention its name. It is well known that the St. Ben's is the "best" and "only chance."

Wanted to the Spirit Land.—A funeral ticket from Galveston, Texas, announces the death of Weller S. Duly child of Walter M., and Maggie E. Robinson, formerly of this city. Since all must come to the land of the dead, how sweet it is when they are baptized who die early—the light of whose life goes down ere the soul is contaminated with sin.

University of Mississippi.—The institution will open on the 9th of September. Tuition for the session of nine months, $125; deposit for incidentals, $15; board $18 per month. Rooms for boarding in hall, $12½ per month; for families from $10 to $20 per month.

Refrigerator Soda.—We publish to-day the advertisement of the Mississippi Agricultural, Educational and Manufacturing Aid Society. A greater number of premiums (in money) are offered by the Association than is any scheme of chance known to us. The object of the society is declared in its name, and we are very liberal donation of $5,000 to the University of Mississippi, is an evidence of its usefulness. The society is managed by well-known citizens of Mississippi. Every stockholder or ticket is interested in speculate in self-defense, and we advise all to do so when assuming their official positions. We call the attention of the public to the advertisement of the society. A man's face will decide his fortune as far as the society is concerned, which causes the necessity of all the associates of a like character.

The Mail Carrier.—A letter package intended for Meridian was picked up on the Mobile and Ohio railroad by the mail woman Thursday afternoon. The package was found a couple of miles North of this place and we suppose was dropped from the mail train. Route agents attend to more careful.

A Surprise.—The fire bell rang over half the city Tuesday night about 12 o'clock, we were awakened from our slumbers by a strains of sweet melancholy music, and on our driveway seems on the midnight air, and being unable to ascertain the source of the music we listened and both agreed that it was the most delightful of all serenades we had ever heard. The music was discontinued after the conclusion of the serenade.

Prescriptions Filled at All Hours.—Our friend Chas. W. Ellis, a old and reliable Front Street druggist, is now living over his store, and will attend to filling prescriptions at all hours, day and night—Calls promptly attended to. Mr. Ellis's experience of twenty years in the business, is a sure guarantee that they will be properly compounded. 1f

Keep up to the Waste of the Public.—The reliable and popular house furnishing establishment of Pillon, Fulton & Co., has just received an additional assortment of goods, to which we would call the attention of the wedding saything in their line. The terms are moderate, and the stock unexceptionable in quality.

Herlburt, Sturges & Co.—This house has always enjoyed a reputation second to none in the city. Their stock is as complete now as ever, and the prices astonishingly low. The dry goods department is filled with the choicest of these goods for ladies' wear, and the boot and shoe department can safely be denominated a paradise for those familiar with such things, and the grocery and hardware house complete.

Mr. Hampton, a son of Wade Hampton, has been appointed by Governor Sharkey, a son Robert, to proceed from their residence in west Meridian, at 10 o'clock this morning.

Masses' Free School.—This institution will open on the 15th inst, under the auspices of Mrs. Hampton, a lady of great experience, and in every way qualified as a teacher. The school will be opened to the public, but intended to educate those who are unable to educate themselves, paying pupils will be received at the rates established by the other institutions of learning in the city. For information apply to Mrs. A. G. Hampton, or Rev. H. G. Hanks at the Rectory.

No. 46.

An Ordinance to provide a revenue for the city of Meridian.

Sec. 1st. Be it ordained by the Board of Mayor and Aldermen of the city of Meridian, That there be and is hereby levied a tax of one half of one per cent on the assessed value of all property of the city for the year 1867, for the purpose of defraying the expenses of the city for the year 1867.

SEMI-WEEKLY GAZETTE

[ORIGINAL.]

LOVE.

Though pride for a moment
Sweep by like a blast,
We cannot, we cannot
Expel the sweet past!
It hangs like some sunny
Cold song round the heart,
It hangs there forever!
And will not depart.

Wherever we go or whatever we be,
There are moments of nature
When pride bows its knee;
When the will is no more
Than a wild little fern;
When the spirit of what we have loved
Will return.

Oh! love is the angel
Of heaven I know,
To sling, to entrust,
To compassionate so!
It follows us, crying
"Farewell!" O farewell!
Yes, into the desolate
Shadow of hell!

Let's turn from the serpent;
There's death in his sting!
Let's recide in prayer
Under love's enemy wing;
And when we are dying
That calvary dove
Will shall us to heaven
The country of love.

NEWS ITEMS.

Stonewall Jackson's widow has been compelled by poverty to sell the war horse presented to her husband by the citizens of Augusta, Georgia.

A Rock Island, Ill., newspaper asserts that the cruelty extended to Confederates imprisoned at that point were fully as severe, in proportion, as those committed upon the prisoners at Andersonville. The white-washing committee appointed by Congress will effance all such stains.

We see by a telegram that the Cretan war is not over, as the Turks have boasted. They have lately met with success, and the French have sent vessels to convey refugees to Greece.

The fifteen cent currency will soon be issued and the five cent small pox rags to be superceded by nickel coins—then every well-to-do American can own specie.

Nashville merchants in some instances, have discharged negroes for not voting the Radical ticket: General Carlin has directed efforts to be made to find them other situations.

Every article which is published in the London Times goes through the hands of the paper's editor no less than six times—and if, after the paper goes to press, an error is discovered in it, the typo who is responsible for the same is subjected to a fine—The best compositors employed on this sheet earn, upon an average, twenty-five dollars per week.

The N. O. papers mention the suspension of the banking house of Mr. M. Judson, corner of Camp and Common streets. The police had been on the watch to prevent the removal of the assets of the house.

The St. Joseph Gazette of the 30th, says that fill on the breaks in the levees in Tensas Parish are passable. The back bayous are fast filling up. Crops are very indifferent; cotton six inches high, and grass twelve; the cholera making sad havoc with the negroes, and the worm with the cotton.

The New York and New Haven railroad intend soon to put a new invention for ventilating cars on their road. The air presses in at the front window, over water, where it is purified, and then is distributed through pipes opening into varlous parts of the car.

One-third of the students at Mercer university, in Georgia, were once soldiers in the Confederate army, and one-fifth of them were wounded.

Much attention is now being paid in the interior of Louisiana to the propagation of a new cane, called the Hungarian, which yields two tons to the acre on bottom lands.

In New Orleans, according to a journal of that city, a large number of business mechanics and planters are preparing to take the benefit of the bankrupt law. It is added that the desire seems to be to attend to this matter during the present dull summer months, so that when the fall business commences they can go into business with a clear record.

The Indians have cut the telegraph wires west of Fort Sanderson. Protection to the stage coaches and telegraph is entirely inadequate.

During a severe thunder storm which passed over Memphis last Friday, a bolt from a gas pipe was set on fire by a flash of lightning, and some workmen engaged in repairing the streets were badly burned. The gas continued to burn after the explosion until nearly a cart load of earth was thrown on the flame.

YELLOW FEVER.—The existence of an aggravated type of billious fever, on board of some vessels of our city, gave rise to many reports that yellow fever was prevailing, and that we were in danger from it. That we are now more or less subject to it at all times when it prevails in cities of the tropics where our shipping visits, is a fact that we are all aware of, and that it was at this time prevailed is well known—It is equally as well established a fact that no case has yet appeared in our harbor.—Pensacola Observer, 25th.

The Rev. Mr. Key, a local Baptist preacher, who lived on Bushy Creek, in Burke county, about twenty miles from Augusta, Ga., committed suicide, the 21st. Sabbath morning. It appears that he placed the muzzle of the gun at the lower extremity of the chest, and struck the hammer with a stick, which he held in his hand. The cause of the rash act is known.

The Lafayette (La.) Advertiser of the 20th says: "We learn that les avant courriers of the army worm have made their appearance in several parts of the parish. Should the real army worm make its appearance within the next two or three weeks, the cotton crop of this parish will be a total failure."

It is stated by a letter-writer from Atlanta that the memorable Fourth, a coffin containing a whip and cowhide, was buried by the white and black Radicals of that city with imposing ceremonies, meaning that slavery was dead and buried forever.

The "rebel" General L. E. Ward, of Texas, now lives in Middleton, Connecticut, and working at his trade, that of brick mason.

Gov. Murphy of Arkansas, wears a pair of common soldier's blue pants, and looks like a discharged soldier.

The Aberdeen Examiner, though ardently opposed to reconstruction, defends, in a manly manner, General Reuben Davis, and Mr. R. B. Barker, of that town, from the charge of Radicalism, preferred against them by the Verona Times, doubtless upon the authority of some well-disposed person. The Examiner differs from both these gentlemen as to "the best course to pursue," but he pronounces the declaration that either General Davis, or Mr. Barker, sympathizes or affiliates with radicals or radicalism, as utterly groundless.

NOTICE TO MOTHERS.

DR. SEABROOK'S

Infant Soothing Syrup.

We have, by purchase of the original receipt, become Sole Proprietors of this Celebrated Medicine. We ask you to give it a trial, with an assurance that you will in future, discard all those nauseous and destructive mixts, such as Bateman's Drops, Godfrey's Cordial, Dewee's Mixture, &c., combinations of a past and antiprogressive age, when it was thought that the more disgusting the mixture the better the medicine.

Use in the future only SEABROOK'S, a combination, quite as well established by advertisement of age. Pleasant to take, harmless in its action, efficient and reliable in all cases. Invaluable in the following diseases:

SUMMER COMPLAINT, IRREGULARITIES OF THE BOWELS, RESTLESNESS, TEETHING, &c.

Gives health to the child and rest to the mother.

We could furnish any quantity of certificates bearing evidence of its superior qualities, but prefer that our medicine should stand on its own merits, which it will do upon trial.

PURIFY YOUR BLOOD.

HURLEY'S SARSAPARILLA.

Of all the remedies that have been discovered during the present age for the lonsome ills that flesh is heir to, none equal this wonderful preparation.—Only ten years have elapsed since the discoverer—who spent a decade in studying experiments, and perfecting it—first introduced it to the public, and it is already regarded by the most eminent physicians in all parts of the country to be the most surprising and effective remedy, for certain diseases, of which they have knowledge.

All other compounds or syrups of this root have hitherto failed to command the sanction of the faculty, because, on being tested, they have been found to contain noxious ingredients, which neutralize the good effects of this Sarsaparilla, and oftentimes injure the health of the patient. It is not so with Hurley's preparation.

This is the pure and genuine extract of the root, and will, on trial, be found to effect a certain and perfect cure of the following complaints and diseases:

Affections of the Bones, Habitual Costiveness, Debility, Diseases of the Kidneys, Dyspepsia, Erysipelas, Female Irregularities, Fistula, all Skin Diseases, Liver, Complaint, Indigestion, Piles, Pulmonary Diseases, Syphilis, Scrofula or King's Evil.

Hurley's Ague Tonic,

PERFECTLY RELIABLE.

The only remedy for Chills and Fever or Ague and Fever that is or can be depended upon is Hurley's Ague Tonic, having been in use hundreds cured by using it who had tried the usual remedies without benefit; but in no case has it failed to effect a cure. All who have used it cheerfully tell their afflicted friends of it as a sure and certain cure for chills and fever. Any one suffering from the chills would consult their own interest by sending to the drug store and buying a bottle. It is pleasant to take compared with others, and will be certain to cure all cases of fever and ague or chills and fever. Send for it to the proprietor.

The Safety Hand Lamp,
AND
Meteor Burning Fluid.

THE new Meteor Safety Hand Lamp is the latest wonder and novelty, as well as the greatest invention of the times. The many imitations of the Oil are in every particular inferior to anything yet used, while for brilliancy and economy it stands alone. The Lamp will not explode nor corrode, and the Oil is non-explosive. The speed of the Lamp is such that it will not blow out in a gale; has no greasy, smoky results; does not clog in the wick, and is entirely free from odor of any kind. You need not throw away your old Lamps, but have them converted into Meteor Lamps by attaching the Light House or Hand Lamp Burner.

We have the agency for Lamplands county Miss., and Chamber county, Ala., and will be glad to receive orders from Dealers in Coal Oil and Safety Hand Lamps.

The demand is enormous, and we intend to supply it. Lamps and Burners, and Meteor Fluid, always on hand, and ready to be shipped promptly.

ANNUAL CIRCULAR.

Dolbear Commercial College.

OPEN CONSTANTLY, DAY AND EVENING

Corner of Camp and Common Sts.,

In the Elegant and Spacious

IRON BUILDING,

NEW ORLEANS, La.

Founded in 1832—Chartered by the Legislature of Louisiana.

WITH COMMERCIAL, AGRICULTURAL AND MECHANICAL DEPARTMENTS.

THIS COLLEGE has, by its own merits and thorough, practical plan of education, outlived all the liberally endowed State Colleges of this and the South-Western States. It is the

Oldest Commercial College in the United States.

AMPLE ARRANGEMENTS FOR

One Thousand Students

During the Current Year.

Comparative Cost and Value of the Education Given—Here and in the Ordinary and Fashionable Colleges.

It is believed to be the first in Europe or America, chartered with Commercial, Agricultural and Mechanical Departments. Every student who gives proper attention to the instruction is qualified before graduating to keep any set of books, it matters not what the business may be, and in the Correspondence of any house. Students can attend the "Commercial Course," or to the English, French, Spanish, German, Latin or Greek Languages, or the higher Mathematics, etc., separately. We have

Cost of full Commercial Course
here—Tuition..... $145
Board for three months..... 90
Contingent expenses, about..... 20
Total Cost..... $255

After which the student is ready to go into business, and make $1000, $2000, or $3000, annually.

Over 20 Similar Colleges.

About $400 per annum, for four years, or $1600; clothing for four years, $200, or $800—total $2400, and four years of time expended. Our student will begin to work after three or four months, and make, say the first year, about $1200; and two years and nine months at probably $1800, or $5150 he earns in four years. Deduct $255 leaves $2895 net gain to our Student; but in the other case net expense of $2400; or $2895 our student has gained over the other. We suppose the Students in both cases to have a good English education to begin with. We deem a business education that enables the student to earn $1000, $2000, or $3000 annually, to be the best fortunes parents can give their sons. So far as known, not one of the thousands of our graduates, is out of profitable employment. A word to the wise is sufficient.

Circulars and Catalogues Sent to all Who Desire Them.

N. B.—Young gentlemen who have entirely neglected their studies for the past few years, can here be selected for any business they may desire, in a few months.

THE GULLEY STEEL BRUSH GIN.

This celebrated COTTON GIN, is now a matter of record under the supervision of Hon. Thomas H. D. Gullett, with greatly improved facilities; and we, as agents for the South-west, now offer it as the best gin made.

Its advantages are:

1st. The quantity of cotton ginned in a given time is much greater than by any other gin of equal number of saws.

2d. It operates free from the Colonel fly moss and dust and leaves it clean from seed.

3d. The roll cannot be broken by any feeding.

All gins are tested before leaving the factory. Cotton from this gin will sell from 50 cents per bale, to $3 per bale more per bale, because it is freed from moss, dirt and dust. It has been in use extensively for the past seventeen (19) years, and wherever used is superseding all other gins.

Send for special circulars.

COTTON PRESSES.

We are now building the most powerful lever in improved cotton screw, which will not injure the staple of cotton in packing. It is the best and most economical packing. It can be used with two horses or mules, and will pack as much in a day as a steam press. Send for circulars.

SHAKE, HOOP AND STAVE MACHINES.

The Safety Hand Lamp,
AND
Meteor Burning Fluid.

THE new Meteor Safety Hand Lamp is the latest newer and most perfect, and the greatest invention of the times. The burning qualities of the Oil are in every particular superior to anything yet used, while its illuminating power has no superior. The Lamp will not blow out nor explode, and the Oil is incombustible. One cent of the fluid is about one-half that of refined coal oil. Gas or grease is much smell, does not smoke the chimney, and will not grease a fabric of any kind. You need not throw away your old lamps; the Meteor Fluid will burn in any coal oil Lamp by attaching the Light House or Meteor Burner.

We have the agency for Lauderdale county, Miss., and Choctaw county, Ala., and will be happy to supply our friends in those counties with the Meteor Oil and Safety Hand Lamp.

Believing that we can afford reductions in the Lamp business, and only needs a test to be appreciated.

Exercise Your Reason.

The persons advocating the do nothing policy, do not not deny the ability of Congress to impose any terms upon us they please, nay not only impose but enforce, nor do they deny their belief that they will exercise force if necessary to compel acquiescense to their conditions. Well, then on this side of the question there is no hope, look at the reverse, if there is any, there is one chance in delay, in the waking up in the North of that old love of country, that animated and caused the American heart to swell with an exultant joy at the vast expanse, the glory, power and freedom of the great broad land, that land bound together by the community of interests, common history and ancestry. There is no hope for us (which means hope for the country at large,) when the mad passions engendered by the late fierce war have subsided, when the northern heart is purged of the narrow minded selfish prejudices, that has usurped the throne once filled so gloriously, by the spirit of a glorious nationality. Until the northern mind expands, until in capacity it is sufficient to take in this spirit again, there is no hope, and our only policy is to gain time, gain it by any means in our power. Can it be done by inaction? Does a refusal on our part hasten or retard events? Exercise your reason on this, for you are responsible to posterity for your action on the question brought before you, the issue forced upon you by the North. Reflect, and decide for action, then enquire again in what channel to direct that action, be brave and strong in the contest, and trust in God's providence.—Houston Record.

SHOOTING AFFAIR IN ATLANTA.—In the St. Elmo Saloon, on Wednesday last, Daniel Connor was shot twice and killed by James W. Lloyd. The parties are spoken of as "sporting characters," and a quarrel had existed between them for some time. We are told that this is the third or fourth murder committed by Lloyd.

SUFFRAGE IN NEW YORK.—The Convention of New York have agreed upon the section to be inserted in the Constitution defining who shall be voters. It provides that every male citizen, twenty-one years of age, who shall have been a resident of the State one year and a citizen thirty days, and a resident of the county where he offers his vote four months, shall be entitled to a vote. No person in the military service in time of war shall lose his vote by reason of his absence, and the Legislature is authorized to provide the means for securing the votes of absent citizens. Mr. Murphy moved to amend the first section by inserting the words "white male citizen," but after debate this was lost—yeas 48, nays 94. The terms of residence for foreigners was reduced from thirty to ten days. An amendment proposing to extend suffrage to women was lost—yeas 19, nays 125.

The St. Louis Democrat draws a parallel between the wheat prospect of this year and the year 1862. It shows that while thousands of men were forsaking the fields of the west to go into the army, while contracts were being made for millions of pounds of flour, and gold was at 248, the highest grade of flour, that year brought only $7.50 per barrel. The price of wheat the same year varied at from 95 cents to $1.371 per bushel, and while corn 50 to 75 cents per bushel. There can be no doubt that corn and flour will settle down to low figures, because in Europe the yield has been as good as in America. If the speculators and others are holding up the wheat now in hand, with the hope of controlling the market, they will be badly hurt, if not absolutely ruined. Just now flour in New Orleans is high because the stock on hand is nearly exhausted, and but little new has made its way to market. This will not continue long, and in a short while it will be in reach of the most limited. There can be no doubt of wheat and corn crops because they are made beyond contingency, and it is therefore safe to estimate as to the probable price and quantity.—Mobile Tribune.

The Clarion of the 9th states that a genuine case of cholera occurred in that city last week. A negro woman at the Washington Horse died from the disease. She had eaten excessively of cucumbers, muskmellons and other trash.

NEW ORLEANS CITY MONEY.—Our New Orleans exchanges regard the election of the new city council as very favorable to this measure, and believe through their action legalizing and placing all issues on the same footing, confidence will be restored and the city notes circulate as here-tofore.

The report of yellow fever at New Iberia is contradicted. Several cases of bilious and congestive fever have occurred but no yellow fever.

The whole number of registered voters in the city of Mobile is 6,838. Of these 2,234 are white and 3804 black. The black majority is 1,480.

Gov. Wells got $8,000 from the State of Louisiana for engraving and lithographing Levee bonds. He appointed a Mr. Jewell to go to New York to make the contract. Hatch & Co. did the work for $1,200, for which Wells and Jewell pocketed $8,000.

A Nashville telegram of the 8th contains some mournful news for the children of the Freedmen's Bureau. It says, General Carin will publish a circular letter to-morrow, notifying colored people that, in obedience to orders from Washington, no rations will be issued under any circumstances, to the destitute after the 20th of August. The General in a letter to Judge Lea even broadly intimates that certain politicians are preventing blic negroes from going to work in the country, in order to secure their votes in the municipal election in September.

The late Convention at Richmond was not very harmonious. Hunnicutt and the freedmen who followed him had every thing their own way, and the Botts men, or Conservatives, were treated most shabbily. When any of the latter attempted to address the negroes they were hooted, jeered and saluted with contemptuous epithets. Time or four times, while the delegates were in Richmond, violent disturbances took place. The Convention was in session two days and adopted a platform embracing all the advanced ideas of Wendell Phillips.

A courtezan's throat was cut in St. Louis the other day by a jealous lover.

In Mobile, the other day, Mayor Horton appointed fourteen negroes on the police force. One of them was made Lieutenant of the day police.

A NEW NATIONAL PARTY.—A meeting was recently held in Meridian, Illinois, for the purpose of considering the financial state of the country. Among the resolutions adopted was one declaring that the same inflation of currency under which the national debt was contracted shall be maintained until the debt shall have been paid. That to carry out this policy there could be organized a New National Political Party. The people of Illinois will hardly be able to organize a National party on a platform of this kind. Come out fairly and squarely for repudiation and a repeal of the oppressive tax law, and you can build up a National party that will accomplish something.

COTTON TAXES.—Cotton dealers in Philadelphia have been not a little disturbed by the action of Collector Delano in ordering cotton found without the internal revenue taxes. In their wisdom, the government officials declare that a certificate of payment of taxes is not a sufficient evidence that the United States dues have been paid.

A poor, one-legged negro man, Chas. Archie Johnson, who has been engaged in selling the Mobile Tribune containing jokes about Military Mayor Horton, was ordered to leave that city last Friday by Mr. Horton. The editor of the Times filed an affidavit against the Mayor, charging him with committing an outrage on the personal rights of a freedman, and the trial took take place Monday, before U. S. Commissioner Turner.

The report to the Freedmen's Bureau at Washington, from the Inspector of Schools in Mississippi notices a very thorough earnestness on the part of the white people of Mississippi to see that the freedmen are properly educated, and schools are being organized and established in almost every part of the State.

The jury in the Surratt case, it is announced, were unable to agree and make up a verdict, and Judge Fisher has discharged them. Instead of being admitted to bail, we suppose Surratt will be sent back to his cell, to be tried again, when another jury can be empanelled—if that should ever be possible.

The people of Columbus are preparing for a tournament at that place in September. The prizes for the successful contestants are as follows: For the first day, the prize is a gentleman's gold watch, valued at $300, and the second prize is a lady's gold watch, valued at $125. For the second day, the first prize is a fine horse worth $400, and the second prize a double rel shot-gun, valued at $125. For the third and last day, the first prize is a diamond ring, valued at $125, and the second prize is a silver-plated tea set, worth $100.

The President and Mr. Stanton.

The ambitious Senator-of-all-work, which has lately given rise to considerable variety of opinion, comes up again in the Johnson-Stanton imbroglio. Mr. Stanton declines to give up the office of Secretary of War, unless the President makes a peremptorily demand. It is the purpose of Mr. Johnson to allow the whole matter to remain in abeyance, for a few days, giving time for reflection on the part of Mr. Stanton, and the friends who advised him as to the course he should pursue. If he then persists in the refusal to resign, the President, we are advised by telegrams, will suspend him, by giving him notice he is thereby suspended from the further execution of the functions of the office of Secretary of War, and that the reasons for this suspension will be submitted to the Senate at the next session of Congress. The subject has been fully discussed in the Cabinet, and the course above indicated unanimously approved as being with the 2d section of the tenure of office law. The Cabinet was nearly unanimous in the opinion that the first section of the law gives Mr. Johnson power to remove Stanton, who was never regularly appointed by Mr. Johnson and confirmed as his appointee by the Senate. Here is the section under which the President argues he can act:

That the President shall have power to fill all vacancies which may happen during the recess of the Senate, by reason of death or resignation, by granting commissions which shall expire at the end of their next session thereafter; and if any such appointment, by and with the advice and consent of the Senate, shall be made to such office on the recess of the Senate, or if no appointment be made to such office at the next session of the Senate, made after the vacancy shall have occurred, then and in either of such cases the President may designate and appoint a person to discharge the duties of such office until the next session of the Senate, or until such office shall be filled by the regular appointment; and such person so designated and appointed shall have power to discharge the duties of such office, and shall receive such salary, fees, or emoluments as are attached thereto until the same shall be filled by the appointment in the manner prescribed by this act, and not otherwise: Provided, That no person shall be employed under the provisions of this act for more than ten days, unless he shall be appointed by and with the advice and consent of the Senate; and nothing in this act contained shall be construed to extend the term of service of any person duly appointed by and with the advice and consent of the Senate.

Provided, That the Secretaries of State, of the Treasury of War, of the Navy, of the Interior, and the Postmaster-General, and the Attorney General, shall hold their offices respectively during the term of the President by whom they may have been appointed, and one month thereafter, subject to removal by and with the consent of the Senate."

As to how the matter will finally end, we shall not attempt to foretell. Stanton's double-dealings cannot be tolerated much longer; the President will execute his decisions, and Gen. Grant, who is familiar with the army officers, will act in the war office temporarily. Stanton will appeal to Congress this fall, where he has "troops of friends" and then we shall see the end of the rupture. The President is right, but the crafty Stanton has partisan passion on his side.

Official Crop Intelligence.

Favorable reports relative to the crops reach us from all quarters. The Department of Agriculture has never before received so large a report so favorable a prospect for uniformly good crops. The statistical returns for July show an improvement in the condition of the winter wheat over last year in every State but Texas, Nebraska and Minnesota, the diminution in the latter case being but four per cent. Spring wheat was a far less variable product than last year, consequently less variation in the figures used in the comparison. All the States, however, except Vermont, New York and Pennsylvania, show an increase on last year. The average in form is unusually large, every State showing a material increase, except Maine, New Hampshire, New York and South Carolina. In the Southern States the increase ranges upwards of 100 per cent in Arkansas. The condition, as reported, is a little deficient in the Northern and Western States on account of the lateness of the Spring. Rye is in fine condition, and shows a decided improvement on last years' yield. Barley promises an increase of twenty per cent. The average of oats points to a full average, particularly in the West. The hay crop is unusually large, and that of potatoes is above last year's crop. Apples are promising in portions of New England, the Allegheny region and the West. Grapes are more uniform in the average of states, and generally appearing unusually well. It has been a more successful year for clean berries than usual. The sorghum is poor. The numerous enemies of taking cotton' paragraphs, the bureau of statistics from estimating the staple.

The Future of the South.

We give the following view of the probable course of things in the South for the next ten years, from the Springfield Republican, a Radical paper:

"The prospect that at the first election under the reconstruction acts the Southern States will be repelled by the Republicans is in itself gratifying. But the way in which this is to happen gives to thoughtful men a sense of fear for the future. The foresight that the negro vote is to control everything is not inspired by favorable indications in the white men of the South, and we cannot forget that the whites constitute two-thirds of the population of the States that are to be surrendered to the control of a mass of ignorant blacks, and that these whites must inevitably become the dominant class very soon, whatever happens this year. A majority of the whites will refuse to register, or are excluded if they attempt, and of those registering it is thought that a majority will vote against reconstruction on the Congressional plan. The blacks, and a small fraction of the whites, will do the voting and reconstruction will have possession of the State machinery under the new government. It will be a good enough for the obstructionists, indeed, but how is it coming out? We know what the Alabama and Louisiana leaders of the negroes have threatened, and what hopes and purposes they have cherished among their colored followers. Shall we see Brownlow despotism and avenely extended over the entire South for the next ten years, and order be preserved only by keeping the eight millions of whites eaten under the rule of four millions negroes by the arms of federal bayonets?

We find in the Mississippi Index an account of an affair at Morton Springs about thirty miles from Columbus in which Mr. J. S. Boggs shot Mr. W. D. Bird three times, once with a pistol, and twice with a double-barrel gun. Boggs fled while Bird was dangerously wounded.

The Legislature of the Late Tennessee Election.

The Republican party have carried Tennessee by forty-five thousand majority. We have said that it would be a God-send to the down-trodden people of that State, if they were permitted to organize their State government under the terms of the Military Bills. Not less than one hundred thousand white citizens are disfranchised who would be permitted to the polls by those acts. With this accession, the conservatives could have elected Fisher's enemies in spite of all opposition by a large majority.

Unfortunately for the disfranchised people of Tennessee, the ground-work of the present despotism was laid by President Johnson, (then Military Governor,) while they were absent from the State in the Southern armies, or in exile under the ban, which he inaugurated after the advent of the Federal armies, and they had no opportunity whatever of securing themselves the privilege of voting which is enjoyed by the great body of our people under the Reconstruction laws of Congress. They returned to their homes after the surrender of the Southern armies to find the work accomplished—the chains rivited—and the reign of despotism firmly established.

The condition of Tennessee should be a warning to the people of the unreconstructed States.—Clarion.

The Washington correspondent of the New Orleans Picayune thus refers to the speech of Mr. Merrick in defence of Surratt:

The speech of Mr. Merrick, counsel for John H. Surratt, in defence of the prisoner, made during the last two days, was unilversally acknowledged by the bench and bar to be one of the finest forensic efforts ever heard in Washington. He electrified the court and jury by the boldness of the positions which he assumed, and the ability and eloquence with which he maintained them. He evidently carried the jury with him on every point. The jury himself to him, one and all, without fail, but with evident pleasure. His analysis of the evidence was most masterly. He showed clearly how utterly worthless was the evidence that had been adduced by the prosecution and so annihilating was his exposure of Weichmann's treachery and villainy, that that brazen faced creature, who has had the effrontry to sit through the whole of Merrick's speech, and never once covered with shame, and has not been seen or heard of since. The most perfect quiet prevailed in the crowded court during the whole of Mr. Merrick's speech, and every part of it was listened to with the closest attention. Many parts of it was so touching as to cause tears to spring to the eyes of the listeners, and at one period the judge, the jury, and many members of the bar were all weeping together. Mr. Merrick may well look upon this as a proud day for him.

Official Figures.

Votes registered in parish of Orleans at close of registration, July 31, 1867:

	White	Black	Total.
First District	6,111	4,924	11,035.
Second "	5,063	3,871	8,934.
Third "	2,719	3,396	6,115.
Fourth "	2,603	1,312	3,915.
Right Bank	939	2,242	1,611.
Total	14,865	14,836	29,670.

The above makes the list complete. It will be seen that there is a meagre majority of six white voters admitted to registry in the parish, inclusive of the city, though the white population is universally conceded to be four times their number.—The name of the Ex-Governor will therefore legion. Presuming that all the registered blacks are males, twenty-one years of age, and the registered whites also allowing seven females and under age to each voter, our black population must reach near 104,000 souls. If the city and parish have four times the number of whites, the total population reaches over half a million. If a census could be taken now it might be found that the ballot box has been or is to be unduly stuffed.—Picayune.

SOUTH CAROLINA.—Cheraw has erected and dedicated with very interesting ceremonies, a monument to the memory of the soldiers of her sons who fell in the war.

The Columbia Phœnix chronicles the death of Hon. E. G. Palmer, a prominent citizen of Fairfield District, who died suddenly at his home at Winnsboro. He had filled many important positions, representing for some years his district in both branches of the Legislature.

A COLORED U. S. DEPUTY MARSHAL.—The Charleston Mercury says:

United States Marshal J. P. Epping has appointed a Mr. Miller colored, his deputy for the city of Columbia. Mr. Epping says that the white men who can take the oath are not fit to hold office. He appointed one of them as Deputy Marshal a short time since, and he had been in the performance of his duties but a few days before his removal became necessary on account of his having received a bribe.

The Charleston Courier announces the death of the Rev. Thomas A. Flynn, a young Catholic clergyman. The deceased, who was a native of Columbia, was about twenty-eight years old.

ALABAMA.—The Selma Times learns from a gentleman who has recently travelled over the greater part of Middle Alabama, that the crops are looking finely. The entire country looks like a land of promise, and there is no doubt that this year's crop will be one of the finest ever raised in the State.

The Tuscaloosa Observer says that the farmers in the Warrior Valley are beginning to engage their corn in the fields at 40 cts. per bushel.

THE MOBILE PRESS.—The Mobile Tribune of Saturday last, under the head of "Black Sheep Ball Ticket," then names as Hon. Frederick Douglass, of New York, and Mr. Moses Avery,—the colored register of Mobile—for Vice Presidential and Prince Albert of Mobile for Senator from Ala. and another negro named Johnson, of Mobile, for representative to Congress.

The Tribune says this ticket is at its "ne plus ultra" only.

The Mobile Times hoists the names of Gen. Grant for President, and Senator Chandler for Vice President.

The Mobile Register is in favor of sending some negroes to the Convention, which it has no doubt will be called—and a negro representative to Congress.

OPENING THEIR EYES.—The Boston Traveller, a print of the "progressive party," recently contained this paragraph:

Government is swindled out of $100,000,000 annually by counterfeiting whiskey. The greater part of this immense sum could be collected were our government in earnest. What it ought to be is of nothing but a political club, it has to submit to the loss and also has to plunder the poor because it cannot reach the rich—while key manufacturers pay their just proportions of the taxes.

NEW ADVERTISEMENTS.

LAND FOR SALE.

THE subscriber in consequence of dull state of health, is anxious to sell his land on which he now resides. The tract contains eight hundred acres, with some few hundred and fifty in cultivation. It lies immediately on the Mobile and Ohio Railroad, about half way between Meridian and Enterprise, and nearly in point of soil and timber, is unsurpassed, and is peculiarly suitable for cultivation. If no disaster happens the present crop will be very large. The dwelling house with the out-buildings is comfortable and convenient. There is a never-failing supply of good water with fine pasturage. A large orchard of choice fruit is just coming into bearing. A good portion of the land is cleared and in a high state of cultivation, and will be sold in one body or in parcels to suit purchasers. There is also connected with said tract of land a good level land adjoining, with about 100 acres in a good state of cultivation, with improvements, also belonging to Col. B. L. Lewis. These contracts will be sold jointly or separately, to suit purchasers, and the subscriber will divide the tract to effect a sale, if he can do a whole before the 1st of September next. He will also have a pair of excellent mules and horses and a quantity of corn. There is a considerable supply of good laborers with their families on the premises, and anxious to remain. For further information apply to us on the premises, or address me at Enterprise, Mississippi.

NO EXCUSE FOR BAD BREAD

DARCY & PUTNAM'S

SELF-RAISING FLOUR

FOR

Bread, Biscuit, Puddings, Cakes, Pastry, &c., without using Yeast-Powders, or Soda.

TIME AND LABOR SAVING AND HEALTH-GIVING.

GENERAL DIRECTIONS.

Stir in the water with a knife and beat at once, without kneading or rolling; if the dough is too stiff, the oven therefor, should be as good baking oven before beginning to mix.—MIND THIS.

Milk is superior to water for all pastry purposes.

For Cakes, Pastry, &c., the SELF-RAISING FLOUR should be the last article stirred. Just to suit the taste.

RECEIPTS

SALT TO SUIT THE TASTE.

For Light Bread.—Use cold water, cold milk and mix with a spoon just sufficient to thoroughly wet the dough; put it into a deep pan and bake in a hot oven. The dough in the pan should be covered to prevent the formation of a hard crust before it has time to rise. Cleanliness! Cleanliness!! Cleanliness!!!

For Light Rolls.—Same as biscuit, except that the dough should be a little softer, use less shortening.

For Wheat Muffins.—Three eggs, one quart of milk or water, three pints of flour, one table spoonful of melted lard. Bake in deep Muffin rings.

For Pie Crust.—Use less shortening than with common flour, and roll the last out very thin.

Sugar Cake.—One pound of flour, diluted in three gills of milk or water, half a pound of butter, two eggs, half a pint of milk or water and two pounds of flour.

Sponge Cake.—One cup of powdered Sugar and one cup of flour, well mixed together, beaten in two eggs, stir quickly in a cup of water, a square tin immediately in a moderate oven. Flavor with lemon or otherwise to suit the taste.

Gold and Silver Cake.—One cup of butter, two cups of sugar, one cup of milk, four cups of flour. Divide this dough into two equal parts; to one add two eggs and one table spoonful of sugar, the whites for the silver cake. Flavor with lemon or otherwise and bake in covered bread pans.

Dough Nuts.—One pound of Sugar a little shortening, two eggs, three pounds of flour, one pint of water.

Soda Cakes and Dumplings.—Prepare the dough to every respect the same as for biscuit. Use a little melted sugar and butter for sauce.

Fruit Cake.—Two pounds of flour, one of sugar, Butter and Griddle Cakes, etc., are very superior—see from Self-raising Flour.

Any cook can handle this flour the better. Never stir it over the fire like the oven is before you touch the flour. The quicker the dough the better. Do not knead it.

Put up in every style to suit the trade.

In the notice published a few days since of a meeting in Jasper county for the return thanks to the firm of Sterling Price & Co., St. Louis, and to D. Hurd and Geo. Williamson, of Cairo, for the timely assistance rendered the poor of that section, mention was made of Dr. Hurd, of Cairo. It should have been R. Hurd of the well known firm of D. Hurd & Son, Cairo, whose card can be found in the Gazette. Mr. Hurd is a liberal and enterprising merchant, does a large business, and deserves a liberal share of the patronage from this part of the State. Those having who desire goods from Cairo, should not fail to remember D. Hurd & Son. See their advertisement.

NESHOBA COUNTY.—We are in receipt of a note from Capt. D. G. Cooper, clerk of the Board of Registers for that county, stating that the Registration was completed in that county on the 4th inst. He also writes that Neshoba will give a handsome majority for a Convention.

The result is, whites 656; blacks 175; Indians 35. Total 866.

EXECUTOR'S SALE OF VALUABLE PROPERTY.—It will be seen from the advertisement of the Executors of John H. Horne, that they will offer for sale on the 5th of September next, at the late residence of Col. Horne, in Wayne County, a steam engine, and three superior cotton gins, two sets of mill rocks, and all the fixtures connected therewith. The steam engine and the gins are of the most superior quality, and in good condition. The sale will be for six months credit. For further particulars address the executors at Shubuta, or Capt. W. C. Ford at Meridian.

The attention of our readers are directed to the advertisement of our friends, Messrs. James Ruddle & Co. of Louisville, Ky., which may be found in another column of our paper. All those afflicted by disease, or who have friends suffering from sickness, should carefully read, and we know they will derive profit from it.—It gives us much pleasure to be able in this manner to recommend to our people these gentlemen, and the medicines of which they are Proprietors, as we know they claim no more for their remedies than long years of trial has fully shown is really deserved. See their advertisement.

The reputation of Dr. Thos. A. Hurley's Bitters, Worm Candy, Sarsaparilla, and Ague Tonic is world-wide, having been used through the whole of this country for many years past, and never having failed to give universal satisfaction. The proprietors never yet have received any complaints about them, hence their confidence in recommending them to the public as never failing to cure. As it is with the "Hurley Preparations," so also with Dr. Seabrook's Infant Soothing Syrup, and Dr. Buchlow's English Horse Liniment, both of which are unequalled. These gentlemen's see also the manufacturers of Seaton's Chemical Writing Fluids and Carmine Ink which are so well known and extensively used in the West and Southwest, for school, bank, and office, uses equalling the best English Inks now used. We cannot understand why their remedies might not as well be taken in the special diseases for which they are recommended with as much confidence as the prescription of a regular physician. tf

TELEGRAPHIC NEWS

We copied from the Forest Register an announcement of the death of Maj. J. Madison Hood, of Leake county, who, it was said, lost his life by shipwreck while on route to Honduras. It appears that the adventurous J. Madison Hood has called on the Clarion office and desires to inform the public that the Register is slightly mistaken as to his death. Instead of going by the way to Honduras and ship-wrecking the Major has a shop on Pearl street in Jackson and is engaged in making boots and shoes as good as new from the wrecks of old ones.

DEVOTION.

Whisper softly,
When you're talking,
Let not those around you hear;
Put bands on the ear.

Speak kindly,
For tender and frail,
For you been blasted
The pitiless gale.

Whisper it gently,
Why not? Does he pain?
Gentle words rarely
Are spoken in vain;
Threaten not reproaches
The stubborn may move—
Nobody the conquest
Adding he love."

Whisper it kindly,
Twill pay thee to know
Penitent tear drops
Down her cheeks flow,
Has she from virtue
Wandered astray?
Guide her gently
Rough is the way.

She has no parent,
None of her kin;
Lend her from error,
Keep her from sin.
Does she lean on thee?
Cherish the trust;
God to the merciful
Ever is just.

Nature bids me love myself, and hateth that hurt me; reason bids me love my friend, and hate those that envy me; religion bids love all, and hate none, and overcome evil with good.

Teno said that an avaricious man was like a barren, sandy soil, which sucks in all the rain and dews with greediness of thirst, but yields no fruitful herbs or plants to the inhabitants.

Envy is only fixed or herd, and, like a sore eye, is offended with everything that is bright.

A negro boy imprisoned for threatening to burn the town of Brandon, Miss., and rob the ordinaries, broke the jail in Rankin county jail a few days since. He was pursued, but dodged his pursuers until evening, when, being hailed, he broke again, but a shot in his leg prevented his going far and he was conducted back to his old quarters.

The greatest peril of Masonry is its popularity. Its wars gather over its head in proportion as all men not only speak well of it, but also seek to enter its tranquil enclosure. It is impossible that a bad man can be a good Mason, and therefore it should be the maxim of every Lodge—*that quality is of more worth than quantity.* No aggregation of members can compensate for a diminution of Masonic virtue. The order prospers only in so far as its members are conscientiously faithful to their high creed and show all the virtues against which Masonry hurls a heightened denunciation.

"You seem to know how to take me," said a vulgar fellow to a gentleman he had insulted. "Yes I do," said the gentleman, taking him by the nose.

The negro George, who was hanged a raise upon a white girl eight miles south of Oxford, Miss., a few weeks ago, was recently arrested, near Abbeville, and hung by the freedmen of the neighborhood.

The Brandon Republican mentions the death of Mr. Lyman Cameron, who died near Forest from the effects of a terrible disease that is killing many whites and the negroes by the hundreds. Mr. Cameron was a prosperous planter and highly esteemed. Soreness after possible appearance on his wrist, hand and arm, and finally his body commenced swelling, and he died only 76 hours.

Congressional Reconstruction.

THE CONSTITUTIONAL AMENDMENT.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, (two-thirds of all of both Houses concurring), That the following article is proposed to the Legislatures of the several States as an amendment to the Constitution of the United States, which, when ratified by three-fourths of said Legislatures, shall be valid as a part of the Constitution, namely:

ARTICLE—Section 1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States, and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States. Nor shall any State deprive any person of life, liberty, or property without due process of law, nor deny to any person within its jurisdiction the equal protection of its laws.

Sec. 2. Representatives shall be apportioned among the several States according to the respective numbers, counting the whole number of persons in each State, excluding Indians not taxed; but whenever the right to vote at any election for electors for President and Vice President of the United States, Representatives in Congress, executive and judicial officers, or the members of the Legislature thereof, is denied to any of the male inhabitants of such State, being twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in the rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in that State.

Sec. 3. No person shall be a Senator or Representative in Congress, elector of President and Vice President, or hold any office, civil or military, under the United States, or under any State, who having previously taken an oath as a member of Congress, or as an officer of the United States, or as a member of any State Legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid or comfort to the enemies thereof; but Congress may, by a vote of two-thirds of each House, remove such disability.

Sec. 4. The validity of the public debt of the United States, authorized by law, including the debts incurred for the payment of pensions and bounties for services in suppressing insurrection or rebellion, shall not be questioned, but neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or claim for the loss or emancipation of any slaves, but all such debts, obligations, and claims shall be held illegal and void.

Sec. 5. The Congress shall have power to enforce, by appropriate legislation, the provisions of this article.

THE MILITARY GOVERNMENT BILL COMMONLY KNOWN AS THE SHERMAN-SHELLABARGER BILL, OR THE RECONSTRUCTION BILL.

WHEREAS, No legal State governments or adequate protection for life or property now exist in the rebel States of Virginia, North Carolina, South Carolina, Georgia, Mississippi, Alabama, Louisiana, Florida, Texas and Arkansas; and whereas, it is necessary that peace and good order be enforced in said States until loyal and republican State governments can be legally established; therefore,

Be it enacted, &c., That the said rebel States shall be divided into military districts and made subject to the military authority of the United States, as hereinafter prescribed; and for that purpose Virginia shall constitute the first district, North Carolina and South Carolina the second district, Georgia, Alabama, and Florida the third district, Mississippi and Arkansas the fourth district, and Louisiana and Texas the fifth district.

Sec. 2. That it shall be the duty of the President to assign to the command of each of said districts an officer of the army not below the rank of brigadier-general, and to detail a sufficient military force to enable such officer to perform his duties and enforce his authority within the district to which he is assigned.

Sec. 3. That it shall be the duty of each officer assigned as aforesaid to protect all persons in their rights of person and property, to suppress insurrection, disorder and violence, and to punish and cause to be punished all disturbers of the peace and criminals, and to this end he may allow local civil tribunals to take jurisdiction of and try offenders, or, when in his judgment it may be necessary for the trial of offenders, he shall have power to organize military commissions or tribunals for that purpose; and all interference under color of State authority with the exercise of military authority under this act shall be null and void.

Sec. 4. That all persons put under military arrest by virtue of this act, shall be tried without unnecessary delay, and no cruel or unusual punishment shall be inflicted; and no sentence of any military commission or tribunal hereby authorized, affecting the life or liberty of any person, shall be executed until it is approved by the officer in command of the district, and the laws and regulations for the government of the army shall not be altered by this act, except in so far as they may conflict with its provisions.

Sec. 5. That when the people of any one of the said rebel States shall have formed a constitution of government in conformity with the Constitution of the United States in all respects, framed by a convention of delegates, elected by the male citizens of said State twenty-one years old and upward, of whatever race, color, or previous condition, who have been resident in said State for one year previous to the day of such election, except such as may be disfranchised for participation in the rebellion, or for felony, at common law; and when such constitution shall provide that the elective franchise shall be enjoyed by all such persons as have the qualifications herein stated, for election of delegates, and when such constitution shall be ratified by a majority of the persons voting on the question of ratification who are qualified as electors for delegates, and when such constitution shall have been submitted to Congress for examination and approval, and Congress shall have approved the same, and when said State, by a vote of its Legislature elected under said constitution, shall have adopted the amendment to the Constitution of the United States proposed by the fourteenth Congress, and known as article 14, and when such article shall have become a part of the Constitution of the United States, said State shall be entitled to representation in Congress, and Senators and Representatives shall be admitted therefrom, on their taking the oath prescribed by law, and then and thereafter the preceding sections of this act shall be inoperative.

Provided, That no person excluded from the privilege of holding office by said proposed amendment to the Constitution of the United States shall be eligible to election as a member of the convention to frame a constitution for any of said rebel States, nor shall any such person vote for members of such convention.

Sec. 6. *And be it further enacted*, That until the people of said rebel States shall be by law admitted to representation in the Congress of the United States, any civil government which may exist therein shall be deemed provisional only, and in all respects subject to the paramount authority of the United States at any time to abolish, modify, control, or supersede the same; and in all elections to any office under such provisional government all persons shall be entitled to vote under the provisions of the fourth section of this act; and no person shall be eligible to any office under any such provisional government who would be disqualified from holding office under the provisions of the third article of said constitutional amendment.

SUPPLEMENTAL RECONSTRUCTION BILL.

AN ACT supplemental to an act entitled an act to provide for the more efficient government of the rebel States, passed March 2, 1867, and to facilitate restoration.

Be it enacted, &c., That before the first day of September, 1867, the commanding general in each district defined by an act entitled an act to provide for the more efficient government of the rebel States, approved March 2, 1867, shall cause a registration to be made of the male citizens of the United States, 21 years of age and upwards, resident in each county or parish in the State or States included in his district, which registration will include only those persons as are qualified to vote for delegates by the act aforesaid, and who shall have taken and subscribed the following oath or affirmation, namely:

"I ——, do solemnly swear, or affirm, in the presence of Almighty God, that I am a citizen of the State of ——, that I have resided in said State for — months next preceding this day, and now reside in the county of ——, or the parish of ——, in said State, as the case may be, that I am 21 years old; that I have not been disfranchised for participation in any rebellion or civil war against the United States, nor for felony committed against the laws of any State of the United States; that I have never been a member of any State Legislature, nor held any executive or judicial office in any State, and afterwards engaged in insurrection or rebellion against the United States, or given aid and comfort to the enemies thereof; that I have never taken an oath as a member of Congress of the United States, or as an officer of the United States, or as a member of any State Legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, and afterwards engaged in insurrection or rebellion against the United States, or given aid or comfort to the enemies thereof; that I will faithfully support the Constitution and obey the laws of the United States, and will, to the best of my ability, encourage others to do so. So help me God." Which oath or affirmation may be administered by any registering officer.

Sec. 2. That after the completion of the registration hereby provided for in each State, at such time and place therein as the commanding general shall appoint and direct, of which at least thirty days' notice shall be given, an election shall be held for delegates to a convention for the purpose of establishing a constitution and civil government for such State loyal to the Union; said convention in each State, except Virginia, shall be composed of the same number of members as the most numerous branch of the State Legislature of such State in the year 1860, to be apportioned among the several districts, counties, or parishes of such State by the commanding general, giving to each representation in the ratio of voters registered as aforesaid, as nearly as may be. And the convention in Virginia shall consist of the same number of members as represented the territory now embraced in Virginia in the most numerous branch of the Legislature of said State in the year 1860, to be apportioned as aforesaid.

Sec. 3. That at said election the registered voters of each State shall vote for or against a convention to form a constitution therefor under this act. Those voting in favor of such a convention shall have written or printed on their ballots the words "for a convention." The persons appointed to superintend said election, and to make returns of the votes given thereat, as herein provided, shall count and make returns of the votes given for and against a convention; and the commanding general shall open the same and have been canvassed, shall ascertain and declare the total vote in each State for and against a convention. If a majority of the votes given on that question shall be for a convention, then such convention shall be held as hereinafter provided; but if a majority of such votes be against a convention, then no such convention shall be held under this act: *Provided*, That no such convention shall be held unless a majority of all such registered voters offer to vote have voted on the question of holding such convention.

Sec. 4. That the commanding general of each district shall appoint such loyal officers or persons as may be necessary, not exceeding three in each county in said district, to register all loyal male citizens of any State, to make and complete the registration, superintend the elections, and make returns to him of the same, and the voters and of the persons elected as delegates by a plurality of the votes cast at said election; and upon receiving such returns he shall open the same, ascertain the persons elected as delegates according to the returns of the officers who conducted said election, and make proclamation thereof; and if a majority of the votes given on that question shall be for a convention, the commanding general, within thirty days from the date of election, shall notify the delegates to a convention to assemble in convention at a time and place to be mentioned in the notification, and said convention, when organized, shall proceed to frame a constitution and civil government according to the provisions of this act, and the act to which it is supplementary; and when the same shall have been so framed, said constitution shall be submitted by the convention for ratification to the persons registered under the provisions of this act, at an election to be conducted by the officers, or persons appointed by the commanding general as hereinbefore provided, and held after the expiration of thirty days from the date of notice thereof to be given by said convention, and the returns of said election shall be made to the commanding general of the district.

Sec. 5. That if, according to said returns, the Constitution shall be ratified by a majority of the votes of the registered electors qualified as herein specified, cast at said election, at least one-half of all the registered voters voting upon the question of such ratification, the President of the Convention shall transmit a copy of the same, duly certified, to the President of the United States, who shall forthwith transmit the same to Congress, if then in session, and if not in session, then immediately upon its next assembling; and if it shall, moreover, appear to Congress that the election was one at which all the registered and qualified electors in the State had an opportunity to vote freely and without restraint, fear, or the influence of fraud, and if Congress shall be satisfied that such Constitution meets the approval of a majority of the qualified electors of the State, and if the said Constitution shall be declared by Congress to be in conformity with the provisions of this act to which it is supplementary, and the other provisions of said act shall have been complied with, and the said Constitution shall be approved by Congress, the State shall be entitled to representation, and Senators and Representatives shall be admitted therefrom as herein provided.

Sec. 6. That all elections in the States mentioned in the said Act to provide for the efficient government of the rebel States," shall, during the operation of said act, be by ballot; and all officers making the said registration of voters and conducting said elections shall, before entering upon the discharge of their duties, subscribe an oath faithfully to perform the duties of their said offices, and the oath prescribed by the act approved July 2, 1862, entitled "An act to prescribe an oath of office." *Provided*, That if any person shall knowingly and falsely take and subscribe to any oath in this act prescribed, such person so offending, and being thereof duly convicted, shall be subject to the pains, penalties and disabilities which by law are provided for the punishment of the crime of wilful and corrupt perjury.

Sec. 7. That all expenses incurred by the commanding generals by virtue of this act, and of the several boards provided for by them under or by virtue of this act, shall be paid out of moneys in the Treasury not otherwise appropriated.

Sec. 8. That the Convention for each State shall prescribe the qualifications and compensation to be paid to all delegates and other officers and agents herein authorized or necessary to carry into effect the purposes of this act, not herein otherwise provided for, and shall provide for the levy and collection of such taxes on the property in such State as may be necessary to the same.

Sec. 9. That the word "article" in the sixth section of the act to which this is supplementary, shall be construed to mean "section."

THE NEW RECONSTRUCTION, OR EXPLANATORY BILL PASSED JULY, 1867.

Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled: That it is hereby declared to have been the true intent and meaning of the act of the 2d day of March, 1867, entitled, An Act to provide for the more efficient Government of the Rebel States," and of the acts supplementary thereto, passed on the 23d day of March, in the year 1867, that the governments then existing in the several States of Virginia, North Carolina, South Carolina, Georgia, Mississippi, Alabama, Louisiana, Florida, Texas, and Arkansas, were not legal State Governments; if continued were to be continued subject in all respects to the military authority of the respective districts, and to the paramount authority of the United States.

Sec. 2. That the commander of any district named in the said acts shall have power, subject to the disapproval of the General of the Army of the United States, to remove from office, and the exercise of official powers, any officer, or person holding or exercising, or professing to hold or exercise any civil or military office, or duty in such district under any power, election, appointment or authority derived from, or exercised by, or claimed under any so-called State or the government thereof, or any municipal or other division thereof; and shall fill vacancies occasioned by death, resignation or otherwise.

Sec. 3. That the General of the army of the United States shall be invested with all the powers of suspension, removal, appointment and detail granted in the preceding section to District Commanders.

Sec. 4. *And be it further enacted*, That the acts of the officers of the army, already done, in removing in said districts persons exercising the functions of civil officers, and appointing others in their stead, are hereby confirmed; *provided*: That any person heretofore or hereafter appointed by any district commander to exercise the functions of any civil office may be removed at any time by the said district commander, and the acts to which this is supplementary.

Sec. 5. That the Boards of Registration provided for in the act entitled "An act supplementary to an act to provide for the more efficient government of the rebel States," passed March 23, 1867, and to facilitate registration, passed March 23d, '67, shall have power, and it shall be their duty, before allowing the registration of any person, to ascertain upon such evidence as they may require whether such person is entitled to be registered under said acts, and any such Board may administer such oaths, and examine such witnesses touching such question, and no person shall be registered unless such Board shall decide that he is entitled thereto; and said Boards shall also have power to administer the oath, to be administered to voters at the polls, which each person shall take before registration, and to examine any one touching the qualifications of an applicant claiming registration, but in every case of a challenge by the Board, or by any one on behalf of the Board, of an applicant, and in every case of striking his name from the list as hereinafter provided, the Board shall make a note or memorandum which shall be returned with the registration list to the Commanding General of the District, stating the grounds of such refusal or said striking from the list. Provided that no person shall be disqualified as a member of any board of registration by reason of race or color.

Sec. 6. That the true intent and meaning of the oath prescribed in the said supplementary act, is among other things, that no person who has been a member of the Legislature of any State, or who has held any executive or judicial office in any State, whether he has taken an oath to support the Constitution of the United States or not, and whether he was holding such office at the commencement of the rebellion or had held it before, and who has afterwards engaged in the existing rebellion against the United States, or given aid and comfort to the enemies thereof, is entitled to be registered, or to vote under the words executive or judicial office in any State in said oath mentioned shall be construed to mean all civil offices created by law for the administration of any general law of a State, or for the administration of justice.

Sec. 7. That the time for completing the original registration, provided for in said acts, may, in the discretion of the commander of any district, be extended from the 1st day of October, 1867, and the Boards of Registration shall have power, and it shall be their duty, commencing fourteen days prior to each election, to revise the registry of voters and upon reasonable public notice of the time and place thereof to revise for a period of five days before each election lists, and upon being satisfied that any person not entitled thereto has been registered, to strike his name off; any person may file a list, and such persons shall also add to such register the names of all persons who at that time possess the qualifications prescribed by said act, who have not been already registered, and no person shall at any time be entitled to be registered or to vote by reason of any executive pardon or amnesty, for any act or thing which without such pardon or amnesty would disqualify him from registration or voting.

Sec. 8. That section 4 of said last mentioned act, shall be construed to authorize the commanding general named therein, whenever he shall deem it needful, to remove any member of any board of registration, and to appoint another in his stead, and to fill any vacancy in such board.

Sec. 9. That all members of said boards of registration, and all persons hereafter elected or appointed to office in said military districts, under any so called State or municipal authority, or by detail or appointment of the district commander, shall be required to take and to subscribe the oath of office prescribed by law for officers of the United States.

Sec. 10. That no district commander or member of the board of registration or any of the officers or appointees acting under them shall be bound in his action by any opinion of any civil officer of the United States.

Sec. 11. That all the provisions of this act, and the acts to which this is supplementary, shall be construed liberally to the end that all the requirements thereof may be fully and completely carried out.

THE GULLETT STEEL BROS. GIN.

This celebrated COTTON GIN, is now manufactured under the supervision of the inventor, R. D. Gullett, with great improvements. It is now ready for the coming season, and we, as agents for the South-west, now offer it as the best gin made.

Its advantages are:

1st. The quantity of cotton ginned in a given time is greater than by any other gin of equal number of saws.

2d. It separates from the Cotton all motes and dust and leaves it perfectly clean.

3d. The roll cannot be broken by over feeding. All gins are constructed to be operated by hand. Cotton from this gin will sell for an advance of, from, sufficient to fit Boxes to pay for the gin. Steam power is the best for this gin, and it has been in use extensively in the south-west two (10) years, and wherever used it has excelled all other gins.

Send for special circulars.

COTTON PRESSES,

We are manufacturing for the crop of 1867 an improved screw on the Bullock screw plan. It is constructed on the best principle, and will be sold low for cash, or on time to suit purchasers. Call and see it before you buy elsewhere. Address a postal card to the undersigned, and we will call on you.

Jas. Gonegal, the celebrated New Orleans druggist, has petitioned to be adjudged bankrupt.

It has been announced frequently within the last few months that several eminent scholars and sciens, chiefly professors in the University of Louisiana, were engaged in preparing a series of school books important especially for the use of Southern children, from which all sectionalism and partizanship should be excluded, and which should furthermore become models for instruction, both by their style and the information given in them.

The geographies of the series have been prepared by Lieut. M. F. Maury, the greatest of living geographers, whose reputation is such that they will, in all probability, be adopted in Europe as the standard for instruction. The arithmetics are by Prof. Venable, the English grammars, spellers and readers are by Prof. Holmes, the Latin grammar by Prof. Gildersehen, and Prof. Schele de Vere's French works are already well known. All these are now ready for examination and trial, and we would advise teachers and others interested in education, to apply to Gen. D. H. Maury, at 188 Gravier street, who will advise them respecting prices, etc., and the obtaining sample copies.—Picayune.

RELEASE OF MR. FILES.—Our readers will remember that some time ago Mr. Files, of Mobile, was arrested by the military authorities, and tried as the ringleader in the Kelly riot. The following account of his discharge, which we take from the Mobile Tribune, of the 8th, will be read with interest:

We take pleasure in announcing that our well known fellow-citizen, Mr. David E. Files, has been released from Fort Gaines, and will be in the city to-morrow. The decision of the court was that the prisoner pay a fine of $100 to Capt. Grierson, A. Q. M., which decision has been approved by Gen. Pope, and an order issued directing his release on payment of the fine. The $100 has already been paid, and the information sent to Fort Gaines.

TERRIBLE CALAMITY.—The public was shocked this morning by news of a calamity which has few parallels. It seems that sometime this morning, not long after midnight, Mrs. Carter, wife of one of the guards, was murdered in her own house. Mr. Carter living on St. Louis street—was alarmed at noises which seemed to indicate the presence of thieves. She hurried to the apartment of her son Jesse, in order to awaken him. The room was dark, suspecting his mother to be a robber, rose hastily and seizing a pistol, fired. He shot his mother. She lived long enough to have the accident explained to her; and mother and son left each other in that way.—Mobile Tribune.

MERCY FOR MRS. SURRATT.—A Washington correspondent says that the Commission in the case of Mrs. Surratt, made by the members of the Military Commission which tried that unfortunate woman, has been. The document reads as found follows:

The undersigned, members of the Military Commission detailed to try Mary E. Surratt and others, for the conspiracy and murder of Abraham Lincoln, late President of the United States, especially pray of the President the commutation of the sentence of the said Mary E. Surratt, if he can upon all the facts of the case, that is developed by his trial, to imprisonment for life in the country, to commute the sentence of death which the Court have been constrained, by the testimony, to pronounce, in the penitentiary for life. Respectfully submitted. Signed: E. D. Hunter, President; A. Ayer, Brigadier General; Thos. H. Thompkins, Brevet Colonel and A. Q. M.

The recommendation was drawn up by Hon. John A. Bingham, Judge Advocate, and the following members of the Commission refused to sign it: Gen. Lew. Wallace, A. J. Hover; F. M. Harris, and Col. D. R. Glendearing.

The next question to be determined is, who was the villian who kept this appeal for mercy from President Johnson?

For deriving the supremacy of the laws of Congress, and saying that he would not obey them, Governor Sheridan has been removed from that office by Gen. Hancock, and has been appointed Judge of that District, in his stead.

POISONED ARROWS.—A writer in Harper's Magazine tells how the Indians poison their arrows:

A rattlesnake is or sgit and pennel. He is made angery by oeing poked with sticks, when a piece of deer liver is held toward him on the end of a stick. Into this he strikes his fangs. The liver is then withdrawn, and a piece of dogwood about four inches long carefully sharpened, is thrust into the incision made by the fangs. The stick is permitted to dry for a short time, when it is dipped into a gluttinous solution, which, drying, hermetically seals the poison, which would otherwise decompose. This piece of dogwood is used at the head of an arrow. To be wounded with such an arrow is almost certain death.

The Memphis Avalanche says that since the election horrible is no longer heard when turned off by employers who did not need their labor nor feel compelled to support political cronies, but that the first question now is to discovered of a Radical giving a dinne to the discharged blacks.

"If you ever marry," said a Roman Consul to his son, "let it be to a woman who cannot speak." The unfortunate victim of the meeting of a meal of victuals, taste enough to wish to fore breakfast, and sense enough to bite her tongue when she has nothing to say."

THE STATE FAIR ELECTIONS.—The next election outside of the unreconstructed States will be that of Vermont, which will occur on the 1st of September, and Tuesday after the election in Maine will be held in every Union will follow. A few days afterwards, on the 5th of September, Maine will be clapse, at the end of which time the great State of Pennsylvania, Indiana and Ohio will engage in the political struggle—their day of election being the 8th of October. Next will come Iowa, on that day occur on the first Tuesday of November—the 5th. They are New York, New Jersey, Delaware, Maryland, Massachusetts, Michigan, Wisconsin, Minnesota, Illinois, Kansas, Missouri and Nevada. Colorado will vote on the 12th of November, which will close the list of Fall elections.

IS the centre of Hancock county, Miss., there is an immense, almost impenetrable swamp, called the Devil's Swamp, which is filled with all manner of wild and ugly devilvines, creeping parasites, mud, bog, water, abounding in alligators, moccasins and other venomous snakes, gigantic mosquitoes, bear, deer, etc. This wild wilderness is said never to have been explored beyond its outskirts.

REAPPOINTED.—We learn, from the Register of the 7th instant, that Gen. Sheridan has reappointed the Mayor of Holly Springs, and the members of the City Council, their term of office having expired.

TOO MANY CONVICTS ESCAPING.—The Clarion has the following:

Several convicts made their escape at Lake Station between the convicts and the guard we failed to mention that nine of the former succeeded in escaping.

Horace Greeley says now that Bourbonism is to converge again, let him stop in skirting and not go through it. He would escape its acts well. But he talks at times in a wild, extravagant way which only does harm.

The Atlanta Intelligencer says: It is the opinion of a good many well-informed minds that Georgia is rapidly drifting into the condition of Tennessee, and the opinion is based mainly on the fact that the whites, instead of uniting and harmonizing for self-defense, are permitting themselves to be divided, distracted and led off from the true policy of criminations and recriminations.

The total registration in Louisiana is as follows: Whites, 42,662; blacks, 73,129; total, 121,791.

REGISTRATION.—The total number of votes registered in Tishomingo county is 3,231, of these 2,637 are white and 596 colored.

Lee county—whites 1,813; blacks 769.

South county—whites 1,000; blacks 238.

Tippah county—whites 800, blacks 174. (This county will register 2,500, and the relative ratio of whites and blacks will not vary materially from the precincts already registered.)

Copiah county—whites 1,320 blacks 1,500.

YELLOW FEVER.—We learn that there is some yellow fever in the city of Pensacola.

James Hendibert, of Jackson, a native of France, and for twenty-five years a citizen of this State, formerly American consul to Lyons, died at his residence in Jackson on the 10th inst.

D. R. Corley, an old and highly esteemed citizen of Tishomingo county, died recently at Columbus, Miss. At the time of his death, Mr. Corley was R. W. Grand Tyler of the Grand Chapter of the State.

THE HEALTH OF VICKSBURG.—The mortuary report of the City Sexton, for the week ending Monday, shows a gratifying improvement on several previous reports. The report shows only *eighteen* interments against *twenty-two* last week, and *thirty-eight* for the week immediately preceding that. Of the eighteen interments reported, it will be observed that there was only *one death from cholera*.

JUDGE HANCOCK.—We fully endorse the following complimentary allusion to this gentleman which we find in the last Meridian Chronicle:

Judge H. was, in former years, a citizen of this county, he has held his present office for twelve years and during that time been five times elected by the people. We believe he is the right man in the right place; that his decisions are generally characterized by justice and impartiality. He has on all occasions meted strict and impartial justice to the citizens, and we learn he is now a strong advocate for reconstruction. If all the public officials in the country pursued the same course, work of reconstruction would go on smoothly, and Mississippi be restored to her place in the Union and prosperity attend her citizens.

Punch thinks the industry of the ladies in Paris surpasses belief. They dye—their hair; they enamel—their faces; they gild —their locks; they paint—their cheeks; and now they bronze—their complexions!

The Memphis Bulletin calls attention to the case of Lieutenant Blaine who is still confined in a penitentiary at Brooklyn, New York, under a charge of murder growing out of the capture of the steamer Chesapeake. He has been imprisoned nearly a year, in violation of the amnesty proclamation of the President, within the terms of which he was included and on the faith of which he returned to the United States, and no trial has been offered him. The Bulletin calls on the Northern journals to demand that the public honor shall be preserved, either by trying the prisoner or releasing him.

State Teachers Association.

This large and influential body of gentlemen at its recent meeting in Jackson, adopted for use in the schools of the State, among others, the following books published by John P. Morton & Co., Louisville, Ky:

The Goodrich Series of Readers, edited by Noble Butler, Butler's Grammar, Towne's Mathematics and Barbee's Geology.

The object of this action on the part of the Association, is to secure uniformity in the use of text-books throughout the State. In order that so desirable a result may be attained, we would respectfully urge upon our teachers throughout the State, the necessity of taking early steps to secure a supply of these books for their pupils. With the exception of the Geology, which is just being issued from the press, these books are already used in all the public and private schools of New Orleans, Mobile, Vicksburg, Jackson, Meridian, Columbus and Aberdeen, where, of course, large supplies are kept. Schools in the vicinity of these places can easily procure a supply, but, as regards schools off the lines of railroads a difficulty will occur unless prompt steps be taken. We would recommend that all teachers in the State, who intend to aid the association in its work, address John P. Morton & Co., Louisville, Ky., at once, stating the number of books likely to be needed. Our acquaintance with the members of that house warrants us in assuring teachers that prompt attention will be given to their orders, and every reasonable request complied with.

During the week ending Saturday last, there were 174 deaths reported in New Orleans. There were only 14 of yellow fever and 14 of cholera.

Secretary Stanton.

Judge Thurman of Ohio, recently made a speech in which he asserted that Stanton had not denied that he told Governor Brown of this State, that Mississippi had a just right to secede, and that he had been charged, upon unimpeachable authority, with declaring that a speech of Jeff. Davis, vindicating secession, was the greatest ever delivered in the Senate Chamber, and unanswerable.

The Cincinnati Commercial in referring this statement says:

It is a curious fact in this connection that when citizen Corry made his visit to Wheatland and endeavored to raise a cheer for Mr. Buchanan's election and before his inauguration—in a mice to being to prompt the old Federalist, to take the Unionist view of the Federal system, and shape his administration accordingly; it is a curious fact, we say, that the man recommended to Mr. Buchanan as the proper persons to represent the State sovereignty element of the West in the Cabinet, were Edward M. Stanton, of Ohio, and Joseph Holt, of Kentucky. Those two, with Corry and Elwood Fisher, were the State Sovereignty quadrilateral. Corry's recommendation of Stanton and Holt is recorded in his Diary of a visit to Wheatland, as published in the Commercial about ten years ago.

A mass of papers have been presented to the President by Chas. Dunham, alias Sanford Conover, as a ground of pardon, which will be very damaging to some members of the Impeachment Committee and the Bureau of Military Justice. Conover, it will be remembered, in the month of January last was tried, convicted and sentenced to the penitentiary for perjury, alleged to have been committed before the Judiciary Committee of the House of Representatives, and was sent to prison by said Committee of charges against Jefferson Davis of complicity in the conspiracy to assassinate Lincoln. Dunham tells how he was bribed and duped by Ashley, Butler, and the Military Bureau of Justice; gives an expose of the conspiracy of Ashley & Co., and a synopsis of the kind of evidence that Ashley had invented to implicate President Johnson in the assassination plot. The original notes and telegrams from Ashley and others are given, and are so carefully explained as to leave no doubt of their genuineness. Says Mr. Binckley, the Acting Attorney General:

The accusations and papers expose prominent members of the Legislature of the Union to the shocking suspicion of having conspired with a convicted perjurer for a stipendious imposition—first upon the House of Representatives, then upon the people, and then upon the Senate of the United States—for the purpose of effecting the impeachment and removal from office of a President of the United States, solely upon suborned testimony. I need not say with what astonishment mankind would hear it charged that a scheme so abominable was alighted upon by the peculiar wickedness of attempting to induce the intended victim, himself, through appeals to his clemency, to qualify, by a pardon, with, consequent competency to act and testify, the principal instrument of the imposture!

Gen. Grant and the Presidency.

The Mobile Times, a few weeks since, placed at the head of its columns the name of Gen. Grant for President and Senator Pessenden for Vice-President. This suggestion of the Times failed to excite the indignation of such intensely loyal sheets as the Chicago Republican and is treated as an attempt to "undermine" Grant in the estimation of the Radicals and seriously damage his prospects for the. Presidency.

The following extract from the Chicago Republican shows the way in which the nomination of our Mobile cotemporary is received:

"But, *apropos* of this alleged scheme to undermine General Grant's position as a candidate for President, we have before us another, even more damaging, originating from quite a different source, and about which there is no doubt whatever. The Mobile Times, a 'conservative' paper, and a rebel persuasion, and always for a zealous supporter of President Johnson's policy has recently nominated what it calls a 'Union ticket' headed by Grant for the Presidency and Vice-Presidency—General Grant being its nominee for the first position, and Senator Fessenden for the second. Apart from the bad taste of the attempt on the part of an organ of the rebellion to dictate to the loyal people of the nation whom they shall to the first offices in the gift of the people, these nominations are calculated to do the cause of justice no two of the truest men of the country during our recent struggle. It implies that the rebels have the same advantage from the election of Gen. Grant and Mr. Fessenden not contemplated in the policy of Congress, which has always been indorsed by an overwhelming majority of the people. Nothing, we believe, would be at the same time more damaging or more unjust to both these gentlemen.—The fact that Gen. Grant sustains Gen. Sheridan's action in the Louisiana and Texas affair is consistent with his official position, he supports Mr. Stanton in his contest with the President, and supports the policy the position attempted to be assigned him, while Mr. Fessenden's support of the reconstruction policy of Congress is approved by his votes. The attempt, therefore, to connect the name of either with the Conservative party, whether by appointment in the Cabinet or by nominations to the Presidency or Vice-Presidency, can only be inspired by a hostile motive, having for its object the undermining of the confidence of the men, and the utter destruction of their chances of political advancement. We protest against any such attempt, as a malicious scheme emanating to destroy the influence and good name of true friends of the country.

The army worm we are told has made its appearance in the neighborhood of Demopolis. The worms are not as yet very numerous and consequently the cotton has sustained but little damage.

TEXIE.—A Georgian who went out to Texas last year, writes back to the Macon Telegraph as follows from Millers county in regard to the health of that State:

To those anticipating moving here next fall or winter, I will state that all immigrants who came out here last fall, or winter, have, without an exception, been sick more or less. I know of no case of families, and at times you might see of these an entire family of from four to ten persons down at once, with no one to hand them a bad drink of water, (for good they had none,) with many of them have died. Very many of the old citizens have died this summer, as many as four out of one family. In the Waco district of Navarro county No. 5, it is said to be very healthy.

I am informed by old Texans, that whenever there is rain enough to make good crops, the graveyards receive large accessions. This year has demonstrated this fact. Wherever it is dry there seems to be made to eat (except beef.) It is very healthy. Sunstroke, from exhaustion, is the fate of many. Little River above Franklin, is about as large as the Ogeechee River. This country has been very wet indeed; hence, graveyards have grown rapidly, and corn-cribs will be filled this fall, and so will gin-houses have been built, so much for all middle Texas.

A Northern View of Reconstruction.

The Cincinnati Commercial, the most moderate as well as the ablest Republican paper of the West, in referring to the Military bills of Congress and their finality as a plan of reconstruction if accepted by the Southern people, says:

As the Constitutional Amendment is to the Reconstruction Bill now, so will the Reconstruction Bill be to the next alternative a year hence. What that will be we cannot say, but we will not be found very far astray if we predict that it will be to place the political power of the ten States in the hands of the Hamiltons, Hunnicutts, and the colored people of the South, *and to exclude from the right of suffrage the last of the holding class, many who have done and comfort to, or participated in, the rebellion.* We shall then have eleven Tennessees instead of one. To this complexion it is the great aim of the extreme Radicals in Congress to come at last. They urged this last winter in lieu of the Military Bill, which many of them denounced, echoing the cries of the "white leagues" of the South. And it is worthy of remark that the most obnoxious feature of the Military Bill—that part of it known as the Shellabarger Amendment—was inserted by the aid of Democratic votes. The Democrats in the House joined with the Radical wing of the Republican party in refusing to order the previous question on the bill as it came from the Senate, thus enabling Shellabarger to get in his amendment.

There is very little force in the objection raised by some speakers and journals in the South that Congress has given no assurance that the Southern States will be admitted upon compliance with the terms of the Military Bill. All the assurance that is necessary is given in the bill itself, which states in so many words that upon so doing certain things therein named the States shall be admitted to representation in both Houses.

There is the further guarantee of a strong public sentiment in the North which would not tolerate or indorse any act of bad faith in Congress in a manner of the like kind. The Republican party is pledged to the Reconstruction Acts of the last two sessions, and will abide by them as the final terms of restoration; until then South shall repeat the folly of a year ago, and reject them with scorn and contempt."

We have given below the only plan by white people of the South, and have omitted to mention one very important phase of reconstruction developed which ought to suggest itself to the minds of those who are advocating the policy of non-action—They may succeed, possibly, in keeping the whites to stand aloof from the ballot-box, or to vote against a State Convention. They will not find it easy to do this with the blacks. The question, then, in such States as South Carolina and Mississippi, where the blacks are in the majority, *is not whether these shall or shall not be reconstructed under the Military Bill, but whether the whites will have any hand in the matter, or leave it entirely to the Slaves to form their own State government.* It will not do for them after having remained inactive and refused to assist or mention the work, in any way, to inveigh against the new governments as made exclusively by negroes. They have an opportunity to be represented, and if not, to control at least to assist in shaping the new constitutions, and the first elections. If they fold their arms disdainfully, it will be their own fault if they find themselves a year hence living under State constitutions not very favorable to them and participated in the rebellion, and State governments in the hands of the negroes exclusively.

HEADQ'RS. 4TH MILITARY DISTRICT, (Mississippi and Arkansas.)
OFFICE OF CIVIL AFFAIRS.
Vicksburg, Miss., August 6th, 1867.

CIRCULAR.

I. Section 1 of the Supplementary Act of Congress relating to reconstruction, published in General Orders, No. 71, current series, from the Adjutant General's Office, makes it the duty of the Commanders of the Military District created in connection with the same subject to remove from office all persons who are disloyal to the Government of the United States, or who use their official influence in any manner to hinder, delay, prevent, or obstruct the due and proper administration of this Act and the Acts to which it is supplemental; and, in consequence, Sub-District and Post Commanders and Commanders of Registration are required to report in detail all offences of the nature thus described, committed by persons subject to removal under the provisions of the different laws above referred to in order that if the case shall be substantiated the laws may be duly enforced.

II. In addition to the examination into the antecedents of every person presenting himself for registration, already directed in the Circulars from these Headquarters, sections 5 and 6, of the Act referred to Supplementary Act, makes it the duty of each Board of Registration to examine, and to still closer scrutiny regard to the qualifications of applicants for registry. The Boards will therefore, in future, be regulated by these more stringent rules, and the work which they have already performed will be reviewed from time and in the manner hereafter directed, so as to conform strictly to the provisions of the new law.

III. The Boards of Registration will continue and complete the work which has been suspended by the late Presidential ruption, governing themselves strictly by the instructions heretofore given and such modifications as have been made by more recent laws and orders. And they will keep lists of the persons applying for and existing rights of registry, whom, regard as disqualified; but no person concerning whom doubts are entertained, will be registered, by the Commissioners, or regarded as finished when the two (2) copies or county books have been completed; immediately after which, one copy will be brought by a member of the Board to these Headquarters together with a list of persons as above referred to, but the duplicate will be retained by the Board, along with pressent books.

IV. After the completion of the registry, due notice will be given of the time when the election will take place and specific instructions will be given with regard to the manner of holding it; but, fourteen days previous to the day of election, each Board will in the manner prescribed in the 7th section of the last Supplementary Act, at the county seat, or other more prominent locality, and will then continue in session during five days, to revise the books of registration, and their revision the names of all persons who have been previously marked as "Reported for investigation," and of all others whom the Board is satisfied after the examination should not have been registered, will be stricken off. Any person thus struck off, will be added to the registers in the proper manner, and separate lists of the names so registered, and those erased from the registers, will be prepared and forwarded to these Headquarters as soon the lists of those who were refused registration and who demanded the fact to be recorded.

The corrected county and precinct books will, after the revision, be retained by the registrars until needed for the election.

LAND FOR SALE.

THE subscriber in consequence of declining health, is anxious to sell his Stand which he now resides. The tract contains eight hundred acres, with some four hundred and fifty in cultivation. It lies immediately on the Mobile and Ohio Railroad, about half way between Meridian and Enterprise, and nearly all the land is productive Cotton bottom, and all level and available for cultivation. It is unsurpassed as to the crop now growing, he will leave for the place what the crop will be worth. The improvements are good and in a good condition. There is now building a new gin house and press, &c. It is a great bargain for cash or on credit, and a good range for cattle and hogs, and is altogether a pleasant and valuable location.

The above will be sold to suit purchaser, in two equal parts, one part to be paid in twelve months for boarding people. And no pupil will be received as a boarder, or day scholar, except at the beginning of each five months (except those taught gratuitously), without prepayment. In case of non-attendance as above, money will be refunded

Four weeks considered a month.

The cost of Text books will range from $1 to $25 per year.

All property carelessly or wilfully injured or destroyed, will be charged.

Boarding may be had with the Principal in a new and elegantly finished dwelling, or with good private families. Pupils will furnish their own towels, table napkins, drinking mugs, and other toilet articles. Catalogues can be had of the Principal. The third Term will open on Monday, Sept. 23, 1867. augtc

FAST DAY.—In accordance with the recommendations of the Bishops of the Methodist Church South, in their late pastoral address, yesterday was to be observed as a day of fasting, humiliation and prayer.

Some parties have applied to Gen. Pope to suppress the Mobile Tribune. The General very properly refused to interfere with that journal.

There are 3,173 registered voters in Chickasaw county—1,495 whites and 1,689 blacks.

Capt. E. V. Early of this city, now travelling in the north, has our thanks for files of late papers.

Col. W. S. Patton has withdrawn from the Patton House. That establishment is now conducted by Mr. Cain, the former proprietor.

Despite the cry of hard times a great many new buildings are going up in the city. In our next issue we hope to be able to give a list of them.

We would direct the attention of the city authorities to the condition of the grave yard road. It needs working very badly. Let us have a good road to the "city of the dead" if nowhere else.

THE STATE UNIVERSITY.—The last catalogue of this institution, which is an ornament to Mississippi, shows a degree of prosperity that but few expected, considering the destruction of property about Oxford and the vicinity by Federal raiders during the war. The means of teaching are complete and a corps of professors secured as renowned as those of any similar institution in the country. We would invite particular attention to the University advertisement elsewhere. The highest talent is employed there and advantages offered for the completion of education that are not excelled by the famous Universities of Europe. For information and catalogues address "University of Mississippi, Oxford, Miss."

We call the attention of our readers to the advertisement of a valuable plantation for sale by Dr. Peyton King. The land to which we refer is well improved, in a high state of cultivation, and favorably situated on the Mobile & Ohio Railroad, between this city and Enterprise. The location is favorable either for farming or raising stock. Those who desire to invest in valuable real estate, would do well to confer with Dr. King, and examine the land he offers for sale.

SELF-RAISING FLOUR.—We call attention to the advertisement of Darcy & Putnam's self raising flour, to be found among our new advertisements. We are using this flour, and can recommend it to the public as a reliable article. It has been examined by chemists and pronounced *healthier* than any flour that can be used. Send the grocer your order and give it a trial.

THE FIRST CARGO of cotton—consisting of 300 bales from Marion, Alabama, through this city Thursday morning, en route to Mobile.

DICKSON & CO.'S NEW ADVERTISEMENT.—Of all the new advertisements to be found in the columns of the Clarion, that of Dickson & Co. is the most interesting to the ladies. Read it, ladies, and then call at the store and examine the goods. We feel sure that you will be pleased with the stock and prices.

Clarion-Gazette

The regular session of the Circuit Court of the 3rd District of Lauderdale county, Miss., convened on the first Monday in March last, Hon. Thomas H. Mercer, Judge, and Hon. Hezekiah Smith, District Attorney, attended the business of the State. Judge Mercer during the first week of the session, for the purpose of all criminal, that may come before the Court. Thursday week, Court adjourned until Monday morning. There is a considerable amount of business on the dockets, though most of the cases are not important. Judge H. has, with his usual promptness and impartiality, dispatched a large proportion of the causes, and will by dusk, during next week, go through with all the dockets.

On Thursday the case of the State vs. George Gaines, a freedman, charged with the larceny of a horse from Mr. J. W. Harvey, of this place, resulted in a conviction. George was defended by Ramsey, Brooks and Walker, but the proof was too positive, the ingenuity of counsel availed nothing, and George was required to devote two years of his valuable time to the service of the State. Jack McGrew, another freedman, was charged with the robbery of one of his colored fellow-citizens. He was ably defended by A. P. Hitt, Esq., but the testimony was convincing, and the jury brought in a verdict of guilty. Jack is quite young—not more than eighteen years old—and made a most touching appeal to the judge for clemency. In consideration of his youth and good promises, he was let off with seven months' imprisonment in the State Penitentiary. On Monday next an important case will be tried, that of Willis John, who is charged with the murder of a man named Goldthorp. The case has been brought here on a change of venue from Clarke county.

In addition to the local bar of Lauderdale, numbering, we believe, eighteen able bodied limbs of the law, all of whom were present, except our friend Capt. J. W. Smith, detained at home by sickness, there were in attendance from a distance, Hon. D. C. Glenn from Mississippi City, Judge Cobb, from Eutaw, Major Amzi Love of Columbus, Messrs. Welch and Dismukes of Macon, and Judge Evans of Clarke.

C. W. Henderson, our efficient and accommodating Circuit Clerk, one of the best officers in the State, was at his place, and as usual entirely at home in the discharge of the duties of his office. Jo. Eakens, our popular sheriff, was also on hand and prompt in the execution of whatever pertained to his office.

Quite a number of the good people of Lauderdale were in attendance the early part of the week but we were gratified to hear from every part of the county most encouraging accounts of the crops of both corn and cotton. Corn is regarded as entirely safe and the yield will be greater than any year for the last ten. Cotton is promising, has commenced to open and as yet has sustained no material damage from the caterpillar. In some farms near Lockhart and Lauderdale, they have appeared in small numbers, but the weather has not been favorable to their increase, and it is not apprehended that they will seriously damage the crop.

THE VICKSBURG EVENING TELEGRAPH.—We have received the first number of the Vicksburg Evening Telegraph, published on the 19th inst. It is a neat, handsome publication and Col. Thomas B. Maylove, formerly of the Vicksburg Times, Editor. The Telegraph is neatly printed and we have no doubt will become a popular and successful paper. Col. Manlove is a vigorous writer and we are gratified that he has renewed his connection with the press.

In his salutatory, Col. Manlove declares that his cherished hopes for a speedy return of peace and equality, have taken flight, and that for the present, he will decline to enter the political arena.

We cannot agree to this. No good can be accomplished by inaction. If the State of Mississippi is reduced to the deplorable condition of Tennessee, the blame will rest with the white people of the State. Prompt acceptance of the terms now offered will prevent further disfranchisement and restore the State to the Union. When this is accomplished, we have no fears for the future.

The attention of our readers are directed to the advertisement of our friends Messrs. James Ruddle & Co. of Louisville, Ky., which may be found in another column of our paper. All those afflicted by disease, or who have friends suffering from sickness, should carefully read, and we know they will derive profit from it. It gives us much pleasure to be able in this manner to recommend to our people these gentlemen, and the medicines of which they are Proprietors, as we know they claim no more for their remedies than long years of trial has fully shown is really deserved.

The reputation of Dr. Thos. A. Hurley's Bitters, Worm Candy, Sarsaparilla, and Ague Tonic is world wide, having been used through the whole of this country for many years past, and never having failed to give universal satisfaction. The proprietors never exaggerate in their complaints about them, hence their confidence in recommending them to the public as never failing to cure. As it is with the "Hurley Preparations," so also with Dr. Seabrook's Infant Soothing Syrup, and Dr. Bettison's English Horse Liniment, both of which are now used. These gentlemen are also the manufacturers of Sexton's Chemical Writing Fluids and Carmine Ink which are so well known and extensively used in the West and Southwest, for school, bank, and counting room purposes. For the best, and cheapest article of the kind they are recommended to the public. We might not as well be taken in the general description of the preparations of

We cannot agree to this. No good can be accomplished by inaction. If the State of Mississippi is reduced to the deplorable condition of Tennessee, the blame will rest with the white people of the State. Prompt acceptance of the terms now offered will prevent further disfranchisement and restore the State to the Union. When this is accomplished, we have no fears for the future.

The attention of our readers are directed to the advertisement of our friends Messrs. James Ruddle & Co. of Louisville, Ky., which may be found in another column of our paper. All those afflicted by disease, or who have friends suffering from sickness, should carefully read, and we know they will derive profit from it. It gives us much pleasure to be able in this manner to recommend to our people these gentlemen, and the medicines of which they are Proprietors, as we know they claim no more for their remedies than long years of trial has fully shown is really deserved.

The reputation of Dr. Thos. A. Hurley's Bitters, Worm Candy, Sarsaparilla, and Ague Tonic is world wide, having been used through the whole of this country for many years past, and never having failed to give universal satisfaction. The proprietors never exaggerate in their complaints about them, hence their confidence in recommending them to the public as never failing to cure. As it is with the "Hurley Preparations," so also with Dr. Seabrook's Infant Soothing Syrup, and Dr. Bettison's English Horse Liniment, both of which are now used. These gentlemen are also the manufacturers of Sexton's Chemical Writing Fluids and Carmine Ink which are so well known and extensively used in the West and Southwest, for school, bank, and counting room purposes. For the best, and cheapest article of the kind they are recommended to the public. We might not as well be taken in the general description of the preparations of

STOMACH BITTERS.
PROTECTION FOR THE HEALTHY

RELIEF FOR THE SICK.

INTELLIGENT TESTIMONY IS AN IMPORTANT IN MEDICINE as in law. The great Patriot Revolutionist Sam Adams said long ago that "facts quickly settle the question." Hence the statements of men of character and standing in regard to the virtues and efficacy of any kind of preparation which they themselves have tried, and which they know of others having had abundant opportunity of witnessing in a great variety of cases, are entitled to confidence. They are so considered by the public, who very naturally prefer this species of information to any other that can be offered in behalf of a proprietary remedy. Volumes of such evidence have been published in favor of HOSTETTER'S STOMACH BITTERS during twenty years that the article has been in existence, and in every section of the world; and although its reputation as a Standard Specific for many ills has established throughout the Western hemisphere, it is still deemed advisable to publish, through the press, from time to time, new proofs of its success. Recent facts add pertinency to former facts more remote, and serve to show that the great remedy is prepared with undiminished excellence and care. And it is still, what it ever has been, the purest and best of all Vegetable Preparations for the cure of the various diseases and all derangements of the Stomach and Liver, the perfect working of which are essential to the preservation of health. GENTLEMEN:—During a visit to the West, last fall, I was taken with the fever and ague, which brought me to my bed, and finally terminated in typhoid fever and nearly reduced me to my room for several months during which time I was physically as prostrated and almost despaired of ever recovering my health. Having heard of your Bitters, I sent for one bottle and was able to eat a morsel; added to which I was much benefited by using several bottles. I was cured, and passed many sleepless nights, all from debility caused by the fever and ague. I thought about the fever. At this stage of my condition a friend recommended to me your Stomach Bitters. I purchased one bottle and found it very beneficial. Having used three bottles I was entirely well and restored to my former health and strength. I have since had no return of the fever, and have not been troubled with it. I have also used your Bitters in my family for several years, and have found them a most excellent remedy for Dyspepsia, Liver Complaint, Constipation, Nausea, Sick Headache, and Fever and Ague. GENTLEMEN:—

SEMI-WEEKLY GAZETTE

Who is Ben. Hill, of Georgia?

This gentleman is the idol of the disloyal, and his productions the text book of the opponents of the reconstruction of the Government. Such being the case, the people ought to know what sort of a Hill he is. Gov. Joseph E. Brown, of Ga., furnishes the requisite information in the following article:

In No. 14 of Mr. Hill's notes I find the following language:

"Sumner and Stevens, and Brown and Holden are not accidents, nor are they original characters. They have figured in all mad revolutions, from the fall of Greece and the destruction of Jerusalem to the present day. Such men have never been, fresh crops to principle, faithless to trust and despotic in professions, but always consistent in the common end of destruction to government. And as these Military bills have no character but opposition to all the provisions and principles of the Constitution, and can have no end, but its utter and final destruction, such men and all their illegitimate sections, will write in their support."

Whether all the persons named support the military bills or not, Mr. Hill's intention is plain—to denounce all who support or advocate a settlement of our unfortunate political difficulties, under the Military bills, as traitorous, faithless and deceitful. Coming from a source entitled to respect, this would be a serious charge. As it is intended, however, as a political document, and was written for political effect, to deceive and mislead before attaching importance to it, I consider it not inappropriate to inquire into the political respectability of the author.

If I am correctly informed Mr. Hill started his political life professing to be a Democrat. In 1855 he was the Know Nothing candidate for Congress for his District and was defeated. In 1856 he was on the electoral ticket, supported by the Know Nothing party of Georgia, and was defeated. In 1857 he was the Know Nothing candidate for Governor, and was defeated. As I was the Democratic candidate, probably the latter defeat had not been forgotten by him when he prepared his "Notes on the Situation." In 1859 he took position in advance for war, without waiting for an overt act of oppression by the Federal Government, in case the Republican party should elect their candidate for President the next year. In the Fall of 1859 he was elected State Senator from Troup county, for two years, the most distinguished honor ever conferred upon him by popular vote.

After Mr. Lincoln was elected President, he backed down from his position for war, and was a candidate in the winter of 1860 for the Convention on the Union or Co-operation ticket. He was defeated and took his seat in the Secession Convention. He at first opposed secession. Before the passage of the Ordinance of Secession, after it was known that a majority of the Convention favored it, it began to be discussed in private circles who should be elected to the Provisional Congress in case the State seceded.—The Ordinance was put upon its final passage and Mr. Hill voted for it and signed it a few days afterwards he was elected to Congress by the Convention. Whether by voting for the Ordinance he betrayed the people of Troup county, whose voice was against secession for the causes then existing, is a question I pretend to inquire. At any rate he was not elected as a secessionist, for then existing causes; he voted for the Ordinance, and was elected to Congress by a majority of the Convention. What important feature of practical statesmanship he inaugurated, or carried through Congress by his ability or influence during his whole term of service, I have never been able to learn.

When the Secession Convention was in session in Savannah, Mr. Hill, then a member of both the convention and provisional Congress, made a speech to the people in which he said: "The North would not fight. There would be war. But if the North should be so foolish as to go into the contest, there never was a people on the face of the earth so well prepared for it as we were. It should be an aggressive war. The war should be carried into Africa; and when the cities of the North were laid in ashes, and the country devastated and laid waste, then we should find that the people of the North were the ones to ask for terms and sue for peace." He pictured the rising glory of the new Confederacy, and went on to say, that while this became more compact and secure, disintegration would come as sure as fate upon the other side, and they would seek entrance into this. And he very graciously added that, "If they came humbly enough as hewers of wood and drawers of water, they might come."

When the next Legislature met, there were in it a majority of the old Know-Nothing party, and Mr. Hill was elected to the Confederate Senate over Gen. Toombs.

While in the Senate he voted, under oath, against the first conscript bill.—As is well-known, I opposed the measure when made public as unconstitutional. Not long after this was known, Mr. Hill made a speech in Milledgeville, in which he intended to be very severe on me for my opposition to a measure against which he had cast his vote upon oath; and said the country would have been ruined if it had not passed. After that time he became the zealous advocate of the conscription policy, and denounced all who opposed it.

During the war when a call was made upon the people, not subject to conscription, to volunteer and organize for home defence, when it was doubtful whether they would be called out for active service, Mr. Hill made a speech in LaGrange and encouraged all to volunteer, and as a means of giving force to his appeals, and of showing his own patriotic devotion to the cause, he enrolled, or authorized his own name to be enrolled, as a private in one of the companies being formed, and pledged himself to go if they were called out. Soon after upon the advance of the Federal army, the company was ordered to the field for active service, and Mr. Hill not being one of the troupes who showed a will to lose blood, backed out and refused to go. The reason reported at the time, as given by him for his refusal, was that he was a Confederate Senator drawing a salary, and that while in this condition it would be unconstitutional for him to draw the pay of a private soldier! So it appears that the present is not the only occasion when Mr. Hill's motto has been to stand by the Constitution as his only safety! As he would certainly have been entitled to the pay of a private soldier if he had shouldered his gun and gone with the company, and as it was wrong for a Senator to violate the Constitution, he was not arrested and compelled to serve!

All true Confederates are expected by him to admit, that Mr. Hill's denunciation of those who willfully encouraged desertion or evaded service, by any who could enter the bullet department, without a violation of the Constitution, is most just and proper. But no one is expected to blame a Senator for refusing to shoulder a musket as a private soldier, in violation of the Constitution, after getting "our people," whose "intelligence and virtue," he says, he has often overrated," into the service, any more than the world was expected to blame the lame captain for starting in the retreat in advance of his men. It may be, in view of the above incident in his life, that Mr. Hill exclaims in No. 14 of his notes "I never felt I made war on the Union."

Mr. Hill now says, "I was willing every hour of the struggle to stop the fight and negotiate." When and to whom did he proclaim that willingness? All remember in Georgia that he was stumping the State when Gen. Lee surrendered, assuring our people that there was no possible danger of subjugation, and exhorting them to accept nothing but "independence or extermination."

While I admit that our position as a conquered people is not consistent with our former position; and that the sword having settled the construction of the Constitution against us, the position of individuals who adopted the State Rights theory prior to the war, and the one they now occupy under the amnesty oath by which they are sworn to support the Union of the States, are inconsistent, I have felt justified, as the assailed party, in recurring to this outline—before and during the war—of the political character of this reckless calumniator, who denounces the Congress of the United States, again and again, till the tautology is fatiguing, as a "fragmentary conclave," and its members, without exception, as perjured traitors and libellers; who charges the President of the United States with having committed "the most fatal and dangerous error of this generation, not excepting secession nor coercion, nor even fanaticism itself," because he has agreed that it is his duty to execute laws passed over his veto by two-thirds of Congress, which have not been declared void by the Supreme Court; who boldly proclaims that it is the duty of the President to suppress Congress &c., for which it is the Supreme Court of the United States for having in a late decision, as he says, "simply affirmed what is called the ultra State rights doctrine of South Carolina;" who asserts that Gens. Beauregard, Longstreet, and Hampton are far more to be despised than a burglar, because they "counsel submission to the Military acts;" and who denounces Gen. Lee, Gen. Johnston, Gen. Gordon and others, officer of the Generals of the Confederate armies, each, as an "enemy to the Constitution," because they "passively submit" to the same acts of Congress.

Doubtless these great men, if they should read Mr. Hill's bombastic fulminations and aspersions, would be "exceedingly filled with contempt."

Meteor Burning Fluid.

THE new Meteor Safety Hand Lamp is the latest wonder and novelty, as well as the greatest invention of the times. It has many qualities of the Oil are in every particular superior to anything ever used, while its burning qualities has no superior. The Lamp will not burn out nor explode, and the Oil is inexplosible. The cost of the fluid is about one-half that of refined coal oil; has no greasy, smoky smell; does not smoke the chimney, and will not grease a bidder of any kind. You need not throw away your old Lamps; the Meteor Fluid will burn in a coal oil Lamp by removing the Light House or Meteor Fluid Burner.

We have the agency for Lauderdale county, Miss., and Choctaw county, Ala., and will be glad to supply our friends in those counties with this Meteor Oil and Safety Hand Lamp.

It is bound to create a great revolution in the Lamp business, as it only needs a test to be appreciated.

ANNUAL CIRCULAR.

Dolbear Commercial College.

OPEN CONSTANTLY, DAY AND EVENING,

Corner of Camp and Common Sts.,

In the Elegant and Spacious

IRON BUILDING,

NEW ORLEANS, LA.

Founded in 1852—Chartered by the Legislature of Louisiana.

WITH COMMERCIAL, AGRICULTURAL, AND MECHANICAL DEPARTMENTS.

THIS COLLEGE, last, by its own merits and thorough, practical plan of education, outlived all the liberally endowed State Colleges of this and the South-Western States. It is the

Oldest Commercial College in the United States.

AMPLE ARRANGEMENTS FOR

One Thousand Students

During the Current Year.

Comparative Cost and Value of the Education Given Here and in the Ordinary and Literary Colleges:

It is believed to be the first in Europe or America, chartered with Commercial, Agricultural and Mechanical Departments. *Every student who gives proper attention to the instructions given, qualified* before graduating to keep any set of books, it matters not what the business may be, and do the Correspondence of any House. Students can attend the "Commercial Course," or to the English, French, Spanish, German, Latin or Greek Languages, or the higher Mathematics, etc., separately. We have

Cost of full Commercial Course here—Tuition.....$145

Board for three months.....90

Contingent expenses, about.....20

Total.....$255

After which the student is ready to go into business, and make $1000, $2000, or $3000, annually.

Cost of Ordinary Literary Colleges —About $400 per annum, for four years, or $1600; a building for four years, $200, or $800—total $2400, and four years of time expended. Our student will begin to work after three or four months and make, say the first year, about $1200; and ten years and nine months at probably $1800, or $6150 wages in four years. Deduct $255 leaves $5892 net gain to our Students; but to the other a net expense of $2400; or $8295 our student has gained over the other. We suppose the Students in both cases to have a good English education to begin with. We deem a business education that enables the student to earn $1000, $2000, or $3000 annually, to be the best fortunes parents can give their sons. So far as known, not one of the thousands of our graduates is out of profitable employment. A word to the wise is sufficient.

THE GOULD'S STEEL RIBBED GIN.

This celebrated COTTON GIN, is now a matter of public notoriety, and the Proprietor, R. D. Gould, with a very impro ed facilities and way, is prepared for the South-west, now offer it as the best gin in use.

Its advantages are:

1st. The quantity of cotton ginned in a given time is much greater than by any other gin of equal number of saws.

2d. It separates the cotton from all Seed and dust and leaves it clean and white.

3d. The roll cannot be broken or over heated.

All gins are warranted to do as above. Cotton from this gin will sell for an advance in quality, sufficient to more than pay the cost of gin, be sure it is freed from worms, dirt and dust, has been in use extensively in the South over ten (10) years, and without much if any exception all other gins.

Send for special circulars.

COTTON PRESSES.

We are manufacturing for the year of 1867 an improved and the best Screw Press, which will meet all the wants required of them packing. It can be worked by two hands, and will press a bale of cotton in from twenty to thirty minutes, and is compact, not liable to get out of order, and the bale of cotton is square and even.

The Safety Hand Lamp,

AND

Meteor Burning Fluid.

THE new Meteor Safety Hand Lamp is the latest wonder and novelty, as well as the greatest improvement of the times. The burning qualities of the Oil are in every particular superior to anything yet used, and its illuminating power like no superior. The Lamp will not blow out nor explode, and the Oil by manufacture, the cost of the fluid is about one-half that of refined coal oil; has no greasy, smoky smell; does not corrode the burner, and will not evaporate like oil of any kind. You need not throw away your old Lamps as the Meteor Fluid will burn in a coal oil Lamp by attaching the Light House or Meteor Fluid burner.

Agents wanted for Lauderdale county, Miss., and Choctaw county, Ala., and will be glad to engage our friends in the same counties with the Meteor Burning Safety Hand Lamps.

It is bound to create a great revolution in the Lamp business, and will soon be in use throughout the country.

A company has been organized in New York to test the cotton tax. The company is now engaged in gathering the receipts for all taxes paid in this State for the purpose of reclamation," so says the Clarion.

Diligent inquiry has failed to show that any material injury has yet been done by the cottonworm in Sumter county, Alabama.

THE BODY OF MAXIMILIAN.—Confirmatory information has reached Washington of the statement that the Mexican authorities have turned over Maximilian's body to the Austrian authorities at Vera Cruz. The body was in a zinc-lined coffin, and as it had been poorly embalmed, was fast decomposing.

SOUTHERN EMIGRANTS TO BRAZIL.—The statements recently made in the Gazette by Mr. John H. Evans, of Clarke, in reference to the condition and prospects of the Brazilian Emigrants are confirmed daily by others, who are returning. Those who still remain are said to be in a most deplorable condition, suffering for the common wants of life.

It appears from the registration returns in Alabama, that thus far 112,470 voters have been registered, of these 46,607 are white, and 65,773 black, giving a black majority of 19,076. And in Louisiana, 127,639 have been registered—44,732 white and 82,907 black.

A NEW CONFISCATION SCHEME.—Among the special Washington telegraphic reports to the St. Louis Dispatch, is a statement to the effect that a bill is being prepared by prominent loyal men South to enforce the present confiscation laws, and so modify them as to re-survey all of the Southern States in the same manner as public lands are surveyed, and to grant pre-emption rights to the freedmen and Union soldiers. Three hundred million of dollars of the proceeds arising from the sale are to be used in re-imbursing loyal men for property destroyed and confiscated by the Confederate Government. The balance will be set aside for paying pensions to disabled Union soldiers. The bill provides that after the survey is made the land shall be offered for sale to freedmen and discharged Union soldiers at the rate of $1 25 per acre, payable in twenty years, at an interest of six per cent. per annum.

Other parties are to be allowed to purchase at 25 per cent cash, and equal annual installments for three years at six per cent. interest. The last section provides that disloyal persons shall be allowed to retain property to the amount of $5,000, provided the limits of such property do not exceed the legal subdivision of 160 acres.

RESIGNED.—We learn from the Raymond Gazette, that Col. Sam B. Thomas, Sheriff of Hinds county, has resigned his office. The Judge of Probate, Mr. Hall, has also resigned. Cause, inability to make a living out of the office.

We find the following notice of the death of an esteemed friend in the last Clarion:

DEATH OF ARTHUR GRIMES.—The death of this estimable gentleman occurred in this city yesterday morning at 3 o'clock, after a brief illness. Mr. G. had been a resident of this city for the past two years, acting in the capacity of Agent for the Vicksburg and Meridian Railroad Company, and by his uniform courtesy and attention, had won for himself and the company which he represented, numerous friends.

James Cann, Henry Porter, Wm. Bradley and Alexi Moon have been found guilty, by a military commission at Vicksburg, of stealing and attempting to destroy two years' imprisonment at the Dry Tortugas.

The Conover Conviction.

The documents recently given to the public, through Hon. Jno. Binkley, acting Attorney General of the United States, during the illness of Mr. Stanbery, will shock every man in the country. They reveal, if true, the disgraceful fact, that Judge Advocate General Holt, A. G. Riddle, a member of Congress from Ohio, James M. Ashley, the impeacher, Benjamin F. Butler, and others were concerned in the attempt to suborn witnesses to convict the President of complicity with Booth to Assassinate Mr. Lincoln. The proof of the plot is, should the statement prove correct, of the most convincing character. It does not alone consist of the confession of Conover, but in letters in the handwriting of Ashley, and others. The conspiracy was formed to procure the pardon by the President of Conover, and the restoration to the rights of citizenship, there by making him a competent witness before any court in the land. Ashley, Holt, Butler and Riddle certified that he was a worthy object for executive clemency.—In consideration of their services in his behalf, Dunham alias Conover, was to testify atrocious falsehoods against the President, his colleagues being supported by that of other witnesses, drilled in their part in the villainous perjury, by the conspiring congressmen. Conover was to swear as follows:

1st. That Booth was familiar and intimate with Vice President Johnson, prior to the assassination.

2d. That Vice President corresponded with Booth.

3d. That the placing of Atzerodt in the Kirkwood House, on the night of the assassination was a signal that Booth expected Johnson was an intended victim, and thus distrust all suspicions of his conniving at the murder of President Lincoln.

4th. That Booth had states to his most intimate friends in New York, that in killing Lincoln, he was acting with the knowledge of Mr. Johnson.

Conover assured Ashley that he could find persons of good standing and moral character to swear what he wished to swear, and Ashley urged him to press the good word forward. Ashley supplied the facts It was desired they should know and repeat, and Conover forwarded them to a trusty friend with secret explanations as to his own purposes, and instructions for him to procure two other friends to commit to memory the statements inclosed to to him, and when sent for to come and repeat them (but under oath) to such persons as Conover should indicate. Conover then goes on to say:

On arriving here, these persons were inspected by Ashley and Butler, and were found to possess the requisite qualifications of intelligence and personal appearance, but unfortunately for the conspirators it was deemed necessary to make some changes and modifications in some and additions to other portions of their statements before presenting them to the lukewarm Radicals it was their intention to implicate. It being impractical for the men to see me at the jail on such business, and equally so for me to communicate with them, the desired change and necessary explanations in writing to enable them to incorporate those changes in their respective statement without leading to confusion or conviction it was found necessary for somebody else to take my office of preceptor, &c. This with slight hesitation was done by Mr. Ashley on my assurance that the parties were Richard Booth in the wood and men of honor in whom he could safely repose confidence. I have learned both from Mr. Ashley and Butler themselves what was said and done by and between them on the matter. The statements they were destined to make were revised and corrected by Mr. Ashley, and they were assured by him that, in case it should be determined to examine them before the Committee, they should be splendidly rewarded, and that he would counsel to them on the propriety and justness of the course it was proposed to pursue to make certain of the impeachment of the President.

Butler desired to have taken the depositions of these men at the time, if they would not consent to its being done until I should be released, as at first agreed.—These facts can be proved by three other persons, and also by my wife, whose character for truth and veracity is not inferior to Mr. Ashley's, and I shall take pleasure, if at liberty, in producing them before any committee or tribunal for the impeachment of the conspirators.

Several other papers accompany the statement of Dunham alias Conover.—These prove private and frequent communication between the informant, Ashley and others, but throw no more additional light on the main features of the conspiracy. The statement is somewhat strengthened by the fact, that Ashley in open Congress asserted boldly that it could be proved Mr. Johnson had been the friend of Booth, had written to him, received him privately—in short, that the President had conspired at the assassination of Lincoln that he might thereby assume his position. Conover's own credibility amounts to nothing; but his confidential intercourse with the men he now turns against in committing facts, and stating in the Surratt case, exposes Holt, Ashley, Butler and others to a most grave suspicion. The dexterity with which he supplied Joe Holt with "good evidence" in the case of Mrs. Surratt, warrants the belief that he is an adept in this line of business, and may now be engaged in practicing this old and clever game. The proof which Conover offered to furnish relative to the Manchett papers of instruction to the false witnesses, will settle the truth or falsity of Conover's letter and papers, submitted to the President. At any rate it is something new in American history for a perjurer to offer to accuse, and, to be the associate of an Honorable Judge Advocate, and very Honorable Representatives in certain questionable matters of testimony.

Of the progress of the cotton worm, the Brandon Republican, of Thursday, says:

A gentleman from Simpson informs us that they are nearly all over that county. Another gentleman from Smith says they are doing great damage there. We hear no changes from various quarters reports them in almost every section of the State. We have heard of them on the plantations in this county, but as yet they have not done much damage, and if the weather continues dry and hot they will not do much, but if a rainy spell sets in the crop will be destroyed. Some say it is not the army worm, but the caterpillar, which is equally as bad.

The Red Jacket Bitters is no worthless article, but what it claims to be, a reliable medical preparation, of sterling virtues. The name "Bitters" is too often used to cover a villainous compound of poor whisky and some bitter drug. Do not confound the Red Jacket with this class.

Interesting Intelligence from Louisiana.

We print elsewhere a late order from Gen. Sheridan, from which it will be seen that there will be an election held throughout the State of Louisiana on the 27th and 28th of September, for the purpose of choosing ninety-eight delegates to a State Convention.

The Boards of Registration have been ordered to commence the revision of the registration, and the registration is to close 60 days before the election. The number of representatives in each Parish is designated. The other provisions of the order are unimportant, and confined to the usual details of a general election, except the following:

Should violence or fraud be perpetrated at any of the voting precincts on the day of election the offenders will be punished in the severest manner. And the election within these precincts will be held over again under the protection of United States troops.

So it will be seen that the great political question is soon to be settled in our sister State, and when it is done her people will become more prosperous than before. As the freedmen are largely in the ascendancy, the whites have nothing to do but vote and use their influence for good men—for men who will be willing to deal fairly and justly with all classes. Every one has more or less influence and should be particular to use it in this canvass. "There is no use kicking against the pricks."

Toomsuba Male and Female Academy.

We had the pleasure of attending the commencement exercises of this Institution, which were held at the Presbyterian church in this place, on Friday the 9th inst. The day was auspicious—the attendance large and intelligent. The exercises proved highly satisfactory to the numerous friends and acquaintances assembled, and reflected great credit (on both students and principal, (Capt. Day), and commended him to the confidence of the public as an able and accomplished teacher. The order of examination was as follows:

Forenoon exercises consisted in the examination of the English and Latin classes. After a most sumptuous repast which was prepared by the citizens, we again repaired to the church, to attend the afternoon exercises which consisted in compositions by the girls and dialogues and speeches by the boys. The exercises closed at night by examining the various classes in the higher and lower branches of mathematics.

With pleasure, we can say, the compositions and speeches, the pleasant hospitalities of the village, and the grace and beauty of the lady visitors, constituted altogether a brilliant success. Though our town is small and limited, we cannot but commend Master Willie Kelly for his "*determination*," and the two original speeches by W. D. Cameron and W. T. Welch. The subject of the former, "Public Opinion," the latter, "*The* Incentives to High Intellectual Attainments." Their sentiments were characterized by beauty, elegance and penetration. These young gentlemen indeed proved worthy of themselves.—manifesting much zeal and warmth, were highly interesting and entertaining to the audience. Both possessing superior moral and intellectual endowments, will undoubtedly be the timed conand shining mark in society. In conclusion we would say that Capt. W. Day, the accomplished scholar, social companion, patriot, and christian gentleman, stands equal to the most proficient in the discharge of his arduous duties, and he is in every respect fitted to make certain the confidence of the people, and will ever deserve their increased patronage and support. We take pleasure in commending the school to the public, as being among the best in the State, where board and tuition can be had at reasonable rates.—The next session commences 24 September next.

Respectfully,

EXAMINING COMMITTEE

August 14th, '67.

The army worm has made its appearance in Yallobusha county. It is spreading rapidly and has already made sad havoc on some farms.

The army worm has destroyed the greater portion of the cotton in Pike county; and it is thought not enough will be made to furnish seed for the next year.

In Richmond, John Morris has been sentenced to pay a fine of one thousand two hundred dollars, and to be imprisoned six months for removing whisky without paying the tax.

ALL VOLUNTEER OFFICERS TO BE MUSTERED OUT.—The President, some time since, directed the Secretary of War to issue an order mustering out of service all volunteer officers not absolutely required, and to detail in their places officers of the regular army. It is now found that a number of volunteer officers are yet in the service, receiving salaries, especially in the South. Some of these, who are kept on duty by special order from the President, but really upon the suggestion of Superintendent of Freedmen's Bureau affairs, are virtually paid by the Government, for their services are not required in the military department.

General Howard is receiving the pay of a Major General of Volunteers while acting as Superintendent of the Freedmen's Bureau. The law does not require a military officer for that position, and fixes the salary of the Superintendent at $3000.

It is understood that an order will be issued shortly, mustering out such volunteer officers as can be dispensed with, and directing that officers of the regular army be assigned to their places wherever practicable.

From the rich valley of the Sunflower, the McNutt Sentinel has the following:

The health of the neighborhood in and around McNutt, we are sorry to say is not quite healthy, there is a good deal of sickness in every family within our knowledge. If the people are not prostrate they are suffering with one disease or another. We do not recollect of seeing a real healthy looking man being near the place for many days. We hope the health of all may improve.

There is a disease among the hogs somewhat like cholera, and in no one case we count for, and more particularly the pushers. They are dying with a swelling in the throat and top of the head and ears, and in a few hours. Can't some one find a remedy for this fatal disease. Some of our planters are losing from fifty to one fifteen hundred and two, having their crops to look after with the hoe.

CALL AND TRY THEM.—Dobson, Hart & Benton are receiving a new supply of dry goods, groceries, &c. Their prices are low and the goods unexceptionable.

TOURNAMENT MEETING.—There will be a meeting of the Tournament Club to-night. Officers are to be elected, and other important business transacted. Preparations for the October "lifting" are being pushed forward vigorously.

The Circuit Court is still in session at Marion. Judge Hancock presiding, and C. A. Smith, Esq., District Attorney. The case of Willis John, an Indian, charged with murder in Clarke county, was to have been tried Monday, but up to the hour of going to press, we could not learn how it resulted.

We are in receipt of the catalogue of Rev. Albert Leon's School for boys, for the Academical year 1866–67. The institution is located at Chatawa, in Pike county, and appears to be in a very prosperous condition. The third annual session begins on the 4th of September next.

DROMGOOLE & Co.'s RED DIARRHŒA REMEDY.—Of all compounds ever offered to the public for Diarrhœa, Cholera Morbus, Cramps, and Chill Fever, this is the best; nothing equals the above Remedy. It is exceedingly pleasant, refreshing and cooling to the stomach, is not a syrup, nor is it alcoholic, contains no Kino, catechu, galls, &c., and acts like a charm upon old and young. Whenever used, it merits and receives encomiums of the highest praise. No family should be without the Red Diarrhœa Remedy.

An advertisement appears elsewhere of the Planters' Insurance Company of Memphis. The Company is in every way reliable and being a home institution is deserving of patronage. Gen. N. B. Forest is President.

SELF-RAISING FLOUR.—We call attention to the advertisement of Darey & Putnam's self raising flour, to be found among our new advertisements. We are using this flour and can recommend it to the public as a superior article. It has been examined by chemists and pronounced healthier than any flour that can be used. Read the advertisement and give it a trial. tf

MISSION FREE SCHOOL.—We are pleased to learn that this institution has opened under excellent auspices. Rev. Mr. Harris desires us to state that the school is intended more particularly to educate soldier's orphans and the children of the worthy poor. Widows and impoverished children will find their connection with the school short-lived. The proper place for these is within the walls of a House of Correction. The schools of the children attending the school will be protected in every way.

It is entirely unnecessary to state that white children only will be admitted.

WE ARE PREPARED TO DO IT.—Don't send your job work away from home. We are prepared to do it in quick time and at low rates.

Tickets for the Mississippi Agricult ural Educational and Manufacturing Aid Society, are going rapidly. The first drawings take place on the 15th inst. Read the advertisement of the Chancellor and Board of Managers. By investing a small sum you may draw a fine prize.

Maj. W. T. Edwards of the popular drug house of J. R. Wilson & Co., Louisville, Ky., is in town and ready to receive his old customers in the drug line. Here, where the Major is so well and favorably known, it is not necessary for us to recommend him.

The Columbus Democrat brings us the following items of interest:

We are glad to see that up to the present time, we have had no frost to injure the cotton fields of Lowndes county. The crop is looking very well, and is rapidly maturing. We have had some rain, and we trust that if the season continues favorable, that the crop will be a good one. The farmers generally have laid by their crops, and have nothing to do now but gather them in. Everything looks promising.

TELEGRAPHIC NEWS.

Washington.

In a speech delivered in the House of Representatives on the 15th inst., Mr. Kelley, of Pennsylvania, said that the President had directed the Secretary of War to issue orders to the military commanders in the South to suppress by military force all resistance to the reconstruction measures of Congress, as fast as such resistance should be manifested, and to report promptly all such cases of resistance. He had also directed the Secretary of War to publish the orders and reports in the newspapers friendly to the Administration. Mr. Kelley said that he was informed that the Secretary refused to obey the President's direction in this respect, and that the President had been compelled to publish the orders and reports himself.

The Secretary of War has issued an order directing that the Freedmen's Bureau shall not be removed from any State where the civil authorities refuse to recognize the rights of freedmen, but that it shall remain and perform its functions in such States, notwithstanding the proclamation of peace

GENERAL DIRECTIONS.

Stir in the water with a spoon, and beat it well; without kneading; working it as little as possible; divide the dough into tins for baking; grease the tins with butter before the dough is put in.

RECEIPTS.

HOW TO PUT THE PASTE.

For Loaf Bread.—Wet cold water or milk, a little at a time, as you have sufficient to thoroughly wet the dough; put it into a deep pan or pan that will hold twice as much as the dough will be covered to prevent it from forming a harder and thicker the loaf, and bake well. The bread does not require to be kneaded, only to be removed in about five minutes before taking the loaf into the oven.

Bread.—Make as for loaf bread, when cold, add a little butter, lard, or dripping, to shorten it; let it stand to rise, and when it will cover. These cakes are excellent for children. Make the dough as stiff as for bread, and roll out to the thickness of a quarter of an inch; cut them out with a tin cutter, and bake in a quick oven.

Pie Crust.—Rub a small piece of butter, lard, or dripping, into a pound of flour, and mix it with cold water; roll out and use.

Plain Cake.—One pound of flour, a little nutmeg. Two eggs, three pounds of flour and a pint of water.

Plum Pudding.—Two eggs, three pounds of flour and a pint of water.

Suet Dumplings.—Prepare the same as for the same as for bread.

Pie Crust.—Use less shortening than with common flour, and roll the crust very thin.

Cream Cakes.—One pound of flour, rubbed in three ounces of butter, one cup of sugar, two eggs, one cup of milk, four cups of flour. Divide the dough into two equal parts; to one add two eggs and one cup of sugar, and a spoonful of the rather cake. Flavor with lemon or nutmeg and bake in covered bread pans.

Fruit Cake.—Use less shortening than with common flour, and roll the crust very thin.

Cream Cakes.—One pound of flour, rubbed in three ounces of butter, one cup of sugar, two eggs, one cup of milk, four cups of flour. Divide the dough into two equal parts; to one add two eggs and one cup of sugar, and a spoonful of the rather cake. Flavor with lemon or nutmeg and bake in covered bread pans.

Quick Pound Cake.—One cup of powdered sugar, one cup of butter, two eggs, one cup of milk, three cups of flour, one cup of corn starch, one teaspoonful of soda, two teaspoonfuls of cream of tartar. Bake in deep moderate oven.

Silver and Silver Cake.—One cup of butter, two cups of sugar, one cup of milk, four cups of flour, three cups of corn starch, two teaspoonfuls of cream of tartar. Bake in deep moderate oven.

Quick Pound Cake.—One cup of powdered sugar, one cup of butter, two eggs, one cup of milk, three cups of flour, one cup of corn starch, one teaspoonful of soda

THE GARRETT-REED RUSH GIN.

This celebrated Cotton Gin is now being manufactured under the supervision of the Patentee, R. D. Garrett, with the most important facilities and we are now prepared to fill orders. As we offer it as the best gin now in use.

The second figure represents the Gin as it appears when in operation.

1st. It is constructed of cast iron, and by a great saving of time is much stronger than any other gin of equal number of saws.

2d. It is separate from the Cotton, all pods and dust and leaves, &c., are thrown out at the end of the roll and not through the ribbing.

All gins are tested before leaving the factory. Cotton from this gin will sell high in market. Any person desiring a machine to gin their cotton, will find it to their interest to purchase this one as it is freed from motes, dirt and trash. It has been in use several years, and has ginned from ten (10) years, and when ground and sharpened as all other gins.

Send for special circulars.

COTTON PRESSES.

We are now manufacturing the Day screw, an improvement on the old screw, which will meet all the requirements of cotton packing. It can be worked by Steam, Horse or Hand Power. Can be used one day as in packing, a mule and in the morning by steam power, and is capable of saving the same.

Meteor Burning Fluid.

THE new Meteor Safety Hand Lamp is the latest wonderful novelty, as well as the greatest invention of the times. The burning qualities of the Oil are in every particular superior to anything ever used, while its illuminating power has no superior. The Lamp will not blow out nor smoke the chimney, and will not grease a fabric of any kind. You need not throw away your old Lamps: the Meteor Fluid will burn in a coal oil Lamp by attaching the Light House or Meteor Fluid Burner.

We have the agency for Lauderdale county, Miss., and Choctaw county, Ala., and will be glad to supply Goods in those counties with the Meteor Oil and Safety Hand Lamp.

It is destined to be a great revolution in the Lamp business, and only needs a test to be appreciated.

PUBLIC SPEAKING.—Hon. James L. Alcorn, of Coahoma county, will address the citizens of Meridian and vicinity on Wednesday, the 18th of September, on the political questions now agitating the country.

The Manchester, Massachusett's Spy, looking at matters from a Radical standpoint, thinks that the President's late action in removing officers so as to bring the Executive Department more within his control, "means mischief."

SNUFFING THE BREEZE.—The New York Herald which always sees the shadow of coming events before anybody else, is preparing for another summersault. It holds the names of Grant and Lee for President and Vice-President, and closes an editorial with this significant sentence:

"The negro must, therefore, be made to understand that although he will never again be reduced to slavery, he must be content with his personal freedom, and not aspire to that political equality which cannot fail in the end to bring him more blows than honors."

The Andersonville horrors are all being traced to Judge Holt, Gen. Butler and Secretary Stanton. Col. Ould's letter to Congressman Eldridge remains uncontradicted.—Wire was hung for his "cruel treatment" and after all it is admitted by Republicans that the South was anxious to get rid of every Union soldier, but for fear the Confederates would take up the muskets again if exchanged, thirty thousand Union soldiers were permitted to languish and die in Southern prisons. Nemesis must put her hand on the heads of the perpetrators of such outrages some day.

SENSIBLE.—The last North Sumter News has an article on Clanton's Conservative Alabama Convention in which the following occurs: "It will be observed, it seems to us, most see that no advantage can possibly be gained by keeping up a show of opposition, either present or prospective, while we are prisoners in the hands of our enemies. Our business now is to get back into the Union, where we can be free once more, and if we are wise, we will indefinitely postpone the formation of parties, give the Radicals full sway for the present, and apply ourselves earnestly to the single work of reconstruction with the grace becoming a conquered and helpless people. Let us have no entangling alliances in the shape of opposition parties to clog our good intentions. Our situation is critical in the extreme, and one mis-step may entail upon our posterity infinitely worse evils than those we are now suffering. Let us be wise while we may profit by wisdom.

RATHER CANDID.—Here is a little scrap from the Springfield, (Mass.,) Republican, which rather surprises us. It is an addition we did not expect to find in such an extreme print. However 'tis trite but true that "murder will out":

Discussion of principles in connection with Southern reconstruction is *use of little account. We are now trying the experiment, outside of constitutional prescriptions and accredited theories* of government, which success alone can justify; but Congressmen very naturally seek for some theoretical defense of their action, and quite as naturally disagree widely as to what that theory shall be.

SHERIDAN REMOVED.—Gen. Grant's order for the removal of Gen. Sheridan appears in our telegraphic column. General Sheridan is assigned to the command of the department of Missouri, and is ordered to proceed to Fort Leavenworth. General Thomas succeeds Gen. Sheridan, and Gen. Hancock takes command of the department of the Cumberland. Gen. Thomas is instructed to continue in force all existing orders in the fifth district, unless the same shall be annulled or modified by orders from Gen. Grant. Gen. George H. Thomas is as Radical as Sheridan and the change in commanders will hardly produce much change in the matter of reconstruction in Louisiana and Texas. Reconstruction will go on under Thomas as begun by Sheridan; nothing will be reversed, and all our neighbors gain by the change is a more chary use of power and better tempered dispatches than General Sheridan transmitted to the President.

A SHAM DEVICE.—The Washington Chronicle prints a batch of affidavits, purporting to implicate Roger A. Pryor, Dick Taylor, Ben. Wood and Conover in an effort to manufacture testimony against Gen. Jeo. Holt, the Judge Advocate, whom Conover connects with the Ashley conspiracy. A perusal of the affidavits will indicate clearly from whence they came.

FATAL SHOOTING.—At the residence of T. J. Hill three miles southwest of this place on Wednesday of last week Jim Jackson, (freedman) was fatally shot with a pistol in the hands of Al Bush, (another freedman,) and died on Friday following. Al says the shooting was accidental; but some persons appear to have doubts about it being an accident.—Ripley Advertiser.

Another General for Reconstruction.

Gen. W. S. Featherston, a distinguished soldier during the late war, has been elected by his fellow soldiers in the old county and particularly his late companions in arms, on the reconstruction question. He urged all qualified voters to *register, and vote for a Convention;* that the South need never expect better terms than were presented in the Reconstruction acts; that they were offensive and bitter enough; but that the Southerners were a conquered people, and would be forced to submit to such terms as the conquerors might prescribe; that if the terms now offered were rejected, harsher terms would be presented, with no alternative left the South but to submit to them. The General did not favor the reception of these terms because he thought they were Constitutional and right; but there was no other relief. Johnson's policy of reconstruction had been defeated, and he believed it was the duty of our people, under the circumstances, to accept the terms now proposed. Nor do we urge reconstruction under the law because we think the enactments right or just—far from it—but because there is no way of avoiding reconstruction upon radical terms, and because we see very clearly that unless we participate in the work the freedmen and extremists will vote us in the Union, out of office and out of the ballot box. Since we must go in let us go with all the strength we can muster—make a manly fight for power in the land where we are bound to live, and which will contain our bones when we are gone.

VISITING MR. DAVIS.—A correspondent of the St. Louis Democrat, an extremely radical paper, has had an interview with Mr. Davis, in Canada. Mr. Davis talked very freely for two or three hours, and the correspondent makes use of "much that was said during the visit, but as yet every very short when the reconstruction question came up, Mr. Davis answering, "we have nothing to do with it." Mr. Davis said that he was always anxious "to be relieved of the prisoners on his hands during the war. He stated his ports were blockaded; that he was without supplies or the means of obtaining them even for his own soldiers; and, finding himself in that strait, he proposed to deliver, with or without exchange, all sick, wounded and disabled soldiers held by him, but there was one man North who prevented it, whose name Mr. Davis would not permit to go to the public, occupying the position he now does. Mr. Davis said that he believed President Johnson was doing what he thought best for the South, but it had resulted badly." The correspondent represents the Ex-President of the Confederacy as waiting to be reconstructed and return to his old Mississippi home. He ignored any connection of Southern men, with either the proposed abduction or assassination of Mr. Lincoln. He said he would have been gratified if the evidence of Gen. Ed. Lee had been taken in full, and the dispatches to him while in Canada made public, as it would have shown plainly that Surratt's mission had nothing to do with the assassination. The cotton culture on the alluvial lands of the South he regards as a thing of the away with, and expresses himself that the great staple of these lands, on account of defective leveeage, will revert into forests. In addition, he stated that in a few years there would be no excess of cotton raised; that the supply would be mainly for family use, (none for export,) as the case is now, and in Florida and Texas. Of Mr. Davis the Democrat's correspondent says:

I will state that no utterance was given to any expression disrespectful to United States officials. Differing from him in principles with Mr. Davis, I did not hear him utter an unkind word against any one, especially Mr. Johnson, and must admit that I was more charmed with his conversation than that of any prominent man whom it has been my fortune to meet.

A PLEASANT EXPRESSION.—The New Orleans Bee having complained of a recent paper in Littell's Living Age, taken from a foreign magazine, receives this friendly and moderate response:

"No thought of 'taunting the South' was in our mind in copying 'A Dull Life.'—Hereafter we shall not care to be on our guard with you: this would be to pay compliment to you. We take your hand again without any reserve, and we invite you to banish, as soon as possible, all suspicion that there is contempt or enmity towards you in the North. It is a universal wish here that the two kindred props shall mingle into one. So far as Yankeedom is concerned, since the Confederate capitulation, it has been by men on both sides the line, who wished to keep you, as of old, a main bulwark for the institutions which you are so important a part, and of which you are to be a much greater protection. Capital and labor from the full hive of the North will help you to make rich harvests at the South—as soon as you shall be ready to reciprocate our brotherly feeling."

ORDER RESCINDED.—The removal of Gen. Sheridan from the command of the Fifth Military District, transmitted to him by the Acting Secretary of War, Gen. Grant, leaves no doubt that the Military power retained by the highest military officer of the land, has determined that order and peace will at last prevail.

The fact that the acts of Gen. Sheridan had been made the occasion of a most indecorous theme of parade, by the House of Representatives, gives still more significance to the act, and the prompt response Gen. Grant removes all doubt as to the soundness of his own views.

Reconstruction under such auspices, has now become simply a question of time, and will soon settle our national difficulties.

Gen. Thomas, who is to succeed Gen. Sheridan, had once been spoken of for this District previous to Gen. Pope's appointment, and this led to inquiries respecting him, which resulted very favorably for our hopes.

Unlike several others, he is a professional soldier, having no political aspirations, and the people of Louisiana and Texas will find in him, we are certain, a just and intelligent commander.

The importance of the passing events in every day engaging more deeply the attention of the nation, and we look forward with hope for the result of the examination of the President ordering a general election, on the broad principles of universal suffrage and general amnesty.—Mobile Times.

ORDER.—We have been informed recently by several planters in this vicinity that the boll-worms have appeared and commenced its ravages upon the cotton.—Choctaw (Ala.) Herald.

Rekindling Our Apathy.

We find the following article in the St. Louis Republican, the most influential conservative journal in Missouri. It is worthy of careful reading. It puts upon the Republican talcen on the reconstruction question, is about the same as that maintained all along by the Gazette. Arbitrary power has made reconstruction under the present law inevitable; and there is nothing to do but participate in it, and thus retain some power, or stand aloof and let the negroes carry everything. Here is the Republican's article:

The position of the Conservative party of the North, in which we include the Democracy and all other opponents of the policy and measures of the Radicals, is well known. It is that of a party out of power. It is engaged in the minority in Congress that it can defeat no obnoxious measures. It is engaged in a warfare against the party in power under the greatest disadvantages. The South, in the face of the augmenting power of the Republican party in the North, abandoned the Democratic party of the North in 1860. It literally threw away its vote on a candidate who could not be elected.

By this coup Mr. Lincoln was elected, although he was in a minority of nearly one million votes. The war ensued upon the attempted secession of the South, and by means of multiplied influences, which we will not recount here, the Republican party rapidly consolidated its power, carried the elections year by year, and at the close of the war was overwhelmingly in the ascendant. Since the war the Conservative party has labored diligently for the healing of the old wounds, for a perfect restoration of the Union, and for fraternal harmony and peace. It has steadily resisted Radicalism by all legitimate means. It has fought it in Congress, on the stump and in the press. And this brings us to the most pertinent inquiry—"What are the Conservatives about?" This is the real question.—What are they doing in the present crisis? What have they done? They had a fiscal issue presented to them—the reconstruction of the States under the Military bills. By their diabolic ingenuity and the exercise of arbitrary power, the Radicals have made reconstruction under those bills inevitable. There is no escape from it. If the main body of the whites did not take hold of the matter it was plain that the States would be governed by whites and blacks would, and the States would be reconstructed with absolute certainty. It was a matter of prime interest to the Conservatives in those States. Thousands of them have refused to register.

Leading Southern journals and leading public men have counseled the people not to register. They have been of the States surrendered matters absolutely to the blacks. They and they only could have prevented this. Northern Conservatives could do nothing to help them through the ballot box. Their influence could be entertained that Southern Conservatives would gain anything by refusing to acquiesce in the military bills.—There was no hope to be reposed in an expected revolution of parties in the North. Before such a revolution could take place the negro vote would be consolidated. The South would be over, registration complete, Conventions called, Constitutions framed, elections for Congress held, and the work finished.

No change of parties in the North could effect any repeal of legislation in season to be of any advantage to the South. The Senate remains unchanged for the next four years. The only alternative presented to Southern Conservatives was to enter the field, and by every possible agency gain control of affairs, or surrender the ground to the negroes. Their first business was to register. The closed the field for a thorough political campaign, and display an energy and activity as great as their opponents, animated by the instinct of self-preservation. Their prime duty was to register and prepare to vote, and thus control the Conventions, frame the Constitutions, and organize the movement under the guidance of intelligence and experience, instead of under ignorance and barbarism. It is puerile, under such a state of circumstances to ask, "What are Northern Conservatives About?"

The question is, what are Southern Conservatives going to do about it? Have they organized? Have they registered? Have they clubs? Have they leagues? Have they printed and circulated documents? Have they done what they could to enlighten, influence and control the negroes? Have they imitated the Radicals in diligence, energy and activity? Or have they sullenly stood aloof, waiting, Micawber-like, for "something to turn up," while the tide of events has rolled on, and the elements of political power have been gradually gliding into the hands of the negroes and a few Radical adventurers? There is nothing in the world that Northern Conservatives could do to aid those in the South, if they will not first help themselves. When a people are utterly indifferent to their own interests, conservatives can do nothing for them.

A FREEDMAN KILLED.—On Wednesday morning last, about 9 o'clock, while Abb. Burnett, a freedman, and his wife were in their corn field gathering fodder, some person shot and killed the husband, as he stooped up to the fence and deliberately shot Abb. down. His wife says that in looking in the direction of the fence she saw and recognized Mr. John Holmes, and that she also saw the leg of another man through the crack of the fence. Mr. Holmes is now under arrest and the investigation of his case going on.—Choctaw Herald.

President Solnave, of Hayti, has submitted his report on the condition of the country to the constituent assembly.—Peace and order reigned everywhere except in one district, where brigands are in force. The Government has taken measures to establish an exchange and chamber of commerce in each open port in the republic. The enforcing will probably be the largest ever known in Hayti.

A Cincinnati dispatch says of the affray between Horace Maynard and Col. Williams, at Knoxville on Monday: "Maynard, in a speech, referred to Col. Williams' defeated political opponent, because he formerly held him good day. The people plastered with mud, and pelted, and as the said Williams tried to run a pistol, but the ball-worm has appeared and commenced its ravages upon the cotton.—Choctaw (Ala.) Herald.

CIRCULAR No. 15.

Supervisors, Inspectors and Boards of Registration are directed to obey the names of suitable persons, white or colored, to act under the appointment of the Commanding General, as Judges of Elections of elections to be held for delegates to the Convention provided by the recent Acts of Congress, known as the Reconstruction Acts. If competent persons can be found, one judge and one clerk will be appointed for each election precinct. Their services will be required for only a few days, and probably between the 20th and 30th of September. Their pay will be six (6) dollars per diem for each day on which the election is held, and they will be reimbursed for actual expense of transportation from their homes to the places of election and return.

Only such persons as can take the oath required of Registrars will be recommended for appointment. Supervisors and Inspectors are charged with the prompt execution of this Circular, and reports from Boards of Registration to the Supervising Inspectors of their respective districts, who will, from them, make reports to these Headquarters.

Self-Raising Flour.—We call attention to the advertisement of Darcy & Putnam's self raising flour.to be found among our new advertisements. We are using this flour, and can recommend it to the public as a superior article. It has been examined by chemists and pronounced *healthier* than any flour that can be used. Read the advertisement and give it a trial. tf

Dromgoole & Co.'s Red Diarrœa Remedy.—Of all compounds ever offered to the public for Diarrhœa, Cholera Morbus Cramps, and Bowel complaints of children, nothing equals the above Remedy. It is exceedingly pleasant, refreshing and cooling to the stomach. Is not a syrup, nor is it alcoholic. contains no kino, catechu. galls, &c.,and acts like a charm upon old and young. Whenever used, it merits and receives encomiums of the highest praise.—No family should be without the Red Di arrhœa Remedy.

Prescriptions Filled at All Hours.—Our friend Chadwick,the old and reliable Front street druggist, is now moving over his store, and will attend to filling prescriptions at all hours—day and night—Chadwick's medicines are fresh, and an experience of twenty years in the business, is a sure guarantee that they will be properly compounded. tf

The attention of our readers are directed to the advertisement of our friends, Messrs. James Ruddle & Co. of Louisville, Ky., which may be found in another column of our paper. All those afflicted by disease, or who have friends suffering from sickness, should carefully read, and we know they will derive profit from it.—It gives us much pleasure to be able in this manner to recommend to our people these gentlemen, and the medicines of which they are Proprietors, as we know they claim no more for their remedies than long years of trial has fully shown is really deserved.

The reputation of Dr. Thos. A. Hurley's Bitters, Worm Candy, Sarsaparilla, and Ague Tonic is world wide, having been used through the whole of this country for many years past, and never having failed to uniformly give satisfaction. The proprietors never yet have received any complaints about them, hence their confidence in recommending them to the public as an never failing remedy. Ask for it of the "Hurley Bitters," "Hurley's Worm Candy," Dr. Scudder's Indian Vegetable Ague Tonic, Dr. Bettison's English Horse Liniment, both of which are unequalled. These gentlemen are also the manufacturers of Seaton's Chemical Writing Fluid and Carmine Ink which are so well known and extensively used in this and the Southwest, for school, bank, and office uses requiring the best English Inks now used. We cannot understand why these remedies might not as well be taken to the special diseases for which they are recommended with as much confidence as the prescription of a regular physician. tf

Mississippi News.

We learn from the Corinth News that a Convention of Railroad officials will be held in Corinth last week. The News says:

"We learn that the Directors of the M. & C. Railroad; also, M. J. Fleming, Superintendent of the M. & O. Railroad, and Col. Jno. Bowie, President of the Jackson and Mobile Railroad, will meet in this place on the 1st inst., for the purpose of consulting on some plan of action in regard to the completion of the Memphis and Charleston Railroad. We hope to see a full attendance, as the business to be transacted is of vital importance to the interests of this section."

A letter from the same says:

"Mississippi is overflowing with enterprise. The people are determined to have railroads, and they will have them. Every county is interested in the matter, and every county is going to do something. Tishomingo is going to do her part. Corinth is going to do her part. Rienzi is going to do her part. Jacinto is going to do her part. Iuka is going to do her part. DARCY & PUTNAM'S

SELF-RAISING FLOUR

FOR

Bread, Biscuit, Puddings, Cakes, Pastry, &c., without using Yeast-Powders, or Soda.

TIME AND LABOR SAVING AND HEALTH GIVING.

GENERAL DIRECTIONS.

Stir in the water with a spoon and beat at once without kneading or waiting for the dough to rise; the oven, therefore, should be in good baking order before beginning to mix—MIND THIS.

Milk is superior to water for all pastry puddings.

For Cakes, Pastry, &c., the SELF-RAISING FLOUR should be the last article mixed. Add to suit the taste.

RECEIPTS.

SALT TO SUIT THE TASTE

Tea Biscuit.—Use cold water or milk and mix with a spoon just sufficient to thoroughly wet the dough; cut it into a deep pan not more than half full, and bake quick. The pan should be covered to prevent the formation of a hard crust before the loaf has risen sufficiently. If the bread does not brown on the top, remove the cover a few minutes before taking the loaf from the oven.

Bread Pans.—Are found to bake best when seven inches deep, but inches deep, and four inches wide at the bottom, flaring and first with corners. These pans are excellent for cakes.

Pan Biscuit.—Make the dough as soft as can be handled, using cold water, with half the usual amount of shortening; cold sweet milk without shortening. Bake at once in a well heated oven, and they will be light, white and tender.

Pan Loaf Bread.—Same as biscuit, except that the dough should be a little softer, use less shortening.

Fog Wheat Muffins.—Three eggs, one quart of milk or water, three pints of flour, one table spoonful of lard, salt to suit the taste. Bake in deep muffin rings.

Fog Pan Cakes.—Use plenty of shortening, two eggs, three pints of flour and one pint of water.

Fog Tea Rusk Dumplings.—Prepare the dough in every respect the same as for biscuit, use a little melted sugar and butter for same.

Pan Cakes and Farina.—Will need no eggs. Butter and Griddle Cakes, etc., are very superior made from Self-Raising Flour.

The quicker you handle this flour the better. Never let it stand to rise. See that the oven is not before you touch the flour. The softer the dough the better. Do not knead it.

Try it in every style to suit the trade.

Ask your Grocer for a six pound package. You will use no other—every package warranted.

THE CULLETT STEEL REPUBLIC GIN.

This celebrated COTTON GIN, is again a manufactured under the supervision of the Patentee, R. D. Culbert, who has purchased the right, and we, as agents for the South-west, now offer it as the best gin made.

In advantages we claim:

1st. The quantity of cotton ginned in a given time is much greater than by any other gin of equal number of saws.

2d. It separates from the Cotton all motes and dust and leaves it clean.

3d. The roll cannot be broken by over feeding.

All gins are warranted to do as represented, Cotton from the seed in the best manner, and if not, upon notice to the Agent they will be taken back and the money refunded. This gin has been in use extensively in the South-west, ten (10) years and wherever used it gives entire satisfaction.

Send for special circulars.

COTTON PRESSES.

We are manufacturing for the crop of 1867 an improved screw on the Pneumatic principle, warranted all the qualities of other machines. It can be moved by hand, horse or mule power, can be set up in a building; is equal to the erection of gin house or building; a equal bale of cotton in the same time.

The Safety Hand Lamp,

AND

Meteor Burning Fluid.

THE new Meteor Safety Hand Lamp is the latest wonder and novelty, as well as the greatest invention of the times. The burning qualities of the Oil are in every particular superior to anything yet used, while its illuminating power has no superior. The Lamp will not blow out nor explode, and the Oil is unchangeable. The cost of the fluid is about one-half that of refined coal oil; has no grease, smoke smell; does not smoke the chimney, and will not grease a fabric of any kind. You need not throw away your old Lamps; the Meteor Fluid will burn in a coal oil Lamp by attaching the Light House or Meteor Fluid burner.

We have the agency for Lauderdale county, Miss., and Choctaw county, Ala., and will be glad to supply our friends in those counties with the Meteor Oil and Safety Hand Lamp.

It is found to create a great revolution in the Lamp business, and only needs a test to be appreciated.

☞ PUBLIC SPEAKING.—Hon. James L. Alcorn of Coahoma county, will address the citizens of Meridian and vicinity on Wednesday, the 18th of September, on the political questions now agitating the country.

THE CROPS.—The Pleasure of Aug. 23d says that an intelligent merchant of that city, who had just returned from a general tour through Northern and Central Mississippi and Alabama, reports the crops every where excellent. He heard no talk of a present worm until he got back as far as about Hazlehurst. Even there and in Pike county, it was not the worm they had, but the worm they feared, that he heard of. The cotton crop was every where abundant, beyond anything in the past, and the merchants and dealers were exultant and hopeful. A half crop of cotton is already in the boll, even should the worm be suddenly developed in all his army destructiveness.

We have no doubt ourselves of a full upland crop of cotton. In most of the alluvial region, the crop has already been eaten up.

THE YELLOW FEVER has been raging with great fatality on the Texas and Louisiana coast. It has somewhat abated at Indianola, Lavaca, and Victoria, but still rages at New Iberia, Corpus Christi and Galveston. It is considered epidemic in New Orleans, but no cases as yet, have appeared in Mobile or Vicksburg.

Gen. Sickles will probably loose his hotel very soon, if Washington institutions are to be relied upon. It is known that he recently refused to allow an order of the United States Court of North Carolina to be executed, taking the ground that if the Federal Courts are permitted to enforce their decisions in his district, they may very soon declare the Reconstruction acts unconstitutional and void. President Johnson annulled Sickles' order and the United States Marshal Goodlee, acting under orders from Washington City, ordered Deputy United States Marshal Neff, of Wilmington, to execute the process of the Circuit Court of the United States, with instructions to forward the name of any officer interfering in the execution of the order, that he may be prosecuted under the criminal law of the United States. A Col. Frank, at Wilmington, acting under Sickles' order, refused to respect either the President's instructions, or Chief Justice Chase's civil orders, and now it is thought Sickles and Frank will soon be assigned to duty somewhere on the plains.

A "FREE" PRESS.—A party of United States Soldiers, accompanied by a Captain Pierce, recently mobbed and utterly destroyed the office of the Constitutional Eagle, at Camden, Arkansas. The commanding officer, in reply to a note from the Mayor of Camden, asking to what authority he was now submitted, gave as the reason for the outrage, "that the soldiers had been exasperated at the editorials of the paper."

A negro man was shot and killed the other day near Corinth, while attempting to escape from an officer who was conducting him to jail. The officer submits himself to the authorities and invites investigation.

Prof. Hamilton, of the Freedmen's school at Corinth, eloped with a yellow girl last week Having forged a number of drafts on the Sub-Treasury of the United States, a telegram was sent in search of him, and the loving pair overhauled at Jackson, Tennessee. He is now in Corinth under military guard.

BOOTH AGAIN.—Some letter-writers are determined not to let Wilkes Booth rest. Every few months a letter appears in print that Booth has been seen and is still alive. The paper was recently published from Indis, declaring that he still lives, and now the New Orleans correspondent of the New York Gazette reiterates the same thing. The New Orleans letter says it can be proved that it was not Booth's body that was taken to Washington, but the mangled corpse of a person resembling Booth, who had been brutally murdered and substituted for Booth;" that "Gen. L. C. Baker and his associates wilfully and maliciously conspired to swindle the United States Treasury out of one hundred thousand dollars."

DEATH OF GEN. WM. B. CAMPBELL.—General Wm. B. Campbell, of Tennessee, died at his residence near Lebanon in that State on the 16th, of heart disease. In the three first years of the war he was leading and as much was elected Governor of the State. In the Mexican war he was a Brigadier General, and was considered one of the bravest men in the army. At the beginning of the late war he took a position at the head of the Union.

Gen. Pope and His Policy.

The efforts of Maj. Gen. John Pope to force reconstruction on Alabama and Georgia, regardless of the people's idea of right and wrong, will, we think, injure the cause of reconstruction very materially.—We have always been a warm advocate of reconstruction because we believed it to be the best course for the Southern people to pursue, but we cannot see how such outdrops would fall were Gen. Ord to drown reason and argument and by the tender of a small amount of legal patronage, endeavor to force us to write according to his way of thinking. The people must be permitted to discuss openly and freely the great questions before them. It is in this way the sentiment of the country should be ascertained and the "ballots deposited. Stringent as are the enactments of Congress they contain no clause forcing us to vote for reconstruction; and Gen. Pope overstep the bounds of his authority in ordering that all advertisements or other official publications heretofore, or to be hereafter provided for by State or municipal laws or ordinances, be given by proper officers whose duty it is to have such publication to be made, to such newspapers and such only as have not opposed and do not oppose reconstruction under acts of Congress, nor attempt to obstruct in any manner civil officers appointed by the military authorities in this district in the discharge of the duty by reason of violence or prosecution or other penalties, as soon as the military protection is withdrawn, for the acts performed in their official capacity."

And the letter to Gen. Orgut is, to speak in mild terms, equally ill-timed, ungenerous and foreign to Pope's duty as ruler. The impression he would convey is that there is a large "rebel element" still at work in the South to deprive the freedmen of their rights and defy the authority of the United States government. We take room for a quotation:

"In my opinion no reconstruction can be satisfactory or at all reliable in its future results if these men are permitted to discuss openly, secretly or by the returns, the issues presented. After the fullest and freest discussion, Congress has done wisely in enabling them to make this fight by disfranchising the leading rebels, and making it impossible for them to vote or hold office.

"It would have been still better to enforce their permanent absence from the country. The personal influence they might bring to bear if they were candidates is thus greatly reduced, and they are forced to discuss the issues, and not to appeal to personal feeling in their favor."

Slavery, he argues, has unfitted us for self-government, and in order to have governments in the South that can be controlled and used for partisan purposes by those he represents, Gen. Pope would exile all the intelligent and honest men in the five unfortunate dependencies. The man who applauds Kelly must tolerate Hill; who talks about the cardinal principles of free government, must concede free speech to all. We do not endorse the views of Mr. Hill, but we maintain that he has a right to express them, and that he has been credit for candor and honesty, and think any attempt to suppress his speeches or exile himself would be fraught with much mischief. There is but one way to rid the South of such men as Pope, and that is by accepting the enactments presented and ratified to Providence and reason for the restoration of our lost liberties.

Gen Grant and the Republican

The Northern press has a great deal to say about Grant's political position and reticence. Professions of confidence and evidences of distrust are scattered over all the Northern papers. Conservatives sustain and extremists abuse him. The Baltimore American says, in Grant's appointment as Secretary of War a considerable effort on the part of the President to make it appear that "Grant is one of us," just as when he swung around the circle, appropriating Gen. Grant's popularity all to himself." The Albany Evening Journal calls the appointment a double bin trick to weaken Grant's influence—unmindful of the fact, we suppose, that he could have declined the nomination as Sherman did last spring. The Syracuse Journal wants an explanation; his presence in Johnson's Cabinet is not the herald of that devotion to the Constitution in his special friends make boast. The Newark Courier believes that giving the President the moral support of the General of all the armies, will tumble many "pets" from office. The New York Tribune is manifesting great anxiety in Grant's candidacy for the Presidency, and elaborately challenges "in the kindest spirit," "certain statements of fact" made by the New York Times about the General being in "full fellowship with Congress and its members. It charges him with neutralizing Gen. Sherman's order on condition of affairs in the South; with accompanying the President on an electioneering tour in the very crisis of the Presidential struggle with Congress, and of putting Mr. Stanton out of office by occupying it himself. Greeley says that the Grant men in New York were the Johnson men last year—the Philadelphia Convention politicians—and then gives the General this forcible hint:

A year or two since we bowed to the name of Andrew Johnson as the representative of self-denying loyalty, war against treason, and clamorous devotion to Radicalism. But for above these names, as high as the stars, and to us guiding stars, we see certain principles, whose life is eternal, and whose ascendancy is more important to this people than that of members. We follow them, and wherever advance our banner must lead the way. All considerations of availability, of personal reward, of pleasing this leader or that are contemptuous of desert, and means mischief.

This caveat of the trading politicians will hardly intimidate Gen. Grant or force him into a new line of policy. November 1868, is some time off yet and strange things may transpire before the ballots of the next Presidential election are printed. Gen. Grant is on the right line and should stay there even at the hazard of a transgression next year.

Mississippi News.

The Natchez Democrat of the 17th announces the death of Mr. Warren Dunham, an old and respected citizen of that city.

Mr. John Digby, an old and respected merchant of Vicksburg, died on Saturday last with a congestive chill.

THE CROPS.—The reports which reach us from the country in relation to the cotton prospect is not at all encouraging.—The reported damage from the worm varies in magnitude in different localities. It is represented by old planters that two or three different kinds are at work, and the one that is doing most damage is that known many years ago as the army worm, and which appeared entirely stopped of fields are reported entirely stopped of fields are reported entirely destroyed. This is merely nominally. Their depredations are becoming general in the district of Sea Flats, making their appearance in a few weeks since for a respectable season harvest, are beyond realization.—Gazette.

For Copiah county, the Copiahan tells us: "The worm is doing some damage but not to any alarming extent. The farmers are turning out in hands, and are generally crushing them out, destroying all before rolled up."

Gen. Buckbridge and his wife are still in Paris, guests of Mrs. Burbank of Kentucky.

The sentence was a fine of $250.

The famous bloodthirsty letter of Escobedo is pronounced a forgery.

There has been forty-one deaths from yellow fever at New Iberia.

A Boston paper thinks these are called "dogs days" because there is so much growling about the weather.

The New Orleans Picayune copies from the Galveston, Texas, Spectator, an account of the murder of Col. Wm. H. Fowler, Assistant Collector of Revenue for the county, by David B. Bonfoey, Collector of the District. "Little is known of the deed, except that Col. Fowler was shot in the back of the head while writing in his office. The murderer has been arrested. Col. Fowler is well known as the commander of a Fowler's Battery, which was stationed at Mobile during a part of the year 1862, and 63. Before the war he was editor of the Eutaw Whig, and removed to Texas during the last year. He was in his 38th year.

The subordinates in the War Department have become civil in their department since the dismissal of Stanton.

The Mobile Times advocates the building of a railroad to Point Clear and the lower shipping in the bay.

The grasshoppers were approaching Denver in swarms, and destroying all vegetation.

The Central Pacific Railroad Company has roofed ten miles of its road through the snow sheds, and they intend to cover all the worst exposures for winter travel.

Agents of the Government have been selling the Indians arms and ammunition.

The New Orleans correspondent of the New York Evening Gazette, in speaking about the "removals" in the Fifth Military District, says: Treasurer Hernandez has also been removed, and we may expect to have the handling of the city funds. If any man wishes to address the negroes in favor of the right side, he can now go so, and have his bills paid from the Treasury.

The New York Tribune calls Longstreet that "dark, stern soldier," politic as Machiavelli and as unscrupulous.

Fifteen hundred thousand persons are said to have died in the Orissa District, and other parts of India, by the famine last year. The most horrible stories of cannibalism are reported, hungry mothers having been found eating the bodies of their dead children.

Dr. Caffe of Paris, recommends the burning of the dead.

The day police of Mobile have been ordered hereafter to attend all night fires.

There are forty lady postmasters in South Carolina.

Some one is about to establish a National Bank in the city of Mexico.

Mr. Benjamin Wood died suddenly near Manhasset, Long Island, on the 19th of this case, of the heart.

A Washington special says: Gen. Grant has urged the President to dismiss every member of his Cabinet in order to create harmony between Mr. Johnson and his Secretary of War.

Several companies of colored troops have been organized in New York, with the purpose of ultimately forming a regiment to be attached to the National Guard.

A special Washington dispatch to the New York Herald states that there is little doubt that the affidavits published purporting to reveal a plot to blacken the reputation of Judge Holt, were a huge hoax.

Mr. W. H. Betts was brought to Columbus, Ga., the other day in military custody. Mr. B. says his only offence is his offering to furnish a white man's dog, at the office in West Point.

The New York Tribune pays Gen. Ord the following compliment: "We have had news from Vicksburg, to-day, that Major Gen. Ord's policy has resulted in giving the work of reconstruction solely into the hands of the loyal men, and practically excluding the negroes from the polls.

The New York Express says that the Union League clubs took no notice of Senator Wade's passage through Gotham the other day. Time was that when the politician's head was off the man would die, and it seems to be so now.

A negro was shot and killed in Memphis a few nights ago, while in the act of plundering the house of Dr. Ward.

Hon. George H. Pendleton, in a speech at Lima, Ohio, last week, declared that the Radical party would rather see the Confederate States established and recognized than to see Old Andy restored as it was before the war."

A Napoleon (Arkansas) letter says: Every one that the first of June nearly everybody had the chills and fever, and there have been more of a hospital than it can be where the patients were attended to practice of the "old doctors." Almost the entire of the people about this vicinity are in a destitute condition, and unless relief is forthcoming before the winter sets in, many will perish with hunger. The planters have lost everything, and are left without a dollar to commence anew.

MY WIFE

Comes to me dressed in silk and satin,
Comes to me dressed in furs,
Comes in the costliest of jewels,
Comes in the costliest of laces,
Comes in the costliest of feathers,
Comes in the costliest of hosiery,
Comes in the costliest of boots and shoes,
Comes in the loveliness, queenly and lady!

Swallows will flit round the desolate nest,
Flitting at first and flitting in haste,
And thereafter at my leisure,
And thereafter at my leisure,
Oh! spring of my heart—Oh! Star of my bosom!
Oh! spring of my heart—Oh! Star of my bosom!
Comes to me dressed in silk and satin,
And the loveliness and the queenly and lady!

Flying—and across the sky through the azure,
Flying—and across the sky through the azure,
Ever like the colors of some fiery opal,
Ever like the colors of some fiery opal,
Flashes, flashes, flashes and vanishes and comes,
Flashes, flashes, flashes and vanishes and comes,
Still comes—comes down to the heart of a simple,
Oh! comes—comes down to the heart of a simple,
Yet it is not dead at the heart of a simple,
Yet it is not dead at the heart of a simple,
Oh! comes to me dressed in silk and satin,
Comes to me dressed in furs,
Comes in the costliest of jewels,
Comes in the costliest of laces,
Comes in the costliest of feathers,
Comes in the costliest of hosiery,
Comes in the costliest of boots and shoes,
Comes in the loveliness, queenly and lady!

You love, dear, and now do hear, I was cried dead;
Dead, dear, and now do hear, I am endeavored,
Dead, dear, and now do hear, I am endeavored,
To active to endure and endure more love;
To active to endure and endure more love;
You cannot make me my shades will be shocked;
You cannot make me my shades will be shocked;
You will not linger when I will have died, love.
You will not linger when I will have died, love.

Come to me dear, my Life, of my sorrow,
Come to me dear, my Life, of my sorrow,
Strong, swift and fleet in the words, which I speak,
Strong, swift and fleet in the words, which I speak,
With a song at your lip and a smile at your cheek,
With a song at your lip and a smile at your cheek,
Come, for my heart is your morning journey—
Come, for my heart is your morning journey—
Come to the grave where alone should agrees thee,
Come to the grave where alone should agrees thee,
Come to the grave where alone should agrees thee,
Come to the grave where alone should agrees thee,

with teeth so arranged as to instantly clamp the body when the pressure is removed from the bale and hold it without slipping.

Great pains have been taken to secure the best quality of iron.

These Ties are so simple in their arrangement that they can be applied by any one, to bales of any size, with the same facility and expedition as rope. In strength, security and facility of application, they will compare favorably with any yet introduced.

The advantages of iron Ties are now generally recognized; but it is deemed not out of place to call the attention of those interested to the very emphatic recommendation of Chiderwriters, Steamboat Captains, and Owners and Agents of Sea Steamers and Sailing Vessels, recently published in the newspapers in New Orleans.

PRESCRIPTIONS FILLED AT ALL HOURS.—Our friend Chadwick, the old and reliable Front Street druggist, is now living over his store, and will attend to filling prescriptions at all hours—day and night.—Chadwick's medicines are fresh, and an experience of twenty years in the business is a sure guarantee that they will be properly compounded.

The attention of our readers are directed to the advertisement of our enterprising townsmen, James Ruddle & Co. of Louisville, Ky., which may be found in another column of our paper. All those afflicted by diseases of who have friends suffering from sickness, should carefully read, and we know they will derive profit from it. For it is as much a pleasure to be able in this manner to recommend to our people these gentlemen, and the medicines of which they are Proprietors, as we know they claim no more for their remedies than long years of trial has fully shown in reality deserve.

The reputation of Dr. Thos. A. Hurley's Bitters, Worm Candy, Sarsaparilla, and Ague Tonic is world wide, having been used through the whole of this country for many years past, and never having failed to give universal satisfaction. The proprietors never yet have received any complaints about them, hence their confidence in recommending them to the public as never failing to cure. As it is with the "Hurley Preparations," so also with Dr. Seabrook's Infant Soothing Syrup, and Dr. Bettison's English Horse Liniment, both of which are unequalled. These gentlemen are also the manufacturers of Seaton's Chemical Writing Fluids and Carmine Ink which are so well known and extensively used in the West and Southwest, for school, bank, and office uses equalling the best English inks now used. We cannot understand why their remedies might not as well be taken in the special diseases for which they are recommended with as much confidence as the prescription of a regular physician. tf

STATE TEACHERS ASSOCIATION.—This large and influential body of gentlemen at its recent meeting in Jackson adopted for use in the schools of the State, among others, the following books, published by John P. Morton & Co., Louisville, Kentucky:

The Goodrich Series of Readers, edited by Noble Butler. Butler's Grammar, Towne's Mathematics and Barbee's Geology.

The object of this action on the part of the Association, is to secure uniformity in the use of text books throughout the State. In order that so desirable a result may be attained, we would respectfully urge upon our teachers throughout the State, the necessity of taking early advantage of the supply of these books for their pupils. With the exception of the Geology, which is just being issued from the press, these books are already used to a large public and private school extent in Louisville, Vicksburg, Jackson, Meridian, Columbus and Aberdeen, where, of course, large supplies are kept. Schools in the vicinity of these places can get a present a supply, but as regards schools of the likes of the railroads it is difficult with us our usual prompt action to follow. We would recommend that all teachers in the State, who intend to add the schoolbooks to its work, address John P. Morton & Co., Louisville, Ky., at once, stating the number of books likely to be needed. Our supplies will be ample to meet all demands, and that prompt attention will be given to their orders, and every possible request complied with. tf

The Atlantic and Great Western Railroad.

Of all the institutions of the day, perhaps there is none of greater importance to the country than railroads. If any man who traveled much fifteen or twenty years ago, will call to mind the fatigues and toils of those days, and then compare them with the facilities of the present time, he will not find it difficult to detect improvement. On the contrary, he will find improvement has been the order of the day, and one of the leading characteristics of the age.

AN APOLOGY.

Every specimen of improvement, however, is not destined to be hailed with universal acclamation. Some people will always find fault, and there will be always those who will be ready to cry out against any improvement that may be suggested, and at the offending it. Then, too, there were few long lines of railroad. Changes of cars were frequent, even in making journeys, now considered as only a moderate length. In this day we have a dozen or more lines of 200 miles and upward; while in the instance of the Atlantic and Great Western Railway there is an example of an unbroken broad gauge track, which, with its connections, binds St. Louis to New York by a solid chain of 1,000 miles of rail. Under a recent arrangement, the trip between those points can be made with but one change of cars. Between Cincinnati and New York—900 miles—there is absolutely no change whatever for through passengers. To this advantage of freedom from change, may be added the very important one of making the long journey over a broad gauge line. It costs no more to go by this route than with the cars and thorough comfort, than it does to go by other routes. Two lightning express trains—one morning and one evening—leave Cincinnati daily, on close connections with trains from the West and Southwest. For those who have time to gratify curiosity, the line of the Pennsylvania and the wonderful mountain scenery along the Erie road, are to be viewed at little or almost no additional expense. It may be that the enterprise of the Atlantic road may in eclipsed at some time; but at present it is without either precedent or steal, and hence worthy of note.

Mr. James Coleman, watchman of the Vicksburg & Meridian Railroad, at this point, was struck by lightning and instantly killed, during the storm last Saturday. Mr. Coleman was a good, quiet, industrious citizen, and leaves a wife and several small children behind him.

A meeting of the Meridian Tournament Club will be held at the Mayor's office next Saturday at 3 o'clock P. M. At the same time a agricultural Association will be organized. All are invited to attend.

The Meridian Star Brewery, under the management of Mr. W. L. McCorkle, will be prepared to supply the public with a superior article of lager beer about the 15th of September. See advertisement.

GARDEN SEEDS.—E. F. Virgin, No. 104 Gravier st., N. O., succeeds D. Maupay, in the garden seed business. Mr. Maupay, for years stood at the head of this business in the South-west, Mr. Virgin was brought up in the establishment. What in saying is enough to introduce him to our readers.

ANOTHER RAILROAD TO MERIDIAN.—At a Railroad meeting held in Natchez, on the 7th, the project was advanced of connecting that city by rail, with the terminus of the N. E. and S. W. Railroad, at Meridian. It was claimed that such a connection would obviate the necessity of extending the latter road to New Orleans; while to Natchez, the advantages would be almost inestimable.

The strike among the mechanics and machinists, on the Mobile & Ohio Railroad, has, we hear, been satisfactorily arranged, and trains will run regularly hereafter. It is to be hoped the Company will pay their hands promptly, and avoid such interruptions in future.

Capt. E. N. Early, who has just returned from a tour through the western States, has our thanks for files of late papers.

Attention is directed to the card of the Young Ladies' High School at this place, presided over by Dr. Gould. The fall and annual session commences on Monday the 30th of September. Dr. Gould, who is well known to our people as an able instructor, will be assisted by competent teachers in the various departments.

REMOVED.—A. B. Wagner has removed to the room adjoining the barber shop on the South side of Lee's Avenue and opposite Bessie's restaurant, where he will continue the cabinet business in all its branches.

SELF-RAISING FLOUR.—We call attention to the advertisement of Darcy & Putnam's self raising flour, to be found among our new advertisements. We are using this flour and can recommend it as a superior article. It has been examined by chemists and pronounced *healthier* than any flour that can be used. Read the advertisement and give it a trial.

DROSCOODLE & Co.'s RED DIARRŒA REMEDY.—Of all compounds ever offered to the public for Diarrhœa, Cholera Morbus, Cramps, and Bowel complaints of whatever nothing equals this for efficacy. It is an exceedingly pleasant, refreshing and cooling to the stomach, is not a syrup, nor is it alcoholic, contains no kino, catechu, gallus &c., and acts like a charm upon old and young. Whenever used, it merits and receives encomiums of the highest praise. No family should be without the Red Diarrœan Remedy.

The Red Jacket Bitters is no worthless article, for which it claims to be a real

AN AFFAIR OF HONOR.

Every specimen of improvement, however, is not destined to be hailed with universal acclamation. Some people will always find fault, and there will be always those who will be ready to cry out against any improvement that may be suggested, and at the offending it. Then, too, there were few long lines of railroad. Changes of cars were frequent, even in making journeys, now considered as only a moderate length. In this day we have a dozen or more lines of 200 miles and upward; while in the instance of the Atlantic and Great Western Railway there is an example of an unbroken broad gauge track, which, with its connections, binds St. Louis to New York by a solid chain of 1,000 miles of rail. Under a recent arrangement, the trip between those points can be made with but one change of cars. Between Cincinnati and New York—900 miles—there is absolutely no change whatever for through passengers. To this advantage of freedom from change, may be added the very important one of making the long journey over a broad gauge line. It costs no more to go by this route than with the cars and thorough comfort, than it does to go by other routes. Two lightning express trains—one morning and one evening—leave Cincinnati daily, on close connections with trains from the West and Southwest. For those who have time to gratify curiosity, the line of the Pennsylvania and the wonderful mountain scenery along the Erie road, are to be viewed at little or almost no additional expense. It may be that the enterprise of the Atlantic road may in eclipsed at some time; but at present it is without either precedent or steal, and hence worthy of note.

A SCALPED LIVING MAN.

On the same train was a man called William Thompson, a native of England, who turned out to be one of the telegraph repairers reported killed. He related a great deal of news, especially the very extraordinary fact that the covering for the head which nature had so kindly endowed him with, was absent. NO EXCUSE FOR BAD BREAD

DARCY & PUTNAM'S

SELF-RAISING FLOUR

FOR

Bread, Biscuit, Puddings, Cakes, Pastry, &c., without using Yeast-Powders, or Soda,

TIME AND LABOR SAVING AND HEALTH-GIVING.

GENERAL DIRECTIONS.

Stir in the water with a spoon and beat at once without kneading or waiting for the dough to rise; the oven, therefore, should be in good baking order before beginning to mix—MIND THIS.

Milk is superior to water for all pastry purposes.

For Cakes, Pastry, &c., the SELF-RAISING FLOUR should be the last article mixed. Salt to suit the taste.

RECEIPTS.

SALT TO SUIT THE TASTE.

Tea Loaf Bread.—Use cold water or milk, and mix with a spoon just sufficient to thoroughly wet the dough; put it into a deep pan not more than half full, bake immediately. The pan should be covered to prevent the formation of a hard crust before the loaf has risen sufficiently. If the bread does not brown on the top, remove the cover a few minutes before taking the loaf from the oven.

Bread Pans.—Are found to bake best when seven inches long, four inches deep, and four inches wide at the bottom, flaring and tired with corners. Tinned pans are excellent for use.

Tea Biscuit.—Make the dough as soft as can be handled, using cold water, with half the usual amount of shortening, or cold sweet milk without shortening. Bake at once in a well heated oven, they will be light, white sweet and tender.

Tea Loaf Cake.—Same as biscuit, except that the dough should be a little stiffer, use less shortening.

Pie Crust Mixture.—Three eggs, one quart of milk or water, three pints of flour, one table spoonful of melted Lard. Bake in hot muffin rings.

Pie Paste.—Use less shortening than with common flour, and roll the crust very thin.

Sponge Cake.—One pound of Sugar, diluted in three gills of milk or water, half a pound of butter, two eggs, half a pint of milk or water and two pounds of flour.

Quick Sponge Cake.—One cup of powdered Sugar and one cup of flour, well mixed together. Break in three eggs, stir quickly and bake in a square tin immediately, in a moderate oven. Flavor with lemon or otherwise to suit the taste.

Gold and Silver Cake.—One cup of butter, two cups of sugar, one cup of milk, four cups of flour. Divide this dough into two equal parts; take four eggs and use the yolks for the gold and the whites for the Silver cake. Flavor with lemon or otherwise and bake in covered brand pans.

Dough Nuts.—One pound of Sugar, a little shortening, two eggs, three pounds of flour and one pint of water.

For Pie and Dumplings.—Prepare the dough in every respect the same as for biscuit. Use a little melted sugar and butter for sauce.

Fine Cakes and Fritters.—Will need no eggs. Butter and Griddle Cakes, etc., are very superior made from Self-Raising Flour.

The quicker you handle this flour the better. Never let it stand to rise. See that the oven is hot before you touch the flour. The softer the dough the better. Do not knead it.

Put up in every style to suit the trade.

Ask your Grocer for a six pound package, you will use no other—every package warranted.

FARMS FOR ONE DOLLAR

SUBDIVISION OF PLANTATIONS.

CHANCES FOR ALL.

The Southern Asylum Land Company, in addition to their grand scheme of City Subdivided Lots, in which Col. M. C. Galloway's valuable residence in Memphis, e stitutes the capital Prize, at Five Dollars per Ticket, now offers chances in a scheme that embraces

FARMS FOR THE MILLION.

There is not in this scheme an acre of swamp or wild land; each farm is part, or the whole of a cultivated Plantation—each tract is on or with in a few miles of a Railway, either on the

The several tracts are disposed of at the lowest cash valuation, in subdivisions of 40, 80 and 160 acres. Each subdivision constitutes a prize, and each

TICKET COSTS ONE DOLLAR

For a description of the property refer to the new Pamphlet issued by the Company. Titles are perfect, or the money will be paid to the winner of the prize.

All land in this scheme is in the State of Mississippi. The Capital Prize within three miles of Memphis, on the Mississippi and Tennessee Railroad.

The lands are adapted to the growth of grain, cotton, grapes, etc., are cheaper than Government lands, in cold latitudes, at one dollar and a quarter per acre. The average cost of these lands is seven dollars per acre.

A deduction of 10 per cent. in favor of ten or more. Tickets may be had of local Agents or through the Memphis Agency.

AMPLE ARRANGEMENTS FOR

One Thousand Students

During the Current Year.

Comparative Cost and Value of the Education Given Here and in the Ordinary Literary Colleges.

It is believed to be the first in Europe or America, chartered with Commercial, Agricultural and Mechanical Departments. Every student who gives proper attention to practical instruction, is qualified before graduating to keep any set of books; in quaintess not what the business may be, and to do a correspondence of any house. Students can attend the "Commercial Course," or to the English, French, Spanish, German, Latin or Greek Languages, or to the higher Mathematics, etc., separately. We have

Cost of full Commercial Course

Tuition.....$145
Board for three months.....90
Contingent expenses, about.....20
Total.....$255

After which the student is ready to go into business, and make $1000, $2000, or $3000, annually.

Cost of Ordinary Literary Colleges.—About $600 per annum, for four years, or $1600; clothing for four years, $200, or $800—total $2400, and four years of time expended. Our student will begin to work after three or four months, and make, say the first year, about $1200; and two years and nine months at probably $2000, or $6136 he earns in four years. Deduct $255 leaves $5882 net gain to our Students; but to the other a net expense of $2400, or $8255 our student has gained over the other. We suppose the Students in both cases to have a good English education to begin with. We deem a business education that enables the student to earn $1000, $2000, or $3000 annually, to be the best fortunes parents can give their sons. So far as known not one of the thousands of our graduates, is out of profitable employment. A word to the wise is sufficient.

IMPORTANT NOTICE.

The great popularity of the

Charter Oak Cooking Stoves

HAS led some unprincipled Manufacturers to imitate the design and name, while their imitations are inferior and badly constructed Stoves, but so nearly do some of them resemble the original in external appearance as to nearly use alike for it.

I therefore warn the public that I shall promptly prosecute every person, whether dealer or manufacturer, who shall infringe on my rights in imitating, or using the name or design of the

The Safety Hand Lamp,

AND

Meteor Burning Fluid.

THE new Meteor Safety Hand Lamp is the latest wonder and novelty, as well as the greatest invention of the kind. The burning qualities of the Oil are in every particular superior to anything yet used, while its illuminating power has no superior. The Lamp will not burn out nor explode, and the Oil is incombustible. The cost of the Burner is about one-half that of refined coal oil; has no greasy, smoky smell; does not smoke the chimney, and will not grease a shade of any kind. You need not throw away your old Lamps; the Meteor Fluid will burn in a coal oil Lamp by attaching the light House or Meteor Fluid Burner.

We have the agency for Lauderdale county, Miss., and Choctaw county, Ala., and will be glad to supply our friends in those counties with the Meteor Oil and Safety Hand Lamp.

It is bound to create a great revolution in the Lamp business, and only needs a test to be appreciated.

PUBLIC SPEAKING.—Hon. James L. Alcorn, of Coahoma county, will address the citizens of Meridian and vicinity on Wednesday, the 18th of September, on the political questions now agitating the country.

THE WORM ABROAD.—The Ashley county, Ark., Times reports that there is much complaint of the worms in that County. Some of the farmers are killing the worms while others build fires, and thus, it is said, destroy thousands of the moth.

Regular, tri-weekly communication has been opened between Shreveport and Vicksburg. From Vicksburg to Delhi the passenger is carried in coaches, making the distance in 13 hours. From Delhi to Monroe he is transported by rail, and proceeds hence without delay by easy stages to Shreveport. Fare through $30, from Monroe to Vicksburg, $12.

JUDGE HANCOCK.—We learn that Judge William M. Hancock has removed his residence from Quitman to the Bay of St. Louis, Hancock county. Judge Hancock has long been identified with this part of the State—has held the office of Circuit Judge a few years, and during that time, proved himself an efficient officer as well as a courteous gentleman.

FIRE IN ENTERPRISE.—The residence of Col. H. Harding was totally destroyed by fire on Thursday night last, 29th instant. The fire was first discovered about 10 o'clock, P. M., and owing to the scarcity of water, the fire boys were unable to use their engine to advantage, but for which they might have saved the house. Each, however, did all they could, together with the citizens, and succeeded in saving the adjoining building. The loss of Col. Harding is supposed to be between $2,000 and $3,000. No insurance.

LITERALLY BURIED ALIVE.—One of those heart rending accidents, which makes the blood run cold at the mere mention, occured in the vicinity of Paulding, Jasper county, in our State, on the 24th inst. It was nothing less than the heading of this article indicates. Mr. —— Cassidy, while recurbing the well of Mr. Henry Calhoun, and while near the bottom pulling out the loose timber, was suddenly buried six feet under the earth, by the caving in of the sides overhead. Every earthly power was used to extricate the poor man, but to no avail. Finding every means of saving life futile, the body had to be extricated by digging around it. The man who met with this sad fate, leaves a widow and several helpless orphans.

Johnson and Grant on Sheridan.

The correspondence between the President and Gen. Grant, relative to Sheridan's removal is printed elsewhere. The note from the President appears to have been an unofficial one, to elicit the General's views on the subject of Sheridan's removal. General Grant, however, seems to have regarded the note in another light, and accordingly sat down and wrote a long statement to the President, protesting against Sheridan's removal, and giving his reasons therefor. This letter is written in a very friendly way, entirely respectful and altogether without reproach, but shows very plainly that the Secretary of War *ad interim*, stands upon Stanton's platform. The President's reply is clear and full and friendly. He alludes in terms of praise to the military services of General Sheridan, especially as a cavalry officer, who deserved well of his country; but states that in the pros ut condition of the country the national interests could sustain no loss by the transfer of "Little Phil" to the Department of Missouri, and the appointment of General Thomas to the command of the Fifth military district. General Thomas, the President believes, is an officer whose services are also of a high order, and by no means inferior to those rendered by General Sheridan. He believes, moreover, that Thomas possessed the discretion, prudence, ripe judgment and impartial mind that fitted him in a higher degree than Sheridan for the command of the Fifth military district, and in making the proposed change he (the President) is only acting for the best interest of the country at large. As to the allusions made by Gen. Grant to the wishes of the American people, he (the President) asked to be informed when the question of the removal of Sheridan was submitted to the American people for an expression of their opinion. He (the President) believed that the supreme will of the American people was expressed in the American Constitution; that the Constitution should be obeyed and executed; that when acting in that spirit with some honest men other than Sheridan, Gen. Sickles has also been removed and Gen. Canby, an officer well thought of in this section placed in his stead.

Reconstruction in Section.

The people in this country have not grown in political capacity as the republic increased in wealth and acres; the grandeur of the task ahead has not been properly appreciated; men entrusted with administering the affairs of the people have not risen to the scale upon which the government reads. The times have become not the times" that are; deterioration has been going on until the bands that bound us together of old, have been snapped asunder, thus outgrowing the principles signed and bequeathed to posterity by the fathers of constitutional liberty. Our present system is traced to political weakness, which it is conceded must be repaired before we can return to the harmony and success that marked the administration of affairs in the early days of America. Already the subject of organic political changes is being brought forward for the consideration of the people, and even now, some of the writers at the North detect the spirits of great events which generally stride on before. The most vicious part of our old republican system is discovered to be the present mode of electing representatives. It divides the country into parties, produces class legislation, engenders great conflicts, and gives an unfair influence to insignificant majorities; it gives minorities no voice; awards office to partisans regardless of qualifications; gives us many corrupt officials and puts men in legislative halls who are more interested in party progress than the public weal.—An example of the workings of our present system is before us in a paper from the Galaxy, a New York Monthly. In the State of New York last year, 718,841 votes were polled, of which 366,315 were republican, and 352,526 democratic, giving a very scant republican majority. Yet in the State Senate there are but six democrats to seventeen republicans. And it is so all over the country; a few hundred votes of the balance of power-party, generally in minority, dictates the choice of the bulk of the officers within the people's gift. For instance, 35 States of the Union now have 138 republican Congressmen to 46 democrats, while the vote stood in those States 2,260,882 republicans to 1,888,238 democrats. The radicals hold New Hampshire by 1,500 voters; Pennsylvania by 8,387; Indiana by 7,101; and New York State by 6,895. The evils, it is thought, can be easily remedied, and the rights of minorities amply secured by a return to the appointment of judges, during good behavior, for life; modification of the elective franchise; a change in the manner of nominations; a reduction of elections and of officers elected, and a clause to check bribery. The country certainly needs something to force justice back to her throne—particularly in the Southern dependencies, and if the end can be attained through any of the reforms above suggested, we think the people should accept them. We want something that will give us all a voice and take us above the mire and filth of any party or secret caucus—that will give us statesmen in legislative halls, worthy of the dignity of the executive and judicial departments of the republic.

SHOCKING ASSASSINATION.—We learn through a reliable source the particulars of a horrid murder in Jasper County, in this State, as follows: Mr. Geo. Calhoun, a most estimable young gentleman of about twenty-one years of age, while midway between his father's residence and smoke-house, whence he was returning from issuing a supply of food to his employees, was shot by an unseen person with a shot gun—six buckshot having pierced his body, producing instant death! It is said that the party firing was not exceeding twenty feet from his victim when he fired the fatal shot, being shielded by the thick darkness. Suspicion rests directly upon a late employee of Mr. Calhoun, a freedman with whom Mr. Calhoun had had an imbroglio, and ordered to leave his premises. The facts elicited by the coroner's inquest were, that the body of said negro, Lewis Morgan by name, had borrowed a gun of James Clayton, freedman, with the expressed intention of killing a deer; that it was loaded with six buckshot, that Mr. Calhoun was struck by just that number; that he returned the gun to a double house in the quarter where he had killed the deer; that the wadding found near the body of Mr. Calhoun was of just such a nature as that put into the gun when he borrowed it; that the suspected party left his shoes at the house of James Clayton, owner of the gun, and that those fitted tracks made by the assassin precisely. All this, coupled with the fact of his flight, has induced all to believe that Lewis Morgan is, beyond peradventure, the assassin of Mr. Geo. Calhoun.—He has not yet been brought to justice, but it is hoped that many days will not elapse before it is done.

Letter from Clarke.

QUITMAN, August 28, '67.

The Circuit Court of this county commenced its regular session on last Monday and will continue during this, and next, week. It was understood that Judge Wm. Yerger, of Jackson, had accepted an invitation to address the people on Tuesday and many were attracted here on that day to hear the distinguished gentlemen.—Great disappointment was felt at hearing that had health prevented his attendance. It is still hoped that he may be able to come here next Monday. I found among the members attending Court Messrs. Ford and Steell, from Meridian, Hardy and Street, from Jasper, Judge Reavis, from Gainesville, Col. Chandler, from Enterprise, Hon. Roderic Seal and D. C. Glenn, from the sea coast and some others. With the local bar they made quite an array of the legal profession. An effort was made to continue all the litigated cases, but it did not meet Judge Hancock's approval and I suppose all the cases ready for trial will be disposed of. The docket had a case of the Slash vs. Cole charged with murder which will be tried next Monday. Judge Hancock presides with the dignity and ease of yesterday. Chas. A. Smith, Esq., the District Attorney, is a most efficient prosecutor and a gentleman. The absence of Capt. Shingle in the discharge of their duties is observed and the general opinion is that he is entitled to the thanks of the county for the land plunder. The worst case he prosecuted but as yet inflicted little damage.

Mississippi Dead at Chickamauga.

Miss Mary J. Green, Trustee of the Georgia Memorial Association, sends us a list of the Mississippi dead at Chickamauga, which will interest our readers.—Also a list from States unknown. Lieut. McDonald of Sweet's Vicksburg battery. We notice, is in the last named list. We extract from Miss Green's letter:

"The removal and proper interment of our gallant dead, is a subject that I have greatly at heart, and I regret exceedingly, that we have not the means to carry on our work to completion. We have appealed to several States, who are largely represented on the field of Chickamauga, asking for assistance; and the most encouraging letter we have received, has been from General Wickliffe, who pledges Mississippi to bury every one of her sons. We have had the list of Chickamauga published—2,363 in all. I enclose you the names of the Mississippians; will you do me the kindness to give them a place in your paper, and also call the attention of the public to them?

"I send also the names belonging (as do'nt know where); any information concerning them, will be thankfully received.—Each State has a lot in our cemetery here, and we trust each one will feel a pride in giving us the means to beautify her own section. Without the ladies of your town be willing to get up an entertainment of some kind, to assist us in removing the dead from Chickamauga? Our means are now expended; and we have been able to bring down only 1,000. Any assistance however small, we shall feel most gratified for."

We do not believe we can add anything to Miss Green's appeal. So laudable an undertaking should receive universal encouragement, and we appeal to our contemporaries throughout the State to endeavor to inaugurate some movement by which our Chickamauga dead can be removed to the Marietta cemetery. What say the ladies of Meridian to Miss Green's proposition? Contributions left with Mr. Jno. Armstrong, at this office, will be promptly forwarded.

Letter from Hon. W. P. Harris.

This distinguished citizen of Jackson was recently invited to discuss the political questions of the day at Raymond, but having determined to let politics alone, declined. The following letter to Mr. Harper and others:

* * * My opinion was asked by some of my fellow-citizens of this city, as to the propriety of "obeying the Reconstruction Due Law of Congress and it was given without reserve on the best conscientious judgment. The result was published by those who sought it, and remains unchanged. I advised obedience to the Law because we could not resist it by force, nor procure its repeal, nor arrest its operation by appealing to the Courts. The meaning itself being beyond our reach, the only course left to us was to exert ourselves patiently and earnestly in controlling or modifying its effects. To this end I advised that the whites should actively participate in the election and in the organization of the State Government. It seemed to me that self-preservation, the integrity of the government, and the safety of civil society here, demanded that we should endeavor to obtain as much influence for virtue and intelligence in the Convention, the Legislative body, and in the administration of the Government, as possible. It appeared to me that it was clear, even if all the whites ought not to put themselves in a position in which they could do nothing in favor of virtue and good government, and that a course of inaction would result in committing the local government to the most ignorant and depraved class of the people. I have no better reason to offer in support of the advice I gave, and if there is but one additional suggestion which I will venture to make. It is probable (from what appears in the papers) that the Convention will assemble in this city. It is my opinion (it is almost certain) that a convention will be called. We may differ about the propriety of calling a Convention, but under the law of Congress. There are some conscientious persons who believe the law not only unwise, but in conflict with the federal constitution, and that they cannot consistently vote for a convention. We may safely assume, however, that these persons see the importance of providing for the contingency of a convention, and will in spite of their opposition. We cannot differ as to what should be the composition of both bodies. It is the frame of government under which we are to live for an indefinite time. Those who deem it necessary to satisfy their scruples, or their principles, by voting against a convention, should, at the same time, unite with those of opposite opinions as to this single point, in the selection of suitable persons to act in the convention. At this juncture to divide upon party lines, or to retrain from voting is to neutralize the influence of the only class of persons in the white race intelligence and virtue, and to abstain from the State the worst form of anarchy.

Let us not give ourselves too much to the contemplation of the time when Radical domination shall cease, and constitutional government return to us; but rather turn our attention to the certain dangers that are immediately at hand. The one is contingency in the future, the other is certainty in the present. We may not be able to remove our grievances, but we may at least prevent them from becoming intolerable.

RADICAL PRESIDENTIAL PLANS.—There are a few additional facts about political movements which have come to me through one of the prominent Radicals, and which may be worthy your notice.

First—Gen. Thomas is being secretly but strongly pushed for the Radical position to the Presidency, and he is at present Mr. Greely's candidate, although he stands no chance in the Convention. He will be opposed on the ground that he comes from a slave State. Mr. Greeley chooses him for that very reason—on the same principle that he hated Jeff. Davis.

Second—At a recent conversation Senator Grimes declared that he would not be a Presidential candidate, and added, "if you want to elect Grant, don't run him, Sheridan." He is not only a general, but he is also a statesman. These were words, indeed, from a political politician.

Third—In connection with this a strong clique is backing Sheridan for the Senate. The leaders say that nothing shall prevent his nomination, which Grant will openly endorse. They claim that the radical party will split upon Grant, the Sheridan Phillips school going against him, and that Sheridan is the candidate.—Wash. Cor. N. Y. Herald.

POLITICAL.—The political contests in California is very bitter and exciting, the election drawing near. Efforts are being made to concentrate all the Union vote in San Francisco on Haight, Democrat. The Democratic party continue their opposition to Gorham, the support the general ticket, and the election is under the Congressmen and Legislators.

The Democratic convention to nominate a candidate for the Governorship of Ohio district, to fill a vacancy occasioned by the resignation of General Hayn, met yesterday. The delegates of the Ohio State Convention, and the Kentucky resolutions of 1798 were adopted as the platforms. The delegates from Hamilton are divided between Gen. Ammon, late an officer in the army, and Judge Ferguson, an anti-war civilian, and both candidates for the convention broke up in a row without nominating.

CIRCUIT COURT.—The Court on Monday morning took up the docket of Lauderdale county, and disposed of a number of cases. In the forenoon a new trial was granted in the case of Mrs. Mary Ann Dorsey vs. Aberdeen Examiner.

NO EXCUSE FOR BAD BREAD

DARCY & PUTNAM'S

SELF-RAISING FLOUR

FOR

Bread, Biscuit, Puddings, Cakes, Pastry, &c., without using Yeast-Powders, or Soda.

TIME AND LABOR SAVING AND HEALTH GIVING.

GENERAL DIRECTIONS.

Stir in the water with a spoon and beat at once without kneading or waiting for the dough to rise; the oven, therefore, should be in good baking order before beginning to mix—MIND THIS.

Milk is superior to water for all pastry purposes.

For Cakes, Pastry, &c., the SELF-RAISING FLOUR should be the last article mixed. Sift to suit the taste.

RECEIPTS.

SALT TO SUIT THE TASTE.

For Light Bread.—Use cold water or milk, and only with a spoon just sufficient to thoroughly wet the dough; put it into a deep pan not more than half full; bake immediately. The pan should be covered to prevent the formation of a hard crust before the tins has risen sufficiently. If the bread does not brown on the top, remove the cover a few minutes before taking the loaves from the oven.

Bread Pans.—are found to bake best when seven inches long, four inches deep, and four inches wide at the bottom, flaring, and fitted with covers. These pans are excellent for cake.

For Biscuit.—Make the dough as soft as can be handled, using cold water, with half the usual amount of shortening, or cold sweet milk without shortening. Bake in oven in a well heated oven, they will be light, white sweet and tender.

For Light Rolls.—Serve as biscuit, except that the dough should be a little stiffer, use less shortening.

For Wheat Muffins.—Three eggs, one quart of milk or water, three cups of flour, one table spoonful of melted lard. Bake in deep Muffin pans.

For Pies.—Use less shortening than with common flour, and roll the crust very thin.

Sponge Cake.—One pound of sugar, diluted in three gills of milk or water, half a pound of butter, two eggs, half a pint of milk or water and two pounds of flour.

Quick Sponge Cake.—One cup of powdered sugar and one cup of flour, well mixed together. Break in three eggs, stir quickly and bake in a square tin immediately, in a moderate oven. Flavor with lemon or otherwise to suit the taste.

Gold and Silver Cake.—One cup of butter, two cups of sugar, one cup of milk, four cups of flour. Divide this dough into two equal parts; to one four eggs and use the yolks for the gold and the whites for the Silver cake. Flavor with lemon or otherwise and bake in covered broad pans.

Delicate Nuts.—One pound of Sugar, a little shortening, two eggs, three pounds of flour and one pint of water.

For Pie and Dumplings.—Prepare the dough in every respect the same as for biscuit. Use a little melted sugar and butter for sauce.

Pan Cakes and Fritters.—Will need no eggs. Potter and Griddle Cakes, etc., are very superior made from Self-Raising Flour.

The quicker you handle this flour the better. Never let it stand to rise. See that the oven is hot before you touch the flour. The softer the dough the better. Do not knead it.

Put up in every style to suit the trade.

Ask your Grocer for a six pound package, you will use no other—every package warranted.

FARMS FOR ONE DOLLAR

SUBDIVISION OF PLANTATIONS.

CHANCES FOR ALL.

The Southern Asylum Land Company, in addition to their grand scheme of City Residences in and near the City of Memphis, Tenn., have now offered for sale, at Five Dollars per Acre, their splendid new cotton plantations, which now offer chances in a scheme that embraces

FARMS FOR THE MILLION.

There is not in this scheme an acre of swamp or wild land; each farm is part, or the whole of a cultivated Plantation—each tract is on or within a few miles of a Railroad, either of the Memphis & Charleston,

Mississippi Central,

Mobile & Ohio,

Meridian & Vicksburg, or

Mississippi & Tennessee R. R.

The several tracts are disposed of at the lowest cash valuation, in subdivisions of 40, 80 and 160 acres. Each subdivision constitutes a prize, and each

TICKET COSTS ONE DOLLAR.

For a description of the property refer to the new Pamphlet issued by the Company. Titles are perfect, or the money will be paid to the winner of the prize.

All land in this scheme is in the State of Mississippi. The Capital Prize within fifteen miles of Memphis, on the Mississippi and Tennessee Railroad.

The lands are adapted to the growth of grain, cotton, grapes, etc., are cheaper than Government lands, in cold latitudes, stages fair and a quarter per acre. The average cost of these lands is seven dollars per acre.

A deduction of 10 per cent. in favor of ten or more. Tick ts may be had of local Agents or through the Memphis Agency.

Total.....$255

After which the student is ready to go into business, and make $1000, $2500, or $3000, annually.

Cost of Ordinary Literary Colleges.—About $400 per annum, for four years, or $1600; costing for four years, $600, or $800—total $2400, and four years of time expended. Our student will begin to work after three or four months, and make, say the first year, about $1200, and two years and nine months at probably $1500, or $5050 in cash in four years. Deduct $255 leaves $3852 net gain to our Students; but to the other a net expense of $2400; or $8295 our student has gained over the other! We suppose the Students in both cases to have a good English education to begin with. We deem a business education thus enables the student to earn $1000, $2000, or $3000 annually, to be the best fortunes parents can give their sons. So far as known, not one of the thousands of our graduates is out of profitable employment. A word to the wise is sufficient.

THE NEWEST STREET MOWER ON EARTH.

This celebrated COTTON GIN, is now in possession of the undersigned, and is now in operation at the Factory, in Meridian, Miss., where purchasers can see it, and we, or some of our agents, now exhibiting it on the road.

We have sold over 1,000 of these Gins, and have not had a dissatisfied customer. Those who have purchased of us, have purchased of us before, and we have sold more Gins in Mississippi than all other manufacturers combined.

We have the best facilities for manufacturing, and will sell as low as any other first class Gin. We warrant our Gins to be made of the best material, and in the most workmanlike manner, and to do as much work, with less power, than any other Gin made.

We will sell county rights, and will make liberal terms with agents. Persons wishing to purchase Gins, or county rights, will please call on us, or address us by letter.

Gins will be delivered at depots on the Railroads, or at Meridian, as may be desired.

Send for special circulars.

COTTON PRESSES.

We are now manufacturing for the coming season, a superior article of Cotton Press, and will guarantee them to be equal to any in the market. Persons wishing to purchase Presses, will please call on us, or address us by letter. We will sell on as reasonable terms as any other first class Press in the market.

LOUISVILLE, KY.

ARE PREPARED to furnish Planters and Merchants with the best Brands of Kentucky and Virginia Leaf Tobacco, at prices merely nominal. The enormous Government Tax on MANUFACTURED TOBACCO, has caused so much adulteration, that it is almost impossible to get a pure article. The undersigned are EXPERIENCED TOBACCONISTS, and will, upon receipt of your orders, ship to any address at the following prices: BEST CHEWING, 40 to 50 cents per pound, BEST SMOKING 35 to 40 cents per pound, neatly put up in boxes from 25 to 50 lbs. each, and guaranteed to be a fair rented of the best quality—superior to any manufactured in the market.

The Safety Hand Lamp,

AND

Meteor Burning Fluid.

THE new Meteor Safety Hand Lamp is the latest wonder and novelty, as well as the greatest invention of the times. The burning qualities of the Oil are in every particular superior to anything yet used, while its illuminating power has no superior. The Lamp will not blow out nor explode, and the Oil is inexhaustible. The cost of the Oil is about one-half that of refined coal oil; has no grease, smoky smell; does not smoke the chimney, and will not smear a fabric of any kind. You need not throw away your old Lamps; the Meteor Fluid will burn in a coal oil Lamp by attaching the Light House or Meteor Fluid Burner.

We have the agency for Lauderdale county, Miss., and Choctaw county, Ala., and will be glad to supply our friends in those counties with the Meteor Oil and Safety Hand Lamp.

It is bound to create a great revolution in the Lamp business, and only needs a test to be appreciated.

OUR POLICY.—The San Antonia, Texas Herald, of a late date, argues, that "we firmly believe that the quickest way of killing off the Radical party and its Radical Congress, is to let them have full sway—to interpose no other opposition to them. Any opposition that the South can offer will only protract our sufferings and need probably end in further disfranchisement and possibly confiscation. If the Conservatives withdraw all opposition to Radicalism, a split is sure to take place in its ranks that will much more speedily weaken and destroy it than anything the Conservatives could do by their efforts, which efforts, indeed, we know would only tend to prolong our distresses by keeping our oppressors united and triumphant."—This is the position for which we have been battling with the balance of the press of our exchanges; and we are of course glad to see the same ground taken, from its own information and judgment, by such able prints as the Herald.

A circular from headquarters at Vicksburg shows that six cases have been disposed of recently by the Military Commission sitting in that city. Sam Ligon and Jeff. Wood (colored) for horse stealing in Monroe county, go to the Arkansas penitentiary for three years. Victor Dumont and Adelbert Boehler for horse stealing in Amite county, and Thos. A. Wright and Wm. Johnson (colored) for the same offence, in Carroll county, go the Arkansas penitentiary for a period of three years. In the case of W. T. Moore, of Rankin county, for stealing mules, the commanding General disapproved the findings of the Court, the testimony being of a nature to admit of a serious doubt of the prisoner's guilt. He is discharged. For disorderly conduct in Newton county, Frank Ewing is sent to Dry Tortugas for ninety days. Sending a man to Fort Jefferson for disorderly conduct is something new.

The President has ordered the "Bureau of Rebel Archives" of which Dr. Francis Lieber was chief, to be closed. This Bureau was organized by Secretary Stanton, and contains all the captured records of the civil and military administration of the confederacy.

A FRANK MOVEMENT.—On the 31st ult. Gen. Grant ordered that "Commanders of the military districts created under the act of March 2, 1867, will make no appointments to civil office of persons who have been removed by themselves or their predecessors in command." This order astounds the compromisers, and Mr. Johnson who on one occasion for this assertion of authority. The withdrawal of Grant's letter arguing the case was taken as an abandonment of the contest. But this move indicates that the general commanding considers himself stronger in action than in argument.

Grenada and Meridian Railroad.

We have already mentioned that there would be a meeting of the incorporators on Thursday the 3d day of October. We hope suitable arrangements will be made to entertain the delegates and a subscription made in behalf of the enterprise, that will show the people abroad we feel some interest in the road. We want to attract the attention of the Mayor and Council to the subject. Speaking of the meeting the Louisville Bulletin says:

As will be seen by advertisement in another column, R. D. Brown, President of the Board of Corporators of the Grenada and Meridian Railroad Company, has called a meeting of that body, as well as all friends of the enterprise, at Meridian on the 3d day of October next, for the purpose of transacting business of importance to the company and to those interested in its success. We hope to hear of a full attendance, for it is important that such a course may be adopted as will insure new life and vigor into the undertaking and insure its ultimate success.

To the people of our own immediate section, a better channel in which to turn their energies, physically, mentally and financially cannot be offered, than in investing ways and means in aiding the procurement, completion and putting in operation of the Grenada and Meridian Railroad, and we hope to see it taken advantage of it.

A meeting of the people is called for next Saturday, 7th September, to take preliminary steps for holding a mass meeting of the people of the County on Saturday, 21st day of September, at Louisville, for the purpose of appointing delegates to act in conjunction with the corporators of the road in the County at the Meridian meeting. It is also suggested that a barbecue be given on the 21st. Come up to the scratch, gentlemen; you cannot spend your time in a better cause.

And the Kemper Sentinel has this item on the subject:

We are authorized to state that a meeting of the Corporators of the Grenada and Meridian Railroad will be held at Meridian on the third day of October next. Very important business is to be transacted. We understand that Col. W. J. Stevens has been appointed agent to take stock.

CAUTION.—The lawful closure to the Corporation of Meridian, is reported as progressing to a considerable extent in Madison county.

"The Bottom Rail on Top."

The black man begins to think he ought to assert his rights and prerogatives, and fill every office of trust and emolument with men of his own color. The Republican party employed political missionaries to come South and constill this doctrine into his mind, and many of our own people who wanted to dance to the radicals with "African sable," urge him to aspire to Congress and the Vice-Presidency—not to let the self-styled defenders of his political rights swindle him out of all the fat offices. The blacks now comprehend all this, and are shaping their course so as to avail themselves of every advantage given. A colored man letter the world know through the columns of the New Orleans Times, that they intend to carry out full republican Democratic principles to the letter—majorities must rule and minorities submit. They will elect blacks to every office within the people's gift, from Governor to Constable, and from policeman to head-keeper. The white man hold all the places of honor and profit when they had power, and now that the black men have a majority, they will do the same thing—"the bottom rail is on top" says the letter to the Times, and "Yankees as well as the minority must take a back seat." This is the prevailing sentiment and has been brought about by the incendiary teachings of unprincipled men who expect to ride into office upon the negro's back. But the "humble and obedient ally" is not so pliant after all. He has measured his strength, finds himself "master of the situation," and openly declares he will kick demagogues aside, and place the colored man where there is money and honor. What is true of Louisiana is true of all the Southern States. In Sumter county, Alabama, we are told the colored people proclaim none shall receive their votes but black men, and the same thing is said to be strongly intimated at the Convention in our own county last Saturday. The black man, where he has the controlling political power, will trust none in office, save his own color.

It is easy to see how this feeling of caste and exclusiveness will terminate." Negro supremacy will be negro ruin. When the radicals discover that their black allies want elevation to office, and an equal share of official patronage, they will turn against them. The negro, by ostracising the Southern people, will have lost his true friends here; and abandoned by the radicals on the one side and the Southerners on the other, he must relinquish his claim to supremacy, or engage in a war where the issue will be "white skins versus black," and in which he will be very summarily put aside. The picture is not pleasant to contemplate, but the signs of the times point unerringly in the direction we have indicated.

The President on Stanton and Sheridan.

A correspondent of the Boston Post had an interview with the President recently, during which, the removal of Stanton and Sheridan were discussed. The President denied that he suspended Stanton in order to obstruct the reconstruction policy of Congress—that Mr. Stanton had nothing to do with their execution, and observed that at one time General Grant strongly intimated that unless Mr. Stanton was removed, he should be compelled to leave Washington, as he could be of no possible use in view of Mr. Stanton's overbearing and dictatorial conduct. The President advised him to have a talk with the Secretary of War, and perhaps they would understand each other better. He agreed, however, with the General, that Mr. Stanton ought to be removed, and he then inquired of General Grant if he would take charge of the Department in the event of a change. The latter promptly expressed his entire willingness to do so. It was then that General Grant gave the President a very kind, but earnest, private note, in which he intimated his fears of anarchy, if not revolution, should Secretary Stanton be superseded. Yet, as he could not appreciate the General's fears on this score he had directed the change. Sheridan was removed for exercising power he did not possess. The removal of Gov. Wells and Gov. Throckmorton was entirely uncalled for, and unjustifiable. Both had placed at Sheridan's disposal, the whole civil machinery of their States, to aid him in the execution of the reconstruction acts, while he was endeavoring to execute the law as a partisan, and adopted radicalism as the only true test of loyalty. His sole purpose seemed to be to secure negro supremacy and degrade the whites, and for such conduct the President deemed it his duty to relieve him of that command.

THE POLITICAL WHIRLPOOL—Washington affairs grow in intensity. Grave changes are still talked of, and it is not improbable the President will continue cutting off partisan heads until the cabinet and commanders suit him. It is intimated that Grant will ask to be relieved from duty at the War Office soon. How he will act then he will surely go. The old man has been keeping very quiet lately, and has little to say at the White House. Jerry Black is spoken of as Mr. Seward's successor, and the fact that he has has been telegraphed to, relative to hiring him of the city to act in the Cabinet, and requesting him to return immediately is significant. Randall expresses his readiness to go, and Ward H. Lamon, once appointed Marshal of the District of Columbia by Mr. Lincoln, is mentioned as Postmaster General. The Herald special says in the case of McCulloch, though probably his resignation will be the last accepted from the fear of damage to the public credit, still it is pretty certain he will be permitted to withdraw from the service and a successor appointed in his stead. Among the rumors afloat is one that Secretary McCulloch has accepted an offer from Jay Cooke & Co., to manage the new banking house they are about to open in London. If this be true it would certainly bear out the probability of McCulloch's prompte retirement.

ALL RIGHT.—The difficulty between the President and Gen. Grant has been settled and now the latter officer complys with the President's wishes, by relieving, of his own free will, Gen. Sickles, and placing Gen. Canby in the command of the Second District.

Agricultural Association.

Pursuant to a call, a meeting of the citizens was held at the Mayor's office. Hon. E. L. Henderson in the chair, and L. M. Hart and Dr. R. N. Parker appointed Secretaries. By request, Col. J. J. Shannon addressed the meeting in a few pertinent remarks urging the importance of such an association, and suggesting the objects of the association be extended so as to embrace also a mechanical department.—Esquire Row also made a few remarks eloquently seconding Col. Shannon's suggestion.

Upon motion of Col. Shannon, a committee of seven was appointed to draft a constitution and by-laws for an Agricultural and Mechanical Association to report to a meeting to be held in Meridian on next Saturday week, the 14th September. Committee is:

Esq. E. J. Row, Maj. F. C. Sessums, C. W. Mathews, I. B. Payne, W. W. Shearer, Erasimus Williams, and B. T. Rush.

Upon motion of Col. Shannon, the election for officers for the Tournament Club was entered into. Mayor R. L. Henderson was unanimously elected President, L. M. Hart was elected Vice-President, Jno. Armstrong was elected Secretary and Treasurer.

Upon motion, the President was authorized to appoint the judges for the next tournament.

Upon motion, the meeting adjourned to meet next Saturday week at 3 P. M.

GEN. GRANT TO PRESIDENT JOHNSON.
HEAD'S ARMY OF THE U. STATES,
WASHINGTON, D. C., Aug. 17, 1867.

His Excellency Andrew Johnson, President of the United States:

SIR—I am in receipt of your order of this date, directing the assignment of Gen. G. H. Thomas to the command of the Fifth Military District, Gen. Sheridan to the Department of the Missouri, and Gen. Hancock to the Department of the Cumberland, also your note of this date enclosing the orders assigning officers to command and instructions to carry into effect the enclosed order. I would be pleased to hear any suggestions you may deem necessary respecting the assignments to which the order refers.

I am pleased to avail myself of this invitation to urge, earnestly urge, in the name of hundreds of thousands of loyal lives, and hundreds of millions of treasure to preserve the integrity and union of the country, that this order be not insisted on. It is unlawful, in my judgment, to remove from the country that Gen. Sheridan should not be removed from his present command.

This is a Republic where the voice of the people is to be consulted as to the manner their voice may be heard. Gen. Sheridan has performed his civil duties faithfully and conscientiously. His removal will only be regarded as an effort to defeat the laws of Congress. It will be interpreted by the unconstructed element in the South—those who did all they could to break up this government by arms, and now wish to be the only persons consulted as to the method of restoring order—as a triumph. It will embolden them to renewed opposition to the will of the loyal masses, believing that they have the Executive with them. The services of Gen. Thomas in battling for the Union entitle him to some consideration. He has repeatedly entered his protest against being assigned to either of the five military districts, and especially to being assigned to relieve Gen. Sheridan. Gen. Hancock ought not to be removed from where he is. His department is a complicated one, which will have taken new complications before he become acquainted with.

These are military reasons, pecuniary reasons, and above all patriotic reasons, why this order should not be insisted on. I beg leave to offer a better substitute, which I wrote to the President when first consulted on the subject of the change in the War Department. It leaves upon the subject of this removal, and I had hoped would have prevented it.

I have the honor to be, with great respect,
Your obedient servant,
U. S. GRANT.

General U. S. A., and Secretary of War *ad interim*.

EXECUTIVE MANSION,
Washington, D. C., Aug. 18 1867.

GENERAL—I have received your communication of the 17th inst., and thank you for the promptness with which you have submitted your views respecting the assignments directed in my order of that date. I have stated in my last communication of the 17th that I would be pleased to hear any suggestions you might deem necessary respecting the public interests which in your opinion would render the order inexpedient. Inasmuch, however, as you have availed your suggestion in a written communication, it is proper that I should make some reply.

You earnestly urge that the order be not insisted on, remarking that it is unmistakably the expressed wish of the country that Gen. Sheridan should not be removed from his present command. While I am aware that the opinion has been made to retain Gen. Sheridan in command of the Fifth Military District, I am not aware that the question has ever been submitted to the people themselves for determination, it certainly could be urged with much force that the people of the whole of the nation, as a body, is capable of reconstituting the States of Louisiana and Texas, but that were so, for any cause removed no other General in the military service of the United States would be more competent to fill his place. Gen. Thomas whom I have designated as his successor, is a native of Virginia, having been appointed to the Military Academy, having served with high and honorable distinction in the field; he has since, in the execution of the responsible duties of a department commander, exhibited great ability, sound discretion and sterling patriotism.

He has not failed, under the most trying circumstances, to enforce the laws to preserve peace and order, and to promote as far as possible a spirit of reconciliation.—If's administration of the Department of Virginia and Tennessee will certainly compare most favorably with that of Gen. Sheridan in the Fifth Military District. Therefore upon the ground of justice to the nation, and a bitter spirit of antagonism seems to have resulted from Gen. Sheridan's management. He has rendered himself exceedingly obnoxious by the manner in which he has exercised even the powers conferred upon him. He did not serve as by a resort to authority not granted by law, nor necessary to his faithful discharge of the executive duties, he has, in fact, been one of absolute tyranny, without reference to the rights of persons or property, or to the matters of law and justice.

The state of affairs which has resulted from the exercise of power by Gen. Sheridan not warranted by law, and not necessary to a faithful discharge of the executive duties, is such as to call for the interposition of the Executive, and to require that the military authority should be subordinated to the civil authority, and to facilitate their execution in all proper cases. Gen. Sheridan has, in numerous instances, interfered with the proper jurisdiction of civil officers in the State, and has, by military power and official acts, superseded the operation of the civil authorities, when in no way conflicting with the military authority, and when the civil authorities were entirely competent to the discharge of their duties. He has, by military orders, removed civil officers and appointed others in their stead, when the officers removed were fully competent to discharge the duties of their offices, and were willing to do so, and when the appointments made were entirely unsuitable for the positions. He has, by military orders, established civil tribunals, and has directed proceedings to be had in them, when the civil tribunals existing by the laws of the State were competent to the proper administration of justice, and were in the proper exercise of their functions. The Sunny South, published at West Point, in Lowndes county, says that the cotton crop in that county will be a failure.

In Mississippi, Governor Humphreys, Mr. Merrick, and a number of other prominent men have declared in favor of the constitution and reconstruction, and have advised the people to accept it. Governor Humphreys has also advised the people to register and vote. Governor Humphreys has also issued a proclamation, in which he says that the military commanders would be instructed in the same manner as the civil officers should they attempt to break up this government by arms, and that the President would not tolerate any such conduct on the part of military commanders, and that the law, and that Gen. Sheridan has been removed for such conduct.

FASSMAN'S
Iron Ties for Cotton Bales.

THE undersigned have made extensive arrangements to supply the demand for these Ties the present season. In addition to the

FASSMAN'S DIAMOND TIE and BUTTON TIE,

no extensively used heretofore, they now offer his

ALLIGATOR TIE,

with teeth so arranged as to instantly clamp the hoop when the pressure is removed from the bale and hold it without slipping.

Great pains have been taken to secure the best quality of iron.

These Ties are so simple in their arrangement that they can be applied by any one, to bales of any size, with the same facility and expedition as rope. In strength, security and facility of application, they will compare favorably with any yet introduced.

The advantages of Iron Ties are now generally recognized; but it is deemed not out of place to call the attention of those interested to the very emphatic recommendation of Underwriters, Steamboat Captains, and Owners and Agents of Sea Steamers and Sailing Vessels, recently published in the newspapers in New Orleans.

PRESCRIPTIONS FILLED AT ALL HOURS.—Our friend Chadwick, the old and reliable Front Street druggist, is now living over his store, and will attend to filling prescriptions at all hours—day and night. Mr. Chadwick's medicines are fresh, and an experience of twenty years in the business, is a sure guarantee that they will be properly compounded. tf

The attention of our readers are directed to the advertisement of our friends, Messrs. James Biddle & Co. of Louisville, Ky., which may be found in another column of our paper. All those afflicted by disease, or who have friends suffering from sickness, should carefully read, and we know they will derive profit from it.—If gives us much pleasure to be able in this manner to recommend to our people those gentlemen and the medicines of which they are Proprietors, as we know they claim no more for their remedies than long years of trial has fully shown is really deserved.

The reputation of Dr. Thos. A. Hurley's Bitters, Worm Candy, Sarsaparilla, and Ague Tonic is of world wide, having been used through the whole of this country for many years past, and never having failed to give universal satisfaction. The proprietors never yet have received any complaints about them, hence their confidence in recommending them to the public as never failing to cure. "As it is with the "Hurley Preparations," so also with Dr. Seabrook's Infant Soothing Syrup, and Dr. Bettison's English Horse Liniment, both of which are unequalled. These gentlemen are also the manufacturers of Seaton's Chemical Writing Fluids and Carmine Ink which are so well known and extensively used in the South, and which are pronounced by all who have used. We cannot understand why their remedies might not as well be taken in the special diseases for which they are recommended with as much confidence as the prescription of a regular physician. tf

LAND FOR SALE.

THE subscriber in consequence of declining health, is anxious to sell his land on which he now resides. The tract contains eight hundred acres, with some four hundred and fifty in cultivation. It lies immediately on the Kosciusko and Ohio Railroad, about half way between Meridian and Enterprise, and nearly all good and productive Okatibbee bottom, all level and so table for cultivation. If no disaster happens to the crop now growing, it will take for the place what the crop will be worth. The improvements are good and in good condition, and he is now building a new gin house and press, &c. It is also a good outlet for stock on two sides, and a living range for cattle, &c., and is altogether a pleasant and valuable location.

Also, also authorized to sell 240 acre of good level land adjoining, with about 100 acres in a good state of cultivation, and an improvement. Also belonging to Col. H. B. Lewis. These two tracts will be sold jointly or separately, to suit purchasers and the subscriber will divide the tract to effect a sale, if not sold as a whole before the 1st of December next. He will also have some of several mules and horses and a quantity of corn. There is a competent supply of good laborers with their families on the premises and anxious to remain. For further information apply to me on the premises—each one to see the other, Mississippi.

ERRORS OF YOUTH.

A Gentleman who suffered for years from Nervous Debility, Premature Decay, and all the effects of youthful indiscretion, will, for the sake of suffering humanity, send free to all who need it, the recipe and directions for making the simple remedy by which he was cured. Sufferers wishing to profit by the advertiser's experience, can do so by addressing, in perfect confidence,

JOHN B. OGDEN,
42 Cedar Street, New York.

TO CONSUMPTIVES.

The advertiser, having been restored to health in a few weeks by a very simple remedy, after having suffered for several years with a severe lung affection, and that dread disease Consumption—is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, Coughs, Colds, and all Throat and Lung Affections. The only object of the advertiser in sending the Prescription is to benefit the afflicted, and spread information which he considers to be invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing. Parties wishing the prescription, free, by return mail, will please address

REV. EDWARD A. WILSON,
Williamsburg, Kings Co., New York.

NO EXCUSE FOR BAD BREAD

DARCY & PUTNAM'S

SELF-RAISING FLOUR

—FOR—

Bread, Biscuit, Puddings, Cakes, Pastry, &c., without using Yeast-Powders, or Soda.

TIME AND LABOR SAVING AND HEALTH GIVING.

GENERAL DIRECTIONS.

Stir in the water with a spoon and beat at once without kneading or waiting for the dough to rise; the oven, therefore, should be in good baking order before beginning to mix—MIND THIS.

Milk is superior to water for all pastry purposes.

For Cakes, Pastry, &c., the SELF-RAISING FLOUR should be the last article mixed. Salt to suit the taste.

RECEIPTS

SALT TO SUIT THE TASTE

For Loaf Bread.—Use cold water or milk, and mix with a spoon just sufficient to thoroughly wet the dough; put it into a deep pan not more than half full, bake immediately. The pan should be covered to prevent the formation of a hard crust before the loaf has risen sufficiently. If the bread does not brown on the top, remove the cover a few minutes before taking the loaf from the oven.

Bread Pans.—Are found to bake best when seven inches long, four inches deep, and four inches wide at the bottom, flaring and tall with covers. These pans are excellent for cake.

For Biscuit.—Make the dough as soft as can be handled, using cold water, with half the usual amount of shortening, or cold sweet milk without shortening. Bake at once in well heated oven, they will be light, with a sweet and tender.

For Lower Crust.—Bread as biscuit, except that the dough should be a little stiffer, use less shortening.

For Meat Pudding.—Three eggs, one quart of milk or water, three pints of flour, one tablespoonful of melted Lard. Bake in deep Muffin Pan.

For Pies.—Use less shortening than with common flour, and roll the crust very thin.

Sponge Cake.—One cup of Sugar, diluted in three gills of milk or water, half a pound of butter, two eggs, half a pint of milk or water and two pounds of flour.

Quick Pound Cake.—One cup of powdered sugar and one cup of flour, well mixed together. Break in three eggs, stir quickly and bake in a square tin immediately, in a moderate oven. Flavor with lemon or otherwise to suit the taste.

Gold and Silver Cake.—One cup of butter, two cups of sugar, one cup of milk, four cups of flour. Divide this dough into two equal parts; to one part add the yolks for the gold and the whites for the silver cake. Flavor with lemon or otherwise and bake in covered bread pans.

Dough Nuts.—One pound of Sugar a little shortening, two eggs, three pounds of flour and one pint of water.

Pot Pie and Dumplings.—Prepare the dough in every respect the same as for biscuit. Use a little melted sugar and butter for sauce.

Tea Cakes and Fritters.—Will need no eggs. Butter and Griddle Cakes, etc., are very superior made from Self-raising Flour.

The quicker you handle this & or the better. Never let it stand or rise. See that the oven is hot before you touch the flour. The softer the dough the better. Do not knead it.

☞ Put up in every style to suit the trade. ☜

☞ To be a true Graham or Rye prepared flour, you will use no other—every package warranted.

"LITTLE STEEL BRUSH GIN.

This celebrated COTTON GIN, is age & manufactured under the supervision of the Patentee, B. D. Gullett, with greatly improved facilities; and we, as Agents for the South-west, now offer it to the public.

Its advantages are:

1st. The quantity of cotton ginned in a given time is much greater than by any other gin of equal number of saws.

2d. It separates from the Cotton all leaves and dust and leaves it clean from seed.

3d. The roll cannot be broken by any fooling. All gins are liable to break rolls, but the roll of Cotton from this gin will sell for as advance in price sufficient to be liable to pay for a roll, should one be done it is freed from cotton. Not one gin in has been in use extensively for this Cotton two (10) years, and wherever used it supercedes all other gins.

Send for special circulars.

COTTON PRESSES,

We are manufacturing for the crop of 1867 an improved screw of the Bullock press, which will meet all the requirements of cotton packing. It can be worked by hand power, or by horse power. Can be used out doors or in a building; is rapid in its working; of immense power, and makes a bale of exactly the same size.

THE OHIO CANVASS.—The hope we entertained of an interesting and instructive development of national issues out of the Ohio canvass, has been disappointed. Thus far that canvass has been extremely unedifying. With the exception of the elaborate, able and dignified speech of Mr. Pendleton at Lima, and a similar one from Gov. Cox, the discussion has been barren of instruction—the speakers on both sides giving utterance to little else than invectives, which sound loudly, and mean little. The most indecorous specimen of declamation in all the controversy, is the speech of Senator Wade at Portsmouth—We copy it as a sample of the coarseness and flippancy of which an Acting Vice-President, and possible President of the United States may be capable of. It is a mixture of vitality and blasphemy that the most reckless and characterless demagogue could hardly have surpassed.

Mr. Wade prides himself on his plainness of speech; but when he speaks of the last Democratic candidate for Governor of Ohio as "a traitor who ought to have been hung before they put him in nomination" and calls the "one hundred thousand freemen of Ohio who voted for him, traitors;" when he asks if "any of you ever knew a Democrat who was not a traitor?"—and promises that "not one devil" of the Kentucky Congressmen "will ever get a seat"—he only exhibits a vulgarity and coarseness that have no kinship with candor, but which make Mr. Wade's countryman regret that such an indecent shapwanger should be the second officer of their Government.—St. Louis Dispatch.

A MAN DESERTS HIS WIFE.—Nine years ago there lived in the neighboring town of Manchester, Coffee county, the Waddemore county line, a man and his wife—Mr. and Mrs. Robert Whiteside. Robert, from all accounts, was not a very good or attentive husband. He had a habit of absenting himself from home, sometimes for a month or two at a time. But his last voluntary absence proved more lengthy, and

The sunny and rainy season came and went
Year after year

and still he came not back. The truth welcome or unwelcome as the case may be, was forced upon his wife that her husband had deserted her. At length there came a man to Manchester with tidings of Whiteside, who had then been absenting some seven years. The stranger said he had known him in Saginaw, that Robert had died there and that he had seen him buried.

Passing implicit confidence in the above Mrs. Whiteside believing herself a widow, married again, doubtless having hopes of a more happy union than her first had been. Week after two ago she and her husband went to the town of Cambridge, in this county, and on their return from there home with a view of purchasing some sheep. Inquiring at a house for sheep they were informed that a man named White-side living a short distance had some for sale. The mention of the name very naturally excited the woman's curiosity, and further inquiry convinced her that, at length, she had gone on the track of her missing husband. She and her husband then drove to the house, and there, sure enough, found Robert Whiteside, in very good health.

The scene which followed can be better imagined than described. The faithless Robert had, all the while, been living within sixteen miles of his deserted wife, had gone in the same whole time, had married and buried one wife, and was then living with his second matrimonial venture. He presented his lawful wife no acquaintance. He lived in a somewhat secluded portion of the town, on a forty-five acre farm, and for this reason the whole time, in the neighborhood, At first he feigned not to recognize his wife, but finding this subterfuge unavailing, he at length acknowledged the corn. Mrs. Whiteside has made complaint against her truant husband for larceny and adultery, and the matter will be brought before the court for investigation.—Adrian (Mich.) Times.

AWFUL RAILROAD CASUALTY.—As the Iowa Central Railroad train was coming north a few miles above, when it had arrived about two miles this side of Freeport, the windows of the passenger cars, many of which had been opened to allow the ingress of the pure fresh morning air, suddenly and simultaneously came down with a crash, and the cause was soon occasioned by the influx of a peculiar and unendurable odor, almost suffocating the passengers by its overpowering. The occasion of this was afterwards explained by the conductor of the train. It seems that a very little animal, noted for its offensive breath, popularly known as a skunk, taking an early morning walk, had found itself upon the railroad track just as the train was approaching. Mr. Skunk mounted on the rails, and with the eye of faith surveyed the advancing foe. The odds were excessive, but the soul of the little animal was undaunted, and he determined to stand his ground. The ponderous engine approached, and the skunk brandished his battle-axe for the coming battle, bringing into requisition his natural and only means of defense. Nearer and nearer came the locomotive, while with steady eye and well-balanced tail the assailed made ready, took aim, and—fired! Heavens, what a perfume floated on the morning air! No one, not a passenger on the train could imagine. His skunkship had fought well but not wisely; another moment and the remorseless wheels of the train had passed over him, and nothing was left of the brave defender of his natural rights but an infernal stink!—Dubuque Herald, 24th.

Brevet Maj. General A. Baird, Assistant Inspector General U. S. Army, has been ordered from Louisiana to this Military District, and O. D. Greene, Assistant Adjutant General of the District, assigned to duty in the Inspector's Office of Civil Affairs at Headquarters in Vicksburg.

Wendell Phillips comments very severely on Gen. Grant's course in accepting the post of Secretary of War. He says, among other bitter things: Let us hear no more of Gen. Grant's being obliged to take this office, as it was said, he was obliged to accept command in Texas, on that disgraceful Western tour. On both occasions such statements were only foolish excuses invented by Gen. Grant's friends to cover up the mistakes and servility of their idol.

So far as we have been able to ascertain, the army worm has not done much injury to cotton in this region of country. It has made its appearance on a few plantations, but not in sufficient numbers to be destructive.—Coldwater News.

Gen. Frank Blair, of Missouri, made a speech at Council Bluffs, Iowa, on the 14th inst., in which he exhibited the fact that the reconstruction policy of President Lincoln is entirely antagonistic to that of the present Radical Congress.

BARNETT'S FACTORY.—A large amount of the machinery for this factory, was carried out from here week before last, and by the 1st of October it will be under full headway.—Winona Vidette.

Lieut. Pickett, in command of the post at Greensboro, has been relieved by Capt. Noble with a much larger force, and our informant states that they are erecting hospitals for the purposes probably of remaining some time.

The farmers from Choctaw county gives discouraging accounts of the cotton crop there, on account of the drouth. In many of them tell us they will not make more than half crops.

RELEASED.—Rumors asserted.—Thos. Reed, charged with robbing the Express Office, and who is awaiting in the Macon jail his trial at the next term of the Circuit Court, was released last Monday morning, some parties in Indiana going on his bond, and the next day left for that State with the said parties were worth fifty thousand dollars. He was scarcely permitted to breathe the free air before the Sheriff received an order from Gen. Ord to have him again placed in confinement.—Macon Beacon.

Our planters, pretty generally, are now picking cotton and we are pleased to hear that the crops turning out better than many anticipated. We have heard of two or three cases of general failure from Hinds to market. The panic on the cotton question which was the rife here some two or three weeks ago has given way to complaints as to the drouth of the past few weeks, which seems to be destroying the young squares and bolls. We still think a pretty fair crop will be made, considering everything.—Raymond Gazette.

The first bale of the new crop of cotton reached Vicksburg on the 23d ult., from the plantation of Mr. Robt. Moss, of Hinds county. It was consigned to the house of W. M. Williams & Co.

A company styled the "Mississippi Mercantile Mutual Life Insurance Company," has been organized at Vicksburg, and is now prepared to commence business.

The Vicksburg Times claims 20,000 inhabitants for that city. About 10,000 more than Vicksburg really has.

The Times says—From every section of the county, we have most flattering reports of the crops. The corn crop will be the largest and finest ever raised here. Nearly every planter and raise enough for his own consumption for twelve months, and many have laid in that they expect to have enough for two years. The cutter-piller has attacked the late cotton in some of the fields, but all we have seen it has not done much damage.—Holly Springs Reporter.

Gilles Scruggs, (spoons in the Republican Mississippian a simple and effective remedy of preventing worms in cotton. It is to spit tobacco juice on the seed. In addition to corn, grain, fruit, hogs, cattle, sheep, mules and horses &c., Good remedy Gilles.

Water Valley Courier, 23d: Our farmers tell us they have never known such rapid growth of country before. We are made to a certainty. We are all on though, that the army worm will interfere with the crop this year. This we can see some neighborhoods, but little damage can be said to be raised.

Mr. Hamilton, one of the Indies writing from West Point, tells a sad story. He says: From Okalona to West Point the cotton crop is a complete failure, and I doubt if it prove even that good. Southern planters must change their mode of farming—take something to eat, or—emigrate.

The Hernando Press, published in De Soto county, one of the finest in the State has the following to say of the drouth. The worm has made its appearance in the farms in that section, is somewhat similar in appearance to both the cotton and the boll worm. We have heard of no serious damage being done to the crops as yet.

ARRIVAL AND DEPARTURE.—On our return from Port Gibson last Saturday, accompanied by Alonzo Jones, Esq.—when within 17, or 18 miles from this place—being about mid-night, some low-life puppy—in the form of a human being—concealed in the bushes, fired a shot-gun—perhaps two caps at us while passing along the road in our carriage.—Fayette Chronicle.

The Wesson cotton factory, in Copiah county, Miss., on the Jackson Railroad. Jackson Railroad employs one hundred workmen, and consumes one hundred and fifty bales of cotton annually. The cotton yarns made at this factory are said to be of superior quality.—Vicksburg Telegraph.

CROPS.—Having conversed with planters from different portions of the county, we are satisfied that the crops of the corn and cotton will be very much shortened. The cotton, upon the whole, is not good, but as there is a good deal planted, as well as many crops of corn, sweet potatoes and other crops, the prospect is fair for plenty of bread and fat hogs this fall.—Fayette Chronicle.

After twenty-two days' drouth, rain fell in Tishomingo county on the 20th, in time to do great service.

THE CROPS.—We have more cheering news from the country than we have had for some time past. It seems that the extreme warm weather we have had has played havoc with the army worm, and now the prospects for a good cotton crop is brighter in this neighborhood than it has been for years. We are told there will be a larger crop of cotton in this county this season than we have had since the war. Besides this there will be a large excess of corn made. We are receiving information from the counties of Perry, Carroll and Calhoun counties, of the same tenor.

Gen. Ord has removed the city officials of Vicksburg and inside other appointments. Gen. Ord says he makes the change to insure an equal, just administration, and execution of the laws upon all alike in the city of Vicksburg, Miss., and to secure the best interests of the citizens thereof. The order will be found in to-days paper.

A black man is running for Congress in the First District of Georgia. Another of fellowships like example in the Cherawee District of South Carolina.

Notwithstanding the chronic reticence of Gen. Grant, an officer who has daily intercourse with him, has informed a letter writer, that he has expressed himself privately against unqualified negro suffrage. This fact is corroborated by leading Radicals, who declare they will not take him for President unless he comes out square on the question.

The World's special says returns from Internal Revenue Department here show a falling off of fifteen millions of dollars in revenue for two months past as compared with returns for the corresponding period last year.

We hear that Gen. Ord has removed J. W. Hull, Clerk of the Circuit Court of Kemper county, and appointed in his place noisy loud-mouthed Radical by the name of Stafford. Hull made a good officer, and had held the office many years. This man Stafford has made several speeches, one of which he has had the temerity to have published in the Chronicle. It is remarkable only for its dullness and his malignity towards the Southern white man. Such men are laboring hard to effect that which every good man in the country should deprecate, the organization of a black and white party in the South.

By virtue of the ordinances of the city of Vicksburg, and the resolutions of the new Mayor and Council, the port of the city of Vicksburg is declared under quarantine against all vessels from New Orleans, and also against such persons and goods whose introduction may be prohibited by the ordinances of the city, and order of the Board of Health.

We learn that the Convention on last Saturday has created some disgust among some colored brethren. One of them, who is high in office among the loyal leaguers, is confident of being nominated himself. He wants another Convention to sit it over, and expects next Saturday to turn down Sam Jackson.

The Convention.

In our present issue will be found a call upon Dr. T. W. Florer and Dr. Rhodes to become candidates to represent Lauderdale county in the convention. It is very apparent that the nominations of last Saturday give satisfaction to very few, white or black. From what we learn the meeting was a scene of the wildest confusion and disorder, composed of about one thousand blacks and perhaps fifteen or twenty whites. The nomination was made altogether by the Loyal League, and none but those who belonged to that association voted or took part in the nomination—four of the white voters of this county there are certainly not one hundred who have any affiliation with the Republican party. We do not believe we say too much when we assert that nine-tenths of the white voters of the county are opposed to the way in which the convention was held and will vote against the ticket nominated. Many of the conservatives who are for a convention do not object so much to Mr. Mosley on his own account as they do to the way in which he became a candidate and to his associate on the ticket. Personally we know nothing of Jackson, but it is reported that he is in favor of confiscation and is considerably more ultra than Thad. Stevens and full of hatred and uncharitableness towards Southern white people. If this is true the people should know it; if he is falsely accused and denies the charge, we will cheerfully publish his contradiction. Besides he is said to be deficient in education and intelligence wholly unqualified for the position to which he aspires. Dr. Rhodes is a clever gentleman, an old citizen of the county and has always been a consistent Union man. He is for a Convention and for a conservative and prudent member.

Dr. Florer is a Northern man, was an officer in the Federal army, is a Republican as I has the talents and acquirements of all who have them. He has resided in the county for the last two years, and is well identified with our interests. He is a missing candidate, and we hope that Dr. Florer will consent to run. We believe he would be more acceptable to the people of the county than any other man, and we hope he will be the loyal candidate of the loyal majority.

In the harmony of the world, all things in their sphere and worth do live and move; the very best as feeling love and the greatest as not exempt from her power; both angels and men and creatures of what condition soever, though each in different sort and manner, yet all with uniform consent, admiring her as the mother of peace and joy." For a long time the southern people lived up to the teachings of Hooker—believing that obedience to law was the soul of all government; but the doctrines of equality of men and the sovereignty of the people, have, of these latter days, been preached and practiced to such an extent as destroy peace and contentment and create the legitimate offspring —discontent and misrule, anarchy and despotism. It is not necessary to enumerate the facts by which this assertion can be proved and illustrated. They are familiar to all, and the case of Gen. Sickles is one in point. This officer, once a law maker of the government, has been called upon to preside as military Governor over the States of North and South Carolina, and in the discharge of his duty as such, sees fit to interfere with the Courts of the United States, the most conservative arm of the government—created to protect the people in their rights, regardless of partisan feeling or ambitious executives. "If the United States Courts in the rebel States," proclaims Gen. Sickles, "be allowed to control the military authority, the execution of the reconstruction acts will, for obvious reasons, soon become impossible. Some of these courts will begin by declaring the acts of Congress void. For a long time their judiciary, like the great principle of gravitation, kept every other power of the government in its proper place and action and maintained the whole in uniform order. The various parts of our complicated system were maintained in position by the integrity of the judiciary, and this and crude enactments of Congress got up with very little care or labor, were trimmed down to that authority which has ever been held to be higher than any act of Congress. We have been sadly degenerating, however, during the present century, when a soldier of the government undertakes to reverse a judgment of the highest tribunal in the land, presided over by men whose whole lives have been devoted to the study and administration of justice and a faithful and enlightened execution of the laws. Fortunately there is one man in the land who possesses the boldness and firmness to resist and drive back these encroachments of the army, and support and sustain this monument of American wisdom in protecting the people and disposing of the individual questions that grow out of the nature and necessities of our form of government. This man is Andrew Johnson; and though much abused for other acts all must applaud him in this. His proclamation appears elsewhere. He warns all persons against hindering or obstructing in any way whatever the due execution of the Constitution and the laws, and he solemnly enjoins and commands all officers of the government, civil and military, to render due submission and obedience to said laws and to the judgments and decrees of the courts of the United States, and to give all the aid in their power necessary to the prompt enforcement and execution of such laws, decrees, judgments and processes. The proclamation is eminently proper. Contempt of law indignant, says the acting Attorney General, specifily grasps at the heart-strings of public order. Certainly so teaches history.

The Amnesty Proclamation.

The much talked-of amnesty proclamation, which Gerrit Smith and the New York Herald regard as the great measure of pacification, the telegraph tells us, will be issued by the President in a few days. It will be supplemental to that issued on the 29th of May, 1865. It will not proclaim universal amnesty, but will enlarge the fourteen classes named in that proclamation. Among the classes excepted by the latter, but which it is understood will be included in the coming proclamation, will be all persons who shall have been military or naval officers of the late Confederate Government, who are below the rank of Brigadier General in the army, or Captain in the navy. Also, all persons who are or shall have been pretended civil or diplomatic officers, or otherwise domestic or foreign agents of the Confederate Government; also, all who have been engaged in any way in treating otherwise than lawfully as prisoners of war; persons found in the United States service as officers, soldiers, seamen, or in any other capacity. Other details are yet to be arranged which may delay the issuance of the proclamation, some days yet, but it is probable that it will be decided to pardon all persons except high officials, who may be on bail for trial before or after conviction. This proclamation is desirable, but we think it will be followed by some troubles and mischief. It will restore the bulk of our disfranchised people to their political rights, if the military and boards of registration obey it, which will not be done unless the President secures the co-operation of Gen. Grant.

As yet we believe there are no negro candidates for the Convention, in this part of the State, publicly announced. We find in the Eastern Star the name of Ben Arrington, a freedman, for the Convention; but we understand that is a mere *goak* of our Clarke county friends, and that Ben is not seriously in the field.

PRESCRIPTIONS FILLED AT ALL HOURS.—Our Druggist Chadwick, the old and reliable Front Street druggist, is now living over his store, and will attend to filling prescriptions at all hours—day and night. Chadwick's medicines are fresh, and an experience of twenty years in the business, is a sure guarantee that they will be properly compounded. tf

The attention of our readers are directed to the advertisement of our friends. Messrs. James Ruddle & Co. of Louisville, Ky., which may be found in another column of our paper. All those afflicted by disease, or who have friends suffering from sickness, should carefully read it, and we know they will derive profit from it. It gives us much pleasure to be able in this manner to recommend to our people these gentlemen, and the medicines of which they are Proprietors, as we know they claim no more for their remedies than long years of trial has fully shown is really deserved.

The reputation of Dr. Thos. A. Hurley's Bitters, Worm Candy, Sarsaparilla, and Ague Tonic is world wide, having been used through the South with great success for many years past, and never having failed to give universal satisfaction. The proprietors never yet have received any complaints about them, hence their confidence in recommending them as they do, is never failing to cure. As it is with the "Hurley Preparations," so also with Dr. Seabrook's Infant Soothing Syrups and Dr. Bettison's English Horse Liniment, both of which are unequalled. These gentlemen are also the manufacturers of Seabrook's Universal Writing Fluids and Carmine Ink which are so well known and extensively used in the West and Southwest, for school, bank, and office, uses equalling the best English inks now used. We cannot understand why their remedies ought not as well be taken in the special diseases for which they are recommended with as much confidence as the prescription of a regular physician. tf

STATE TEACHERS ASSOCIATION.—This large and influential body of gentlemen, at its recent meeting in Jackson, adopted for use in the schools of the State, among others, the following books published by John P. Morton & Co., Louisville, Kentucky:

The Goodrich Series of Readers, edited by Noble Butler, Butler's Grammar, Towne's Mathematics and Barber's Geography.

The object of this action on the part of the Legislature, is to secure uniformity in the use of text books throughout the State. In order that so desirable a result may be attained, we would respectfully urge upon our teachers throughout the State, the necessity of taking early steps to secure a supply of these books for their pupils. With the exception of the Geology, which is just being issued from the press, these books are already used in all the public and private schools in New Orleans, Mobile, Vicksburg, Jackson, Meridian, Columbus and Aberdeen, and the dealers have large supplies are kept. Schools in the vicinity of these places can easily procure a supply, but as regards schools off the lines of the railroads, a difficulty will occur unless prompt action is taken. We would recommend that all teachers in the State, who intend to aid the association in its work, address John P. Morton & Co., Louisville, Ky., at once, stating the number of books likely to be needed. Our acquaintance with the members of that house, warrants us in asserting teachers that prompt attention will be given to their orders, and every reasonable request complied with. tf

A case somewhat novel and unusual was tried at Clarke Circuit Court of this state: The defendant was charged with assault and battery upon Rebecca Rogers a highly respectable young lady of Clarke County. Her evidence showed that on going to the house of defendant she was rudely seized by him, and thrown to the ground and rendered insensible by beating so for some time, that she was carried to go out and when she took hold of her, and endeavored to assist her several severe blows with a large rifle switch. She stated that she fled started in to the house of defendant to see her aunt on peaceable business.

Another female witness stated that she was present; asked defendant not to kill Miss Rieher; saw him when he struck her, that she was seriously injured by the switch. Witness afterwards saw the person of Miss R., and she discovered stripes of blood resulting from the blows. The defendant was convicted and sentenced to six months imprisonment in the county jail.

We learn that Judge Hancock, before passing sentence on the defendant, gave him a severe reprimand, fully justified by the facts.

Dr. Emanuel, President of the Vicksburg and Meridian Railroad, was in our city on Wednesday, arranging with our merchants for the fall trade and receiving the advantages of his route for the shipment of freights. The power conferred on he was ready to join in the erection of the Union Passenger depot at once.

Gen. Ord has issued a circular to have officers and agents look into instances where land-holders, upon frivolous pretexts, drive off their laborers with a view to withhold their arrears of wages or share in the growing crops.

NEW COTTON.—The first bale of new cotton brought to Meridian this season was purchased on Wednesday by Mr. W. W. Shearer. It was from the plantation of Wright Pigford, of this county, and brought twenty-one cents per pound. The grade was middling.

RENOVED.—Our energetic friend Capt. Early has removed his glove and tinware business to the store recently occupied by Kerlee & Co., on Front street, where he has more room, and is better prepared to supply the wants of the public. He has a couple of excellent workmen to manufacture whatever our citizens may need in his line.

Major George C. McKee, Registrar in Bankruptcy for this District, has been in attendance here during the present week. As yet only five cases have been referred to him at the place. In August Sol. Myer, of Shubuta, and R. D. Weems, of DeSoto were declared bankrupts, and on Thursday last Charley Mackey, and Henry Henry, all of this county, were, on their petitions, adjudicated bankrupts.

The public are again reminded that the first drawing of the Mississippi Agricultural Educational and Manufacturing Aid Society, takes place in Vicksburg on the 18th of the present month. The batch of tickets at Chadwick's drug store is rapidly diminishing—convincing proof that the scheme is properly understood and confided in. Any one who will take the trouble to examine the plan of distribution must concede that the chances for making a fortune are even better than those presented by the Havana Lottery. Chadwick has a few tickets left yet; the 18th is not far off; if you want to try your fortune go round and invest $3 75; it may prove the best investment you ever made.

PAID OFF.—The soldiers stationed here received six months pay the early part of the week, which they have been spending very freely ever since. Six thousand dollars scattered among our business men can't remain when once matters are so tight, is felt very sensibly.

ANOTHER MERCHANT COMING.—Dr. Bennett, of Bennett's Station, on the Selma and Meridian Railroad, is about to settle in our city. He has rented the two-story store of Mr. Threefoot, on Lee's Avenue and will soon have it well stocked with groceries and dry goods. Success to him.

The following notice of our city is from the last Liberty Journal:

THE PLACE FOR MECHANICS.—The Meridian Gazette says that there are fifty or more mention made of thirty-four store rooms and dwellings, some of them brick, one and two stories high, in course of erection, and work will be commenced on as many more in a week or two. Two or three large wagon and buggy shops are in full operation, turning out work of the most superior and finished style, and other factories are in course of erection. Among other buildings that have just been completed we notice the large school house of Rev. John A. Smylie, formerly minister of the Presbyterian church in this place, and for many years a valuable citizen of our county.

SELF-RAISING FLOUR.—We call attention to the advertisement of Isaac D. Putnam's self raising flour, to be found among our new advertisements. We are using this flour, and can recommend it to the public as a superior article. It has been examined by chemists and pronounced free from any flour that can be used. Read the advertisement and give it a trial. tf

COTTON PLANTERS.—Those who are contemplating the purchase of a cotton gin, would do well to call at the store of Kerlee & Co., and examine the Eagle Gin, which is highly recommended by those who have used it. The Eagle is the best gin in the market, and is rapidly superseding all others in the cotton growing districts. Kerlee & Co. are the agents for the sale of the Eagle Gin, and will be pleased to show it to all who may call on them.

WASHINGTON, Sept. 3.—Gen. Grant was absent from the Cabinet meeting to-day, which lasted two hours.

Senator Joe. Y. McDougal, of California, is dead.

CHARLESTON, N. C., Sept. 4.—The delegates to the Republican Convention assembled to-morrow. Crowds are arriving on every train. A large number are already here, and still arriving. Present indications foreshadow an increased gathering. The weather is fine. Rain is largely needed, nearly all of whom are moderates of Gooding's wing.

RICHMOND, Va., Sept. 3.—Four hundred spiritualists are in convention here. California is the only State which is not represented.

WASHINGTON, Sept. 3.—The principal question was before the Cabinet meeting to-day. The President hoped last night that it would be disposed of to-day.

The proclamation will be based upon that of March 2d, 1863, issued by Mr. Johnson while Provisional Governor of Tennessee, which was superseded at the time by President Lincoln and Congress.

The proclamation says in effect:

While consequences for treason may be punished, no vindictive or retaliatory measures will be adopted, but a general amnesty for all past actions and participations will be granted, on the sole condition that they yield unconditional fitness under majesty of the law.

He appeals to all citizens and misguided people to return to their allegiance and avail themselves of this amnesty.

An abundance of outlines been discovered in Colombia, Ore., sufficient to make 2,000 miles north of Fort Union, in ten feet thick, and extending fifty square miles, and is equal to the best production of the Pittsburg mines.

CHARLESTON, S. C., Sept. 3.—Gen. Canby arrived this afternoon with his family and staff. He took quarters at the Mills House.

Registration returns from all portions of the State indicate that the interest in registration is lagging. The blacks as a class are more than two-thirds of the whole number registered. The returns yet to come will probably reduce their majority, but not materially.

Proclamation of the President.

WASHINGTON, Sept. 3.

The following proclamation has been issued by the President of the United States:

WHEREAS, by the Constitution of the United States the executive power is vested in the President of the United States of America, who is bound by solemn oath faithfully to execute the office of President, and to the best of his ability preserve, protect and defend the constitution of the United States, and by the same instrument made Commander-in-Chief of the army and navy of the United States, and is required to take care that the laws be faithfully executed; and—

WHEREAS, By the same Constitution it is provided that the said Constitution and the laws of the United States which shall be made in pursuance thereof, shall be the supreme law of the land, and the judges in every State shall be bound thereby; and—

WHEREAS, In and by the same Constitution the judicial power of the United States is vested in one Supreme Court and in such inferior courts as Congress may from time to time ordain and establish; and the aforesaid judicial power is declared to extend to all cases in law and equity arising under the Constitution and laws of the United States and the treaties which shall be made under their authority; and—

WHEREAS, All officers, civil and military, are bound by oath that they will support and defend the Constitution against all enemies, foreign and domestic, and will bear true faith and allegiance to the same; and—

WHEREAS, All officers of the army and navy of the United States, in accepting their commissions, undertake the obligations, combinations, or assemblages of persons, or rebellion against the authority of the government of the United States, and shall become impracticable in the judgment of the President of the United States to enforce, by the ordinary course of judicial proceedings, the laws of the United States within any State or Territory, the Executive in that case is authorized and required to secure their faithful execution by the employment of the land and naval forces; and—

WHEREAS, Impediments and obstructions have arisen which hinder and delay, essentially been interposed in the States of North Carolina and South Carolina, hindering and preventing, for a time, the due enforcement there of the laws of the United States and of the judgments and decrees of the Supreme Court, in the case of the command of the President of the United States; and—

WHEREAS, Reasonable and well-founded apprehensions exist that such ill-advised unlawful proceedings may be again attempted there or elsewhere, now, therefore—

I, ANDREW JOHNSON, President of the United States, do hereby warn all persons against obstructing or hindering in any way the due enforcement of faithful execution of the constitution and the laws, and I do solemnly enjoin and command all officers of the government, civil and military, to render due submission and obedience to said laws and to the judgments and decrees of the Supreme Court of the United States; and to give all the aid in their powers necessary to the prompt enforcement of executive and judicial acts, decrees, judgments and processes.

And I do hereby enjoin upon the officers of the army and navy to assist and sustain the courts and other civil authorities of the United States in the faithful administration of the laws thereof, and in the judgments, decrees, mandates and processes of the courts of the United States; and I call upon all good and well-disposed citizens of the United States to remember that upon the said constitution and laws, and upon the judgments, decrees and processes of the courts made in accordance therewith, depend the rights, liberties and the lives, liberty, property and happiness of the people and exhort them everywhere peacefully and faithfully to support the constitution and laws of their country; their pride in the principles and greatness, and their determination to uphold the institutions by hearty cooperation in the efforts of the government to sustain the authority of the law, and to maintain the supremacy of the federal constitution, and to preserve unimpaired, under the favor of Divine Providence, the priceless inheritance of free government.

In testimony whereof, I have caused the seal of the United States to be affixed to these presents, and signed the same with my hand. Done at the city of Washington, this 3d day of September, in the year of our Lord eighteen hundred and sixty-seven.

ANDREW JOHNSON.

By the President:
WM. H. SEWARD, Secretary of State.

WASHINGTON, Sept. 4.—The committee to investigate the frauds in cotton and other matters, have been in session and examined many of the parties implicated. They will probably close their investigations to-day. It is believed that the evidence will show frauds to the amount of cotton.

The Republican majority in Ohio is 10,000 majority.

The Red Jacket Mowers are among agreeable and handsome machines in use. Call and see them at the store of Kerlee & Co., and examine them before purchasing elsewhere. They are durable and simple.

The national debt, bearing coin interest has increased $36,781,000; the debt bearing currency has increased $1,000,000; the gold bearing debt, not presented has increased $2,063,000; the bearing no interest has increased $7,000,000; coin in the treasury has increased $943,000; currency has decreased $28,401,000; total decrease in debt $32,-458,000.

NEW ORLEANS, Sept. 4.—The Board of Health last night declared the yellow fever epidemic, but describes it as being of a mild type. The deaths from fever yesterday were 26.

The council last night adopted a resolution suspending the schools until October 1st, on the ground of an epidemic. The resolution amounts to nothing legally, as the board of school directors exercise their authority under the State laws.

The school embroglio is coming to a focus.

The Schools were opened on Monday, the day specified by law, under the auspices of the old Board of Directors.

The appointees of the Council are restrained from action by a writ of *quo warranto*, returnable on the 9th before Judge Dowdell.

The Republican suggests the calling off of supplies from the banks as the means of overcoming the difficulty.

MONTGOMERY, September 4.—The Conservative State Convention met to-day.—Thirteen out of sixty-two counties, were represented. There is considerable enthusiasm. Eighty seven delegates are present, including twenty colored. The platform will be reported to-morrow.

NEW ORLEANS, September 4.—The Southern Famine Relief Committee have held a final meeting. The total cash receipts have been $2,250,000, all of which has been expended. The number of bushels of corn purchased were 1,175,316.

LAND FOR SALE.

THE subscriber in consequence of feeble health, is anx ious to sell his land on which he now resides. The tract contains eight hundred acres, with some four hundred and fifty in cultivation. It lies immediately on the Selma and Ohio Rail road, about half way between Meridian and Enterprise, and nearly all good and productive land. There is a good dwelling and out houses, and a good gin house and press, &c. It has a good orchard of choice fruit trees, &c. It has a good range for stock on the woods, and a good range for cattle and hogs, and is altogether a pleasant and valuable little farm.

He is also anxious to sell about 400 acres of good cleared land adjoining, with about 100 acres in a good state of cultivation, with improvements, &c. Any person desiring to buy a farm in this county will be sold jointly or separately, to suit purchasers, and the subscriber will be glad to visit tracts to offer; so as, if not sold as a whole he may have the facilities of showing them in parcels. Terms of several or one and one-half a quantity of cash. There is a competent supply of good timber on the land for the purposes of improvements as to remain. For further information apply to one of the purchasers or address me at Enterprise, Mississippi.

VEGETABLE REMEDIES.

IT is difficult to account for the perversity of man in digging deep into the bowels of the earth in search of a remedy, when the best and most salutiferous to disease grow upon the surface. The learned writers, who have so engaged us have derived their knowledge directly from the Pharisees of all Nations, who have ever studied this wholesome remedies. "The tree," we are told, "was made for man to eat of the fruit thereof." When King David established, it was the "Balm of Gilead" that remedied his wounds; when Jeremiah wept over the ruins of the pagan temples and the gates, formerly impregnable, of the Syrian capital, it was the medicinal gum taken by Timothy "for his stomachs sake." In the same way all the ills that have been made for the healing of the nations, is it likely that the virtues of Nature's remedies would have been hidden from the patriarchs?

The instincts of the brute creation teach them how to doctor themselves, and they invariably select the vegetable medication. The most powerful poison, the bitter by a deadly serpent eats of a certain herb, and thereby neutralizes the effects of the deadly virus; the sick dog eats grass; and many other animals, guided by that faculty which serves them instead of decay. As a stimulator it is altogether the best known. Like the healing balsam, it is also highly evident in bilious cases, in which it assists to purify the blood and invigorate the whole system. In all cases of constipation which can only coexist with a healthy circulation. Certainly there is no more efficacious corrective which more completely stimulates the efficacy of botanical treatment.

PREPARATIVE MEDICINE;

or other words, its effect is to preserve the physical powers in their full vigor beyond that period when constant decay sets in. The vegetable tribe, and more especially the roots, are more highly charged with this principle than any other portion of the plant, and hence our forefathers made use of the roots in their liquids.

These indications that the Vegetable Kingdom is the true Materia Medica are corroborated by daily experience, and the time is not far distant when the fact of its universality will be admitted.

Without disparagement to other botanical remedies, it may be asserted that the combinations of vegetable properties and restoratives in

HOSTETTER'S STOMACH BITTERS

entitle the preparation to a high place among the benefactors of the race. Dyspepsia and kindred forms have contributed of their hyperion scourge to produce its extraordinary properties. It is a

PRESERVATIVE MEDICINE;

a medicine that excites appetite without quickening digestion is always injurious. Its effect is to impart to the stomach a power which it is unable to perform, and the result is chronic derangement of that organ, and of its dependents, the liver and the bowels. The operation of

HOSTETTER'S BITTERS

is very different from this. The preparation does not excite appetite, and indigestion and sometimes the digestive powers at the same time. Hence when indifference to the requirements of the table no artificial diagent for food is combined with gastric weakness, one of the worst forms of dyspepsia, flatulency, and vegetative preserves the entire difficulty. It is not a cure that does its work by halves.

LADIES IN DELICATE HEALTH

WILL FIND

HOSTETTER'S STOMACH BITTERS

wonderfully adapted to the relief of the difficulties to which they are subjected. The preparation in cases of this kind has a double operation. It not only contributes to the replenishment of the blood, but also, by acting simultaneously upon the liver and the bowels, relieves the former of the torpidity and despondency which almost always accompanies such disturbances.

Sick wives and mothers are advised to give the medicine a trial. They are earnestly assured that it contains no ingredient that can possibly do any harm to the feeblest of their number while it confidently contains the invigorating principle which their enervated system requires.

Let them beware of the cordial drops and tinctures often prescribed for medical ladies. All these medicaments are mainly composed of common alcohol, and are thus the worst of poisons. The liquors entitled forth given as tonics are still worse: being all deteriorated with poisonous drugs.

NOTICE TO

DR. SEABROOK'S

Infant Soothing Syrup.

We have, by experiment of the most thorough character, found it to be the best infantile medicine. We ask you to give it a trial, with an assurance that you will be pleased, and if these names and destructive stuffs, such as Morphine, Dropp, Godfrey's, Cordial, Mother's Friend, &c., be condemned as a public good, by every conscientious man, when it was thought that the mere discussing the matter was to advertise the medicine.

Use in the future only SEABROOK'S, a combination, came up with the commencement of the age. Present table, therefore is in action efficient and reliable to all cases. Tarabadon is the following distance:

SUMMER COMPLAINT, IRREGULARITY OF THE STOMACH, RESTLESSNESS, TEETHING, &c.

Gives health to the child and rest to the mother.

We could furnish any quantity of certificates bearing evidence of its superior qualities, but prefer that our medicine should stand on its own merits, which it will do, we feel sure.

PURIFY YOUR BLOOD.

HURLEY'S SARSAPARILLA.

OF all the remedies that have been discovered during the present age for the purification of that flesh is heir to, none equal that wonderful preparation known as Sarsaparilla. Since the discovery—who spent a decade in study and experiments, and perfected it—it has been introduced to the public, and it is already recognized by the most eminent physicians of all parts of the country to be the most reliable, safe and active remedy, for certain diseases, of which they have knowledge.

All other compounds or sarsaps of this root have either been found to contain inferior ingredients, which neutralize the properties of the table sarsaparilla, and effectively injure the health of the patient, or else were of a weak, inferior power.

This is the pure and genuine extract of the root, and will, on trial, be found to effect a certain and perfect cure of the following complaints and diseases:

Affections of the Bones, Habitual Costiveness, Debility, Disease of the Privates, Dropsy, Erysipelas, Female Irregularities, Fistula, Gout, Impotency, Fever, Jaundice, Liver Complaint, Pulmonary Diseases, Scrofula, Ulcers, Worms, &c.

King's Evil.

Hurley's Ague Tonic,

PERFECTLY RELIABLE.

The only remedy for Chills and Fever or Ague and Fever that will can be depended upon is Hurley's Ague Tonic. There have been those hands cruel enough to call it a quack, but all remedies without benefit, but in no case has

Hurley's Ague Tonic

failed to effect a cure. All who have used it cheerfully tell their neighbors of it as a sure and certain cure for chills and fever. Any one can be convinced by calling at once and getting a bottle. It is pleasant to take compared with other, and will be found to cure in all cases of fever and ague or chills and fever. Send for it to the Proprietors.

TWO WOMEN.

Kate and Sidney her yellow hair,
Where the summer winds sported by;
While Blanche tossed out her ebon locks
With many a blush and sigh.

For both were fair, and the world was wide,
Where they sought to reap and win
A harvest of joys with golden sheaves,
With manya heart within.

Kate, like a queen, would conquer and reign,
With a kingdom of men at her feet;
But Blanche, like a lily, would bend and sway,
Where the waters of love sleep sweet.

And each but the wish her thought had made,
For their pathes were wide apart;
For one rolled a host of foes as her back,
And the other ruled only—a heart.

And Time, the teller, went flitting by,
Found Blanche as bright and fair
As in the days of the summer winds
That waved Kate's yellow hair.

But the yellow hair was thin and gray,
And the heart of Kate grown old;
For the hearts of women must love or die,
And they never die cold.

NO EXCUSE FOR BAD BREAD

DARCY & PUTNAM'S

SELF-RAISING FLOUR

FOR

Bread, Biscuit, Puddings, Cakes, Pastry, &c., without using Yeast Powders or Soda.

TIME AND LABOR SAVING AND HEALTH GIVING.

GENERAL DIRECTIONS.

Stir in the water with a spoon and beat at once without kneading or waiting for the dough to rise; the oven, therefore, should be in good baking order before beginning to mix—MIND THIS.

Milk is superior to water for all pastry purposes.

For Cakes, Pastry, &c., the SELF-RAISING FLOUR should be the last article mixed. Salt to suit the taste.

RECEIPTS.

SALT—TO SUIT THE TASTE.

For Light Bread.—Use cold water or milk, and mix with a spoon just sufficient to thoroughly wet the dough; put it into a deep pan not more than half full, bake immediately. The pan should be covered to prevent the formation of a hard crust before the loaf has risen sufficiently. If the bread does not brown on the top, remove the cover a few minutes before taking the loaf from the oven.

Bread Pans—Are found to bake best when seven inches long, four inches deep, and four inches wide at the bottom, flaring and fitted with covers. These pans are excellent for cake or pie dough.—Make the dough as soft as can be handled, using cold water, with half the usual amount of shortening, or cold sweet milk without shortening. Bake at once in a well heated oven, they will be light, white sweet and tender.

For Light Rolls—Scald as much as required, that the dough should be soft enough to use for shortening.

For Wonders or Muffins—Three eggs, one quart of milk or water, three pints of flour, one table spoonful of melted Lard. Bake in deep Muffin pans.

For Pies—Use less shortening than with common flour, and roll the crust very thin.

Sugar Cake—One pound of Sugar, diluted in three gills of milk or water, half a pound of butter, two eggs, half a pint of milk or water, and two pounds of flour.

Quick Sponge Cake—One cup of powdered Sugar and one cup of flour, well mixed together. Break in three eggs, stir quickly and bake in a square tin immediately, in a moderate oven. Flavor with lemon or otherwise to suit the taste.

Gold and Silver Cake—One cup of butter, two cups of sugar, one cup of milk, three cups of flour. Divide the dough into two equal parts; take four eggs and use the yolks for the gold and the whites for the silver cake, &c., &c. Flavor with lemon or otherwise and bake in covered bread pans.

Drop Nuts—One pound of Sugar a little shortening, two eggs, three pounds of flour and a pint of water.

Pot Pie and Dumplings—Prepare the dough in every respect the same as for biscuit. Use a little melted sugar and butter for sauce.

Tea Cakes and Fritters—Will need no eggs. Butter and Griddle Cakes, etc., are very superior made from Self-Raising Flour.

The quicker you handle this flour the better. Never let it stand to rise. See that the oven is hot before you touch the flour. The softer the dough the better. Do not knead it.

Put up in every style to suit the trade.

If a Four Grocer has not a pound package, you will use no other—every package warranted. Manufactured by DARCY & PUTNAM,

Mississippi Central,

Mobile & Ohio,

Meridian & Vicksburg, or

Mississippi & Tennessee R. R.

The several tracts are disposed of at the lowest cash valuation, in subdivisions of 40, 80 and 160 acres. Each subdivision constitutes a prize, and each

TICKET COSTS ONE DOLLAR.

For a description of the property refer to the new Pamphlet issued by the Company. Titles are perfect, or the money will be paid to the owner of the prize.

All land in this scheme is in the State of Mississippi. The Capital Prize within fifteen miles of Memphis, on the Mississippi and Tennessee Railroad.

The lands are adapted to the growth of grain, cotton, grapes, etc., are cheaper than Government lands, in cold latitudes, at one dollar and a-quarter per acre. The average cost of these lands is seven dollars per acre.

A deduction of 10 per cent. in favor of ten or more. Tickets may be had of local Agents or through the Memphis Agency.

During the Current Year.

Comparative Cost and Value of the Education Given Here and in the Ordinary and Literary Colleges:

It is believed to be the first in Europe or America, chartered with Commercial, Agricultural and Mechanical Departments. Every student who gives proper attention to the instruction, is qualified before graduating to keep any set of books, it matters not what the business may be, and do the Correspondence of any house. Students can attend the "Commercial Course," or to the English, French, Spanish, German, Latin or Greek Languages, or the higher Mathematics, etc., separately. We have

Cost of full Commercial Course here—Tuition.....$145

Board for three months.....90

Contingent expenses, about.....20

Total.....$255

After which the student is ready to go into business, and make $1000, $2000, or $3000, annually.

Cost of Ordinary Literary Colleges.—About $400 per annum, for four years, or $1600; clothing, for four years, $200, or $800—total $2400, and four years of time expended. Our student will begin to work after three or four months, and make, say the first year, about $1200; and two years and nine months as probable $1800, or $6150 he earns in four years. Deduct $255 leaves $5892 net gain to our Students; but to the other a net expense of $2400; or $8295 our student has gained over the other. We suppose the Students in both cases to have a good English education to begin with. We deem a business education that enables the student to earn $1000, $2000, or $3000 annually, to be the best fortune parents can give their sons. So far as known, not one of the thousands of our graduates, is out of profitable employment. A word to the wise is sufficient.

PROSPECTUS OF THE

Meridian Daily Gazette.

The undersigned propose to issue a daily paper from this office, about the first of October, with the above title. The commercial importance of Meridian, its rapidly increasing population, and its prosperity, almost without a parallel in the South, has induced us to believe that the public would liberally sustain and support a daily paper at this place. There is no reason why Meridian, with its railroad advantages, and its greatly increasing wealth, should not maintain a daily paper of as large size, appearance, mechanical execution and industrial management would take rank with the dailies of our neighboring cities. We believe a daily will more properly represent the great interests of the city at home and abroad, and give greater aid to its friends in its rapid improvement than the Semi-Weekly and Weekly we now publish. We promise all that industry and energy can accomplish will be employed to make it an exponent of the enterprise and public spirit of this section of the State. The Daily Gazette will give the latest telegraphic news and market reports eight to twelve hours earlier than they can be seen in any other paper, and will still be specially valuable to merchants and business men in this and the neighboring towns.

Thankful for the liberal patronage heretofore given the Gazette, we appeal to our patrons and friends to aid us in establishing permanently a daily paper at Meridian, and respectfully solicit their renewal and without which no enterprise of the kind can succeed. Our Semi-Weekly and Weekly editions will both be continued.—Subscribers to either paper, who desire the Daily, can have their names transferred and will receive credit for the amount already paid.

The price of the Daily will be, per annum $10.00. For one month, $1.00.

The Amnesty Proclamation

The amnesty proclamation has been issued at last, and will be found elsewhere. We have not time to refer to it at length in our present issue. Nearly all our people are restored to full citizenship by the liberal provisions of the President's order.

A New Orleans dispatch of the 9th says: The total yellow fever deaths for the week ending yesterday were 249. The deaths for the twenty-four hours ending yesterday morning were 49; ending this morning, 51.

A GREAT HARDSHIP.—The order of Gen. Gillem, requiring all the bar-rooms at military posts in this State, to be closed from sun-set on Friday evening until sunrise on Monday morning, is very damaging to licensed retail dealers. Here in our little city it costs a man seven or eight hundred dollars to open a saloon, and by Gen. Gillem's order, he is not permitted to open on Saturday, the best day in the week for that kind of business. If the order was issued on account of the soldiers, strict discipline would have a better effect, and obviate the necessity of enesoaching on private rights; if on account of freedmen, the object will be defeated. Houses to retail liquor clandestinely will spring up, and the soldier and freedman will get an increased quantity, and a very bad article at that—while the licensed dealer is compelled to keep his door closed. We hope Gen. Gillem will carefully consider the subject, and rescind the order.

The question of "color" is exciting much feeling among the Radicals of New Orleans. One wing of the party is represented by the Republican, and is composed mostly of white and part white Radicals. The other party is represented by the Tribune, and is mostly composed of simon pure black Radicals. The former contends that the should be content with the full right of voting, and let the former enjoy all the offices of honor and trust. The latter claims that, as the blacks have the majority of the votes, they should enjoy a monopoly of the offices. They feel they are capable of taking care of themselves, and are going to try the experiment. How it will end is easily foreseen.

Capt. Sumner, Commander of the post at Jackson, has received orders from Gen. Ord to proceed forthwith, in conjunction with the city authorities, to establish quarantine regulations at Jackson. There is no yellow fever there, but this order is intended to protect the place from disease.

We have received the first number of the Corinth Daily News, which presents a very neat appearance. We extend to the Daily News our best wishes for its success.

Gen. Helm of Kentucky, recently elected [illegible] Lieut.

The Electoral Change in England.

The Reform Bill recently passed by the British Parliament, has received the royal assent and is now the law of England.—This government measure of Electoral Reform has been before the people for some time, and during the past year was frequently alluded to by telegraph.—The Lords and Commons have received it with perfect complacency, and the royal approval is given as readily as if there were no high interests involved. It further showing a great change in the public sentiment of that country since 1832, when the Tories and Whigs fought for dear life; when mobs were organized and recusant lords pelted in the streets, and Tory gentlemen hunted through their own parks. The progress of events has made a decided change, and the reformers push quietly along. County voters in 1832 were Freeholders, whose land was worth forty shillings a year, or ten pounds a year, if they did not live on their leading; Copyholders of ten pounds annual value; Leaseholders of clear ten pounds annual value, if held under a lease of sixty years, or of fifty pounds a year, if the term was originally for not less than twenty years; Persons holding landor tenements of fifty pounds yearly rent.

To possess the purchase in a borough, a person had to occupy as owner or tenant a house of the clear value of ten pounds ($50) a year. By Mr. Disraeli's new law, every householder in every borough through his hovel may only cost him eighteen pence a year, can, if he will but pay this rate become a voter after twelve months' residence. Every lodger who occupies a room or rooms of the clear yearly value of £10 can place himself upon the register. In the counties, every forty-shilling freeholder, every £5 copy holder, every holder of fifteen or twenty acres and every village or suburben resident, provided they are rated at £11 or upwards, will in future be endowed with the franchise. The urban element of the the counties will be greatly reduced by the creation of new boroughs and by the rectification of the boundaries of old ones. The borough members will outnumber the county members in the proportion of 62 to 38, and of the 750,000 borough electors about 450,000 will belong to the working class, and about 300,000 to all other classes put together. The new law increases the number of voters over a million, and the increase is principally in the ranks of the hard working, intelligent tax-paying people, who heretofore, have had no voice in the elections for Lords and Commoners. Next year Mr. Disraeli will endeavor to extend the chief features of the new law to Ireland and Scotland, and with success we presume, after a short, stormy struggle. That done, the electoral question will be put at rest for a few decades. The governing of England will go in the hands of the middle class and working men—the monarchy will be liberalized, and everything go on prosperously and satisfactorily.

Fall Elections

Pleasant tidings come to us from the Pacific. California has gone against the Republican party. Haight (Democrat) is elected Governor of the State, and Democratic candidate for Congress in the San Francisco district is known to be elected, and a majority of the Congressional delegation from the State. It is believed, are Democrats; the Democrats have a majority of the members of the Legislature chosen from San Francisco and Sacramento; and it is thought the coming returns from the State will show a Democratic majority in the Legislature on joint ballot—a fact which insures the election of a Democratic United States Senator in the place of Mr. Conness. San Francisco gives a Democratic majority of 3348, and elect Copping Democrat Mayor. Every ward in San Francisco, "to the surprise of everybody," gives a Democratic majority, and everywhere in the State the Radical vote is reduced. The spring-tide of Democratic success is thought to have reached the Pacific slope. Other elections will soon follow. The result in Maine on Monday has not reached us. The States of Ohio, Indiana and Pennsyvania elect on the 8th of October. Then comes, on the 5th of November, New York, New Jersey, Illinois, Maryland, Massachusetts, Michigan, Wisconsin, Minnesota, Illinois, Kansas, Missouri and Nevada. Colorado votes on the 12th of November, which closes the State elections for this year. New York and Ohio elect State tickets, as in a few of the other States. The contest in Pennsylvania will be simply between two candidates for the highest place on the Supreme Bench of the State. In these three great States the Democrats hope to gain as much in proportion to their numbers, as the Democracy elect in Democracy gained, and thus secure the overthrow of the Republicans. The result will be awaited with profound interest. In the meantime, the work of reconstruction will be pushed forward vigorously in the dependent States of the South, and by the time the reaction begins to make its power felt we will be in the Union with Radical harness on our backs. We cannot avert it, nor will these elections. We must pass on with the ruling tide, leaving old landmarks and issues behind. The Radicals will reconstruct the country, and when the work is done give way to the authority and law which ruled us of old. Authority and law, peace and good will, peep out "half unseen from a low-hung cloud" now, but the party in power must enhance the happiness which it exists—reconstruction in the South—before the blessings of our better days can overcome the martial barriers that now environ us.

On the whole, the Ruralist thinks, the corn crop throughout the States is a good one—wheat also has turned out far better than was at one time anticipated—but Old King Cotton is in the last agonies of dissolution. Worms, worms, worms, is the cry that reaches us from all points of the compass, and fortifies us more strongly than ever in the position we have taken; that in view of its utter unreliability of late years, cotton is the least profitable of all our crops.

Three negroes, charged with perjury in having taken the registration oath, having been convicted, have been elected of 8 days, are in jail in Yorkville, S. C.

Orphans' Home.

All the railroads in the State have agreed to take and return visitors to the Orphans' Home on the 25th inst. for half fare. Those passing over the Mobile and Ohio, and some other roads, will retain their tickets till they return; others will be furnished by the undersigned at the Home on the 25th, with certificates of attendance, which will pass them free to their homes. The station agents on each road will inform you whether to retain your ticket or to apply for a certificate.

Since the railroads have been so liberal, it is desirable that there should be a general attendance of the people—a mass meeting on the occasion; It may not, however, be convenient for some to be present at that time. Let then, each neighborhood designate some one or more to represent them—sending by these representatives such provisions and other things as they can spare. Our object is to benefit the Home, as well as to let the people of the State know what we are doing, and what we propose to do for the orphans. We desire to interest the people in our enterprise. To do this they must become acquainted with us—with the orphans themselves, and with our plans and purposes.

We have therefore invited all our fellow-citizens to visit us on the 25th inst.—And in order that the Home may not be put to unnecessary expense, we have requested each one to bring his own subsistence with him, not forgetting to lay in a little for the orphans at the Home.

Arrangements will be made by the Superintendent, Prof. S. S. Granberry, to have all provisions conveyed from the station at Lauderdale, to the Home, one mile distant. Should it be necessary for any to remain over night at the home, I am authorized to say that there is room on the premises to accommodate all such, and the Superintendent will do all in his power to make visitors comfortable while they remain. They need go be at no expense, whatever, except the one fare for passage.

Several distinguished speakers will be present, and will address the people. Several brass bands have also been invited, and every arrangement has been made to entertain, as well as to instruct and interest those present.

The times are indeed hard, but if they are hard for us, how much harder are they for the poor orphans. We have but little money, our orphans have none, and but few friends. Will you be one of the *pure religion*, and undefiled before God, is to visit the widow, and the *fatherless* in their affliction, &c.

Let every neighborhood in the State then be well represented on the 25th. Let there be a grand rally of the people. Let them go to the world that we love the helpless sufferers; that we have hearts full of sympathy for them, and are ready to divide our little with them; in a word that we have *pure religion*.

W. S. WEBB,
SEC'Y BOARD OF TRUSTEES
of Miss. Orphans' Home.

The Alabama Conservative Anti-Reconstruction Convention was rather poorly attended on the 6th, not more than one-third of the counties in the State being representad. Among the resolutions adopted is one declaring that Congress is not the Federal Government, nor is the President or the Supreme Court. The Federal Government is that form of civil policy established by the Constitution, consisting of all three, each supreme lirits own limits, and each entitled with the other to the loyal obedience of every inhabitant of all the States. And another that in all conflict of powers under that instrument, the supreme judiciary power is the only arbiter which is independent of and, in its province, superior to each of the others, and which they are bound to obey.

TAXES MUST BE COLLECTED FROM ALL. The Mayor of Aberdeen telegraphed Gen. Ord, the other day, that some freedmen refused to pay street or road and poll tax, and asked shall the law be enforced against them? Here is the response:

HEAD QR'S DISTRICT NO. 4.
Vicksburg, Miss., Sept. 6th.

JAS. R. KING, Mayor of Aberdeen:

You are required to enforce the laws on all alike, as regards both money and work, whether white or black, and I will see that the enforcement of the law. is required from you, and you will be held accountable that it is so.

O. D. GREENE, A. A. General.

A meeting of the reconstructionists was held at Kosciusko on the 2d of this month. A friend writes us that "Attala is all right." Col. Wilson, of the Chronicle, is mentioned as the reconstruction nominee of Attala for the Convention.

THE NEW ORLEANS SCHOOL BOARD TROUBLE.—A New Orleans letter to a Chicago paper says:

The new Board of Public School Directors, elected by Gen. Sheridan's Civil Council, without any authority of law, is composed partly of negroes, and some who have illegitimate negro families. If they are permitted to have control of our public schools, their fate is sealed. The old Board have already appealed to the courts to test their authority for assuming such control. The old Board will be sustained unless Sheridan interferes.

A BLOODY AFFAIR.—We learn from a gentleman from Vaiden, that on Sunday morning last, an old negro woman about 60 years of age, and a little girl some seven or eight years old, were found dead in the road about four miles below that place. The old woman was shot through the head, eight times in the head, neck and breast, and the little girl three times in the head. The gentleman informs us that he has known the old negro woman for a great many years, and knew her to be a peaceable, kind-hearted old woman.

The perpetrators of this bloody deed are unknown.—Carrollton Conservative.

MONTGOMERY AND SELMA RAILROAD.—Work on this road is progressing favorably, and it is thought it will be completed within twelve months. The Selma Messenger, speaking of the road, says:

With the completion of this road, there will be an unbroken connection, with through cars for freights, from Vicksburg to Savannah, Ga., which will be a saving of ten per cent. in freights from Vicksburg to New York—Cotton will positively be carried from Vicksburg to New York by this line at a cost not exceeding $6 per bale, and through freight will be at the same rate.

According to a correspondent of a Liverpool paper, the Irish King has at present in his army in Abyssinia 4,000 men, who are now working as a steam engine at building in Tenterden Park, Liverpool.

NEWS ITEMS.

It is rumored that General Sickles will, on retiring from the command of the second district, leave the army and commence the practice of law in New York.

FASSMANN'S

Iron Ties for Cotton Bales.

THE undersigned have made extensive arrangements to supply the demand for these Ties the present season. In addition to the

FASSMANN DIAMOND TIE and BUTTON TIE,

so extensively used heretofore, they now offer his

ALLIGATOR TIE,

with teeth so arranged as to instantly clamp the hoop when the pressure is removed from the bale and hold now without slipping.

Great pains have been taken to secure the best quality of iron.

These Ties are so simple in their arrangement that they can be applied by any one, to bales of any size, with the same facility and expedition as rope. Its strength, security and facility of application, they will compare favorably with any yet introduced.

The advantages of Iron Ties are now generally recognized; but it is deemed not out of place to call the attention of those interested to the very emphatic recommendation of Underwriters, Steamboat Captains, and Owners and Agents of Sea Steamers and Sailing Vessels, recently published in the newspapers in New Orleans.

The Safety Hand Lamp,

AND

Meteor Burning Fluid.

THE new Meteor Safety Hand Lamp is the latest wonder and novelty, as well as the greatest invention of the age. The burning qualities of the Oil are in every particular superior to anything yet used, while its illuminating power is unsurpassed. The Lamp will not blow out nor explode and the Oil is perfectly safe. The cost of the Oil is about one half that of Sperm or coal oil; has no grease, smoky smell; does not gum as the others, and will not create a fabric of any kind. You need not throw away your old Lamps. The M. & O. Fluid will burn in a coal oil lamp by attaching the Light House or Meteor Fluid burner.

We have the agency for Lauderdale county Miss., and Choctaw county Ala., and will be glad to receive orders from those counties with the M. & O. Oil and Safety Hand Lamp.

It is bound to create a great revolution in the Lamp business, and only needs a test to be appreciated.

PRESCRIPTIONS FILLED AT ALL HOURS.—Our friend Chadwick's is the old and reliable Front Street druggist, is now living over his store, and will attend to filling prescriptions at all hours—day and night.—Chadwick's medicines are fresh, and an experience of twenty years in the drug business, is sure guarantee that they will be properly compounded. tf

The attention of our readers are directed to the advertisement of our friends, Messrs. Rumble & Co., of Louisville, Ky., which may be found in another column of our paper. All those afflicted by disease, or who have friends suffering from sickness, should carefully read, and we know they will derive profit from it.—It gives us much pleasure to be able in this manner to recommend to our people these gentlemen, and the medicines of which they are Proprietors, as we know they claim no more for their remedies than long years of trial has fully shown to really deserved.

The reputation of Dr. Thos. A. Hurley's Bitters, Worm Candy, Sarsaparilla, and Ague Tonic is world-wide, having been used through the whole of this country for many years, and never having failed to give universal satisfaction. The proprietors never yet have received any complaints about them, hence their confidence in recommending them to the public as never trifling to cure. As it is with the "Hurley Preparations," so also with Dr. Benbrook's Infant Soothing Syrup, and Dr. Bettison's English Horse Liniment, both of which are unequalled. These gentlemen are also the manufacturers of Seaton's Chemical Writing Fluids and Carmine Ink which are so well known and exclusively used in the West and Southwest, for school, bank, and office uses equalling the best English inks now used. We cannot understand why their remedies might not as well be taken in the special diseases for which they are recommended with as much confidence as on the prescription of a regular physician. tf

STATE TEACHERS ASSOCIATION.—The large and influential body of gentlemen at its recent meeting in Jackson, adopted for use in the schools of the State, among others, the following books published by John P. Morton & Co., Louisville, Kentucky:

The Goodrich Series of Readers, edited by Noble Butler, Butler's Grammar, Towne's Mathematics and Barbee's Geography.

The object of this action on the part of the Association, is to secure uniformity in the use of text books throughout the State. In order to do so desirable end, it is only necessary that the Boards of Education throughout the State, the necessity of taking early steps to secure a supply of these books for their people.—With the exception of Barbee's Geography, he just being issued from the press, these books are already used in all the public and private schools in New Orleans, Memphis, Vicksburg, Jackson, Mississippi, Columbus and Aberdeen, Miss., and the large supplies on hand, in Louisville and in the vicinity of these places can easily procure a supply, but as regards schools off the lines of the railroads, a difficulty will occur unless prompt action is taken. We would recommend that all teachers in the State, who intend to use the above books in their schools, address John P. Morton & Co., Louisville, Ky., at once, for the number of books likely to be wanted. By acquaintance with the merits of these books, warrants us in recommending that prompt attention will be given to them—and early orders be given to insure being supplied with them.

ANOTHER MARKET.—Mobile is rapidly extending her commercial connections. Her steamers are now making regular trips to the corner of Fourteenth street, and on early days, they will be loaded to the deck with cotton. Connecting with these steamers are stalls, Concord coaches and omnibuses here and there on the streets, where butchers will make a good display this winter, and at the same time supply the people regularly with fresh meat. At present, none of the slaughterers of animals are killing enough to warrant their bringing more than thrice a week. A market reform of some kind is very much needed.

GEM PICTURES.—Our young friend Ed. Allen, Turner's assistant in the photograph business, is prepared to supply the public with the new and popular gem picture. Drop in at Turner's and examine them.

We would respectfully ask the attention of our readers to the advertisement in another column, of the Mississippi Agricultural, Manufacturing and Mechanical Aid Society. This Society was chartered by an act of the State Legislature. The first preliminary distribution will take place at Vicksburg on the 18th instant.—Mr. T. R. Chadwick, druggist, is agent for this place, and persons from a distance would do well to give him a call, as the tickets are being taken up very rapidly.

The season of fires is approaching, and all should be well insured. Capt. E. V. Eesly represents the best insurance companies in the country, and is ready to protect you against loss or damage by fire for a moderate per centum.

MORE NEW COTTON.—Another bale of new cotton, raised by Dr. Sam'l Johnson, was bought by Mr. Shearer yesterday at twenty cents.

Episcopal services will be held at the Mission Free School house hereafter every Sabbath. The members of the church desire us to return thanks to the Masonic fraternity for the use of their hall during the past year.

Meridian, and the country surrounding it now sustaining five drug stores, and we are soon to have the sixth. A gentleman from Demopolis was here last week to secure a suitable building for a large wholesale house, with a branch at Demopolis.

The new money order system of the post office department, has gone into effect, and is a very cheap and convenient way to remit small sums of money. Mr. J. R. Smith, the postmaster here is prepared to send orders for fifty dollars and under to all parts of the United States.

SELF-RAISING FLOUR.—We call attention to the advertisement of Darcy & Dunham's self-raising flour, to be found among our new advertisements. We are using this flour, and can recommend it to the public as a superior article. It has been examined by chemists and pronounced *healthier* than any flour that can be used. Read the advertisement and give it a trial.

COTTON PLANTERS.—Should prepare for gathering the crop, and we offer a little advice on the subject, as it may prove beneficial. The season for chills and fevers is now upon you at a time when you need all the assistance you can get. If you will send and procure a few bottles of Dromgoole & Co's King of Chills, it will break up the fever in short order. This compository at Cincinnati. $50,000; do. Louisville, $30,000; National banks and others, $253,000; National bank currency issued during the week was $46,500; the amount in actual circulation on the whole State $220,080,613; the amount of fractional currency redeemed and destroyed during the week was $151,600.

Washington, Sept. 8.—The following proclamation of this morning is issued by the President of the United States of America:

Whereas, In the month of July A. D. 1861, the two Houses of Congress, with extraordinary unanimity, solemnly declared that the war then existing was not waged on the part of the Governm nt in any spirit of oppression, nor for any purpose of conquest or subjugation, nor for the purpose of overthrowing or interfering with the rights or established institutions of the States, but to defend and maintain the supremacy of the Constitution, and to preserve the Union with all the dignity, equality and rights of the several States unimpaired, and that as soon as these objects should be accomplished the war ought to cease; and

Whereas, The President of the United States, on the 15th day of April, A. D. 1863, and on the 20th day of March, 1864, did, with the objects of suppressing the existing rebellion, of inducing all persons to return to their loyalty, and of restoring the authority of the United States, issue proclamations offering amnesty and pardon to all who had directly or indirectly participated in the then existing rebellion, except as therein excepted, and upon terms prescribed, which oath should be registered for permanent preservation; and

Whereas, In and by the last mentioned proclamation of the 20th day of March, A. D. 1865, fourteen extensive classes of persons, therein specially described, were altogether excepted from the benefits of said proclamation; and

Whereas, The President of the United States, on the 2d day of April, A. D. 1865, did issue a proclamation declaring that the insurrection was at an end, and was then suppressed in all the States except Texas; and

Whereas, The President of the United States, on the 9th day of April, A. D. 1865, did issue a proclamation declaring that the laws could be executed in the State of Texas, and that the people of that State were in all respects entitled to the benefit of the constitutional provisions which guarantee to each State a republican form of government, and to protect the States against invasion and domestic violence; and

Whereas, The President of the United States, on the 29th day of May, A. D. 1865, did issue a proclamation declaring that the insurrection was at an end, and was suppressed in all the States of the American Union; and

Whereas, Large standing armies, military occupation, martial law, military tribunals, and the suspension of the privilege of the writ of habeas corpus and the right of trial by jury are in time of peace, dangerous to the public liberty, incompatible with the individual rights of the citizen, contrary to the genius and spirit of our free institutions and subversive of the national resources, and ought not therefore to be sanctioned or allowed, except in cases of actual necessity, for repelling invasion or suppressing insurrection or rebellion;

And whereas, For these reasons it is now deemed essential to the public welfare and to the more perfect restoration of constitutional law and order, that the said last mentioned proclamation, so as aforesaid issued on the twenty-ninth day of May, Anno Domini 1865, should be modified, and that the full and beneficient pardon conceded thereby should be opened and further extended to a large number of the persons who, by its aforesaid exceptions, were therein excluded from executive clemency;

Now, therefore, be it known that I, Andrew Johnson, President of the United States, do hereby proclaim and declare that the full pardon described in the said proclamation of the twenty-ninth day of May, Anno Domini, 1865, shall henceforth be open and extended to all persons who directly or indirectly participated in the late rebellion, with the restoration of all privileges, immunities and rights of property, except as to property with regard to slaves, and except in cases of legal proceedings under the laws of the United States, but upon this condition, nevertheless, that every such person who shall seek to avail himself of this proclamation shall take and subscribe the following oath, and shall cause the same to be registered for permanent preservation, and the same manner with the same effect as with the oath prescribed in the said proclamation of the twenty-ninth day of May, 1865, namely:

I do solemnly swear, or affirm, in presence of Almighty God, that I will henceforth faithfully support, protect and defend the Constitution of the United States and the Union of the States thereunder, and that I will in like manner abide by and faithfully support all laws and proclamations which have been made during the late rebellion with reference to the emancipation of slaves; so help me God.

The following persons, and no others, are excluded from the benefits of this proclamation and of the said proclamation of the twenty-ninth day of May, 1865, namely:

First—The chief, or pretended chief executive officers, including the President, the Vice President, and all heads of departments of the pretended Confederate States, or any of them, and all who were agents thereof in foreign states and countries, and all who held, or pretended to hold, any military rank or title above that of Captain, and who were, or pretended to be, Governors of States while maintaining rebellion or assimilating to and acquiescing in the rebellion.

Second—All persons who in any way treated otherwise than as lawful prisoners of war, persons who in any capacity were employed or engaged in the military or naval service of the United States.

Third—All persons who, at the time they may seek to obtain the benefits of this proclamation, are actually in civil, military or naval confinement or custody, or legally held to bail, either before or after conviction; and all persons who were engaged, directly, or indirectly, in the assassination of the late President, Mr. Lincoln, or in any plot or conspiracy in any manner therewith connected.

In testimony whereof, I have signed these presents with my hand, and have caused the seal of the United States to be affixed. Done at the city of Washington, the seventh day of September, 1867.

ANDREW JOHNSON.

The Vicksburg Poisoning Case.—The Grand Jury of the Criminal Court of Vicksburg investigated the late supposed case of poisoning, in which Dr. Lyon was implicated, and found bills of indictment in the death of several persons who had attended a party at the residence of Mrs. Hebron. It will be proved that the occurrence created much excitement at the time. The Coroner, after a jury of inquiry into all the circumstances, reports that the mortality was caused by cholera, aggravated by the indiscriminate use of cakes and confectionaries.

In the Sentinel of the 31st ult., M. K. Mister, of Grenada, accepts the call made on him a week or ago to become a candidate for delegate to the Constitutional Convention from Yalobusha county.

The Aberdeen Examiner says the amount of long staple saved in Monroe county this year will be sufficient to fatten a hundred thousand head of cattle. Cotton picking has already commenced.

In Hinds county the planters pretty generally are picking cotton. The crop is turning out better than many anticipated. Several bales have been shipped to market. Marshall county will not be as large as we generally was anticipated two weeks ago.

The Jackson Clarion reports a favorable change in the weather, and that there is not a case of cholera in the city; "the citizens are doing all they can to prevent any such cases."

A woman named Nancy Darls was found dead near Aberdeen a few days since, and the Coroner's Jury returned a verdict that she had been shot by Byron Smith, who had been taken into custody.

The venerable Thomas Scott died on the 6th ult., at the residence in Franklin county, in the 80th year of his age. He served with Gen. Jackson in the Indian wars and the battle of New Orleans. He recollected when Natchez was a village and Gayoso was Spanish commandant.

From registration returns it is believed the black majority in the State will be about 10,000.

Mrs. Popham, of Monroe county, a widow lady of wealth and character, committed suicide a short time ago.

We have been informed that Gen. Ord has, by special order, suspended the sale of lands forfeited for taxes in Lowndes and Scott county was removed from office by Gen. Ord.

The cotton is not affected by the weather, but the prospects of a caterpillar crop has put the planters in a panic. Many of them have commenced picking cotton, and in the portions of the State we have visited, the crop will be very much shortened by the ravages of the worm.—Many planters are picking cotton, and

THE BLUE AND THE GRAY.

BY F. M. FINCH.

"The women of Columbus, Mississippi, animated by nobler sentiments than are many of their sisters, have shown themselves imperial in their offerings made to the memory of the dead. They strewed flowers alike on the graves of the Confederate and of the National soldiers."—New York Tribune.

By the flow of the inland river,
Whence the fleets of iron have fled,
Where the blades of the grass are grass quiver
Asleep are the ranks of the dead;
Under the sod and the dew,
Waiting the judgment day;
Under the one, the Blue;
Under the other, the Grey.

These in the robings of glory,
Those in the gloom of defeat,
All with the battle blood gory,
In the dusk of eternity meet;
Under the sod and the dew,
Waiting the judgment day;
Under the roses the Blue;
Under the lilies, the Grey.

So with an equal splendor
The morning sun-rays fall,
With a touch, impartially tender,
On the blossoms blooming for all;
Under the sod and the dew,
Waiting the judgment day;
Broidered with gold, the Blue;
Mellowed with gold, the Grey.

So, when the summer calleth,
On forest and field of grain
With an equal murmur falleth
The cooling drip of the rain;
Under the sod and the dew,
Waiting the judgment day;
Wet with the rain, the Blue;
Wet with the rain, the Grey.

Sadly, but not with upbraiding,
The generous deed was done;
In the storm of the years that are fading,
No braver battle was won;
Under the sod and the dew,
Waiting the judgment day;
Under the blossoms, the Blue;
Under the garlands, the Grey.

No more shall the war-cry sever,
Or the winding rivers be red;
They banish our anger forever
When they laurel the graves of our dead.
Under the sod and the dew,
Waiting the judgment day;
Love and tears for the Blue,
Tears and love for the Grey.

All About the Sex.

A lady, young, lovely, and intelligent, called on a celebrated physician to do something for a rush of blood to the head. She had been doctoring myself, said the languid fair one, with a smile, to the bluff though kind M. D., while he was feeling her pulse. "What have taken Brandreth's pills, Parr's pills, Strubury's, Sands' sarsaparilla, Jayne's expectorant, and Dr. Sherman's lozenges and—" "My dear madam," interrupted the astonished doctor, "all these do your complaint no good." "No—they do what I could take," petulantly inquired the patient—"Take," exclaimed the doctor, coming her from head to foot—"take? why, after a moment's reflection, only take off your corset."

When rubbish youth now arrives, friends gather around him to start him in the path of virtue. Goodness and virtues are industriously upon him to win him back again to innocence and peace.—No one would suspect that he had ever sinned. But when a poor, young girl is betrayed, she receives the brand of society, and is henceforth driven from the pale of virtue. The betrayer is honored, respected and esteemed; but there is no sorrow for the betrayed this side of the grave. So with licentious men. Helping hands for her no smile of peace, no word of forgiveness. These are earthly inequalities unknown to heaven. There is a despairing in them, and fearful are the consequences.

A woman is said to be always at the bottom of trouble. You remember the story of the Shah of Persia. When he was told that a fair woman had fallen from the ladder, he called out, "Who is she?" "Please your Majesty, it's a he." "Nonsense!" exclaimed the Shah; "there is never an accident without a woman. Who is she?" The Shah was right; the man had fallen from his ladder because he was looking at a woo man in the window opposite. Many a man does this in other countries besides Persia.

A young widow of Quincy, Ill., met a stranger on the street, and asked him the way; he asked her if she was not a widow; she said she was; he said he was a widower, a) ebetor from Palmyra, Mo., and proposed matrimony on the spot; she blushed and hesitated—wouldn't he come home and see her friends about it; the fin'erview was satisfactory; the marriage was arranged for next morning; the widow cash $80, got into the doctor's pocket; he went to get shaved, and has never returned. He even left her, cruel man, standing in the public square, while he "just run over to the barber's." There is no such doctor in Palmyra, and the curtain drops upon a woman in tears.

"I wonder how they make heifer matches?" said a young lady to her husband, with whom she was always quarrelling. "The process is very simple," said she husband; "I once made one." "How do you do it?" "By leading you to the altar."

"Put out your tongue a little further," said a physician to a female patient. "A little further, ma'am. If you please—a little further still." "Why, doctor, do you think there's no end to a woman's tongue?" cried the fair invalid.

"My dear," said a smiling spouse to her other half. "I'm going a shopping to-day, and want a little change." "Why," responded the savage, "that would be no change at all; you go a shopping every day."

A widow has lately brought suit against a prominent physician of Nashville, Tenn., whom she charges with having killed her husband, by administering an overdose of morphine. She lays her damages at $40,000.

Woman's love is a good deal like chamomile—the more it's trod on, the faster it grows. To give a girl "mis," we know of nothing worse than too prudent attendment. A little water makes some fires burn the faster.

"I believe mine will be the fate of Abel," said a wife to her husband one day. "Why so?" inquired the husband. "Because Abel was killed by a club, and your club will kill me, if you continue to go to it every night."

"What would you be, dearest," said Wallace to his sweetheart, "if I were to press the seal of love on those sealing-wax lips," "I should be stationery."

The young ladies of Milwaukee are just now collecting buttons as curiosities. One young lady has a string containing 1,200 buttons, each of a different pattern or kind.

Mrs. Yell lately concluded a Mr. Lay, for not performing a promise to marry her. As he wouldn't make her Lay she made him yell.

"John Dunn" says that a sight of a low necked dress makes him wish he was a little boy again.

NO EXCUSE FOR BAD BREAD

DARCY & PUTNAM'S

SELF-RAISING FLOUR

FOR

Bread, Biscuit, Puddings, Cakes, Pastry, &c., without using Yeast-Powders, or Soda.

TIME AND LABOR SAVING AND HEALTH GIVING.

GENERAL DIRECTIONS.

Stir in the water with a spoon and beat at once, without kneading or waiting for the dough to rise; the oven, therefore, should be in good baking order before beginning to mix. MIND THIS.

Milk is superior to water for all pastry purposes.

For Cakes, Pastry, &c., the SELF-RAISING FLOUR should be the last article mixed. Sift to mix the taste.

RECEIPTS.

SALT TO SUIT THE TASTE.

For Light Bread.—Use cold water or milk, and mix with a spoon just sufficient to thor oughly wet the dough; put it into a deep pan not more than half full, bake immediately. The pan should be covered to prevent the formation of a hard crust before the loa. has risen sufficiently. If the bread does not brown on the top, remove the cover a few minutes before taking the b ead from the oven.

Dried Pans.—Are found to bake best when seven inches long, four inches deep, and four inches wide at the bottom, flaring and filled with covers. These pans are excellent for cake.

For Biscuit.—Make the d ugh as soft as can be handled, in ing cold water, with half the usual amount of shortening, or cold sweet milk without shortening. Bake at once in a well heated oven, they will be light, white sweet and tender.

For Light Rolls.—Make as biscuit, except that the dough should be a little stiffer, and less shortening.

For Sweet Muffins.—Three eggs, one quart of milk or water, three pints of flour, one table spoonful of melted lard. Bake in deep Muffin rings.

For Pies.—Use less shortening than with common flour, and roll the crust very thin.

Sugar Cake.—Quarter cup of Sugar, dissolved in three gills of milk or water, half a pound of butter, two eggs, half a pint of milk or water and two pounds of flour.

Queen Pound Cake.—One cup of powdered Sugar and one cup of flour, well mixed together. Beat in three eggs, stir quickly and bake in a square tin immediately, in a moderate oven. Flavor with lemon or otherwise to suit the taste.

Gold and Silver Cake.—One cup of butter, two cups of sugar, one cup of milk, four cups of flour. Divide this dough into two equal parts; take four eggs and use the yolks for the gold and the whites for the Silver cake. Flavor with lemon or otherwise and bake in covered bread pans.

Devon Nuts.—One pound of Sugar a little shortening, two eggs, three pounds of flour and one pint of water.

Pot Pie and Dumplings.—Prepare the dough in every respect the same as for tea nit. Use a little melted sugar and butter for sauce.

Tea Cakes and Fritters.—Will need no eggs. Butter and Griddle Cakes, etc., are very superior made from Self Raising Flour

The quicker you handle the d ugh the better. Never let it stand to rise. See that the oven is hot before you touch the d ugh. The hotter the dough the better. Do not knead it.

Try it in every style to suit the trade.

Ask your Grocer for 5 or 10 pound packages. You will use no other—every package warranted.

ANNUAL CIRCULAR.

Delbear Commercial College,

FREE CONSTANTLY, DAY AND EVENING

Corner of Camp and Common St.

In the Elegant and Spacious

IRON BUILDING,

NEW ORLEANS, LA.

Founded in 1832—Chartered by the Legislature of Louisiana.

WITH COMMERCIAL, AGRICULTURAL AND MECHANICAL DEPARTMENTS.

THIS COLLEGE, has, by its own merits and thorough, practical plan of education, outlived all the liberally endowed State Colleges of this and the South-Western States. It is the

Oldest Commercial College in the United States.

AMPLE ARRANGEMENTS FOR

One Thousand Students

During the Current Year.

Comparative Cost and Value of the Education Given Here and in the Ordinary and Literary Colleges:

It is believed to be the first in Europe or America, chartered with Commercial, Agricultural and Mechanical Departments. Every student who gives proper attention to the instruction, is qualified before graduating to keep any set of books, to masters not what the business may be, and do the Correspondence of the same. Students desiring to attend the "Commercial Course," or to the English, French, Spanish, German, Latin or Greek Languages, or the Higher Mathematics, etc., separately. We have

Cost of full Commercial Course before graduating.....$145
Board for three months.....90
Contingent expenses, about.....20
Total.....$255

After which the student is ready to go into business, and make $1000, $2000, or $3000, annually.

Cost of Ordinary Literary Colleges: About $400 per annum, for four years, or $1600; clothing for four years, $200, or $800—total $2400, and four years of time expended. Our student will begin to work after three or four months, and make, say the first year, about $1200; and two years and nine months at probably $1600 or $6150 he earns in four years. Deduct $255 leaves $5892 net gain to our Students; but to the other a net expense of $2400; or $8295 our student has gained over the other. We suppose the Students in both cases to have a good English education to begin with. We deem a business education that enables the student to earn $1000, $2000, or $3000 annually, to be the best fortunes parents can give their sons. So far as known, not one of the thousands of our graduates is out of profitable employment. A word to the wise is sufficient.

THE CELEBRATED STEEL BRUSH GIN.

The celebrated COTTON GIN, in use a number of years under the supervision of the Patentee, R. D. Gollett, with great satisfaction to planters, and we, as agents for the South-west, now offer it as the best gin in use.

Its advantages are:

1st. The quantity of cotton ginned in a given time is more than one-third more by any other gin of equal number of saws.

2d. It separates from the Cotton all motes and dust, and leaves the lint clean.

3d. The seed cannot be broken by over-ginning. All gins are tried before they leave the factory. Cotton from this gin sent out for an inspection of ginning, and if not found to be the best in use, the purchaser is to have the gin taken back and the money refunded. The Brush Gin has been in use extensively in the South over ten (10) years, and whenever used it supersedes all other gins.

Send for special circulars.

COTTON PRESSES.

We are manufacturing for the crop of 1867 an improved screw press, and are prepared to meet all the requirements of cotton planters. It can be worked by hand power, horse power or steam. Can be used and shipped to any part of the country to the workings of screws, gears, and nuts of which all connect with the box.

SEMI-WEEKLY GAZETTE

The Lover and the Husband.

In his "Dream of Life," Ik Marvel thus sketches, in a pleasing vein, and with those self-concelled, humanizing incidents which have ever gained the laughter and good will of the world, the lover and the newly-married man:

You grow unusually amiable and kind; you are in earnest in your search of friends; you shake hands with your office boy as if he were your second cousin.—You talk cheerfully with your washerwoman, and give her a shilling over change, and insist upon her keeping it.—You tap your hackman on the shoulder very familiarly, you tell him he is a capital fellow; and you don't allow him to whip his horses, except when driving to the post office. You even ask him to take a glass of beer with you on some chilly evening. You drink to the health of his wife—whereupon you think him a very miserable man, and give him a dollar by way of consolation.

You think that all the editorials in the morning papers are remarkably well written, whether upon your side or upon another. You think the stock market has a very cheerful look, with Erie—of which you are a large holder—down to seventy-five. You wonder why you never admired Mrs. Hemans before, or Stoddard, or any of the rest.

You give a pleasant twirl of your fingers, as you saunter along the street, and say—but not so loud as to be overheard—"Nelly was a fool to me."

You wonder why you never admired Mrs. Hemans before, or Stoddard, or any of the rest.

You give a pleasant twirl of your fingers, as you saunter along the street, and say—but not so loud as to be overheard—"Nelly was a fool to me."

You think that Madge has been weeping before now by scores of enamored men, and boune off, like the Sabine women in Roman history. You chuckle over your future, like a boy who has found a guinea in groping for sixpence. You read over the marriage service, thinking of the time when you will take her hand and slip the ring upon her finger, and repeat after the clergyman, "for richer, for poorer, for better, for worse." A great deal of "worse" there will be about it, you think!

Through all, your heart clings to that one sweet image of the beloved Madge as light, clear as to day. The week leap with a bound; and the months only grow long when you approach that day that is to make her your wife. There are no flowers rare enough to make bouquets for her; diamonds are too dim for her to wear; pearls are fine!

And after marriage the weeks are even shorter than before; you wonder why on earth all the single men in the world do not rush tumultuously to the altar. You look upon them all as a wretched race who will take her hand and slip the ring upon her finger, and repeat after the clergyman, "for richer, for poorer, for better, for worse." A great deal of "worse" there will be about it, you think!

A great deal of "worse" there will be about it, you think!

You blush a little at first telling your butcher what "your wife" would like; you bargain with the grocers for sugar and teas, and wonder if he knows you are a married man? You practice your new way of talking upon your wife, for you tell him that "your wife" expects him to discover, and is astonished that he does not save at you to hear you say it.

You wonder if the people in the omnibus know that you and Madge are married; and if the driver knows the shilling you hand him is for "self and wife?" You wonder if anybody was ever so happy before, or ever will be so happy again?

You enter your name upon the hotel books as Clarence —— and lady; and come back to look at it, wondering if anybody else had noticed it, and thinking that it looks remarkably well. You cannot help thinking that every third man you meet in the hall wishes he possessed your wife, nor do you think it very sinful in him to do it. You are fond of placing temptation in the way of covetous men in the shape of Madge's little gaiter outside the chamber door at night.

Your home, when it is entered, is just what it should be—quite small, with everything in order. The cards reflect it in the happiest possible way, the piano is the sweetest toned in the world, the library is stocked to charm. Madge, that liberal-minded wife, is there, adding ring and giving life to it all. You think, even, of her possible death, in a suffering spirit, and of the tortures of the Inquisition. You grow twaddle of heart over marriage. Smiles seem made for marriage, and you wonder how you were one before!

A TRAGEDY PREVENTED.—Officer Wiltney, of the forty-first precinct, arrested John L. Taylor, who was a commissary general in the rebel army during the rebellion, for attempting to shoot his wife at his residence on Fifth avenue, near Forty-first street. Taylor resided in this city, but about the time of its commencement went to Virginia, leaving his wife here. When the war closed Taylor returned to Brooklyn, and found his wife living in the family of Mr. Brodwell, in Bridge street, near Johnson, as housekeeper, but he could not induce her to live with him again. Finally he became jealous, but resolved to take her life, let the consequences be what they might. On Wednesday night he went to the house, and seeing her pass the window, discharged a pistol at her; but the ball passed through the window and entered the wall without doing any further injury. He then made his escape. The next night Mr. Broadwell saw him lurking about the house again, and went to the station house to get an officer to arrest him. Shortly after, however, he was caught by Officer Whitney while attempting, apparently, to repeat the deed of the previous night.—When searched, a four-barreled pistol and a large case knife with a keen edge were found in his possession. Taylor has no desire to live; and had he succeeded in shooting his wife as he no doubt have committed suicide immediately after.—Brooklyn Union, Aug. 23d.]

THE FASHIONS.—The inimitable New Orleans Picayune thus takes off the article. Its application is universal: Unfortunately, in these levelling days, nothing can be distinctive. Whatever is distinguishing is made can never be ugly—ridiculous—unless who wears it, or how it may be exaggerated. In any case it is to be hoped the virtuous will trip through the streets beside the vicious without any fear of mistake. Low necked dresses are already seen on the streets, and females pass along boldly, with only the shawl of gossamer shawls to drape arms, neck and busts that were once handsome. I have observed, also, that as youth and freshness decays the passion for exposure increases, and many a grand-mother is adorned—rather undressed—in a style in which she would have objected to see her youthful daughter.

PROSPECTUS OF THE Meridian Daily Gazette.

The undersigned proposes to issue a daily paper from this office, about the first of October, with the above title. The commercial importance of Meridian, its rapidly increasing population and its prosperity, almost without a parallel in the South, has induced us to believe that the public would liberally sustain and support a daily paper at this place. There is no reason why Meridian, with its railroad advantages and its greatly increasing wealth, should not maintain a daily newspaper that in size, appearance, mechanical execution and industrial management would take rank with the dailies of our neighboring cities. We believe a daily will more properly represent the great interests of the city at home and abroad, and give greater aid to its friends in its rapid improvement than the Semi-Weekly and Weekly we now publish. We promise all that industry and energy can accomplish will be employed to make it an exponent of the enterprise and public spirit of this section of the State. The Daily Gazette will give the latest telegraphic news and market reports eight to twelve hours earlier than they can be seen in any other paper, and will be specially valuable to merchants and business men in this and the neighboring towns.

Thankful for the liberal patronage heretofore given the Gazette, we appeal to our patrons and friends to aid us in establishing permanently a daily paper at Meridian, and respectfully solicit that material aid without which the enterprise of the kind must fail. Our Semi-Weekly and Weekly editions will both be continued. Subscribers to either paper who desire the Daily, can have their names transferred and will receive credit for the amount already paid.

The price of the Daily will be, per annum $10.00. For one month, $1.00.

J. J. SHANNON, Editor.

Frantz garbles one of our editorials, and then misrepresents us. How unkind! The Gazette stands to-day where it stood three months ago. *To submit is not to endorse*—to urge the people to accept the best terms of reconstruction the radical party will ever present, cannot be a very great crime.

We are as deeply interested in the country as the editor of the Brandon Republican, and have never advocated any measure that we did not honestly believe would redound to the good of our people.

Reaction is certainly at work in the North and spreads daily in the radical tent. The "sober second thought" is beginning to tell. In Maine, the radicals, so far as heard from, lose three-fifths of their former majority. Chamberlain's majority last year in the precincts reported, was 15,085, now it is 6,032—a republican loss of something over ninety-five hundred. May the example of Maine and California be heard throughout the land, and crush out the despotism and wrong now retarding the progress of our section.

A short time ago, according to a published statement, a party of soldiers, by the connivance, if not by the express orders of a Major Pierce, sacked the Constitutional Union office at Camden, Arkansas. We are by the Vicksburg Times that Gen. Ord has ordered his arrest and trial by court-martial.

FOR IMPEACHMENT.—The Mobile Times' candidate for the Vice-Presidency, Senator Fessenden, of Maine, now avows himself in favor of impeachment. He states that he favors it in the belief of its "absolute necessity for the preservation of the public interest, and in obedience to the well-nigh unanimous sentiment of his constituents. What say the Southern advocates of the Maine Senator now?

MAINE FOLLOWING CALIFORNIA.—A Washington telegram of the 11th, says returns from the Maine election, shows a very heavy Radical loss, and creates an intense excitement. The Lower House which had but thirteen Democrats last session, is now claimed by that party.—The great Central States of New York, Pennsylvania and Ohio are claimed as certain, and the defeat of negro suffrage in Ohio seems to be conceded. The news from Maine is unexpected and will inspire the friends of law and order with additional zeal in the States where elections are approaching.—The result of the fall elections cannot change the mode of reconstruction in the South, because the political status of Congress will not be altered, but in the Presidential one the southern States will cast their votes, and the northern States will not necessarily be united, and some assurance given that constitutional landmarks will not be thrown a little feet in future.

The Presidential Aspirancy.—President Johnson has evidently aroused and put forth his strength in a way little expected by the people of either section. The satirical laughs and sneers, the contumacy and insult so freely indulged in by caucus representatives of the dominant party during the past twenty months, have been changed in the twinkling of an eye, to wonder and dismay. Fixing his foot firmly behind the broad and protecting folds of the Constitution, Andrew Johnson has raised his sword and is tumbling from power every barrier hindering the march of the republic, and forcing forward the great principles of government so long ignored by the radicals. He commenced by clearing the pallet of the old war debris obstructing every door, and next put aside the chief commanders who pressed military despotism to ourselves and proclaimed that reconstruction must be carried on under the strict rules of the Constitution. And now we have his amnesty proclamation, announcing that the war was for declaring its objects to have been accomplished, that the Constitution is supreme and that by the authority of this great and sacred bulwark, he grants amnesty to a large class of our citizens for participation in the late war, thus effacing and causing to be forgotten, as far as the public interest is concerned, the crime of which they are supposed to be guilty—This necessity of the proclamation is thus forcibly set forth:

Whereas, There no longer exists any reasonable grounds to apprehend within the States which were involved in the late rebellion, any renewal thereof or any unlawful resistance by the people of said States to the Constitution and laws of the United States.

And whereas, Large standing armies, military occupation, martial law, military tribunals, and the suspension of the privilege of the writ of habeas corpus and the right of trial by jury, are in time of peace dangerous to the public liberty, incompatible with the individual rights of the citizen, contrary to the genius and spirit of our free institutions and exhaustive of the national resources, and ought not therefore to be sanctioned or allowed, except in cases of actual necessity, for repelling invasion, or suppressing insurrection or rebellion;

And whereas, A retaliatory or vindictive policy, attended by unnecessary disqualification, pains, penalties, confiscations and disfranchisements, now as always would only tend to hinder reconstruction among the people and national restoration, while it must seriously embarrass, obstruct and repress popular energies and national industry and enterprise.

This official notice to the public is in keeping with the theory to which Mr. Johnson connected himself long before his first amnesty proclamation was issued, and has been kept back no doubt by the radical Cabinet that surrounded him. It is, of course, in conflict with the reconstruction acts of Congress, which declare no person shall be entitled to vote by reason of executive pardon, who would otherwise be disqualified from registering or voting. But the President goes behind the reconstruction acts for his authority; he gets it from the Constitution, which states that the President "shall have power to grant reprieves and pardons for offences against the United States except in cases of impeachment." Whatever view may think however, about the legality of the amnesty, it is evident Congress will take very firm steps to obstruct its operation, and indeed we cannot see how it is to be made available at the coming elections, unless the President appoints military governors of the Administration way of thinking. He has now taken a stand from which he cannot withdraw; he must maintain his ground, and throw around him all the moral and physical powers available, or he is lost. If he is properly fortified and prepared to fight it on the autumn line, the political rights of the people may be acknowledged in time to vote on the question of ratifying the new Constitution. In the meantime, while applauding the movement, we of the South must not forget that we have only the way of reconstruction. Let that work go on as Congress indicated until the President gives specific instructions—instructions that will be obeyed—to the contrary. Then it will be time enough for us to act.

GROWS BETTER.—The St. Louis Dispatch has advices that the California victory is greater than the telegrams at first indicated. In San Francisco the Democrats have carried the State legislative and municipal ticket by overwhelming majorities. Returns from the interior continue to swell Haight's majority, which will exceed eight thousand. The entire Radical ticket is defeated, and it is doubtful if one Radical Congressman is elected. The Democrats will have a majority in the State Assembly, but as fourteen hold over Senators out of twenty are Radical, they may retain a Radical majority in the Senate, but the election of a Republican Senator now is impossible. This reaction if maintained in the elections to come, will check Congressional recklessness in November.

A Washington telegram advices us that the semi-authoritative statement of the Intelligencer, declaring it was unanimously decided in the Cabinet on Friday, that any one pardoned by the proclamation was restored to his civil rights and allowed to register as a voter, has caused a wide spread inquiry in official quarters for an executive order requiring the registration in the South to be opened to the alleged newly enfranchised class. At Grant's headquarters no intimation of such an order has been received, and on inquiry at the White House it was learned that no such order is in course of preparation. While the Cabinet officers of the opinion that a pardon conveyed the right to vote, it was not held that it could be enforced against a positive proposition in the reconstruction law. As executive order, it is stated in the proper quarter, will not be issued therefore for the opening of registration lists to the class embraced by the last manifesto. In Washington the proclamation is looked upon as a rather small affair.

It appears that of the four leading political sage dailies of the city, the Intelligencer claimed to endorse but one hundred cents, while the chosen just pardoned. Those who have been urging general pardon therefore do not feel as if their efforts with the President had fully succeeded.

A Visit to East Lauderdale.

MERIDIAN, Sept. 13, 1867.

EDITOR GAZETTE:—Having just returned from a trip to Louisiana, I propose to give you a few jottings of what was observed by the way. The trip to Jackson, thence to Summit, was performed so quickly, that little opportunity was afforded to notice anything except the country. In this instance, Summit like Meridian, is rapidly improving. I noticed a permanent market house near by the depot, also, the building belonging to a mercantile company of that place. The surrounding country in Summit is settling rapidly. Quite a number of new buildings have gone up during the year, and others still going up during the number are some large brick business houses.

The best cotton crops noticed were between Summit and Osyka. The cotton was unusually large for that region in fine growing condition, and remarkably full of blooms. The crop of that region would I judge, be very good, in proportion to the breadth of land in cultivation, if not damaged too much by the worms. Every where a discouragement and despondency prevailed, in view of the cotton worm. I could hear of the worm being in the fields on the whole route. But up to the time of my return they had done very little damage. Crops in the parts of Louisiana visited. At the junction of Jackson, La., the stripping of the fields was about completed. In Pointe Coupee Parish, (Poor suffering Pointe Coupee) the desolation was complete. Only think of large portions of that Parish, being under water from the middle of March until the first of August—four months and a half. Of course it was too late when the water went off to plant any thing.

Indeed the fences were nearly all carried off by the flood, and would have taken months to be repaired. There was scarcely a thing to eat in the overflowed regions, except what had been imported. No vegetables—no bread and very little meat. A few of them saved some of their cattle, by boating them out during the high water.

In the portions of the Parish not overflowed, the cotton was about all eaten up by the worms on some places more than a month ago. But for the rations furnished by the Government, and the charities of the benevolent, there must have been great suffering in that Parish. As it is, the State at present, is not able to rebuild said levee. And even if it were rebuilt, there would be very little confidence in its resisting the flood. Two years in succession, it has been rebuilt, and given way each time, when the water rose against it. From the labor system of the country reorganized, so as to be made efficient, I fear that much of the low grounds of the Mississippi must be abandoned.

In former days, a heavy force could be concentrated, in a few hours, to any one point in the levee that exhibited signs of weakness. During the high water they were watched night and day. But these things can not be done now.

CIVIS.

We see by the Natchez Democrat, that Gen. Gillem refuses to modify his order closing saloons from Friday evening to Monday morning. "The exigencies of the public service," he writes to the Mayor of Vicksburg, require the order to be enforced. The same officer has also issued another ukase. All saloons "are to be strictly closed for the day, on occasions of political meetings in the towns garrisoned by troops."

A Herald special says it is alleged that further damaging disclosures of the designs of Ashley and Butler, in their alleged conspiracy against the President, are about to be made by the Attorney-General. A Captain Chandler, who was formerly in charge of the Washington jail, and said to be a Radical, is the supposed authority for the new developments.

QUARANTINE AT MONTGOMERY.—A quarantine was established at Montgomery, Ala., on the 10th inst., prohibiting steamboats arriving there within seven days after having infected yellow fever districts; and also all persons, unless they can subscribe the oath prescribed by the city Council.

ANOTHER DEMOCRATIC GAIN.—Telegrams from Virginia city announce that the Montana election Monday was spirited. The latest returns give Governor Vanough, Democratic candidate for Congress, 4,000 majority. Stuart's result must startle the Summer school of politicians.

A SURE CURE FOR YELLOW FEVER.—So far our city has been visited with a single case of yellow fever, and we may escape it altogether, still it is not best to be too sanguine, and it is well to provide for it in case it should steal upon us. There are many remedies for this scourge, but the following, which is from the pen of Dr. Alexander Hamilton, who has extensive practice in Jamaica, who has lately had great success in treating yellow fever in its most malignant form, is believed as reliable as any:

Keep good principles and they will keep you.

REDUCTION IN PRICE OF A STANDARD REMEDY.

IN CONSIDERATION OF THE SCARCITY OF MONEY, and in order to place it within the reach of all, we have reduced the price of

KING OF CHILLS

TO ONE DOLLAR per Bottle.

This is the most powerful and certain compound ever introduced to the public. Manufactured and all former Chills Tonics, Fever and Ague, and Bilious Fevers, Northern Diseases, &c., &c., and has been used with unparalleled success throughout the Southern country. It is put up in quart bottles, and is three times as strong as any other remedy; and we will defy the world to produce the taste, smell or effect the equal of it.

WHAT IT CAN DO.

It cleanses the Stomach, arouses the Liver, opens the Bowels, and carries off all Bilious Matter, effecting quick and permanent cures.

RADICALS

Who battle for Radicalism and call it Republicanism, are generally troubled with a Chill or Fever, who are Bilious and need a dose of KING OF CHILLS to purify their systems, should by all means, use this truly valuable remedy. Twenty-five years experience in the various countries.

CONSERVATIVES

Who have no time to lose, feeling with various symptoms of Chills, Fever, &c., its taste is pleasant, and it never gripes or sickens.

MECHANICS

Lose time to money, and why do you continue with Chills, and Fever, when for a mere trifle of your pocket change you can procure a remedy to be sure of, and that will cure you. Don't be humbugged by quacks, but buy a remedy that has been tried and proved, and is known to be a positive cure.

FARMERS AND PLANTERS

Visiting the country, and not having the means to procure a remedy for Chills, Fever, &c., will find it a good friend. Send and procure a bottle, and be sure it will return, as it does when used.

MERCHANTS AND CLERKS,

Who will you spend your leisure hours with, Chills and Fever, or Health and Pleasure? Then procure a bottle of Chills Tonic, and be sure of the latter, without one of Our Doctor's bills will surely restore you to health. Don't be humbugged by buying on the taste, but procure a bottle and be sure of a cure. Remember, it is the only remedy in the country that will cure Chills, Fever, &c., effectually. After using one bottle you will have no other to purchase.

CAUTION.

A negro about twenty years old was arrested near Mineola, Ill., the other day, who had entered the farmer's house when he was absent and ravished the farmer's wife, under threats of death if she resisted. A large and excited gathering formed, some threatening to hang him, but the husband of the woman had too much fear of the law to take the life in the matter, so the negro is now safely in jail, awaiting the due process of the law.

A Bad Case.—Every Horse.—The Macon Journal and Messenger has information from Henry county, Georgia, to the effect that the Superior Court, now in session in that county, is composed of six whites and six blacks, and as a consequence, are dead hung on an issue between the State and a negro charged with larceny. The case was submitted to them Tuesday, and after accounts, Wednesday, they were as far from a verdict as ever.

The Radicals have just made the unpleasant discovery that they themselves, active Byes, indication to them, are generally during the last month or two, and that they will not return, as it does when used with

MOTHERS AND FATHERS

Who have your children troubled with Chills, Fever, &c., and not procured a bottle of KING OF CHILLS, Price $1 00. Sold by all Druggists.

The Safety Hand Lamp, AND Meteor Burning Fluid.

THE new Meteor Safety Hand Lamp is the latest and most perfect, as well as the greatest invention of the times. The burning qualities of this fluid are far superior to anything as yet used, while its illuminating power has no superior. The Lamp we is not blow out nor explode, and the Oil is incombustible. The cost of the fluid is about one-half that of refined coal oil, has no smoke, smoke, smell; does not clog on the chimney, and will not freeze a fabric of any kind. You can safely leave your room with the Meteor Fluid will burn in a coal oil lamp by attaching the Light-House or Meteor Burner to it.

We have the agency for Lauderdale county, Miss., and are now ready to sell, and will be glad to supply our friends in those counties with the Meteor Oil and Safety Hand Lamp.

We have also a great deal to say in the Lamp business, and only needs a trial to be appreciated.

FASSMANN'S

Iron Ties for Cotton Bales.

THE undersigned have made extensive arrangements to supply the demand for these Ties the present season. In addition to the

FASSMANN DIAMOND TIE and BUTTON TIE,

so extensively used heretofore, they now offer his

ALLIGATOR TIE,

with teeth so arranged as to firmly clamp the loop, when the pressure is removed from the bale and hold it without slipping.

Great pains have been taken to secure the best quality of iron.

These Ties are so simple in their arrangement that they can be applied by any one, to bales of any size, with the same facility and expedition as rope. In strength, security and facility of application, they will compare favorably with any yet introduced.

The advantages of Iron Ties are now generally recognized; but it is deemed not out of place at the attention of those interested to the very emphatic recommendation of Underwriters, Steamboat Captains, and Owners and Agents of Sea Steamers and Sailing Vessels, recently published in the newspapers in New Orleans.

Orders solicited. Circulars furnished on application.

Capt. James Sunderland, V. R. C., Sub-Assistant Commissioner B. R. F. and A. L. In charge of Institutions at Lauderdale, Miss.

The attention of our readers are directed to the advertisement of our friends Messrs. James Ruddle & Co. of Louisville, Ky., which may be found in another column of our paper. All those afflicted by disease, or who have friends suffering from sickness, should carefully read, and we know they will derive profit from it.—It gives us much pleasure to be able in this manner to recommend to our people these gentlemen, and the medicines of which they are Proprietors, as we know they claim no more for them than a number of long years of trial has fully shown is really deserved.

The reputation of Dr. Thos. A. Hurley's Blitzers, Worm Candy, Sarsaparilla, and Ague Tonic is world wide, having been used through the whole of this country for many years past, and never having failed to give universal satisfaction. The proprietors never yet have received any complaints about them, hence their confidence in recommending them to the public as never failing to cure, and it is with the "Hurley Preparations," as also with Dr. Seabrook's Infant Soothing Syrup, and Dr. Bettison's English Horse Liniment, both of which are unequaled. These gentlemen are also the manufacturers of Seabrook's Combined Writing Fluids and Carbonic Ink which are so well known and extensively used in the West, the Southwest, for school, bank, and office use, equalling the best English inks now used. We cannot say enough of any two articles, for they are truly a blessing to mankind, and we advise all to give them a trial by Military Commands.

Hdqrs. Gen'l Pope's Military District, Atlanta, Ga., Aug. 15, 1867.

The Proprietors, Messrs. Hurley & Co., Louisville, Ky.

Gentlemen:—Your communication of the 7th inst., with certificates of cures, received. In reply I have to say that I have used your Ague Tonic with success in my family, and have found it a reliable remedy for Fever and Ague. I have also used your Worm Candy, and can say that it is a safe and effective vermifuge. Your Sarsaparilla I have not used, but have no doubt it is a good article. Your Horse Liniment I have used in my family, and find it a good remedy for sprains, bruises, &c. Your Seabrook's Infant Soothing Syrup I have used in my family, and can say that it is a safe and reliable remedy for children suffering from Cholera Infantum, Diarrhœa, &c. Your Writing Fluid I have used in my office, and find it a good article. Your Carbonic Ink I have used in my office, and find it a good article. Your Carbonic Ink I have used in my office, and find it a good article. Your Carbonic Ink I have used in my office, and find it a good article.

Respectfully, your obedient servant,
JOHN POPE, Major General Com'dg.
O. D. GREENE,
Assistant Adjutant General.

Self-Raising Flour.—We call attention to the advertisement of Darcy & Putnam's self raising flour, to be found among our new advertisements. In recommending this flour, satisfaction is guaranteed to the public as a superior article. It has been examined by chemists and pronounced *healthier* than any flour that can be used. Read the advertisement and give it a trial.

Cotton Planters.—Those interested in gathering cotton are referred to the advertisement of Hall, Wood & Co., which will be found beneficial. The success for cotton and prizes is now upon you at a time when you will need the assistance of a good machine. Read the advertisement and procure a machine. Descriptive & Co's King of Cattle, it will save your stock, time and money. Hardest to the target from glasses the stomach operates the nerves, and never fails to immediately relieve the worst of chills and fever, without affecting the system, and makes permanent cures. See advertisement.

From and after Monday next, no mail will be received at this office, but will be sent out as usual. Persons desiring to receive mail will govern themselves accordingly.

The Meeting To-day.—We wish to remind our readers that the Tournament Club and Agricultural Association meets to-day at 3 o'clock, in the Lawyer's office. We hope to see a full attendance. The industry of our county must be better augmented than by supporting this Association. Let every one attend, and those who do not intend to participate in the tournament can at least encourage push forward the enterprise.

Stringent sanitary regulations should be enforced here. "Bronze John" may visit us soon, and we should feel very much alarmed at him. A glance at some places in our own neighborhood, will convince any one that the health committee has not been around lately.

The public will learn with painful surprise, of the death of Dr. John P. Kennedy, of Lauderdale, in this county, which sad event occurred a few days since. The honest, straight forward manhood was conspicuous in all his dealings and gained him a position of honor and respect wherever known. His dies, loved and lamented by all whose privilege it was to become acquainted with him in the familiar walk of life.

Our young friend, Frank Emerson, has just returned from Brazil, and brings us a few copies of the Immigration Reporter, published at Rio de Janeiro. Those wishing to gain information about that country, would do well to subscribe to the Reporter. Mr. Frank Emerson will remain in our city some weeks to receive subscriptions.

Correspondence.

Chadwick has a few more tickets left for the distribution of the Mississippi Agricultural and Manufacturing Aid Society on the 19th inst. The contributions promised are far more numerous than we had any chance than those of the Havana, or any State Lottery. The distributions will be conducted with the utmost fairness, and to those wishing to invest on chances, presents inducements rarely met with.

We are indebted to W. A. Payne, Esq., for a piece of choice venison. "Mr. P. is very successful in hunts for beasts of chase, and rarely spends a morning in the woods without securing enough venison meat to supply himself and friends.

The firms of Kennedy & Gibbs, and Griffing & Malone, it is announced, are dissolved. Mr. James H. Martin collects all claims due Kennedy & Gibbs and Mr. A. W. Malone succeeds Griffing & Malone in the grocery business. He has our best wishes for success.

Rev. J. A. Smylie's school for boys opened last Monday. Mr. Smylie is a finished scholar himself, and has a happy faculty of imparting instruction to those entrusted to his charge.

We hope that our readers will not forget that a grand pic-nic is proposed at the Orphans' Home, Lauderdale Springs, to be given on Saturday next. As it is strictly a local affair, we hope everybody is invited to attend and see what is being done for the orphans. They are expected to bring their own supplies, with something over to assist in feeding and clothing the little ones at the Home.

General Orders No. 38.]

I. Whenever any person indicted for a criminal offence in the State Courts of this Military District, shall produce to the Court the affidavits of two credible persons, setting forth that, during the late rebellion, he was in the service of the United States, or loyally adhered to them, while holding as far as possible all aid and comfort to their enemies; or these facts shall be known or officially certified to the Court, and the accused shall thereupon make oath that owing to them, he has reason to fear that, if tried, he will not receive impartial justice, the Court shall proceed to the trial of the case, but the presiding judge will cause the affidavits to be forwarded to the Assistant Adjutant General of the District Headquarters, and will direct the District Attorney to transmit to these Headquarters a statement of the indictment, with a brief statement of the judicial residences of witnesses and the testimony which can be expected; and the case will be viewed in this by Military Commission.

II. Upon receipt of this current report, from the Headquarters, depending until after December 31st, 1867, sales of special decrees for forming, and the Commissioners appointed under which the cause of action accrued prior to January 1st, 1868, and the proceeds of which property as may be necessary to satisfy the legal costs of court and the expenses of sale.

III. All officials concerned in the administration of the laws of the States hereby subject to the supervision and authority of the General Commanding the District, as the local courts bear their share of taxation, no doubt to them of the benefit of the protection afforded by the military power, and it is expected that no obstacle will be interposed to the collection of the taxes levied for the support of the State Governments.

By command of Brevet Major General Canby.

LOUIS V. CAZZARC, A. A. G.

Louisville, Sept. 10.—Gov. Helm was buried to-day with Masonic honors. The flags are at half mast. Business was suspended. The procession was one of the largest ever seen in this city.

Richmond, Sept. 10.—A telegraph from Farmville has been received to-night, stating that a fight took place this morning between some soldiers belonging to the 37th U. S. Infantry, and the citizens of that town. The soldiers had beaten a colored man for refusing to get out of the way of a white man. The negroes then collected and attacked the soldiers, who were badly beaten.

Portland, Me., Sept. 10.—Chamberlain was elected Governor yesterday by about 14,000 majority.

The Democrats have made gains throughout the State.

The Republicans lose in Bath to 247.—Biddeford gives the Democrats majority of 240, against 90 last year. The Democrats will gain representation in some of the towns, but not enough to give them much power in the legislature. In one hundred and nine towns, giving Chamberlain over 6,000 thousand majority, there is a Democratic loss of over nine thousand votes.

Havana, Sept. 8.—Señor Aldama son is contemplating the expedition of Gen. Lersundi.

Two hundred cigar makers who engaged in a strike, have been thrown into prison.

Admiral Farragut has arrived at Vera Cruz on the 25th ult., and left for the capital of Mexico the next day.

New York, Sept. 10.—The steamer Manhattan, from Charleston, has arrived with Gen. Sickles on board.

Savannah, Sept. 10.—Joseph S. Carutthers, a teller of the Central Railroad Bank, was arrested on Saturday night with eight or nine thousand dollars. One thousand dollars reward is offered for his apprehension.

Joseph E. Carathus, the defaulting teller of the Central Railroad Bank, shipped on board the schooner Wm Gregory sunk for Darien. The ship was overhauled by blockade boat two miles out at sea, and brought back in a leaking condition, with five feet of water in her hold. She was injured in the Western and Phœnix Insurance Companies. Carathus says that he allowed a friend to overdraw six thousand, and that he has used a dollar himself.

Philadelphia, Sept. 10th.—The Sick and shoe-makers have struck for twenty per cent. advance.

Wilmington, Del., Sept. 10.—An extensive operation in Gold, Silver, Bill & Co., Bankers, was developed to-day. The business of the concern was found to be embarrassed, and the accused shall themselves make oath that owing to them, he has reason to fear that, if tried, he will

G. D. BUSTAMANTE: *Dear Sir*:—It is with pleasure I avail myself of the opportunity afforded me by your solicitation to express my opinion of the value of your labor saving machines in general, and especially of the Stafford Cultivator, which I have used for the last two years. Your judicious selection of the various kinds of labor saving machines in use in the North, and fully understanding our views as to the necessities of our State for such, and following up by the energy and individual interest you have manifested in the business many new labor saving machines recommended and introduced into the State and which I am satisfied will prove of great benefit to the country, I feel confident will meet with success. Wishing you success in your enterprise to this point and much success in your agencies, I am, dear sir, yours truly,

NO EXCUSE FOR BAD BREAD

DARCY & PUTNAM'S

SELF-RAISING FLOUR

FOR

Bread, Biscuit, Puddings, Cakes, Pastry, &c., without using Yeast Powders, or Soda.

TIME AND LABOR SAVING AND HEALTH GIVING.

GENERAL DIRECTIONS.

Stir in the water with a spoon and beat at once, without kneading or waiting for the dough to rise; the more, therefore, and the longer the baking order before beginning to mix—MIND THIS.

Milk is superior to water for all pastry purposes.

For Cakes, Pastry, &c., the SELF-RAISING FLOUR should be the last article mixed. Sift to suit the taste.

RECEIPTS.

SALT TO SUIT THE TASTE.

For Light Bread.—Use cold water or milk and mix with a spoon just sufficient to thoroughly wet the dough; put it into a deep pan not more than half full, bake immediately. The pan should be covered to prevent the formation of a crust not before the loaf has risen sufficiently. If the bread does not brown on the top, remove the cover a few minutes before taking the b read from the oven.

Buscuit Paste—Are found to bake best when seven inches long, four inches deep, and four inches wide at the bottom, flaring and fitted with covers. These pans are excellent for cake.

For Biscuit—Make the dough as soft as can be handled, using cold water, with half the usual amount of shortening, or cold sweet milk without shortening. Bake as soon as well heated oven, they will be light, white sweet and tender.

For Light Rolls—Same as biscuit, except that the dough should be a little softer, use less shortening.

For Wheat Muffins—Three eggs, one quart of milk or water, three pints of flour, one table spoonful of melted lard. Bake in deep Muffin rings.

For Pies—Use less shortening than with common flour, and roll the crust very thin.

For Cake—Sift one pint of flour, add to it three gills of milk or water, half a spoonful of butter, two eggs, half a pint of milk of water and two pounds of flour.

Quick Sponge Cake—One cup of powdered sugar, one cup of flour, well mixed together. Break in three eggs, stir quickly and bake in a square tin immediately, in a moderate oven. Flavor with lemon or otherwise to suit the taste.

Gold and Silver Cake—One cup of butter, two cups of sugar, one cup of milk, four cups of flour. Divide the dough into two equal parts; take four eggs and use the yolks for the gold and the whites for the silver cake. Flavor with lemon or otherwise and bake in covered bread pans.

Bread Nuts—One pound of Sugar a little shortening, two eggs, three pounds of flour and one pint of water.

POT PIE AND DUMPLINGS—Prepare the

dough in every respect the same as for biscuits. Put up in every size to suit the trade.

Pan Cakes and Fritters—Will need no eggs. Batter and griddle Cakes, etc., are very superior made from Self-Raising Flour.

☞ Don't waste your money on the 5 or the better. Never let a customer have one. See that the oven is not too hot or too cool for the flour. The sifter the flour is the better it will be.

☞ Put up in every size to suit the trade.

☞ A liberal discount to the trade. Orders promptly executed—every package warranted. Manufactured by DARCY & PUTNAM,
South Water St., corner Conti.

FARMS FOR ONE DOLLAR

SUBDIVISION OF PLANTATIONS.

CHANCES FOR ALL.

The Southern Asylum Land Company, in addition to their grand scheme of City Residences at Utica, in which Gen. R. C. Gatlin, late of Va., has a residence in Memphis, constitutes the capital Prize at Five Dollars per Ticket, now offers chances in a scheme that embraces

FARMS FOR THE MILLION.

There is not in this scheme an acre of swamp or wild land; each Farm is part, or the whole of an Improved Plantation; each tract is on or with a few miles of a Railway either on the

Mississippi & Alabama,
Mobile & Ohio,
Meridian & Vicksburg, or
Mississippi & Tennessee R. R.

The several tracts are disposed of at the low est ch ralnation, in subdivisions of 40, 80 and 160 acres. Each subdivision constitutes a prize, and each

TICKET COSTS ONE DOLLAR.

For a description of the property refer to the new Pamphlet issued by the Company. Titles are perfect, or the money will be paid to the winner of the prize.

All land in this scheme is in the State of Mississippi. The Capital Prize within fifteen miles of Memphis, on the Memphis & Ohio Railroad.

The lands are adapted to the growth of grain, cotton, grapes, etc., are cheaper than Government lands, in equal latitudes, at one dollar and a quar er per acre. The average cost of these lands is seven dollars per acre.

A deduction of 10 per cent. in favor of ten or more. Tck s may be had of local Agents or through the Memphis Agency.

SEMI-WEEKLY GAZETTE

Meridian & Chattanooga Railroad.

Rev. W. E. M. Linfield published an address recently to the people of Natchez, on the subject of connecting that place with the interior railroads of the State, and continuing many good thoughts on the propriety of diverting the labor of the country, and turning our thoughts in other directions than that of the exclusive production of cotton. The public remarks are the following extract which may serve to show that the N. E. & S. W. R. R. has more significance abroad than at home:

"I am not able to repress the desire to sketch at this early season of your existence the route that I think will subserve the future glory of the grand, magnificent West. If altogether practicable I would suggest that you strengthen the make your connection with the N. E. & S. W. R. R. at Meridian. The only objection to this route arises from the necessity of running a good distance almost parallel to, and but near, the Vicksburg and Jackson road, in connecting at Jackson. If so, that objection would be entirely removed. Such a route would obtain a necessity of exploring that region as level as originally thought, and give you, in addition to a termination to a long road, reaching the Alabama River at Demopolis, and draining the rich valley of the Tombigbee, a direct line to the Gulf of Mexico to run. At the same time such a route would open to the greatest commerce and agricultural resources of the State, and productive regions of the country in which Natchez is surrounded.

Again, with a route of this kind public sympathy and aid of the greatest munificence of those, perhaps, who are slowest to help both Vicksburg and Meridian, to which I would be as greatly concerned in the success of the road as yourselves, and the counties through which your road would pass would thereby be put in need of more ready talk and a large part of the stock and bonds would be taken by the people. Principal. The third Term will open on Monday, Sept. 23, 18-7. augtf

But I will not trespass upon your time and to seek at the outset the kindest regard gentlemen. I do not wish to be a stranger to you. I am a native of the county represented in the Legislature by Mr. Stevens, and I am not ignorant what manner are regarded in the South. Everything is for promoting good feeling among all classes of citizens, and for the common interest and welfare of the whole people of the whole country. I am in favor of it. I do most earnestly pray for some settled order of things, and that the first meeting is in the service of individual interests or party, paramount to the common weal. I am not in favor of the *Reconstruction Act*, or of any measure which may be passed by Congress, however important can challenge the attention of our people, than the selection of candidates for each and every office. It ought to be an element but one most thoughtful and wisest men should be selected. Such men are to be found in this point. The formation of a party, for the white man and a party for the black man is a dangerous experiment. The colored man cannot see the real issue presented in that case of things. The white man will be driven to the wall. The only hopes that in the general conflagration be saved are in the best. Thoughtful men ought to take hold of the elections of the day, and try to intrust the new suffrages of the citizens to responsible and honest men. Such men would not tend over the past and stir up feeling by calling to mind the *Black Laws, Burnt Bureau Bills*, etc., not by saying what might have been if so and so had been. But what I believe will be good, that

Sensible Views.

Prof. T. S. Gathright, of Summerville Institute, having been admitted to address the Legislature, on the 4th inst., on the objects of the institution, in response to a resolution, is much to copy the following extract, containing some sensible views on education, to the profession of Tennessee:

Although I have not been in the call for speaking, and am not informed what names are regarded in the call in the meeting is for promoting good feeling among all classes of citizens, and for the common interest and welfare of the whole people of the whole country. I am in favor of it. I do most earnestly pray for some settled order of things, and that the first meeting is in the service of individual interests or party, paramount to the common weal. A MISSOURI PLOT.—Old Thad. Stevens' cast-iron policy is said by the correspondent of Congress and discovered one of his old tactics—a real Masonic Plot. Many of the members of the House, with its central Banks at the head, belong to the order, and in his opinion, are bound to screen President Johnson, a Brother Mason, from all other, or old liabilities, under the obligations of Masonry. The old Masonic agitation has discovered that this is the plan where the rule comes in—the old rule of "Root, hog, or die." Somebody is the wind—he scents it, and behold the signal. A worse thing Gov. Fletcher has not kept Masonic Post—Missouri Democrat.

The New York Herald professes to have some very curious and suggestive information from Washington, touching a reported Radical scheme entering the impeachment and remodelled President-ship. Mr. Wade is then to resign as President of the Senate, in order that Mr. Stanton may be put in his place as President. President Johnson is to be impeached and deposed, and then, under the existing law of Congress, under the succession to the Presidency, Mr. Stanton, as President of the Senate, will take the place of "the man at the other end of the line," and Mr. Wade will be re-elected President of the Senate, and Mr. Cameron to fill the vacancy left by Mr. Stanton, will be restored to the Senate.

DEATH OF GOV. HELM.—Our readers will see with regret the announcement by telegraph, of the death of Hon. Wm. Kelley, John L. Helm, Governor of Kentucky. This sad event occurred at Elizabethtown, Kentucky, yesterday. Gov. Helm held many important positions in Kentucky, and once before filled the office of Chief Magistrate of the State. He was a gentleman of high character, fine ability, and kindness of heart, and leaves many friends to mourn his loss. He was elected only last August by the largest majority ever obtained by any man in Kentucky, or perhaps any other State.

The Lieutenant Governor elected at the same election, and by the same overwhelming majority, is John White Stevenson, formerly a well known citizen of Maysville, Ky., and who has since resided in Covington. The duties of Chief Magistrate devolve upon him, and another will be chosen by the people Vicksburg Herald.

PROSPECTUS
OF THE
Meridian Daily Gazette.

The undersigned proposes to issue a daily paper from this office, about the first of October, with the above title. The commercial importance of Meridian, its rapidly increasing population, and its prosperity, almost without a parallel in the South, has induced us to believe that the public would liberally sustain and support a daily paper at this place. There is no reason why Meridian, with its railroad advantages, and its greatly increasing wealth, should not maintain a daily newspaper that in size, appearance, mechanical execution and industrial management would take rank with the dailies of our neighboring cities. We believe a daily will properly represent the great interests of the city at home and abroad, and give greater aid to its friends in its rapid improvement than the Semi-Weekly and Weekly we now publish. We promise all that industry, and energy can accomplish will be employed to make it an exponent of the enterprise and public spirit of this section of the State. The Daily Gazette will give the latest telegraphic news and market reports eight to twelve hours earlier than they can be received by any paper, and will be specially valuable to merchants and business men in this and the neighboring towns.

Thankful for the liberal patronage heretofore given the Gazette, we appeal to our patrons and friends to aid us in establishing permanently a daily paper at Meridian, and respectfully solicit that material aid without which no enterprise of the kind can succeed. Our Semi-Weekly and Weekly editions will both be continued.—Subscribers to either paper, who desire the Daily, can have their names transferred and will receive credit for the amount already paid.

The price of the Daily will be, per annum, $10.00. For one month, $1.00.

The Speaking To-day.

The public are again reminded that Hon James L. Alcorn will address the people of Lauderdale county at this place to-day on the political issues now before the country. We bespeak a large attendance for him.

The Fenian Congress, at Cleveland, Ohio, has adjourned. We notice that the meeting has resulted in the union of the two wings of the party in this country with the I. R. B. of Ireland, under the common name of the Irish Republic. Mr. Roberts has been elected President, and is now perfecting arrangements to a vigorous campaign. Four military organizers have been appointed, who are expected to reorganize the army without delay, and instructions have been issued to the different circles to expend no more funds for banners and in making bile displays, but to forthwith remit all funds now in their hands to headquarters, in order that the work of securing the independence of Ireland may be speedily effected. Stevens and his clique are severely handled for their Canadian invasion, and for the vast sums of money which they squandered so recklessly.

THE COMING MARYLAND ELECTION.—Washington telegrams advise us that the Government has received intelligence that the Radicals in Maryland contemplate the inauguration of a scheme at the election on the 8th of October, when the new State Constitution is to be submitted for ratification, which will surely lead to riot and bloodshed. Under the assumption that a colored man has as much right to vote in Maryland as in Virginia; the more desperate Radical leaders in the former State, are urging the colored men to present themselves at the polls and demand the right to vote on the New Constitution. The border State Convention it is thought means mischief in that direction, and it is not improbable that Gov. Swan will have to call on the General Government for aid to be furnished in the manner prescribed in the Constitution.

We take the following item from the Vicksburg Telegraph for the purpose of introducing an old friend and comforter to the people of this section. They will find Col. Partridge able and vigilant as a lawyer, and a very successful practitioner before the Military Court at Vicksburg, where our citizens are frequently tried in these days of Southern humility:

COL. L. M. PATRIDGE.—The law card of our late confrere of the morning press of this city appears in the Telegraph to-day. He is now devoting himself exclusively to his profession, and capable as he ever was, and with a character unsullied, to guard before the courts the rights of those he has lost with signal success. Col. P. is too well and widely known throughout the State of Mississippi to require any commendation at our hands, and we know of his many friends will join us in wishing him a prosperous career in his profession.

The President's Power and Effect of the Amnesty.

The practical effect of the amnesty is being pretty freely discussed, and in the North opinions are greatly divided on the subject. The radical newspapers have set themselves up against the decisions of the Supreme Court of the United States and declare that a pardon or amnesty will not restore to those to whom it was intended, the elective franchise—that Congress by the passage of the Military Government bills, put it out of the President's power to enfranchise any one disfranchised by those enactments. On the other hand, the friends of the President hold, and very properly too, that the power of pardon vested in the President by the Constitution, cannot by legislation be taken from him, save in any way he thinks fit or qualified. This is the interpretation the great masses of the people will sustain and the President need have no fears on the subject. Said Hon. Reverdy Johnson, in the Senate last January:

"The Senate are not to be told that in the deliberations of the convention by which the Constitution was framed this particular clause was the subject of some controversy of opinion. Some of the members believed that if the power of pardon should exist at all, (and most of them did think that it should, contrary to the opinion of Montesquieu and some of the European writers) that the power should not exist in a republic because there is no necessity for it, that it should be vested not in the President alone, or in any of the departments of the Government alone, but in the President, in connection with some of the other departments. They, however, came to the conclusion, and I believe the conclusion received finally the unanimous assent of the convention, that it was better to give it to the President alone; and so it was given. From the nature of the power it must, I think, be very evident that it is not only in the President, but in the President exclusively.

"The power of pardon cannot be, under the same governmental, in any two departments separately. It must be in one, to the exclusion of all others. The decision of that one, whether to grant or to refuse the pardon, must be conclusive. In our government, the only possible control that Congress can have over offences created by statute is after the offences are committed, and they desire that they shall not be prosecuted; or after they have been prosecuted, and prior to final judgment, to repeal the statute. The statute being repealed, no prosecution can be instituted, if none has been instituted, and every prosecution that has been instituted, necessarily falls. * * * * *

"The power, then, of the President to pardon is not only co-extensive with every variety offense which may be subject to prosecution, unless pardoned, but is granted to him in terms so comprehensive by the English language affords. How he is to exercise the power is not stated—Whether he is to exercise it at all is not necessarily stated. When he is to exercise it is also not stated. In the absence of any particular specification of the mode in which the power is to be exerted, it would seem to follow that it may be exerted in any mode by which the President can make known to the public or to the Government what his decision is.

"All proclamations which the President is authorized to make, no matter what may be their purport, are public acts of which the courts are bound to take notice of them.

"In the case of Wells, to which my friend from Illinois referred, reported in 18 Howard, (where the immediate question before the court was the validity of a statute) had a right to pardon conditionally, and the court held that he had; they did so in part upon the ground that the extent of the power was to be ascertained by referring to the power and to the mode in which it was exerted in England at the time the Constitution was adopted.

"The decisions of the Supreme Court in the Garland case, as well as the Missouri test oath case, show conclusively that a pardon from the President removes all disabilities, and restores the men pardoned to all the rights they enjoyed before the commission of the acts rendering amnesty necessary. And that the President intended to restore the elective franchise, is very plainly set forth in the proclamation. He mentions a state of things now existing in the South, which is incompatible with the rights of the citizen, and then goes on to say, that 'whereas a retaliatory or vindictive policy, attended by *disqualifications and disfranchisements*, can only tend to hinder national restoration,' therefore he declares a full pardon, in order to remove these *disfranchisements*, and to restore to all the *entire rights of political citizens*." The object is clearly set forth, and will no doubt be made much plainer, if unauthorized agencies render an appeal to the Supreme Court necessary. Once before that tribunal, all the restoration acts will come up, and then radical reconstruction legislation will be completely obliterated.

Here is a synopsis of three orders recently issued by Gen. Ord, and sent us for information: All persons who voluntarily exiled themselves from any of the Southern States after the surrender will return within thirty days from the date of this order. (Sept. 10,) report to district headquarters their full names and residencies and address, in order that a copy of the parole oath may be furnished them. All persons who can prove their loyalty to the United States, and who are included in the criminal offences, can be tried before a military commission, provided they fear that they will not receive a fair and impartial trial by jury. The assembling of all armed organizations or bodies of citizens is prohibited, and if persons go to gatherings or meetings of a political character armed, it is the duty of post commanders to disarm them.

Since the removal of Stanton, Gen. Fitz John Porter who was dismissed the service in 1863, has had an interview with the President and presented an appeal for a new investigation of his case, on the ground that new and important evidence favorable to him has been discovered. His application was endorsed by Senators Wilson, Foster, Sherman and Harris, Gen. Banks, Horace Greeley and Ex-Gov. Curtin. The President decided to grant Gen. Porter a court of inquiry, in accordance with his appeal and Gen. Grant approved the decision.

We are glad to see that Newsom and Flournoy, delegates to the late Convention at Jackson, are being thoroughly ventilated by the press of the State. They are a disgrace, even to the rabid party, of which they are members. That party selected and falsehood exhibited by these individuals in the Convention, shows that they are not entitled to common respect in any community.

Pursuant to announcement, the colored Republicans met here last Saturday, and nominated *their* candidates for the Convention. R. C. Merryman, a painter from Marion, and Ir. L. Tyner, (both white) addressed the meeting. A communication was read from Mr. R. J. Moseley, announcing that he was no longer a candidate. J. Aaron Moore, (colored) and J. H. Pierce, were finally declared the choice of the Convention. Aaron Moore is a blacksmith, who lives here, and is regarded by every one as a good honest man, but wholly incompetent to legislate for the people, and discuss those nice constitutional questions which will come before the State Convention. We are told J. H. Pierce is a clerk in the Freedmen's Bureau at Lauderdale—a man who knows nothing about the wants of this section of country, and who has no interest in it. We would advise our colored friends to consider the fact that the wonderful changes in sentiment in Kentucky, Connecticut, California, to say nothing of other North ern States, is simply opposition to negro or mixed suffrage, and this caste and exclusiveness which is becoming so prominent. We advise them to think about it well before they throw themselves into the troublesome sea of political strife. The end is not yet—and the whites will rule this continent. The demeanor and pretensions of the blacks is hastening on the radical disaster. The people of America will hardly permit men who hardly know the alphabet to go to Congress and fill other high civil positions.

NEW FREIGHT SCHEDULE.—We are in receipt of a new special freight tariff from St. Louis to Meridian, and from Vicksburg to Meridian, via the Vicksburg and Meridian Railroad, which went into effect on the 15th inst. It presents advantages heretofore not offered for the shipment of freight, and must give the carrying trade of this section to the Vicksburg and Meridian Railroad and Vicksburg and St. Louis packet company. Here is the joint tariff from St. Louis to this point: First class, per 100 pounds, 1 73; second class, do, 1 49½; third class, do, 1 17½; fourth class, do, 97. Flour, meal, potatoes and apples, per bbl, 1 44; pork, beef and salt fish, do, 2 59; whisky, do, 4 41; ale and beer, do, 3 70; oats, per sack, 1 12½; corn, do. 78. The special tariff from Vicksburg to Meridian is as follows: First class, per hundred pounds, 1 25; second class, do, 1 12; third class, do 86; fourth class, do, 60. Flour, meal, potatoes and apples, per bbl, 83; pork, beef and salt fish, do, 1 60; whisky, do, 2 41; ale and beer, do, 2 00; oats, per sack, 68; corn, do, 41; furniture, per car load 100 00.

CANDID.—The Cincinnati Commercial is more candid than the majority of the radical papers we receive. Here is the way it accounts for the loss of California by the party:

"The Radical party in California had fallen into the hands of its most corrupt and unscrupulous elements. The professional politicians and ward and cross-roads grocery loafers and bummers ocempied and controlled the party organization, and made intolerable use of it. * * * * * Consequently, the independent and honest men, who valued integrity and common decency above mere party allegiance, smashed the machine."

The thirteenth annual report of the Board of Directors of the Memphis and Charleston railroad shows that the road has earned $1,100 63, over and above defraying all its expenses, including the heavy outlay of $475,697 77 for extraordinary purposes, such as bridges, trestles, iron rails, chairs, locomotives, etc.

Registration returns from all the counties in the State, except Bolivar and Tunica, have been received at headquarters in Vicksburg. The report shows the total registered as follows: Whites 62,631; blacks 60,167—making a total of 1,06,803.

The President, it seems, has positively determined to appoint Gen. Steedman Secretary of War. The appointment, however, will not be made until after the elections in Ohio and Pencylvania. Gen. Gordon Granger will, at the same time, be appointed Commissioner of the Freedmen's Bureau in the place of General Howard.

THE JACKSON PLATFORM.—We give below the platform of the Radical party of this State adopted in the Convention at Jackson last week:

1. Resolved, That we do cordially approve all the principles of the National Republican party.

2. Resolved, That we pledge ourselves to keep step with the National Republican party in all its progressive political reforms of the age.

3. Resolved, That we heartily adopt as our own the plan laid down in the Congress for the reconstruction of Mississippi.

4. Resolved, That we will spare no pains or influence in our power, to give effect to action to every child in Mississippi, and the ballot to every man not disfranchised for crime, including freedmen.

5. Resolved, That in neither education, the ballot, or other political rights, will we ever recognize any distinction of race or color.

6. Resolved, That honest industry is in all respects honorable, and shall always be protected and encouraged.

THE COLE CASE.—The last Enterprise Star thus alludes to the trial of Dr. Cole for murder at the recent term of the Clarke Circuit Court:

The Cole case was taken up Monday morning of the second week, and submitted to the jury, with the instructions of the Court to make up a verdict on Friday of the week. This was subsequently changed from Lauderdale. The evidence was wholly circumstantial, and the verdict of the jury was "not guilty." Considerable interest was manifested in this case, for an atrocious murder was committed on Col. Lockhart's station on the person of Mr. Harrison, on his way from home to the station, before the train arrived. The counsell for the defence, Messrs. W. P. Evans, B. Y. Russell and Col. J. Seal, made long and able speeches in the case, the law and circumstantial evidence. The prosecution was ably conducted by Col. J. A. Smith, State's Attorney.

POLITICIANS.—While a gentleman was speaking of politics, a Yankee present, who was not a politician, said he was tired of politics. The council

CAPT. JAMES SUNDERLAND, V. R. C. Sub-Assistant Commissioner B. R. F. and A. L. In charge of Institutions at Lauderdale, Miss.

The attention of our readers are directed to the advertisement of our friends, Messrs. James Ruddle & Co. of Louisville, Ky., which may be found in another column of our paper. All those afflicted by diseases, or who have friends suffering from sickness, should carefully read it, for we know they will derive profit from it. It gives us much pleasure to be able in this manner to recommend to our people these gentlemen, and the medicines of which they are Proprietors, as we know they claim no more for their remedies than long years of trial has clearly shown is really deserved.

The reputation of Dr. Thos. A. Hurley's Bitters, Worm Candy, Sarsaparilla, and Ague Tonic is world wide, having been used through the whole of this country for many years past, and never having failed to give universal satisfaction. The proprietors never yet have received any complaints about them, hence their confidence in recommending them to the public as never failing to cure. As it is with the "Hurley Preparations," so also with Dr. Seabrook's Infant Soothing Syrup, and Dr. Bettison's English Horse Liniment, both of which are unequaled. These gentlemen are also the manufacturers of Seaton's Chemical Writing Fluids and Carmine Ink which are so well known and extensively used in the West and Southwest, for school, bank, and office, uses equalling the best English inks now used. We cannot understand that their remedies might not as well be taken in the special diseases for which they are recommended with as much confidence as the prescription of a regular physician. If

STATE TEACHERS ASSOCIATION.—This large and influential body of gentlemen at its recent meeting at Jackson, adopted as a text book in the schools of the State, among others, the following books, published by John P. Morton & Co., Louisville, Kentucky:

The Goodrich Series of Readers, edited by Noble Butler, A. M.; Venable, Morton & Towne's Mathematics and Barbee's Geology.

The object of this action on the part of the Association, is to secure uniformity in the use of text books throughout the State. In order that so desirable a result may be attained, we would respectfully urge upon our teachers throughout the State, the necessity of taking early steps to secure a full supply of these books for their pupils.—With the exception of the Geology, which is just being issued from the press, these books are already used in all the public and private schools in New Orleans, Mobile, Vicksburg, Jackson, Meridian, Columbus and Aberdeen, where, of course, large supplies are kept. Schools in the vicinity of these places can easily procure a supply, but as regards schools off the lines of the railroads it generally will occur unless prompt action is taken by the people, that they will be without them. One acquaintance with the members of this house, warrants us in assuring teachers that prompt attention will be given to their orders, and every reasonable request complied with. 1-t

PANACEA FOR FEVER AT ALL HOURS.—One friend cures fever, the air and malaria. Fever forced diseases, and will soon be gone. Chenical's antidote is the only one that has experience of twenty years in the business, to it ever promises that they will be prepared to cure.

The following affidavit shows that the drawing of the Mississippi Agricultural, Educational and Manufacturing Aid Society, which comes off in Vicksburg today, will be fairly managed:

STATE OF MISSISSIPPI, County of Warren. Mr. Thos. Wallis and D. N. Moody, commissioners appointed by the Secretary of State of the State of Mississippi, do severally swear or affirm that we will superintend and supervise the drawing of the Mississippi Agricultural, Educational and Manufacturing Aid Society, as required by its by-laws, and will see to it that the distributions are fairly made, both to the Society and to those who patronize it.

The first bale of new cotton sent to market from Kemper county this season, was purchased by Messrs. E. L. Ward & Co., of Hickory, on the 12th. It was raised by Col. Robert R. Barnett, and brought 30 cents per pound. It classed low middling.

STAGE FREIGHTS.—The freight on a barrel of flour from Vicksburg to Meridian, is four dollars and thirty-five cents by express. It takes three dollars to get a barrel of ice here which only costs that amount in Vicksburg. The new express tariff has caused all our saloon keepers to abandon the Hill City, and send their ice orders to Mobile. Col. Gillespie tells us the railroad charges are so high that the Express company has been compelled to advance its rates.

C. C. Nettles announces that he has opened a shop for the manufacture of boots, shoes, harness &c., opposite Windham's carriage and wagon factory and is prepared to do satisfactory and durable work as cheap as can be done anywhere in the city.

Mr. A. J. Martin offers his place near Quitman for sale. It is a very desirable one and will be sold cheap as he, Mr. Martin is determined to move to another country.

Rhodes & Bullock have received a fine supply of books and stationery to which they invite the attention of the public.

We regret to learn that Capt. B. T. Rush, of the Star Livery Stable, had his leg broken by a kick from a horse, on Monday afternoon.

The Red Jacket Stomach Bitters are a very agreeable and healthy stimulant—very pleasant to the taste, have a soothing influence, and create a good appetite. We notice that druggists generally sells no Bitters so rapidly as these.

ENGLISH FEMALE BITTERS.—Cures female complaints and irregularity. Cures falling of the womb and the whites. Cures obstructed and painful menstruation.—Cures sick headache and pain in the side. Cures hysterics, sinking and all nervousness of the head. Cures old or young married or single females. Cures an ulcerated and irritable womb. It arouses restores and reinvigorates the Uterine Organs.

FOR SALE.—W. W. Murphy & Co., offer for sale a No. 1 Portable Engine and Boiler. See advertisement in another column.

Mr. J. M. Taylor is in full blast again. The public will find him in his new building established on Sidney street, ready to cut out and make up garments in the most fashionable style. See his card.

SELF-RAISING FLOUR.—We call attention to the advertisement of Darcy & Putnam's self raising flour to be found among our new advertisements. We are using this flour, and can recommend it to the public as a superior article. It has been examined by chemists and pronounced *healthier* than any flour that can be used. Read the advertisement and give it a trial. if

PERSONAL.—Ex-Gov. Watts, of Alabama, was in town the past week. He came out to examine our State, and we understand that he is much pleased with his visit and expects to move to the State this coming year. It is desirable that people of Texas to have such distinguished individuals settling homes in her borders, and that they will be receive all such with open cordiality.—Crocket (Tex.) Sentinel.

Private telegrams from Vicksburg and Jackson state that the quarantine at those places does not prevent the greenback dollar of exchange, even if in possession of yellow fever patients, those articles not being considered "goods."

Harris' Mills, near Monticello, were destroyed by fire about noon the day we left, while the operatives were at supper. It was the work of an incendiary.

The Bolivar Bulletin speaks encouragingly of the crops in that vicinity.

THE CROPS.—The crops in this and adjoining counties have turned out better than was anticipated a short time the fall. The corn crop has yielded bountifully, and cotton so far, everything considered, is doing remarkably well.—Louisville (Miss.) Bulletin.

Over 200,000 bushels of Western corn were sold at Brookhaven, Lawrence county, last season. Those saving to the South, had it been raised at home.

NO EXCUSE FOR BAD BREAD

DARCY & PUTNAM'S

SELF-RAISING FLOUR

—FOR—

Bread, Biscuit, Puddings, Cakes, Pastry, &c., without using Yeast-Powders, or Soda.

TIME AND LABOR SAVING AND HEALTH GIVING.

GENERAL DIRECTIONS.

Stir in the water with a spoon and beat at once without kneading or waiting for the dough to rise; the oven, therefore, should be in good baking order before begin ing to mix—MIND THIS.

Milk is superior to water for all pastry purposes.

For Cakes, Easter, &c., the SELF-RAISING FLOUR should be the last article mixed. Salt to suit the taste.

RECEIPTS.

SALT TO SUIT THE TASTE.

For Light Bread—Use cold water or milk, and mix with a spoon just sufficient to thoroughly wet the dough; pull into a deep pan not more than half full, bake immediately. The pan should be covered to prevent the formation of a hard crust before the loaf has risen sufficiently. If the loaf does not burn on the top, remove the cover a few minutes before taking the bread from the oven.

Bread Pans—Are found to bake best when seven inches long, two inches deep, and four inches wide at the bottom, flared, and fitted with covers. These pans are excellent for cake

For Biscuit—Make the dough as soft as can be handled, using cold water, with half the usual amount of shortening, or cold sweet milk without shortening. Bake at once in a well heated oven, they will be light, white sweet and tender.

For Light Rolls—Same as biscuit, except that the dough should be a little stiff-r, using less shortening.

For Waffle Muffins—Three eggs, one quart of milk or water, three pints of flour, one table spoonful of melted lard. Bake in deep Muffin rings.

For Pies—Use less shortening than with common flour, and roll the crust very thin.

Sponge Cake—One pint of flour sifted in three cups of milk or water, half a pound of butter, two eggs, half a pint of milk or water and two pounds of flour.

Quick Sponge Cake—One cup of powdered sugar and one cup of flour; well mixed together break in three eggs, stir quickly and bake in a square tin immediately. Add any desirable Flavor with lemon or otherwise to suit the taste.

Delicate Silver Cake—One cup of butter, two cups of sugar, one cup of milk, four cups of flour. Divide this dough into two equal parts; toss four eggs and use the yolks for the gold and the whites for the Silver cake. Flavor with lemon or otherwise and bake in covered braid pans.

Queen Nuts—One pound of Sugar, a little shortening, two eggs, three pounds of flour and one cup of water.

Pot Pie and Dumplings—Prepare the dough in every respect the same as for biscuit. Use a little melted sugar and lard for gravy.

Pan Cakes and Fritters—Will need no eggs, Butter and Griddle Cakes, rich, very superior made from Self-Raising Flour

The quicker you handle this flour the better. Never let it stand to rise. See that the oven is hot before you touch the flour. The softer the dough the better, do not knead it.

☞ Put up in every style to suit the trade.

☞ A trial to our Grocer for a single package, you will use no other—every package warranted.

Comparative Cost and Value of the Education Given Here and in the Ordinary and Literary Colleges:

It is believed to be the first in Europe or America, chartered with Commercial, Agricultural and Mechanical Departments. Every student who gives proper attention to the instruction, is qualified before graduating to keep any set of books in matters of trade; the business may be, and do the Correspondence of any house. Students can attend the "Commercial Course," or to the English, French, Spanish, German, Italian or Greek Languages, or the higher Mathematics, etc., separately. We have

After which the student is ready to go into business, and make $1000, $2000, or $3000, annually.

Cost of Dolbear's Literary College.

—About $400 per annum, for four years, or $1600; clothing for four years, $200, or $800—total $2400, and four years of time expended. Our student will begin to work after three or four months, and make, say the first year, about $1200; and two years and nine months as probably $1800, or $6150 he earns in four years. Deduct $255 leaves $5892 net gain to our Students; but to the other a net expense of $2400, or $8250 our student has gained over the other. We suppose the Students in both cases to have a good English education to begin with. We deem a business education that enables the student to earn $1000, $2000, or $3000 annually, to be the best fortune parents can give their sons. So to be known, as not one of the thousands of our graduates, is out of profitable employment. A word to the wise is sufficient.

PROSPECTUS
OF THE
Meridian Daily Gazette.

The undersigned proposes to issue a daily paper from this office, about the first of October, with the above title. The commercial importance of Meridian, its rapidly increasing population and its prosperity, almost without a parallel in the South, has induced us to believe that the public would liberally sustain and support a daily paper at this place. There is no reason why Meridian, with its railroad advantages, and its greatly increasing wealth, should not maintain a daily newspaper that in size, appearance, mechanical execution and industrial management would take rank with the dailies of our neighboring cities. We believe a daily will more properly represent the great interests of the city at home and abroad, and give greater aid to its friends in its rapid improvement than the Semi-Weekly and Weekly we now publish. We promise all that industry and energy can accomplish will be employed to make it an exponent of the enterprise and public spirit of this section of the State. The Daily Gazette will give the latest telegraphic news and market reports eight to twelve hours earlier than they can be seen in any other paper, and will be specially valuable to merchants and business men in this and the neighboring towns.

Thankful for the liberal patronage heretofore given the Gazette, we appeal to our patrons and friends to assist us in establishing permanently a daily paper at Meridian, and respectfully solicit that material aid without which no enterprise of the kind can succeed. Our Semi-Weekly and Weekly editions will both be continued. Subscribers to either paper, who desire the Daily, can have their names transferred and will receive credit for the amount already paid.

The price of the Daily will be per annum, $10.00. For one month, $1.00.

J. GIBSON, Publisher
J. J. SHANNON, Editor.

OUTRAGEOUS CONDUCT.—We see by the Corinth News that while the late tournament at Iuka, was in progress, a file of soldiers led by a commissioned officer, forced themselves in, and seized the United States flag on the judges position. At night it was taken down and placed in the Ball Room, in order that all participants might be compelled to dance beneath its folds.

In alluding to the matter, North, the National Intelligencer strongly hints that the uprising of the people is of such a character that it is the President's duty to vacate most of the Federal offices in that State, and fill them with Democrats and Conservatives.

A LEAF FOR MR. WENDELL PHILLIPS has moved another step forward. He thinks that the first act of congress should be to impeach and suspend the President. The next, that Congress should overpower in the constitution three more limitations over State sovereignty. First—That no State should ever discriminate in the elective franchise on account of race or color; and if I had my individual way, or on account of sex. Second—That every State should provide a system of free schools; and if they omitted to do that, the National Government should do it at the expense of the State so negligent, and third—which ought, however, to be the first—that every man, every person born on American soil, or of American parents anywhere, is a citizen both of the nation and of the State to which the parents belong. That is, he would put the definition of citizenship and the protection of the citizen in the hands of the National Government, and not in the hands of a State government, or make them universal instead of local. He does not think the war ended until these things are done. The destruction of State sovereignty will be the chief plank of the radical platform twelve months hence. Phillips, Sumner and Stevens advance the party fellow.

A public meeting of the friends of Reconstruction will be held in the Senate Chamber, at Jackson, on Monday night, the 23d of December. All friends of a peaceful settlement of our political troubles, and who are desirous to see the State restored to her proper position in the Union, are invited to attend.

The yellow fever is prevailing quite badly at Bay of St. Louis. The college there had closed in consequence of its presence.

A society in aid of the suffering sick has been formed among the belles of New Orleans, under the title of the "Sisters of Ruth."

The Charleston, Illinois, Courier, says there was a slight frost there on the night of last ult.

Speech of Gen. Sickles, U. S. Army.

At the close, A. M., on the 7th, this distinguished gentleman addressed our citizens from the balcony of the Jones House, after being introduced by our townsman, Hon. J. P. Walker. The speaker commenced by alluding to the importance of the present crucitious nature of the times, etc., and referred briefly to charges that had been made against him of inconsistency. He belonged originally, and always, to the Old Line Whig party; opposed secession in 1861 and in 1860; was elected to the Convention—the chief principle, was in favor of awaiting the action of Louisiana, Arkansas, and Alabama, and cooperating with them. His position was lost; his affection, interest and everything tied in the South, "the Rubicon was passed;" he had no other resort than to cast his fortunes with those he loved, and with whom he had passed his life; and he devoted his time and money to the cause. He was exempt from age. He always opposed the burning of cotton and the twenty-negro law. He was for stopping the war on the assembling of the second war Congress; voted in our State Legislature, in 1864, for the Militia Bill, but did so with hesitation; was offered the command of that organization by Gov. Clark, but declined; he joined as a private; later, and at the time of the surrender, he was engaged in raising a regiment. His two sons had joined the army; one came home a cripple, and the other was killed in Tennessee.

He then referred to the terms under which Gen. Lee had surrendered; if he obeyed, he should be protected in person, but not in property; whether secessionists or revolutionists, we are rebels; President Davis believed the worst would come; we had no right to expect anything except what the humanity of the conquering army allow us. He said conquered nations usually paid the war debt; upon this hypothesis, we are responsible for the debt incurred in conquering us.

The foregoing was from the standpoint, as the majority held, that we were secessionists. Now from the assumption, as he held, that we were revolutionists, see what the Constitution gives such, what would England or France have done with you; would Austria or Prussia have treated you as has the Federal Government? The first citizen of Mexico stiled Maximilian to their country to establish a monarchy; the people rose against him, and finally conquered and executed him, together with his principal officers; the world said it was a crime and unwisdom, and should be treated upon; but there was no violation of the conqueror's rights. He referred to Turkey's barbarous treatment of her prisoners, as illustrative of the fact that the United States Government was far ahead of all others in civilization. He bore over the assassination of Mr. Davis, and the execution of Capt. Wirtz; spoke of the different constructions placed upon the Constitution of the United States; he believed secession was illegal. In our case, the sword was appealed to; it was a question of life; people were left to the mercy of the conquest. Was it the sword Lee surrendered? No. He could easily have gotten another. It was the issue that was settled; the State Rights doctrine was forever hushed, since a nation just recently arms, had been appealed to, to decide it.

At the surrender, the President struck down all State officers, and even impressed some; new officials were appointed. He said the President's present position was different from that he held at the surrender. He declared Congress was the law-making power, the President the executive power. He mentioned the fact that our State had repudiated the bonds issued during the war, for the benefit of our widows and orphans, notwithstanding the bitter wailings of the thousands of that class in our midst, because the President declared it should be repudiated. He reminded his hearers that Rhode Island, with but two millions of people, but reason should rule. He had never served colleagues into trust, but they did not answer his arguments. He advocated free schools for both white and black; said he could live in peace and harmony with the negro. Are we waiting for Northern sentiment to work a revival? Brazil and Honduras, in which places so many of our people are emigrating are both negro-voting countries. Assassination, revolt and bloodshed will reign, if we do not act, in the present crisis, with reason. At the proper time, he would ask Congress for our original rights. Why, is Kentucky refused representation in Congress? It is because Congress has the power to so exclude her; and it will be for years to come, it can be otherwise. Will you draw no inference? He said that he proposed to exclude Democrats from the control; rivers have run red with blood under their regime. Exhorted the people to allow Mississippians to govern themselves; make an effort for the future glory and happiness of this land; if they will, we say that they can be trusted. He recalled the incident of the banishment of Carlolands from Rome, and his return at the head of Rome: "Mother, you have cursed my city, but not your son!" Our fathers, the speaker observed, left us a land of liberty and good government. Where is it now? The law of the bayonet and court martial are now ours. Speak not of disfranchising the negroes. It is insanity. You might escape the result of such a step by death, but your children would not. The freedman is your friend. Again exhorted the latter to be peaceful and industrious; involve no strife; it will cause your ruin. Warned them against low demagogues; "obey your employers;" urged all to act reasonably, without passion. He was a South Carolinian, and could speak to Southerners.—He concluded by wishing a happy future to all, full of joy and domestic tranquility.

During the delivery of this speech, imperfectly reported, and which occupied nearly three hours, the most perfect quiet and profound attention prevailed, showing the distinguished gentleman's views were respected by all, no matter how widely separated they may be with him in politics. His earnestness and eloquence, he herright or wrong, certainly command that respect.

There has been a border State Convention held at Baltimore, presided over by Hector May uard of Tennessee. In the resolutions, Tennessee was complimented for her course. The convention declared in favor of negotiation accepting as a foundation N a State, and that it would be the paramount duty of Congress at its next session, to present articles of impeachment against President Johnson for usurping power delegated to Congress; for obstructing reconstruction; for pardoning faithful officers in violation of law; for indecency and indecorum in his public administration; for his perverse obstinacy, by which he has identified disloyalty, and for his present opposition to the will of the North. It is declared to be the duty of Congress, under the national Constitution, to protect the equal voting rights of all loyal American citizens, regardless of their complexion, for the reason that to admit the right of a State to limit the franchise to one class admits its right to limit it to any extent it pleases, and declares the unwise policy of congress to present to the State for their adoption an amendment that no State shall disfranchise any citizen because of race or color, and thus put beyond the danger of political changes the fundamental principle of American citizenship, and heartily approve the measures adopted by Congress for reconstructing the rebel States, based upon the principle that loyal men shall rule, and that treason, which failed in its armed attacks, shall have no appeal to the ballot-box. It would seem from the proceedings that negro suffrage is of vital importance to the Radical party, and that it must be kept in the interest of the "loyal people" alone. The black man is beginning to see through this radical affection, and has determined to be their political and social equal. The number of John Brown Clubs being organized through the country, indicates that the freedman is going to act independent of the plans laid down in the radical platform.

APPROACHING THE BLOODED-ISSUE.—The New York Herald thus alludes to the entertainment prepared for the American people by the Republican party: "Battle has to be fought, even at Washington, and must now rapidly narrow down to that point where the two great powers will strike at each other. Whichever wins, the result is an overthrow of the Government." The political language of the Herald, has always been concealed, and this declaration of its editor may, therefore, be regarded as very significant. The Republican party must be descending very rapidly from the mountain of power or Boland would not have to "shoot" as he says clings to the strong side.

The Kemper Flag request us to state that J. Q. Lavalette, a printer, pretending to be connected with the paper, is a swindler.

The Mississippi (Ala.) Record, published in the canebrake country of Alabama, says within the last few days the negroes have been holding secret meetings in the numerable hosts upon many of the plantations in that county, and are organizing a secret society for the purpose of burning all small fields. This has been agreed upon for several weeks by the negroes, and the real wonder is that it has not been done. It says the operations of the worm will cut off the crop considered to one-half of what was counted on a few weeks ago.

TASSMANN'S
Iron Ties for Cotton Bales.

THE undersigned have made extensive arrangements to supply the demand for these Ties the present season. In addition to the

TASSMAN'S DIAMOND TIE and BUTTON TIE,

so extensively used heretofore, they now offer the

ALLIGATOR TIE,

with teeth so arranged as to instantly clasp the hoop where the pressure is removed from the bale, and become self-adjusting.

These Ties have been subjected to a severe test of quality of iron.

These Ties are so simple in their arrangement that they can be applied by any one, and require no extra machinery for their application or use. In strength, security and facility of application, they will compare favorably with any yet introduced.

The advantages of these Ties are now certainly apparent, and it is deemed but right of place to call the attention of those interested to the very emphatic recommendations of the Compress, Steamboat Captains, and Owners and Agents of Sea Steamers and Sailing Vessels, recently published in the Newspapers in New Orleans.

The Safety Hand Lamp,

Meteor Burning Fluid.

THE new Meteor Safety Hand Lamp is the best and safest lamp ever used, as well as the greatest invention of the times. The burning qualities of the Oil is far superior to kerosene or any other oil used, while its illuminating power has no superior. This Lamp will not blow out nor explode as do all other kerosene lamps. The cost of the fluid is about one-half that of refined coal oil; has no sediment, smoky smell, gum or smoke the chimney, and will not grease a fabric in any way. Oil is warranted to burn any old Lamps; the Meteor Fluid will burn the Meteor Oil Lamp by attaching the Light House or Meteor Fluid burner.

We have the agency for Lauderdale county, and will supply every county, also, and will be glad to supply our friends in those counties with the Meteor Oil and Safety Hand Lamp.

We will engage a competent person to travel in the Lamp business, and only handle a few to be supplied.

CONSERVATIVES

Who have no time to lose in their feeling with various conditions of the skin, and who cannot afford to throw away, could not be better than to accept Dr. Benson's Celebrated Skin Cure. It is a specific for all forms of Chills, Fever and Ague. Its taste is pleasant, and it contains no Quinine or arsenic.

MECHANICS

Your time is money, and why do you continue with Chills, Fever and Ague, when by your getting one bottle of Dr. Benson's Celebrated Skin Cure, it will break the chill, and in a few days restore the patient to perfect health. Indeed, it upon a good foundation, commences by purging the system of all bad humors, and then feeds the blood with the rich, rare and life-giving principles of which it is composed. Do not, therefore, delay any longer, but get a bottle of Dr. Benson's Celebrated Skin Cure, and be cured.

FARMERS AND PLANTERS

Visiting the city would greatly benefit your own interest by purchasing a supply of this never failing Chills, Fever and Ague Specific. Do not delay using the Chills immediately, and this medicine will cure you. Delay of a few days is dangerous, but it will not return, as it does when cured with quinine.

MERCHANTS AND CLERKS,

Who are confined to the counter, and are sure of your life, in shaking and complaining of chills and fever. Prevent business, and health. Dr. Benson's Celebrated Skin Cure, which can be had at any drug store, without sum of One Dollar, will speedily restore you to health. Your self, business and family is pleased on the taste, produces no roaring or running in the ears, but will cure you of Chills and Fever, and effectually. After using one bottle you will have no other to purchase.

YOUR WIFE

Possesses charms to fascinate her father health, and she possesses a husband's love, by the presence of evidence in her face, that while she is young, she is virtuous, you wish to retain in her your wife's love and affection, and your children a mother, and by the blessing of her health and former beauty, you should by all means use a bottle of

English Female Bitters.

A compound that is actually restoring health to thousands of females, who have been long and sadly afflicted. It only professes to cure those diseases peculiar to the female system, and this it is prepared to do. Ladies, if you are afflicted with any of the diseases peculiar to your sex, you should not delay using this medicine. Do not be deceived by worthless nostrums, but use the one that cures—*Sons fide* cures—after all other means fail.

OLD AND YOUNG FEMALES!

Have long needed a medicine that would relieve them of all those female complaints and irregularities which prove so troublesome all over the South, and which undermine the constitution, depending upon the curative powers of the English Female Bitters. It acts upon the female system like a charm, and all those symptoms which fall below, this medicine will relieve you.

That Young Girl,

Whose blood has departed from her cheeks; whose step has lost its elasticity; whose head has lost its brightness; whose countenance betokens gloom and despair, who is pale, emaciated, feeble, and impulsive with palpitation of the heart, swimming of the head, and who is a victim to nervousness, will perfect health and beauty by using the English Female Bitters.

ENGLISH FEMALE BITTERS.

We have all never had many persons, and it is the object of advertising, to let those who are afflicted know of many individuals in this community and of others, that these bitters are effectual. Dr. Grant, a prominent physician of Meridian, Miss., has used them in his practice with success, and recommends them to his patients. Mr. Rush, a friend of Booth, and closely resembling him, was killed instead of Booth.
